The following are the conditions of sale:—

1.—The opium will be sold for exporation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-books and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipt, or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale

at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1896-97, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Bankura, will be put up to sale at the Bankura Collectorate on the 1st February 1898, corresponding with the 20th Magh 1304 Bengali.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

CORPORATION OF CALCUTTA.

Loan Notification.

THE Commissioners of Calcutta are prepared, with the sanction of the Governor-General in Council, given under section 404 of Act II (B.C) of 1888, to open a Debenture Loan for Rs. 10,53,600 (ten lakhs fifty three thousand and six hundred) on the security of the rates, taxes and dues imposed and levied under the Calcutta Municipal Consolidation Act, 1888.

2. The Debentures will have a currency of twenty-one years from the 1st February, 1898, and will bear interest at the rate of 4 per cent. per annum, payable on the 1st February and 1st August of each year.

3. The form of the Debentures will be that given in the Twelfth Schedule of Act II (B.C) of 1888.

4. No Debentures will be issued for any sum less than Rs. 500, and above that amount Debentures will be issued only for complete sums of Rs. 100.

5. Tenders for the whole or any part of the above loan of Rs. 10,53,600 will be received by the Secretary to the Corporation up to 2 o'clock P.M. of Thursday, the 16th December, 1897.

6. Each tender must be made out in the form annexed to this Notification, and enclosed in a sealed cover, addressed to the Secretary to the Corporation, and superscribed "Tender for Municipal Loan of 1897-98."

7. Each tender must be accompanied by Government Promissory Notes, Calcutta Municipal Debentures, Currency Notes or Cheques for not less than 3 per cent. of the amount tendered.

8. When a tender is accepted, the deposit, when made in currency notes or cheques, will be held as a payment in part of the amount tendered, and will bear interest at the rate of 4 per cent. per annum from the date of acceptance of the tender, provided that the whole amount tendered is paid up in the manner hereinafter prescribed; but no debenture will issue for the sum so deposited so long as the entire amount of the tender is not paid.

9. The deposits on tenders which may not be accepted will be returned on application, and no interest will be payable on such deposits. If an allotment after being made is not taken up, and the full amount allotted is not paid as hereinafter prescribed, the deposit will be forfeited.

10. The rate at which a tender is made must be specified in rupees, or rupees and annas: a tender in which the rate is not so specified will be rejected as null and void.

11. The rates stated in a tender must not contain any fraction of an anna. If a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna.

12. The balance of the accepted tenders must be paid into the Bank of Bengal in the following instalments:—

One-third by the 31st December, 1897.
Ditto by the 14th January, 1898.
Ditto by the 31st January, 1898

Parties whose tenders are accepted will have the option of paying all or any of the instalments before the dates specified above, and will receive interest from the date of such payment.

13. Anticipation interest will be paid on all instalments from the respective dates on which such instalments are paid into the Bank of Bengal to the 31st January, 1898.

14. The Commissioners have fixed the minimum at Rs. 98, and are not prepared to accept any tender at a lower rate. In the case of two or more tenders at the same rate a *pro rata* allotment will be made (if the tenders are accepted), but no allotment will be issued if the amount distributable on any tender is less than Rs. 500.

15. The tenders will be opened by the Loan Committee of the Commissioners at 2-30 P.M. on Thursday, the 16th December, 1897, at the Municipal Office.

W. R MACDONALD, Secretary to the Corporation.

Municipal Office, dated Calcutta, the 1st December 1897.

FORM OF APPLICATION FOR DEBENTURES.

I hereby tender for Rs. of the Municipal four (4) per cent. Debenture Loan for 1897-98, and agree to pay for the same subject to the conditions notified at the rate of rupees annas for every hundred rupees allotted to me.

I enclose Government Promissory Notes, Calcutta Municipal Debentures, Currency Notes, or a Cheque for Rs.

Patna District Board.

PRELIMINARY ADVERTISEMENT.

Proposed Tramway from Bakhtiarpore, East Indian Railway, to Bihar—Capital required about Rs. 5,00,000.

SUBJECT to the sanction of Government, the District Board of Patna is prepared to grant a concession to a competent Company to construct and work a Tramway by steam or other motive power on the district road which connects Bakhtiarpore with Bihar.

Bakhtiarpore is a station on the East Indian Railway 310 miles from Calcutta and 23 miles distant from Patna City Station; it is on the south bank of the Ganges, is a stopping place for river craft of all kinds and a ferry station for boats plying to north side of the Ganges.

Bihar is a town of 50,000 inhabitants, situate 19 miles distant south of Bakhtiarpore Station; it is the centre of a large and important subdivision of the district of Patna, a Government cutcherry, Treasury and Munsif's Court being located in the town of Bihar.

In Bihar and the neighbourhood many large *melas* are held yearly, as instance—

Hindu	*Melas*	Rajgir.
do.	do.	Pawapore.
do.	do.	Bargaon.
do.	do	Giriek.
do.	do.	Bihar Town.

The Rajgir *mela* continues for one month and is visited by many thousands of persons from all parts of India. At Rajgir are also hot springs visited by invalids for their health's sake: there are many ancient Jain and Buddhist shrines and temples and other interesting curiosities in and about Rajgir. The existing road from Bakhtiarpore to Bihar is the only track by which all produce and materials are imported and exported; there is no existing communication by water or rail between Bihar and any other station.

The above road has been raised and bridged throughout its whole length beside being metalled with stone ballast for a width of 9 feet along its centre; it is practically dead level all the way and there are no very sharp curves on it.

There is an enormous traffic along the road; statistics compiled from returns taken daily for 12 months show an average daily traffic of 365 passengers by horse, gharry, riding, palkee, on foot, and an average daily carriage of 800 maunds of goods; these returns were made some six years ago. During 1896 on checking the traffic for one month an increase of 50 per cent. was observed.

Gauge proposed is 2 feet 6 inches.

If a Steam Tramway were laid on this road there is no doubt whatever that the daily traffic would quickly grow much heavier.

The District Board is prepared to guarantee a dividend not exceeding four per cent. per annum on the capital outlay as soon as the Tramway is opened throughout its length. It is proposed that there should be three intermediate stations between the termini at Bihar and Bakhtiarpore, and that through booking of goods and passengers with the East Indian Railway should be arranged for.

Firms desirous of obtaining a concession should apply to the undersigned for detailed information as to the terms decided upon by the Board and passed by Government.

T. INGLIS, Chairman.

Short title, extent and commencement.

1. (*1*) This Act may be called the Estates Partition Act, 1897;

(*2*) It extends to the territories for the time being under the administration of the Lieutenant-Governor of Bengal; and

(*3*) It shall come into force on the day on which it is first published in the Calcutta Gazette after having received the assent of the Governor-General.

Repeal and savings.

2. (*1*) On and from that day the Estates Partition Act, 1876, shall be repealed. But— Ben. VIII of 1876.

(*a*) this repeal shall not affect the previous operation of the said Act, or anything duly done or suffered thereunder, or any fine incurred thereunder;

(*b*) Where in any pending case an order under section 63 of the said Act was made before the said day, the subsequent proceedings shall, unless all the proprietors request otherwise, be carried on under the said Act, as if this Act had not been passed;

(*c*) subject to clause (*b*) of this section, all pending proceedings which have been commenced under the said Estates Partition Act, 1876, before the said day shall be carried on under this Act, save that, where in any case the Collector has before that day directed that an application for partition be admitted, section 11 of the said Estates Partition Act, 1876, shall apply instead of clauses (*a*) and (*b*) of section 11 of this Act.

(2) Any enactment or document referring to the said Estates Partition Act, 1876, or to any enactment repealed thereby, shall, so far as may be, and subject to sub-section (*1*) of this section, be construed to refer to this Act or to the corresponding portion thereof.

(*Estates Partition Act.—Chapter I.—Preliminary.—Section 3.*)

3. In this Act, unless there be something repugnant in the subject or context,— Definitions.

(i) "Board" means the Board of Revenue for the territories for the time being under the administration of the Lieutenant-Governor;

(ii) "Collector" means the Collector of the district on the revenue-roll of which an estate which is under partition, or which it is proposed to bring under partition, is borne, and includes—

(*a*) any officer whom the Board generally vests (as it is hereby empowered to do) with the powers of a Collector under this Act, and to whom the Collector has, with the sanction of the Commissioner, delegated (as he is hereby empowered to do) any of his functions in respect of the partition of an estate, and

(*b*) any officer whom the Board specially vests (as it is hereby empowered to do) with the powers of a Collector for the purposes of any partition under this Act;

(iii) "Commissioner" means the Commissioner of Revenue to whom the Collector engaged in making a partition is subordinate;

(iv) "Deputy Collector" includes any Assistant Collector, Deputy Collector or Sub-Deputy Collector whom the Collector may appoint (as he is hereby empowered to do) to effect a partition under this Act, or to conduct any of the proceedings connected with such partition;

(v) "proprietor" includes every person who is in possession of any estate under partition or any portion of such an estate, or of any interest in any such estate or in any part of such an estate, as owner thereof, whether or not such person is a recorded proprietor of the estate;

(vi) "recorded proprietor" means a person whose name is registered on the Collector's General Register of revenue-paying land as proprietor of an estate, or of any share or interest therein;

(vii) the words "tenure," "permanent tenure," "holding" and "tenant" have the meanings attached to them in the Bengal Tenancy Act, 1885; VIII of 1885.

(viii) "applicant" means any person who has applied to the Collector under the provisions of this Act for the separation from a parent estate of land representing the interest of such person in such estate, and for the assignment to him of such land as a separate estate liable for a demand of land-revenue distinct from that for which the parent estate is liable;

(ix) "estate" means all lands which are borne on the revenue-roll of a Collector as liable for the payment of one and the same demand of land-revenue;

(x) "joint undivided estate" means an estate of which two or more persons are proprietors;

(xi) "parent estate" means an estate for the partition of which proceedings are in progress under this Act, or of which the partition has been effected under this Act;

(Estates Partition Act.—Chapter I.—Preliminary.—Section 3.)

(xii) "separate estate" means any distinct estate which is formed by the partition of a parent estate under this Act, or for the formation of which, by such partition, proceedings are in progress under this Act;

(xiii) "land" does not include houses or other buildings standing thereon;

(xiv) "rent" means whatever is lawfully payable or deliverable in money or kind by a tenant to his landlord on account of the use or occupation of the land held by the tenant; and "rent payable in kind" means, in money, the amount which would be determined as the rent if a commutation were made under section 40, sub-section (4), of the Bengal Tenancy Act, 1885; VIII of 1885.

(xv) "assets," when used with reference to land, means—

(*a*) in the case of land held by cultivating raiyats—the rent payable by them;

(*b*) in the case of land which is occupied by a proprietor—the rent which might reasonably be expected to be payable by cultivating raiyats if the land were occupied by them;

(*c*) in the case of land held on a permanent tenure which was created by all the proprietors of the estate, and which by any law for the time being in force is protected against the purchaser at a sale for arrears of land-revenue—the rent payable by the holder of such tenure;

(*d*) in the case of land held on a tenure which,

although not protected as aforesaid, is admitted by all the recorded proprietors of the estate to be a permanent tenure subject only to the payment of an amount of rent fixed in perpetuity, and

is of such nature that the rent thereof is not liable to be enhanced under any circumstances by the proprietors of the estate or any person deriving his title from such proprietors,—

the rent payable by the holder of such tenure, whether he be known as talukdar, patnidar or mukarraridar or by any other designation;

(*e*) in the case of unoccupied land and land forming portion of a village site—such amount, if any, as the Deputy Collector may determine with reference to all the circumstances of the case,

and includes—

(*f*) all profits derived out of land by proprietors from trees, rights of pasturage, forest rights, fisheries and all other legal sources;

(Estates Partition Act.—Chapter II.—Right to Claim Partition.—Sections 4, 5.)

(xvi) "assets," when used with reference to an estate, means the assets of all land included in the estate;

(xvii) "Chapter" means a Chapter of this Act; and

(xviii) "section" means a section of this Act.

CHAPTER II.

RIGHT TO CLAIM PARTITION.

Who entitled to claim partition.

4. (*1*) Subject to the provisions of this Act, every recorded proprietor of a joint undivided estate who is in actual possession of the interest in respect of which he is so recorded shall be entitled to claim a partition of the said estate and the separation therefrom and assignment to him as a separate estate of land representing the interest of which he is in such possession.

(*2*) Any two or more of such recorded proprietors may claim that land representing the interests of all such claimants be formed into one separate estate to be held by them as a joint undivided estate; and every provision of this Act which applies to an applicant for partition shall apply to any two or more persons making any such claim.

Partition according to interest.

5. (*1*) If the interest of any recorded proprietor who is entitled to claim partition is an undivided share in an estate held in common tenancy, he shall be entitled to have assigned to him as his separate estate land of which the assets shall bear the same proportion to the assets of the parent estate as his undivided share in the parent estate bears to the entire parent estate.

(*2*) If the interest of such recorded proprietor is the proprietary right over specific mauzas or lands forming part of the parent estate and held by him in severalty, he shall be entitled to have assigned to him as his separate estate the said mauzas or lands.

(*3*) If the interest of such recorded proprietor consists of an undivided share held in common tenancy in specific mauzas or tracts forming part of the parent estate, but not extending over the whole area of the parent estate, he shall be entitled to have assigned to him as his separate estate land, situated within such specific mauzas or tracts, of which the assets shall bear the same proportion to the assets of such specific mauzas or tracts as his undivided share in such specific mauzas or tracts bears to the entire mauzas or tracts:

Provided that, if the interest of such recorded proprietor consists of such an undivided share in more than one mauza or tract, he shall not be entitled to have land assigned to him in every such mauza or tract, but the Collector may assign to him as his separate estate land situated

in any one or more of the said mauzas or tracts, subject to the condition that the assets of such land are in proportion to the aggregate of the interests which he holds in all such mauzas or tracts.

(*4*) If the interest of such recorded proprietor consists partly of land held in severalty, and partly of an undivided share either in the whole estate or in specific land held in common tenancy, he shall be entitled to have the portion of the common land falling by partition to his share added to the land held by him in severalty, and the estate thus formed shall be assigned to him as his separate estate, so that the assets shall bear the same proportion to the assets of the whole estate as his interest in all the land and undivided shares held by him bears to the aggregate interests of all the proprietors.

(*5*) If the interest of such recorded proprietor is of more than one of the kinds specified in the preceding sub-sections, land shall be assigned to him as far as possible in accordance with the principles therein laid down.

Separation of land held in common between the proprietors of two or more estates, when the estates are not under partition.

6. Whenever any land is held in common between the proprietors of two or more estates not being under partition, any one or more of such proprietors may, without applying for partition of their several estates *inter se*, apply for separation of the land held by them in common, and for the allotment of the proper shares of such land to each of their separate estates, the land-revenue of those estates remaining unaltered; and such application shall be dealt with as far as may be in accordance with the provisions of this Act.

Partition of lands under Act where a partition has been made by private arrangement.

7. *(1)* Where the lands of an estate have been divided by private arrangement formally made and agreed to by all the proprietors, and each proprietor has, in pursuance of such arrangement, taken possession of separate lands to be held in severalty as representing his interest in the estate, no partition of the estate shall be made under this Act except—

(a) on the joint application of all the proprietors, or

(b) in pursuance of a decree or order of a Civil Court.

(2) No objection to the partition of an estate under this Act on the ground that the lands have been divided by private arrangement shall be admitted unless it is presented before the Collector records a proceeding under section 29 declaring the estate to be under partition.

Tenants for life not entitled to claim partition.

8. Notwithstanding anything hereinbefore contained, no person having a proprietary interest in an estate for the term of his life only shall be entitled to claim partition under this Act.

(Estates Partition Act.—Chapter III.—Security of the Land-Revenue.— Sections 9—13.)

CHAPTER III.

SECURITY OF THE LAND-REVENUE.

Future partitions not to relieve land from liability for total land-revenue, unless made as provided in this Act.

9. No partition of an estate made after the commencement of this Act shall relieve any land from liability to the Government for the total demand of land-revenue assessed upon the estate of which the land forms part, unless the partition is made as herein provided.

Amount of land-revenue to be assessed on each separate estate.

10. Except as otherwise provided in this Act, the amount of land-revenue assessed on each separate estate shall bear the same proportion to the whole amount of land-revenue for which the parent estate was liable as the assets of such separate estate bear to the whole assets of the parent estate.

Restrictions on partition of estate with reference to land-revenue.

11. Subject to clauses *(b)* and *(c)* of section 2 of this Act, no partition of an estate shall be made, and no application for the partition of an estate shall be admitted,—

(*a*) if the annual amount of land-revenue for which the separate estate of the applicant would, after partition, be liable would not exceed ten rupees ; or

(*b*) if, after separation of the applicant's interest, the annual amount of land-revenue for which the separate estate of the remainng proprietor or proprietors would be liable would not exceed five rupees ; or

(*c*) if the Collector considers that for any reason any of the separate estates would be likely to prove an insufficient security for the payment of the land-revenue which would be separately charged upon it.

Execution of decree for partition.

12. (*1*) Any Civil Court which has made a decree for the partition or for the separate possession of a share of an undivided estate paying land-revenue to the Government may, notwithstanding anything in section 265 of the Code of Civil Procedure, cause the decree to be executed in the manner prescribed in section 396 of that Code ; and, if it does so, the joint and several liability of the entire estate for the whole of the land-revenue chargeable upon it shall not be prejudiced or affect ed. XIV of 1882.

(*2*) If any decree is sent to the Collector for execution under section 265 of the said Code, the execution thereof shall be subject to the restrictions imposed by section 11 of this Act.

Power to refuse partition which would result in formation of estates scattered so as to endanger the safety of the land-revenue.

13. The Collector may refuse to admit an application for the formation of land held in severalty into a separate estate, or to proceed with a partition undertaken on such an application, or to admit or proceed with any other application for partition, if, in consequence of the land being intermingled with that held by other proprietors, the result of the partition would be to form out of a compact estate one or more estates consisting of scattered parcels of land in such a way as, in the opinion of the Collector, to endanger the safety of the land-revenue:

(Estates Partition Act.—Chapter III.—Security of the Land-Revenue.—Sections 14—16.)

Provided as follows:—

(*a*) a partition may be allowed in any such case if the recorded proprietors agree to such a distribution of land as would make the estates formed by the partition reasonably compact;

(*b*) nothing in this section shall be deemed to prohibit the partition into separate estates of any parent estate which before such partition is not compact and consists only of scattered parcels of land.

Interest alienated with special condition as to liability for land-revenue.

14. No proprietor who has alienated any portion of his interest in an estate, or in any specific land of an estate, by private contract, with the condition that the transferee shall be liable in respect of the interest acquired by him to pay a specified amount or a specified share of the land-revenue for which the estate is liable (such amount or share being other than the proportionate amount or the proportionate share for which such transferred interest if formed into a separate estate would be liable under section 10),

and no proprietor who has derived his title from any proprietor who has made any alienation as aforesaid,

shall be entitled to claim a separation under this Act of the interest which he continues to hold in the estate;

and no such transferee as aforesaid, and no person deriving his title from such a transferee, shall be entitled to claim a separation of the interest which has been so acquired:

Provided that a separation of such interests may be made if the parties concerned agree—

(*a*) to waive the conditions of the contract as regards the proportion of land-revenue for which the transferor and transferee or their representatives respectively are liable, and

(*b*) to hold the estates which may be allotted to them respectively by the partition subject to the payment of such amount of land-revenue as may be assessed upon them respectively under this Act.

Sale, for arrears of land-revenue, of an estate which is under partition.

15. If any estate has been declared to be under partition as provided in section 29, any arrears of land-revenue accruing due thereon before the date specified in the notice issued under section 94 may be realized by sale of the estate as if the same had not been declared to be under partition; and, if such sale takes place, the partition proceedings shall cease from the date thereof, but shall be revived if the sale is set aside.

Sale, for arrears of land-revenue, of share in an estate which is under partition.

16. Nothing contained in section 15 shall be deemed to affect the provisions of section 10, section 11, section 12, section 13 or section 14 of Act XI of 1859 (*an Act to improve the law relating to sales of land for arrears of revenue in the Lower Provinces*

(Estates Partition Act.—Chapter IV.—Initiation and Discontinuance of Partition Proceedings.—Sections 17—19.)

under the Bengal Presidency), or any similar law for the time being in force, in respect to the opening of separate accounts for different shares in an estate and the protection afforded to such shares thereby:

Provided that, if any share in any estate is sold for its own arrears of land-revenue while such estate is under partition in accordance with the provisions of this Act, such share shall be sold subject to the partition proceedings, which shall proceed as if no such sale had taken place; and the purchaser of the share sold may, from the date of such sale, exercise all the rights which the proprietor whose share he has purchased might have exercised, and shall be subject to all the liabilities to which such proprietor would have been subject in respect of the partition proceedings.

CHAPTER IV.

INITIATION AND DISCONTINUANCE OF PARTITION PROCEEDINGS.

Application for partition how to be made.

17. Every application for partition shall be made in writing to the Collector of the district on the revenue-roll of which the estate is borne, and shall be presented by the applicant or by his duly authorized agent.

Application to be signed and to contain certain particulars.

18. Every such application shall be signed by the applicant, or by his duly authorised agent, and shall contain the following particulars, so far as they are known to or can be ascertained by him, namely:—

(*a*) the name of the parent estate;

(*b*) the number under which such estate is borne on the revenue-roll, and the land-revenue demand for which it is liable;

(*c*) the number under which such estate is borne on the Collector's General Register of revenue-paying lands;

(*d*) the name and address of every proprietor, whether recorded or unrecorded, of such estate, the name and address of every proprietor of any other estate holding land in common with the proprietors of the parent estate, and the name of the post office of the area within which each of the said proprietors resides;

(*e*) the character and extent of the interest of which each proprietor of the parent estate is in possession;

(*f*) a specification of any land held by proprietors of the parent estate in common with proprietors of other estates, and of the rights of such proprietors respectively in such land, and

(*g*) such further particulars, if any, as may be prescribed by rules made by the Board.

Application to be accompanied by copy of rent-roll and by specification of previous measurements and record-of-rights.

19. (*1*) Every such application shall, subject to the provisions of sub-section (*4*) of this section, be accompanied by a copy of the rent-roll of the estate, and by a specification referring

(Estates Partition Act.—Chapter IV.—Initiation and Discontinuance of Partition Proceedings.—Sections 20—22.)

to the papers of every measurement and record of-rights which has respectively been made of and prepared for the estate by any officer appointed in that behalf by the Government or other competent authority and of which the person verifying the application under sub-section (2) has knowledge.

(3) The said application, rent-roll and specification shall be verified at the foot of the application, by the applicant, or by his duly authorised agent having personal knowledge of the facts stated therein, in the manner following, or to the like effect:—

"I, A. B., declare that the particulars contained in this application and in the rent-roll and specification accompanying it are correct to the best of my knowledge and belief."

(5) If the said application, rent-roll or specification contains any entry which the person making the verification knows or believes to be false, or does not believe to be true, such person shall be liable to be punished in the same manner as if he gave false evidence.

(4) If the person presenting the application is unable to produce a rent-roll as required by sub-section (1) of this section, he shall state the reason of such inability, and the name and address of the person who has in his possession the information necessary for the preparation of such rent-roll; and the Collector may, if he thinks fit, require such person to produce such rent-roll.

Procedure if application is not in order.

20. If any such application does not in the opinion of the Collector fulfil the requirements of the foregoing sections of this Chapter, he may either reject it or return it for amendment.

Notification and notice of application.

21. If in the opinion of the Collector the application fulfils the said requirements, and if there appears to him to be no objection to making the partition, he shall—

(a) publish a notification of the application in the manner prescribed by section 104, and also by causing copies to be posted up at the Court of the Judge of the district and at the Court of every Munsif and Sub-divisional Officer within whose jurisdiction, and at every police-station within the jurisdiction of which, any land appertaining to the estate is known to be situated;

(b) by such notification invite any person claiming any proprietary right in the estate, who may object to the partition, to state his objection, either in person or by duly authorized agent, on or before a day to be specified in the notification, not being less than thirty or more than sixty days from the date of the publication of the notification on the estate; and

(c) serve a notice of the application on such of the recorded proprietors of the estate as have not joined in the application, on any unrecorded proprietor who has been named in the application, and on every proprietor of any other estate who holds land in common with the proprietors of the estate to which the application relates.

Power to reject application on receipt of objection.

22. If any person claiming a proprietary right as aforesaid states an objection to the partition on or before the day specified in

(Estates Partition Act.—Chapter IV.—Initiation and Discontinuance of Partition Proceedings.—Sections 23—26.)

the notification published under section 21, or at any subsequent time if it shall then seem fit to the Collector to admit such objection, and the Collector, on consideration of the objection, is of opinion that there is good and sufficient reason for rejecting the application, he may reject the same, and if he does so shall record the grounds of such rejection.

Procedure when objection raises any question of right or title or of extent of interest.

23. If any such objection raises any question of right or title or of extent of interest as between any applicant and any other person claiming to be a proprietor of the parent estate, and if it appears to the Collector that such question has not been already determined by a Court of competent jurisdiction, the Collector may hold such inquiry into the objection as he may deem necessary, and, if he be satisfied that the applicant is in possession of the extent of the interest for the separation of which he has applied, may, instead of rejecting the application as provided in section 22,

(*a*) direct that the partition proceedings shall proceed for the purpose of forming and assigning to the applicant a separate estate in accordance with the extent of interest claimed by him in the parent estate; or

(*b*) direct that such proceedings be postponed for four months.

Resumption of proceedings after postponement.

24. At the expiration of the said four months the Collector shall resume the proceedings, unless the person who has made the objection, or some other person,—

(*a*) has obtained an order from a Civil Court directing that such proceedings be stayed, or

(*b*) shows that a suit has been instituted before a Civil Court to try some question of such a nature as to lead the Collector to think the proceedings ought to be stayed until the question has been finally decided or until the proceedings in such Court in respect thereof shall have terminated.

Suits instituted after four months not to affect or stay proceedings for partition.

25. No suit instituted in a Civil Court, after the lapse of four months after the Collector has—

(*a*) made a direction under clause (*a*) or clause (*b*) of section 23; or

(*b*) recorded a proceeding under section 29,

by any person claiming any right or title in or to a parent estate, shall avail to affect or stay the progress of any proceedings which may have been taken under this Act for the partition of the estate.

Decree made while partition proceedings are in progress.

26. (*1*) Every decree affecting a parent estate made by a Civil Court after the estate has been declared under section 29 to be under

(Estates Partition Act.—Chapter IV.—Initiation and Discontinuance of Partition Proceedings.—Section 27.)

partition, but before the date specified in the notice served under section 94,—

(*a*) shall be made in recognition of the proceedings in progress under this Act for the partition of the estate, and

(*b*) shall be framed in such manner that the decree may be applied to, and carried out in reference to, the separate estates which the Collector in his proceeding recorded under section 29 has ordered to be formed out of the parent estate.

(*2*) If the effect of any such decree be to declare any person or body of persons to be entitled to any extent of interest in the parent estate in excess of the extent of interest which the Collector in the said proceeding has declared to be held by such person or body of persons, the decree shall specify, separately in respect of every proprietor or body of proprietors of whose interests the Collector has separately specified the extent in the said proceeding, the proportion of such excess which such person or body of persons is entitled to recover from every such proprietor or body of proprietors;

and every person or body of persons so entitled to recover any extent of interest from any such proprietor or body of proprietors shall, for the purposes of the partition proceedings, be deemed to have the same rights, and to be subject to the same liabilities, as a person who has acquired such extent of interest from a proprietor or body of proprietors by private purchase after an estate has been brought under partition under section 29 and on the date on which the decree was passed;

and such person or body of persons may apply, as in this Act provided, for the separation and assignment to him or them of the lands representing the extent of interest so acquired;

and, notwithstanding anything contained in section 11, such application shall be dealt with as provided in section 30;

and the lands thereupon assigned to the said person or body of persons shall be amalgamated with his or their separate estate.

Decree made after partition proceedings completed.

27. (*1*) Every decree affecting a parent estate made by a Civil Court after the date specified in the notice served under section 94, in a suit which was instituted as mentioned in section 25,—

(*a*) shall be made in recognition of the partition proceedings, and

(*b*) shall be framed so as to give effect to the division of the parent estate into separate estates which has been ordered by the Collector, and so as not to disturb such division.

(*2*) If the effect of any such decree be to declare any person or body of persons to have been entitled to any extent of interest in the parent estate in excess of the extent of interest which is represented by the separate estate assigned to such person or body of persons by the Collector in the partition proceedings, the decree shall specify, separately in respect of the proprietor or joint proprietors of every separate estate formed by the partition, the proportion of such

(Estates Partition Act.—Chapter IV.—Initiation and Discontinuance of Partition Proceedings.—Sections 28, 29.)

excess of interest which such person or body of persons is entitled to recover from such proprietor or joint proprietors;

and every person or body of persons so entitled to recover any extent of interest from the proprietor or joint proprietors of a separate estate shall be entitled to recover such extent of interest out of the separate estate which has been assigned to such proprietor or joint proprietors, and out of such separate estate only;

and the decree shall be executed by placing the person or persons so entitled in the position of a recorded joint proprietor or recorded joint proprietors of such separate estate, holding the same as a joint undivided estate in common tenancy with the proprietor or joint proprietors to whom such separate estate was assigned by the Collector in the partition proceedings, the extent of the interest of the joint proprietors respectively in such estate being such as is declared in the decree.

Power of Civil Court to order partition on application being made to Collector.

28. (*1*) A Civil Court may at any time direct the Collector, upon an application being made to him in accordance with sections 17, 18 and 19,—

(*a*) to assign to any person land representing a specified interest in any estate, or in any specified village or tract of land in an estate, to be held by such person as a separate estate; or

(*b*) to divide off from any estate any specified land or villages, and to assign it or them to any person to be held as a separate estate:

Provided that no Civil Court shall in any such case—

(*i*) specify the amount of land-revenue for which any separate estate which it may direct to be formed under the provisions of this section shall be liable, or

(*ii*) direct the Collector to carry out a partition otherwise than in accordance with the provisions of this Act.

(*2*) The Collector shall assess the land-revenue on every such separate estate in accordance with the provisions of this Act.

Admission of application for partition, and procedure thereupon.

29. If no objection be made, within the time specified in the notification published under section 21, to an application for partition, or when all objections have been disposed of, and if the Collector has no reason to believe that any obstacle exists to his making the partition as applied for,

he shall direct that the application be admitted, and shall record a proceeding—

(*a*) declaring the estate to be under partition for the purpose of forming and assigning to the applicant a separate estate;

(*Estates Partition Act.—Chapter IV.—Initiation and Discontinuance of Partition Proceedings.—Sections 30, 31.*)

(*b*) declaring the extent of interest in the parent estate which he finds to be held by the applicant or joint applicants; or, if more than one separate application for separation has been admitted, the extent of interest in the parent estate which he finds to be held by every separate applicant or body of joint applicants, respectively;

(*c*) declaring the extent of interest which remains to any recorded proprietor or body of recorded proprietors who are not applicants;

(*d*) ordering that land proportionate to the interest so declared to be held by each applicant, or body of joint applicants respectively, shall be formed into a separate estate, to be assigned to such applicant or body of joint applicants; and

(*e*) ordering that land proportionate to the interest so declared to remain to any recorded proprietor or body of recorded proprietors who are not applicants shall be left forming a separate estate;

and shall at the same time issue a notice to each of the proprietors by registered post letter informing him that the application for partition has been admitted and that the partition will be proceeded with, and requiring him to register his name and address and to appoint an agent to accept service of process and to make any appearance or application or do any act required or authorized to be made or done by a party to a partition under this Act.

Subsequent application for separation of another share.

30. (*1*) At any time after the Collector has recorded a proceeding under section 29, and before the Deputy Collector has partitioned the land into separate estates under section 57, any recorded proprietor in the estate, other than the original applicant, may apply for the separation of his share.

(*2*) The Collector may reject or admit any such application; and if he admits it may order either that proceedings for effecting such separation shall be carried on simultaneously with the previous proceedings or that compliance with the application be postponed until such previous proceedings have been completed and the shares separated in accordance therewith.

(3) When the consideration of any application which has been postponed under sub-section (*2*) is resumed, the papers of the previous proceedings aforesaid may be used so far as they are applicable.

Power of Collector to refer application for partition to Deputy Collector.

31. The Collector may refer any application for partition to any Deputy Collector for the purpose of making inquiries and doing any other thing authorised or required by this Chapter:

Provided that every order—

(*a*) rejecting an application under section 22,

(*b*) directing, under section 23, that partition proceedings shall proceed or shall be postponed,

(Estates Partition Act—Chapter IV.—Initiation and Discontinuance of Partition Proceedings.—Chapter V.—Establishments and Costs.—Sections 32—35.)

(*a*) directing, under section 29, that an application for partition be admitted,

(*d*) made under section 30, or

(*e*) appointing a Deputy Collector under section 32,

and every proceeding recorded under section 29,

shall be made and recorded, respectively, by the Collector and not by any Deputy Collector.

Power of Collector to appoint Deputy Collector to carry out partition.

32. As soon as the Collector has declared an estate to be under partition as provided in section 29, he may appoint a Deputy Collector to carry out the partition and all or any of the proceedings necessary thereto.

Power to strike partition cases off the file, on petition of parties Recovery of costs.

33 (*1*) If, at any time after an order has been passed for making a partition of a parent estate, all the recorded proprietors of the estate present a petition to the effect that they do not wish the partition to proceed, the Collector may, after such enquiry as he considers necessary, strike the partition case off the file, and at the same time require the proprietors to pay all costs incurred in and about the partition.

(*2*) Any such costs which have not already been levied as provided in section 37 shall be levied in proportion to the shares of the respective proprietors.

Power of Commissioner to strike partition case off the file. Recovery of costs.

34. (*1*) If, at any time after an order has been passed for making a partition, it appears to the Commissioner that any sufficient reason exists why the partition should not be proceeded with,

he may, on the report of the Collector or otherwise, after issuing a notice calling on the persons interested to show cause why the partition case should not be struck off the file, and after considering any objections which may be made, order the partition case to be struck off the file.

(*2*) All costs which have not already been levied as provided in section 37 shall thereupon be levied in proportion to the shares of the respective proprietors.

CHAPTER V.

ESTABLISHMENTS AND COSTS.

Power to appoint establishments and prescribe scale of remuneration.

35. The Deputy Collector, with the approval of the Collector, and subject to any rules made in that behalf by the Board, may appoint such persons as may be needed for the purposes of any proceedings under this Act and prescribe the scale of their remuneration.

(Estates Partition Act.—Chapter V.—Establishments and Costs.—Sections 36—40.)

Power to appoint special establishment.

36. In any district or division in which partitions are so numerous or extensive as to render necessary the appointment of a special establishment in the office of the Collector or of the Commissioner, the Collector or the Commissioner, as the case may be, with the previous sanction of the Board, may appoint such establishment.

Estimating and levy of cost of partition.

37. (*1*) As soon as possible after an estate has been declared to be under partition as provided in section 29, the Collector shall estimate the cost of making the partition; and the amount shall be levied from the proprietors in such instalments and at such times as may be fixed by rules made by the Board.

(*2*) If the amount first estimated is found insufficient, supplementary estimates may be made from time to time, and the required amount may be levied as provided in sub-section (*1*).

Apportionment of cost of partition.

38. The cost of making a partition shall be apportioned on the proprietors of the several shares in proportion to their shares:

Provided that whenever it appears to the Collector that any partition proceedings have been unnecessarily delayed and the cost of the partition enhanced, by obstacles vexatiously put in the way of the completion of the proceedings by one or more of the proprietors, or by want of due diligence on the part of one or more of the proprietors in carrying out any requisition made upon him or them,

the Collector may direct that such portion of the cost as he may think proper, in excess of the amount proportionate to the share or shares of such proprietor or proprietors, shall be paid by him or them.

Power of Deputy Collector to declare cost of local inquiry and by whom it is to be paid.

39. Whenever any local inquiry is held by the Deputy Collector or any other officer, in consequence of an objection raised by any person to any record of measurements, rent-roll or other information which has been laid before the Deputy Collector, the Deputy Collector may declare the cost which has been incurred by such inquiry, and may direct that the entire cost so declared—

(*a*) shall be paid by the person making the objection, or by any one of the proprietors; or

(*b*) shall be paid, in such proportions as the Deputy Collector thinks fit, by the said person and the proprietors or any of them; or

(*c*) shall be deemed to be a part of the cost of the partition.

On completion of partition, total cost to be declared and account adjusted.

40. (*1*) Upon the completion of a partition, the Collector shall make an order declaring the total cost thereof.

(Estates Partition Act.—Chapter V.—Establishments and Costs.—Sections 41, 42.)

(*2*) The account shall then be adjusted, either by returning to the proprietors any sums which they may have paid in excess of the total cost, or, if necessary, by levying from them, in the manner provided in section 108, any sums remaining due.

Power to direct that salary of Deputy Collector, and cost of special establishment, be recovered as part of costs of partitions.

41. (*1*) Whenever it appears to the Lieutenant-Governor that the work required to be done in connection with partitions under this Act in any district is so great that it would, if concentrated in the hands of one or more Deputy Collectors, fully occupy the time of such one or more Deputy Collectors, he may make an order directing that the salary of such one or more Deputy Collectors, as the case may be, shall be recovered from the proprietors of estates under partition in such district, as part of the costs of such partitions.

(2) For the purposes of sub-section (1) the salary of a Deputy Collector shall be deemed to be the amount of salary which is drawn by a Deputy Collector of the lowest grade.

(*3*) Whenever it appears to the Lieutenant-Governor that the said work in any district is so great as to occupy a considerable portion, though not the whole, of the time of a Deputy Collector,

or whenever a special establishment is appointed under section 36,

the Lieutenant-Governor may direct that a portion of the salary of such Deputy Collector or the whole of the cost of such special establishment shall be recovered from the proprietors of estates under partition in such district, as part of the costs of such partitions.

Estates Partition Fund.

42. (*1*) The Lieutenant-Governor may direct that in any district a Fund, to be called the "Estates Partition Fund," shall be formed, into which all sums levied from the proprietors of estates in such district in respect of partitions of their estates shall be paid and from which all costs of making partitions of estates in such district shall, except as provided in section 43, be defrayed.

(*2*) When the formation of an Estates Partition Fund has been directed in any district, the charges leviable in that district from the proprietors of any estate under partition may, notwithstanding anything contained in the foregoing sections of this Chapter, be levied according to a general scale of fees to be fixed by the Board.

(*3*) Such scale of fees shall be fixed, as nearly as may be, so that the receipts and expenditure of the said Fund shall balance one another, and shall be revised from time to time by the Board so as to secure compliance with this condition.

(4) The said fees shall be apportioned, and the proportionate amount thereof due from any proprietor or proprietors may be increased, in the manner and under the circumstances mentioned in section 38.

(Estates Partition Act.—Chapter V.—Establishments and Costs.—Chapter VI.—Proceedings up to the Determination of the Partition.—Sections 43—45.)

(5) The said fees shall be levied from the proprietors in such instalments and at such times as may be fixed in accordance with any rules which the Board may make in this behalf.

(6) An abstract of the Estates Partition Fund of each district, made up to the end of each financial year, shall be published in the Calcutta Gazette and posted up at the office of the Collector of the district.

Order by Civil Court for payment by parties of costs of partition.

43. (1) Whenever any Civil Court makes a decree awarding or declaring any proprietary right in an estate, and requires the Collector to make a partition of the estate, the Court shall, subject to the provisions of sections 38 and 39, at the same time direct either—

(a) that the party or parties who has or have withheld the right so decreed shall defray the whole of the costs of the partition or the whole of the fees payable in respect of the partition under section 42, or

(b) that the said costs or fees shall be defrayed by all or any of the parties to the suit in which the decree was made, in such proportions as the Court may, upon a consideration of the particular circumstances of the case, deem equitable.

(2) Copies of all orders passed under sub-section (1) shall be transmitted to the Collector for his guidance, together with the precept which the Court issues to him requiring him to divide the estate; and the Collector shall levy the said costs or fees from the parties, in accordance with the order, in the same manner and by the same means as if the levy of such costs or fees had been ordered by himself.

CHAPTER VI.

PROCEEDINGS UP TO THE DETERMINATION OF THE PARTITION.

Powers of Deputy Collector in making a partition.

44. Every Deputy Collector making a partition shall, as regards the estate under partition, have so far as they are applicable all the powers exerciseable by a Survey Officer under the Bengal Survey Act, 1875, and by a Revenue Officer employed in preparing a record-of-rights under Chapter X of the Bengal Tenancy Act, 1885.

Ben. V of 1875.

VIII of 1885.

Deputy Collector when to make survey and record of existing rents and assets.

45. As soon as the Collector has recorded a proceeding under section 29, declaring an estate to be under partition, the Deputy Collector shall, subject to the provisions of section 49, make a survey and prepare a record of existing rents and other assets of all lands included in the estate.

(Estates Partition Act.—Chapter VI.—Proceedings up to the Determination of the Partition.—Sections 46, 47.)

Particulars to be recorded.

46. In making a survey and preparing a record of existing rents and other assets of land under section 45, the Deputy Collector shall ascertain and record the following particulars, namely:—

(*a*) the name of each proprietor, landlord and tenant of the estate, and of every owner of revenue-free land and occupier of rent-free land therein;

(*b*) the situation, area and boundaries of the land owned or occupied by each of the said persons, and the character and extent of the interest held by each, and the area of all other land in the estate which is not held by tenants;

(*c*) the rent then payable for all rent-paying lands,—

(i) as stated by the landlord,

(ii) as stated by the tenant, and

(iii) as taken by the Deputy Collector for the purposes of the partition; and

(*d*) the assets, if any, of all other lands;

and shall be guided by such rules as the Board may make under section 121, clause (*l*).

Attestation of survey papers and record of existing rents and assets.

47. (*1*) When the Deputy Collector has made a survey and prepared a record of existing rents and other assets of land under section 45, he shall publish a notification, in a form to be prescribed by the Board, fixing a day on which he will be present in the village, or at a convenient place within limits of distance to be fixed by general or special order of the Board, for the purpose of attesting the survey papers and record of existing rents and other assets.

(*2*) On the date fixed by the notification, or on any other date to which the proceedings may be adjourned, the entries made in the record of existing rents and other assets under section 46, or such of them as the Board may by rule prescribe, shall be read out, and corrected or added to as may appear necessary, in the presence of such of the interested persons as are in attendance.

(*3*) If the correctness of any entry is disputed, the Deputy Collector shall note the statements of such of the persons aforesaid as are interested in the disputed entry and shall, after making such local enquiry, if any, as he thinks fit, pass a summary order declaring what entry shall be accepted for the purposes of the partition.

(*4*) If the correctness of any measurement is called in question and a fresh measurement is demanded, the Deputy Collector may require the costs of the re-measurement to be deposited.

(*5*) If the re-measurement shows the original measurement to have been inaccurate, the amount deposited shall be refunded to the objector.

(*Estates Partition Act.—Chapter VI.—Proceedings up to the Determination of the Partition.—Sections 48—50.*)

Publication of survey papers and record of existing rents and assets.

48. When the survey papers and the record of existing rents and other assets have been attested as provided in section 47, the Deputy Collector shall cause a copy thereof to be locally published in such manner and for such period as the Board may by rule prescribe, and there shall be furnished to each landlord and tenant a copy of such of the entries relating to his estate, tenure or holding, as the case may be, as the Board may by rule prescribe.

Power of Deputy Collector to accept previous survey, record-of-rights, measurements or rent-rolls, instead of making a new survey and a record of existing rents and assets.

49. If at any time a survey of the estate under partition or any part thereof has been made or a record-of-rights prepared by an officer appointed in that behalf under the orders of the Government, or

if any measurement papers and rent-rolls are filed under section 19, or at any time before a survey has been begun under section 45, and if the correctness of such measurement papers and rent-rolls is admitted in writing by all the proprietors, and is verified by the Deputy Collector after testing on the spot, and if the Deputy Collector is satisfied that the land-revenue would not be endangered,

the Deputy Collector may, unless the Collector otherwise directs, and after making any correction which may appear necessary, accept the papers of such survey, or the said record-of-rights, measurement papers or rent-rolls, instead of making a new survey and preparing a record of existing rents and other assets under section 45.

Record of order fixing of day for determining partition and service of notices.

50. When the documents referred to in section 48 have been published, or any documents referred to in section 49 have been accepted, the Deputy Collector shall record an order stating that such documents have been adopted for the purposes of the partition, and shall—

(*a*) fix a day on which to determine the partition of the lands into the several separate estates,

(*b*) publish a notification calling on all the proprietors to be present on the day so fixed, such day being not less than thirty or more than sixty days after the publication of the notification in his office, and at the same time serve a notice on each of the proprietors to the same effect, and

(*c*) serve a similar notice on the proprietors of each of the adjoining estates, inviting them to appear and file their objections, if any, if they dispute the possession of any land of the estate under partition.

(Estates Partition Act.—Chapter VII.—Partition by Amicable Arrangement or by Arbitration.—Sections 51—55.)

CHAPTER VII.

PARTITION BY AMICABLE ARRANGEMENT OR BY ARBITRATION.

Power to allow partition to be made by proprietors themselves or by arbitrators.

51. (*1*) If all the recorded proprietors present, on or before the day fixed under section 50, a petition requesting to be allowed to make the partition on the basis of the papers adopted by the Deputy Collector under Chapter VI,—

(*a*) privately among themselves, or

(*b*) by arbitration,

the Deputy Collector may grant the request.

(*2*) If, after such request has been granted, the proprietors or the arbitrators fail to make the partition within such time as may be fixed by the Deputy Collector in that behalf, the Deputy Collector shall make the partition himself.

Procedure on reference to arbitration.

52. When a partition has been referred to arbitration, the proceedings shall, except as hereinafter otherwise expressly provided, be conducted in accordance with the provisions of sections 506 to 522 (both inclusive) of the Code of Civil Procedure, so far as they are applicable. XIV of 1882.

Arbitrators to deliver a partition paper.

53. (*1*) The arbitrator or arbitrators shall, within a period to be fixed by the Deputy Collector, which period may be further extended by him, deliver to the Deputy Collector a full and complete paper of partition, in such form as the Board may, by rule, prescribe.

(*2*) If default is made in complying with sub-section (*1*), the Deputy Collector may withdraw the case from arbitration and may make the partition himself.

Remuneration of arbitrators.

54. (*1*) The arbitrator or arbitrators, on delivering the paper of partition as aforesaid, shall be entitled to reasonable fees for his or their services.

(*2*) The amount of such fees shall be fixed, with the approval of the Commissioner, by the Deputy Collector who made the reference to arbitration, and shall be deemed to form part of the costs of making the partition.

Approval of Deputy Collector and other authorities.

55. Every partition made under this Chapter by proprietors or by an arbitrator or arbitrators shall be subject to the approval of the Collector and the confirmation of the Commissioner:

Provided that no such partition shall be disallowed except—

(*a*) on the ground of fraud, or

(*b*) on the ground that the partition cannot be confirmed without endangering the safety of the land-revenue.

(Estates Partition Act.—Chapter VII.—Partition by Amicable Arrangement or by Arbitration.—Chapter VIII.—Making of Partitions by the Deputy Collector, and Approval thereof by the Collector.—Sections 56, 57.)

Assessment of land-revenue.

56. When a partition has been made under this Chapter, the land-revenue on each separate estate into which the parent estate is divided by such partition shall be assessed by the Collector in the manner prescribed by section 10.

CHAPTER VIII.

MAKING OF PARTITIONS BY THE DEPUTY COLLECTOR, AND APPROVAL THEREOF BY THE COLLECTOR.

Procedure where no petition presented under section 51.

57. (*1*) If no petition is presented under section 51, the Deputy Collector shall, on the day fixed under section 50, or on any subsequent day or days to which the hearing may be postponed by notice posted at his office,—

(i) consult all proprietors who are present, and

(ii) hear, and, after such enquiry as he may consider necessary, dispose of, any objections which they may urge.

(*2*) The Deputy Collector shall then proceed to determine how the lands of the parent estate shall be partitioned into the separate estates, and all matters arising out of such partition; and shall cause to be prepared—

(*a*) a paper of partition, in a form prescribed by rules made by the Board, specifying in detail—

(*i*) the lands which he has included in each separate estate, and the area of such lands,

(*ii*) the rental of such lands, and the other assets, if any, of each separate estate,

(*iii*) the name or names of the recorded proprietor or proprietors of each separate estate,

(*iv*) any stipulations which may have been made regarding places of worship, tanks or other matters mentioned in Chapter IX, and

(*v*) the amount of land-revenue to be assessed on each separate estate in the manner prescribed by section 10; and

(*b*) a map showing the lands which fall within each separate estate and the boundaries of such lands.

(*3*) In making the partition the Deputy Collector shall be guided by the provisions of Chapter IX, and shall make the partition in the manner which, in his opinion, is on the whole most in accordance with those provisions and most equitable and convenient to all parties concerned.

(Estates Partition Act.—Chapter VIII.—Making of Partitions by the Deputy Collector, and Approval thereof by the Collector.—Sections 58—60.)

Submission of case to Collector; his duties.

58. (*1*) The partition, as made under this Chapter, shall be submitted for the sanction of the Collector, and he shall by notice fix a day for the consideration of the same.

(*2*) Every such notice shall be served on the proprietors and shall be published in the manner prescribed by section 104.

(*3*) The day fixed by the said notice shall be not less than fifteen days after the publication of the notice at the Collector's office.

(*4*) After hearing and disposing of any objection which may be preferred, the Collector shall pass such orders as he may think proper—

(*a*) approving the partition, with or without amendments; or

(*b*) making a new partition; or

(*c*) returning the papers to the Deputy Collector for amendment of the partition, or for making a new partition, with such directions as to the Collector may seem fit in regard to the issue of a notice to appear to the proprietors or any of them who are specially interested.

(*5*) If the papers are returned to the Deputy Collector, the Collector shall, on their re-submission, proceed again to consider the partition as provided in the foregoing sub-sections of this section.

Duties of Deputy Collector when partition has been approved by Collector, or when Collector makes a new partition.

59. (*1*) When the partition has been approved by the Collector, the Deputy Collector shall, after making such alterations as may be necessary in the partition paper or map, or preparing a new partition paper or map, in accordance with the orders passed by the Collector,

(*a*) cause to be prepared a separate extract of the portion of the partition paper which relates to each separate estate;

(*b*) cause to be tendered to any recorded proprietor of a separate estate, or any authorized agent of such proprietor, who may be in attendance at the Deputy Collector's office, the extract which relates to such separate estate, and

(*c*) publish a notification at his office calling upon every proprietor to whom or to whose agent an extract from the partition paper has not been tendered as aforesaid, to take out of the Deputy Collector's office the extract of the portion of the partition paper relating to his separate estate.

(*2*) If the circumstances of the partition so require, an extract of the map prepared by the Deputy Collector, or a copy of such map, shall be annexed to every separate extract from the partition paper mentioned in sub-section (*1*).

(*3*) The Deputy Collector shall also proceed in the manner hereinbefore provided when the Collector makes a new partition.

Proprietor not appearing on fixed day not entitled to make objection.

60. No proprietor who has failed to appear before the Deputy Collector in person or by agent on a day fixed, under section 50 or section 57, for

(Estates Partition Act.—Chapter VIII.—Making of Partitions by the Deputy Collector, and Approval thereof by the Collector.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy.—Sections 61—63.)

the partition of the lands into the several separate estates, and no proprietor who has failed so to appear before the Collector on a day fixed under section 58, shall, unless he shows sufficient cause for such failure, be entitled at any subsequent time to make any objection to the orders which may be passed on such days respectively.

Submission of the papers to the Commissioner after approval of the partition by the Collector.

61. When a partition has been approved by the Collector, or when he has made a new partition, and after the tender of extracts and the publication of a notification as provided in section 59, the Collector—

shall cause a notice to be served on each of the recorded proprietors, stating that the papers will be submitted at once for confirmation of the partition by the Commissioner, and that any appeals or objections must be presented to the Commissioner, or to the Collector for transmission to the Commissioner, within thirty days from the date of the service of the said notice;

and shall, after the issue of such notice, forward to the Commissioner all papers relating to the partition.

CHAPTER IX.

GENERAL PRINCIPLES FOR MAKING PARTITIONS.

Lands held in common tenancy.

Separate estates to be made compact.

62. Each separate estate shall be made as compact as is compatible with the primary object of making an equitable partition among the proprietors and with the provisions of this Chapter.

Circumstances to be considered in making partitions.

63. In selecting the villages or land to be assigned to each separate estate formed out of a parent estate which has been held in common tenancy, the Collector shall take into consideration the advantages or disadvantages arising from—

(*a*) situation;

(*b*) the vicinity of roads, railways or navigable rivers or canals;

(*c*) the nature and quality of the soil and produce;

(*d*) the quantity of cultivable and uncultivable waste land;

(*e*) the facilities for irrigation;

(*f*) the state of embankments and watercourses, and

(*g*) liability to accretion and diluvion;

and any other circumstances affecting the value of the land.

(Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy.—Sections 64—68.)

Rights when dwelling-house belonging to one proprietor is situated on land to be allotted to another proprietor.

64. (*1*) If a dwelling-house belonging to one proprietor is situated on any land which it may be necessary to include in the separate estate of another proprietor, the owner of the house may retain occupation thereof, with the buildings and grounds immediately attached thereto, upon agreeing to pay rent annually in perpetuity for the land occupied by the house, buildings and grounds to the proprietor of the separate estate in which such land is included.

(*2*) The limits of the land so occupied and the rent to be paid for it shall be fixed by the Deputy Collector, and shall be stated in the paper of partition.

(*3*) In every such case a defined pathway shall, as far as possible, be secured to the owner of the house, leading from the house to some portion of the separate estate allotted to him.

Power to apply section 64 to gardens, etc.

65. Whenever the Deputy Collector thinks fit, he may apply the provisions of section 64 to gardens, orchards, land planted with bamboos, and any other land which in his opinion is of special value to the proprietor in whose occupation it is found to be, in consequence of improvements made by such proprietor or of the particular use to which such land is put.

Rent for land fixed under section 64 or 65 deemed to be the assets of the land.

66. The rent fixed in perpetuity on any land by the Deputy Collector under section 64 or section 65 shall be deemed, for the purposes of the partition, to be the assets of such land.

Redemption of rent fixed under section 64.

67. When the dwelling-house of one proprietor, with the buildings and grounds immediately attached thereto, has been included in the separate estate of another proprietor, and the rent to be paid in perpetuity for the land occupied thereby has been fixed by the Deputy Collector and stated in the paper of partition,

the first-mentioned proprietor may apply to the Deputy Collector for permission to redeem the rent so fixed, and the Deputy Collector shall give such permission unless he is of opinion that the redemption would endanger the safety of the land-revenue for the payment of which the separate estate in which such dwelling-house, buildings and grounds have been included will be liable.

Amount payable in redemption of rent.

68. (*1*) If the Deputy Collector gives permission as aforesaid, he shall certify the amount payable by the applicant in redemption of the rent.

(*2*) Such amount shall be ten *per centum* above the sum which would be required to produce, in interest at four *per centum per* annum, an annual sum equal to the said rent.

(Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy.—Sections 69—73.)

Such amount when payable.

69. The amount certified under section 68 may be paid to the Deputy Collector at any time before, but not after, possession is, under section 94, given to the several proprietors of the separate estates allotted to them.

Notice of payment to be given, and land to be held rent-free.

70. On receipt of such payment, the Deputy Collector shall give notice to the proprietor in whose separate estate the land is situated—

(*a*) that such payment has been made ;

(*b*) that the sum will be paid to him or to his authorized agent on application, and

(*c*) that, from the date on which possession as aforesaid is given, the proprietor who has redeemed the rent of such land will be entitled to hold the land as a rent-free tenure secured against the proprietor to whom the notice is given and against any auction-purchaser at a sale for arrears of revenue, including the Government;

and from such date the land shall be so held as a rent-free tenure.

Collector to register the rent-free tenure.

71. The Deputy Collector shall at the same time give notice to the Collector of the district of the creation of such tenure, and the Collector shall thereupon cause such tenure to be specially registered in the manner provided by section 42 of Act XI of 1859 (*an Act to improve the law relating to sales of land for arrears of revenue in the Lower Provinces under the Bengal Presidency*) or by any similar law for the time being in force.

Drawing of lots for equal shares.

72. When two or more of the separate estates consist of the same proportions of the parent estate, the Deputy Collector may, if he thinks proper, direct the parties entitled thereto respectively to draw lots in his presence for the equal separate estates which have been formed by assignment of land,

unless the recorded proprietors of the equal shares agree among themselves as to the allotment of the equal separate estates and present a petition to that effect, or

unless for any other reason the Deputy Collector, with the sanction of the Collector, thinks proper to assign the equal separate estates to the proprietors of the equal shares without causing lots to be drawn.]

Order and method of drawing lots when aggregate of two or more shares equals one other share, or equals the aggregate of two or more other shares.

73. (*1*) When the aggregate of two or more shares equals one other share, or equals the aggregate of two or more other shares, the Deputy Collector, with the sanction of the Collector, may cause such aggregate shares to be treated as one share for the purpose of

(Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy.—Section 73.)

determining by lots as aforesaid which portion of the parent estate shall be assigned to each proprietor as his separate estate;

and may decide which shares shall be formed into one aggregate share for the purpose of causing such lots to be drawn;

and may cause lots to be drawn in like manner as often as he thinks proper for such purpose.

(2) After lots have been drawn once (or more than once if necessary) as aforesaid, the Deputy Collector shall proceed to divide the portion of the parent estate which has fallen by lot to each aggregate share, among the proprietors of the different shares which were formed into such aggregate share for the purpose of drawing lots, and shall assign to every such proprietor his separate estate within such portion in such position as the Deputy Collector may think proper.

Illustrations.

I.—The partition of a parent estate is being made into the following shares:—

8 annas.	3 annas.
4 annas.	1 anna.

For the purposes of drawing lots, the 4 annas, 3 annas and 1 anna shares may be taken together, and considered to be an aggregate 8 annas share.

The Deputy Collector will divide the parent estate into two halves of equal value, and will then cause lots to be drawn, in order to determine which of the two halves shall be assigned to the proprietor of the integral 8 annas share, and which shall be divided among the proprietors of the 4 annas, 3 annas and 1 anna shares.

Subsequently, if necessary, the Deputy Collector may again cause lots to be drawn by the proprietor of the 4 annas share on the one hand and the proprietors on the other hand of the aggregate share made up by taking together the 3 annas share and the 1 anna share.

II.—The partition is being made of a parent estate into the following shares:—

6 annas.	3 annas.
4 annas.	2 annas.
	1 anna.

Two tracts in the estate may first be marked off, the value of each being equivalent to a 6 annas share; and then, for the purpose of drawing lots in respect of the assignment of these two tracts, the 4 annas share and the 2 annas share may be taken together as an aggregate 6 annas share, and lots may be drawn between the proprietor of the aggregate 6 annas share so formed on the one hand, and the proprietor of the integral 6 annas share on the other.

One of the two 6 annas tracts having thus been finally assigned to the proprietor of the integral 6 annas share, the Deputy Collector will proceed to assign the rest of the estate among the remaining sharers; and he may again, for the purpose of causing lots to be drawn, mark off two tracts, the value of each of which shall be equivalent to 5 annas of the parent estate, and may cause lots to be drawn for these two tracts between the proprietors of the 4 annas share and the 1 anna share taken together as an aggregate 5 annas share on the one hand, and the proprietors of the 3 annas share and the 2 annas share taken together as another 5 annas share on the other.

Finally, their separate estates will be assigned to the proprietor of the 4 annas share and of the 1 anna share respectively, within the tract which fell to them jointly by lot; and their separate estates will be assigned to the proprietors of the 3 annas share and of the 2 annas share respectively within the tract which fell to them jointly by lot.

(Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy.—Lands held in severalty.—Sections 74—76.)

Deputy Collector may require proprietors to attend or appoint agent for the purpose of drawing lots.

74. The Deputy Collector may, by notice, require any proprietor, in respect of whose share lots are to be drawn as provided in section 72 or section 73, to attend at the office of the Deputy Collector in person or by authorized agent, at a time to be fixed by the Deputy Collector, for the purpose of drawing lots;

and may similarly require the proprietors of any shares which he may have ordered to be formed into an aggregate share for the purpose of drawing lots, jointly to appoint an agent to draw lots on their joint behalf; and if at the time fixed for drawing such lots, such proprietors have failed to agree to any such joint appointment, or fail to cause the attendance of an agent authorized to act jointly for all such proprietors, all such proprietors shall be deemed to have failed to comply with the Deputy Collector's requisition.

In default, Deputy Collector may appoint a person to draw lots.

75. If any proprietor or proprietors fail to comply with a requisition of the Deputy Collector under section 74, the Deputy Collector may appoint a person to draw lots on behalf of such proprietor or proprietors.

Lands held in severalty.

Partition according to separate possession, and apportionment of land-revenue.

76. (*1*) When the lands of an estate have been divided by private arrangement formally made and agreed to by all the proprietors, and each proprietor is, in pursuance of such arrangement, in possession of separate lands held in severalty as representing his interest in the estate, the joint application presented under section 7 may be to the effect—

(*a*) that a partition of the estate be made by assigning to each proprietor or to two or more proprietors jointly, as his or their separate estate or estates, the lands of which they are in separate possession in pursuance of such arrangement, and

(*b*) that each separate estate so formed be made liable for such portion of the entire land-revenue of the parent estate as was paid by the proprietor or proprietors thereof under the private arrangement aforesaid.

(*2*) The Deputy Collector who is appointed to carry out the partition in accordance with such application shall satisfy himself that the assets of each separate estate which it is proposed to form will be sufficient to secure the payment of the annual amount of land-revenue for which it is proposed to make such separate estate liable.

(*3*) If the Deputy Collector is not satisfied that the assets of each such separate estate will be sufficient as aforesaid, or that, with reference to the circumstances of the case, the partition of the land and the assessment of the land-revenue

(Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in severalty.—Lands held in common tenancy and Lands held in severalty.—Sections 77—80.)

thereon may be made in the manner proposed without endangering the safety of the land revenue, he shall reject the application, unless all the recorded proprietors agree that the land-revenue for which the parent estate is liable shall be apportioned among the separate estates so to be formed in such a manner that the safety of the total amount of the land-revenue shall not be endangered.

Lands of which each proprietor is in possession to be allotted to him.

77. Whenever the Deputy Collector who is appointed to carry out a partition finds that, in pursuance of a private arrangement formally made and agreed to by all the proprietors of an estate, the proprietors respectively, or any of the proprietors, are in possession of separate parcels of land held in severalty as representing portions only of their respective interests in the parent estate, while other land of the parent estate is held in common tenancy between such proprietors, then, notwithstanding anything contained in section 7, a joint application shall not be required, and the Deputy Collector shall allot to the separate estate of each proprietor the land of which such proprietor is found to be in possession in severalty in accordance with such private arrangement.

Explanation.—Land held in the occupation of the several proprietors of an estate as sir, khamar or nij-jote, or under any other similar denomination, shall not be deemed to be land held in severalty as representing portions of their respective interests in the parent estate within the meaning of this section, which applies only to cases in which there has been a *bonâ fide* division, by private arrangement among the proprietors, of land held by tenants.

Collector may cause transfer of lands agreed to by parties.

78. Notwithstanding anything in section 77, the Collector may cause any transfer of land agreed to by the parties to be made from the possession of one proprietor to that of another.

Lands held in common tenancy and Lands held in severalty.

Places of worship, etc.

79. Places of worship, burning-grounds and burial-grounds which have been held in common previous to the partition of an estate, and land of which the proceeds have been assigned by the proprietors jointly for religious, charitable or public purposes, shall continue to be held in common unless the proprietors otherwise agree among themselves, in which case they shall state in writing the agreement into which they have entered, and the Deputy Collector shall enter a note of the agreement in the paper of partition.

Tanks, wells, water-courses, reservoirs and embankments.

80. (*1*) Tanks, wells, water-courses, reservoirs and embankments shall be deemed to be attached to the land for the benefit of which they were originally made.

(*Estates Partition Act—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy and Lands held in severalty.—Sections 81—83.*)

(*2*) In cases in which, from the extent, situation or construction of any such works, it is found necessary that they should remain the joint property of the proprietors of two or more separate estates, the paper of partition shall specify, as far as the circumstances admit, the extent to which the proprietors of each of such estates may make use of the same, and the proportion of the charges for repairs to be borne by them respectively.

Splitting up of tenure or holding and apportionment of rent thereof.

81. (*1*) No tenure or holding shall be split up for the purposes of a partition unless it is reasonably necessary to do so in order to effect an equitable partition.

(*2*) If a tenure or holding be split up as aforesaid, the total existing rent thereof, as ascertained under Chapter VI, shall not be altered, but shall be apportioned among the several parts into which the tenure or holding is divided.

(*3*) When it is proposed to split up a tenure or holding and apportion the rent thereof as aforesaid, the Deputy Collector shall cause a notice to be served on the tenants concerned and, after hearing their objections, if any, may order that the tenure or holding be split up, and that the rent thereof be apportioned as aforesaid.

(*4*) The Deputy Collector shall notify such apportionment to the tenants concerned.

Land held rent-free not to be divided, except with consent of recorded proprietors.

82. When the Deputy Collector finds in a parent estate land which is claimed to be held rent-free and for which no rent is actually paid (whether the proprietors of the estate do or do not claim a right to receive rent from the land), he shall not make any division or assignment of such land among the separate estates, but shall specify in the partition papers and proceedings that such land is left appertaining jointly to all the separate estates which are formed out of the parent estate, in the proportion which each separate estate bears to the parent estate:

Provided that such land or any of it may be allotted among the different separate estates with the consent of all the proprietors of the parent estate.

Land held at fixed rent on permanent intermediate tenure.

83. (*1*) When the Deputy Collector finds in a parent estate any land which is held at a fixed rent on a patni or other permanent intermediate tenure created by all the proprietors of the estate or admitted by all the recorded proprietors to have been so created, he may either—

(*a*) assign such land and the assets thereof entirely to one or more of the separate estates formed out of the parent estate; or

(*b*) leave such land unassigned to any separate estate, and specify in the partition paper and proceedings that the land is left appertaining jointly to all the separate estates which are formed out of the parent estate in the proportion which each separate estate bears to the parent estate.

(*Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy and Lands held in severalty.—Sections 84, 85.*)

(*2*) In the event of such land being so left unassigned, the Deputy Collector shall assign to each separate estate such share of the rent of the tenure as bears the same proportion to the entire rent of the tenure as the separate estate bears to the parent estate.

(*3*) In dealing with a tenure under this section, the Deputy Collector shall take into consideration the extent of the land comprised in the tenure, and all other circumstances of the case.

Land held in common between the proprietors of two or more estates how to be dealt with when one estate is under partition.

84. When any land is held in common between the proprietors of two or more estates, one of which is under partition in accordance with the provisions of this Act, the Deputy Collector shall first allot to the estate under partition a portion of such common land of which the assets are in proportion to the interest which the proprietors of such estate hold in the said common land;

and all the provisions of this Act in respect of the allotment, between the shareholders in one estate, of land which is held jointly by such shareholders, shall, as far as possible, apply to the allotment of the proportionate share of such common land to the estate under partition;

and, in respect of the service of notices, the hearing of objections, and all other procedure in view to such allotment, the proprietors of the estate under partition, and all other proprietors of estates who have an interest in the said common land, shall be deemed to be joint proprietors of a parent estate consisting only of the land so held in common :

Provided that all costs of any division of lands so held in common between the proprietors of two or more estates shall be deemed to be costs of making the partition of the estate which is under partition, and shall be leviable, as provided by this Act, from the proprietors of such estate; and the proprietors of any other estate having an interest in such lands shall not be required to bear any portion of such costs.

When proprietors of other estates may be required to pay a portion of the costs of making a division under section 84.

85. Notwithstanding anything contained in section 84, if it appears to the Collector that the proceedings for any such division have been unnecessarily delayed and the cost of such division enhanced, by obstacles vexatiously put in the way of the completion of such division by any proprietor of any estate other than that under partition, or by want of due diligence on the part of any such proprietor in carrying out any requisition made upon him,

the Collector may direct that such sum as he shall think fit shall be levied from every such proprietor who is responsible for such delay or additional cost;

and every sum so levied shall be taken in diminution of the amount payable by the proprietors of the estate under partition as costs of such partition.

(Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy and Lands held in severalty.—Sections 86—88.)

Allotment made under section 84 to be submitted to the Collector.

86. Every allotment made under section 84 shall be submitted for the approval of the Collector, who may confirm, amend or reject the same, and, if he rejects it, may make or direct to be made another allotment.

Land so allotted how to be dealt with.

87. When any allotment made under section 84 has been approved by the Collector, the land so allotted shall be dealt with in every respect as if it were held in common tenancy by such of the proprietors of the estate under partition as were found to hold interests in the common land.

Procedure when dispute or doubt exists as to whether any land forms part of a parent estate.

88. (*1*) If a dispute or doubt is found to exist as to whether any land forms part of a parent estate, the Deputy Collector shall, after due notice to the parties interested, enquire into the fact of possession, and shall report his conclusions to the Collector; and thereupon the Collector shall dispose of the matter as follows:—

(*a*) he may order that the partition case be struck off the file, if such an order appears to him advisable, and whether the possession of the disputed land is with the proprietors of the parent estate or otherwise; or

(*b*) he may order that the partition shall proceed, and that the disputed land be treated as part of the estate under partition, if the possession of such land is with the proprietors of the parent estate and the claim of the other parties to the right in such land appears to him untenable; or

(*c*) he may order that the partition shall proceed, but that the disputed land shall not be treated as part of the estate under partition, if the possession of such land is with the other parties and the claim of the proprietors of the parent estate to the right in such land appears to him untenable:

Provided as follows:—

(i) if a claim to land alleged to be in dispute is filed after the Deputy Collector proceeds under section 57 to determine how the lands of the parent estate shall be partitioned into the separate estates, the claim shall not be enquired into under this section unless the delay on the part of the claimant is explained to the satisfaction of the Deputy Collector;

(ii) no partition shall be made in any case mentioned in this section if such partition would involve the assignment to any separate estate of such a quantity of the disputed land that the removal of such land from such estate at any subsequent time would, in the opinion of the Collector, endanger the safety of the land-revenue for which such estate would be liable after the partition.

(*2*) If a partition case is struck off the file under clause (*a*) of this section, no fresh application for partition shall be admitted unless and until the applicant shows that the dispute or

(Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy and Lands held in severalty.—Chapter X.—Procedure before the Commissioner up to the Completion of a Partition.—Sections 89, 90.)

doubt aforesaid has been decided by a Court of competent jurisdiction, or has been amicably settled; but, if a fresh application is admitted, the proceedings shall be revived from the point at which they were interrupted.

Procedure when partition completed in pursuance of order under section 88, clause (*b*), and proprietor of an estate dispossessed of any land by decree.

89. If, after a partition has been completed in pursuance of an order passed by the Collector under section 88, clause (*b*), the proprietor of any separate estate is dispossessed by a decree of a Court of competent jurisdiction of any land which has been assigned to his estate by the partition,

the partition shall not be disturbed, but such proprietor shall be entitled to recover from the proprietors of the other separate estates formed by the partition such compensation as may be fair and equitable, having regard to the reduction in the proportionate value of his separate estate which is caused by such dispossession;

and such compensation may be recovered in a Court of competent jurisdiction from the proprietors of those separate estates on which a proportionate share of the total loss caused by the dispossession does not fall.

CHAPTER X.

PROCEDURE BEFORE THE COMMISSIONER UP TO THE COMPLETION OF A PARTITION.

Procedure if proceedings require amendment or if appeal or objection presented.

90. (*1*) If it appears to the Commissioner that the proceedings of the Collector should be amended, or if an appeal or objection is presented within the time allowed by section 61, the Commissioner shall, by order, fix a day (not being less than thirty days from the date of such order) for hearing and disposing of the case, and shall cause notice of such day to be served through the Collector on all the parties.

(*2*) On the day so fixed, or on any subsequent day to which the hearing of the case may extend or is postponed by a notice posted up in his own office, the Commissioner shall, after hearing and disposing of all appeals and objections, and calling for any further information which he may consider necessary, either confirm the partition as approved or made by the Collector, with or without amendments, or return the papers of the partition to the Collector for any amendments which the Commissioner may think proper to be made.

(*3*) If the papers are returned to the Collector for amendment, the Collector shall proceed to make the required amendments or to cause them to be made in the same manner as if he had himself passed such orders on a partition submitted to him for approval by a Deputy Collector, and shall thereafter return the papers to the Commissioner, who may then confirm the partition.

(*Estates Partition Act.—Chapter X.—Procedure before the Commissioner up to the Completion of a Partition.—Sections 91—94.*)

Procedure in other cases.

91. If it does not appear to the Commissioner that the proceedings of the Collector require amendment, or if no appeal or objection is presented within the time allowed by section 61, the Commissioner may proceed to consider the case without issuing any notice, and may confirm the partition as approved or made by the Collector.

Commissioner may return the papers for amendment or enquiry as often as he thinks fit.

92. The Commissioner may, before confirming a partition, return the papers for amendment or enquiry as often as he thinks fit, and as often as he so returns them the procedure prescribed in the foregoing sections of this Chapter shall be applicable.

Procedure by Collector on receipt of Commissioner's order confirming, or Board's order sanctioning, a partition.

93. (*1*) After the expiration of not less than sixty days from the date of the order of the Commissioner confirming a partition,

or if an appeal has been preferred to the Board, or if any proceedings in respect of the partition be pending before the Board, then on receipt of the final order of the Board, if such order does not set aside but maintains, with or without amendments, the partition as confirmed by the Commissioner,

the Collector shall cause to be published at his office, and at some conspicuous place in each of the estates separately constituted by the order of the Commissioner or the Board, as the case may be, a notice that the partition has been confirmed or sanctioned by the Commissioner or the Board, with or without amendments, as the case may be.

(*2*) If the partition as so confirmed or sanctioned involves any amendments which may conveniently be made on any extracts of the partition paper or on any maps which have been prepared and delivered to recorded proprietors under section 59, the Collector shall cause a notice to be served on every recorded proprietor whose estate is affected by such amendments, requiring him to produce such extracts and maps in order that such amendments may be noted on them;

and, if the alterations made in the partition as so confirmed or sanctioned be such as to make it desirable to prepare fresh extracts or maps as aforesaid, the Collector shall cause such fresh extracts or maps to be prepared; and shall cause a notice to be served on each proprietor declaring the extract and map which was delivered under section 59 to be cancelled, and requiring him to take out of the Collector's office the fresh extract or map which has been prepared.

Procedure as to giving possession of separate estates.

94. (*1*) The Collector shall then proceed to give the several proprietors possession of the separate estates allotted to them, and, if necessary, may require the assistance of the Magistrate in giving such possession;

and shall cause to be served on every recorded proprietor of a separate estate a notice—

(*a*) informing him that from the date specified in such notice the separate estate assigned to him, as described in the extract from the partition paper prepared and delivered or tendered to him

(Estates Partition Act.—Chapter X.—Procedure before the Commissioner up to the Completion of a Partition.—Chapter XI.—Miscellaneous.—Sections 95—99.)

under section 59 or section 93, as the case may be, will be deemed to be separated from the parent estate, and to be separately liable for the amount of land-revenue specified in the notice, and

(*b*) calling upon him to enter into a separate engagement for the payment of such land-revenue.

(*2*) The date specified in such notice shall be not more than three months after the proprietors have been given possession of their respective separate estates as provided in sub-section (*1*).

Each separate estate to be borne on the revenue roll and General Register as separately liable for the land-revenue assessed upon it.

95. From the date specified in such notice, each separate estate shall be borne on the revenue roll and General Register of the Collector as a distinct estate separately liable for the amount of land-revenue assessed upon it under this Act, and shall be so liable whether or not the proprietor has entered into a separate engagement for the payment of the amount of land-revenue so assessed upon the estate.

Boundary marks.

96. (*1*) The Collector may direct the erection of such boundary marks as he thinks proper, to distinguish the lands of each separate estate; and the cost of such boundary marks shall be deemed to be costs of the partition.

(*2*) Boundary marks so erected shall be assigned to zamindars, or to zamindars jointly with tenure-holders, for preservation, as provided in the third clause of section 29 of the Bengal Survey Act, 1875; and, after they have been so assigned, the provisions of sections 19, 20 and 52 to 57 (both inclusive) of the said Act shall apply in the case of such boundary marks. Ben V of 1875.

CHAPTER XI.

MISCELLANEOUS.

Powers of Deputy Collector as to production of documents and attendance of witnesses.

97. For the purposes of any enquiry under this Act, the Deputy Collector shall, in addition to the powers specifically conferred upon him by this Act, have the powers conferred by Chapters X and XIV of the Code of Civil Procedure for compelling the production of documents and enforcing the attendance of witnesses. XIV of 1882.

General power to refer arbitration.

98. The Deputy Collector, with the consent of all the parties concerned, may refer to arbitration any point arising in the course of a partition; and the provisions of sections 52, 53 and 54 shall, as far as possible, be applicable to such references.

Saving of tenures, leases and encumbrances.

99. If any proprietor of an estate held in common tenancy and brought under partition in accordance with this Act has given his share or a portion thereof in patni or other tenure or on lease, or has created any other encumbrance thereon, such tenure, lease or encumbrance shall hold good as regards the lands finally allotted to the share of such proprietor, and only as to such lands.

(Estates Partition Act.—Chapter XI.—Miscellaneous.—Sections 100—102.)

Illustrations.

I.—A, the proprietor of a quarter share in a joint-undivided estate held in common tenancy, gives to B a patni tenure of the whole of his interest in the estate, entitling B, as long as such estate is held in common tenancy, to collect one-fourth of the rent payable by every raiyat on the estate ; and

partition of the said estate is made under this Act, and certain specific lands are assigned to A as his separate estate.

B will become patnidar of the entire separate estate which has been assigned to A, and will be entitled to collect the whole of the rents from the raiyats on that estate.

II.—A, a proprietor of a quarter share in a joint-undivided estate held in common tenancy, gives to B a patni tenure of one-half of his share in the estate, entitling B, as long as such estate is held in common tenancy, to collect one-eighth of the rent payable by every raiyat on the estate ; and

partition of the estate is made under this Act, and certain specific lands are assigned to A as his separate estate.

B will become patnidar of one-half of A's separate estate, and will hold his patni in common tenancy with the half of A's interest which A has not given in patni, so that B will be entitled to collect one half of the rent payable by every raiyat on A's estate, and A will be entitled to collect the other half.

Uniting of estates.

100. (*1*) If two or more estates come into the possession of one proprietor or of the same body of proprietors, such proprietor or body of proprietors may, after being recorded as proprietors, apply to have the estates united and to hold them as a single estate.

(*2*) Every such application shall be made in writing to the Collector, and the Collector shall, if he sees no objection to doing so, comply with it not less than thirty days after the publication of a notification thereof, and shall then cause the necessary entries to be made in the records of his office and report the case to the Commissioner.

If separate estate falls into arrear, Collector to enquire into cause and report to Commissioner.

101. If any separate estate created under this Act falls into arrear so as to necessitate a sale of the land for the discharge of the arrear at any time within six years from the date of the confirmation or sanction of the partition by the Commissioner or the Board, as the case may be,

the Collector shall, if possible, ascertain the cause of the estate having fallen into arrear, and shall enquire whether the same is due to any fraudulent or erroneous allotment of the assessment or assignment of lands at the time of the partition, and shall make a report upon the case to the Commissioner for such action as the Commissioner may think proper.

Power of Lieutenant-Governor to order a new allotment of the land-revenue.

102. If it is proved to the satisfaction of the Lieutenant-Governor at any time within six years from the date of the confirmation or sanction of a partition by the Commissioner or the Board, as the case may be, whether or not upon enquiry made under section 101, that through any fraud or error at the time of making the partition the assets of the lands assigned to any separate estate were not in proportion to the amount of land-revenue for which such estate was made liable, or that the amount of land-revenue assessed on any separate estate was not in proportion to the assets of the lands assigned to such estate,

(Estates Partition Act.—Chapter XI.—Miscellaneous.—Sections 103—105.)

the Lieutenant-Governor may order a new allotment of the land-revenue upon the separate estates in accordance with the principles prescribed in this Act, on an estimate of the assets of each such estate as they stood at the time of the partition, such estimate being made on such evidence and information as may be procurable.

Power to require proprietors of under-assessed estates to make refund to proprietors of over-assessed estates.

103. (*1*) Whenever the Lieutenant-Governor passes an order under section 102 for the re-allotment of the land-revenue on any separate estate, he may direct that the proprietors whose estates are found to have been under-assessed shall, for each year during which they have held possession of the separate estates, be required to pay, to the recorded proprietors of the estates which have been over-assessed, a sum equal to the annual amount in which the latter are found to have been over-assessed; and in default of payment such sum shall be recoverable as provided in section 108.

(*2*) No order passed by the Lieutenant-Governor under sub-section (*1*) shall be liable to be contested in any Court.

Publication of notifications.

104. Every notification required by this Act to be published shall, unless it is otherwise specially directed, be published by posting up copies of the same—

(*a*) at the office of the Collector,

(*b*) at the office of the Deputy Collector who is to make, is making or has made the partition,

(*c*) at the village office or village offices, if any, of the proprietors of the parent estate, and

(*d*) in one or more of the principal villages in the said estate.

Service of notices.

105. (*1*) Any notice required by this Act to be served on any person may be served—

(*a*) by delivering the notice to the person to whom it is directed, or, on failure to effect such delivery, by posting it on some conspicuous part of the house in which the said person usually resides; or

(*b*) by sending a registered letter, containing the notice, to such person, directed to the address, if any, which he has registered under this Act; or

(*c*) by delivering the notice to a general agent of the person to whom it is directed, or to any person who has been appointed in that behalf, or who has been appointed an agent of the person to whom the notice is directed for the general purposes of any partition under this Act; or

(*d*) by affixing a copy of the notice at the village office of the person to whom the notice is directed;

or, if no such village office be found, and if the notice cannot be served in any of the other modes mentioned in this section, by affixing a copy of the notice on some conspicuous place on the estate to which the notice relates.

(*2*) Where two or more persons are joint applicants for the separation of an estate to be held by them jointly as a separate estate, the service of a notice, in any of the modes mentioned in sub-section (*1*), on any one of such joint applicants shall be deemed to be good and sufficient service on both or all of them.

(Estates Partition Act.—Chapter XI.—Miscellaneous.—Sections 106—110.)

Mistakes and irregularities not to vitiate proceedings.

106. If the directions of this Act are in substance and effect complied with, no proceedings thereunder shall be affected—

(*a*) by reason of any mistake or informality unless any person has suffered, or is in danger of suffering material injury in consequence of such mistake or informality; or

(*b*) by reason of the omission to publish any notification required by this Act, or to serve any notice on any person whose name is not recorded on the Collector's registers as proprietor of the estate in respect of which the notice is required by this Act to be served.

Fine in case of non-compliance with requisition.

107. If any proprietor or other person fails to comply, within the time fixed therefor by notice, with any requisition made upon him under this Act by the Collector or Deputy Collector, the Collector or Deputy Collector, as the case may be, may impose upon him such daily fine as he may think fit, not exceeding fifty rupees;

and such fine shall be payable daily until the requisition is complied with;

and the Collector or Deputy Collector, as the case may be, may proceed from time to time to levy the amount which has become due in respect of any such fine:

Provided that, whenever the amount payable exceeds five hundred rupees, the Collector shall report the case specially to the Commissioner, and no further levy in respect of the fine shall be made otherwise than by the authority of the Commissioner.

Fees, &c., to be recoverable as public demands.

108. Except as herein otherwise expressly provided, all fees, fines, costs and other sums ordered under this Act to be paid by any person shall be deemed to be public demands, and shall be recoverable under the Public Demands Recovery Act, 1895. Ben. I of 1895.

Powers and functions of Deputy Collector may be exercised by Collector.

109. All or any powers and functions which are assigned by this Act to a Deputy Collector may be exercised and discharged by the Collector;

and whenever it is provided by this Act that any act done or order made by a Deputy Collector shall require the sanction of the Collector, or shall be appealable to the Collector, then if such act has been done, or such order has been made, by the Collector, it shall be deemed to have been sanctioned by the Collector or to have been confirmed by the Collector in appeal, as the case may be.

Power to vest Collector or Deputy Collector with settlement powers.

110. (*1*) The Lieutenant-Governor may vest any Collector or Deputy Collector with all or any of the powers which, under the provisions of any law for the time being in force, might be exercised by them respectively, or might be conferred on them respectively, if they were making a settlement of a parent estate.

(*2*) Such powers may be conferred either generally in respect of all estates in the partition of which the Collector or Deputy Collector may at any time and in any district be engaged, or specially in respect of any particular estate.

(Estates Partition Act.—Chapter XI.—Miscellaneous.—Sections 111, 112.)

Appeals to the Collector, and admission by him of objections.

111. (*1*) An appeal, if presented within one month from the date of the order appealed against, shall lie to the Collector against every order of a Deputy Collector—

(*a*) directing, under section 39, by whom or how the costs of an enquiry held in consequence of an objection raised shall be paid;

(*b*) made under section 47, sub-section (*3*), declaring what entry in a record of existing rents and other assets of land shall be accepted for the purposes of the partition;

(*c*) made under section 50, adopting a record of existing rents and other assets of land;

(*d*) refusing, under section 51, to allow recorded proprietors to make a partition privately among themselves or by arbitration;

(*e*) rejecting, under section 76, sub-section (*3*), an application for partition according to separate possession;

(*f*) directing, under section 81, sub-section (*3*), that a tenure or holding be split up, and that the rent thereof be apportioned; or

(*g*) imposing a fine under section 107.

(*2*) Objections to any other orders passed by the Deputy Collector shall only be admitted by the Collector if made when he proceeds to consider a partition under section 58.

Appeals to the Commissioner, and admission by him of objections.

112. (*1*) An appeal, if presented to the Commissioner, or to the Collector for transmission to the Commissioner, within one month from the date of the order appealed against, shall lie to the Commissioner against every order of a Collector (whether such order be passed by the Collector in the first instance or in appeal from the order of a Deputy Collector)—

(*a*) rejecting an application for the partition of an estate, or for the separation of a share, or putting an end to proceedings for effecting a partition or separation after the application has been admitted;

(*b*) directing, under section 29, that an application for partition or separation be admitted;

(*c*) directing, under section 38, that any proprietor shall pay more than his proportionate share of the cost of a partition;

(*d*) made under section 50, adopting a record of existing rents and other assets of land;

(*e*) refusing, under section 55, to approve a partition made by proprietors or by an arbitrator or arbitrators;

(*f*) refusing to allow a partition to be made under section 76 in accordance with separate possession;

(*g*) directing, under section 85, that any sum exceeding five hundred rupees shall be levied from the proprietor of an estate not under partition;

(*h*) confirming, amending or rejecting, under section 86, an allotment made under section 84;

(*i*) made under section 88, when a dispute or doubt exists as to whether any land forms part of a parent estate;

(*j*) imposing or confirming the imposition of a fine under section 107; or

(*k*) imposing any fine amounting to more than fifty rupees, or directing the payment of any costs amounting to more than fifty rupees.

(Estates Partition Act.—Chapter XI.—Miscellaneous.—Sections 113, 114.)

(2) Objections to any other orders passed by the Collector shall only be admitted by the Commissioner if made when he proceeds to consider a partition under section 90 or section 91.

Appeals to the Board.

113. An appeal, if presented to the Board, or to the Commissioner for transmission to the Board, within six weeks from the date of the order appealed against, shall lie to the Board against every order of the Commissioner—

(*a*) confirming, modifying or reversing any order of the Collector rejecting an application for the partition of an estate, or putting an end to proceedings for effecting a partition after the application has been admitted;

(*b*) confirming, modifying or reversing any order of the Collector directing, under section 29, that an application for partition be admitted;

(*c*) confirming or amending a partition as approved or made by the Collector; or

(*d*) imposing, or confirming the imposition of, any fine amounting to five hundred rupees, or ordering, or confirming an order directing, the payment of any costs amounting to more than five hundred rupees.

Limitation of appeals; revision by Board; further appeal to Board.

114. (1) Except in the cases mentioned in section 113, when an order of a Collector, whether passed by him in the first instance or in appeal from the order of a Deputy Collector, is upheld by the Commissioner, no further appeal shall lie; but the Board, acting either on the application of the party aggrieved or of their own motion, may call for the record of the case and pass such order as they think fit.

(2) When an order of a Collector, whether passed by him in the first instance or in appeal from the order of a Deputy Collector, is modified or reversed by the Commissioner, a further appeal shall lie to the Board in the following cases only, namely, when the order of the Collector was one—

(*a*) directing, under section 38, that any proprietor shall pay more than his proportionate share of the cost of a partition, when the excess which he is ordered to pay exceeds five hundred rupees;

(*b*) made under section 50, adopting a record of existing rents and other assets of land;

(*c*) directing, under section 85, that any sum exceeding five hundred rupees shall be levied from the proprietor of an estate not under partition; or

(*d*) confirming, amending or rejecting, under section 86, an allotment made under section 84.

(Estates Partition Act.—Chapter XI.—Miscellaneous.—Sections 115—119.)

Stay of proceedings pending appeal or revision.

115. When an appeal is presented under section 111, section 112 or section 113, or when the Board calls, under section 114, sub-section (*1*), for the record of a case, the proceedings shall not be stayed pending the appeal or revision unless the appellate or revising authority so directs.

Revision of proceedings connected with giving possession.

116. (*1*) Any proceedings of a Deputy Collector, Collector or Commissioner connected with giving possession to the proprietors of their respective separate estates in pursuance of section 94 may be set aside or amended by the Collector, Commissioner or Board, as the case may be, provided that the revising authority shall, within three months from the date on which such possession has been given, make an order to the effect that such proceedings are under its consideration.

(*2*) Every such order shall, when made by the Commissioner or the Board, be communicated to the Collector of the district, and the Collector shall cause all such orders to be published by notification.

Orders as to costs on appeal.

117. The Collector, the Commissioner and the Board respectively may pass such orders as they think fit in respect of the payment of the costs of any appeal which is made to them respectively under this Act.

Powers of officers exercising jurisdiction under this Act with regard to false evidence or forgery.

118. If, in any case in which a Collector or other officer exercises jurisdiction under this Act, any person is guilty of the offence of giving or fabricating false evidence, or of forgery, as defined in the Indian Penal Code, or of abetting any of those offences, such Collector or other officer shall have the same powers in respect of such offence, and of the person charged with committing the same, as are vested by the Code of Criminal Procedure, 1882, in a Civil Court when any such offence is committed before or against such Court, or when a document believed to be a forgery is given in evidence in any proceedings in such Court.

XLV of 1860.

X of 1882.

Certain orders under this Act not liable to be contested or set aside by civil suit.

119. No order—

(*a*) refusing to admit an application for partition, or to carry out a partition, on any of the grounds mentioned in section 11; or

(*b*) made under section 20, section 30, Chapter V, Chapter VII, Chapter VIII, Chapter IX (except section 81), Chapter X, section 107 or section 117,

shall be liable to be contested or set aside by suit in any Court, or by any means other than those expressly provided in this Act:

Provided that—

(*i*) any person claiming a greater interest in lands which were held in common tenancy between two or more estates than has been allotted to him by an order under section 84 or section 86; or

(*ii*) any person who is aggrieved by an order made under section 88,

may bring a suit in a Court of competent jurisdiction to modify or set aside such order.

(Estates Partition Act.—Chapter XI.—Miscellaneous.—Sections 120, 121.)

Board to be guided by orders or instructions of Lieutenant-Governor

120. In the execution of the duties imposed on the Board by this Act, the Board shall be guided by such orders or instructions as they may from time to time receive from the Lieutenant-Governor.

Power of Board to make rules.

121. The Board may from time to time, with the previous sanction of the Lieutenant-Governor, make rules,—

(*a*) prescribing, in pursuance of section 18, clause (*g*), particulars to be contained in applications for partition;

(*b*) for regulating the appointment of persons under section 35 and the scale of their remuneration, and for enabling an officer making a partition to keep himself informed of the proceedings of such persons and to exercise a proper control over them;

(*c*) for determining the costs of partitions;

(*d*) for fixing, for the purposes of section 37, the instalments in which and the times at which the cost of making partitions shall be levied from proprietors;

(*e*) for fixing a general scale of fees for the levy of charges from proprietors of estates under partition, when the formation of an Estates Partition Fund has been directed under section 42;

(*f*) for fixing the instalments in which and the times at which the said fees shall be levied from proprietors;

(*g*) generally, for regulating the receipts, disbursements and management of any Estates Partition Fund formed under the said section 42;

(*h*) prescribing what entries in the record of existing rents and other assets shall be read out and, when necessary, corrected or added to, under section 47, sub section (*2*);

(*i*) prescribing the manner in which and the period for which copies of survey papers and records of existing rents and other assets shall be published under section 48;

(*j*) prescribing the entries in survey papers or records of existing rents and other assets of which copies shall be furnished to landlords and tenants under the said section 48;

(*k*) prescribing the form of partition papers to be delivered under section 53 or prepared under section 57; and

(*l*) generally, for the guidance of officers in conducting partitions or making a survey and preparing a record of existing rents and other assets of land under this Act.

Sunken rocks north-eastward of Tanna Keke island.

THE British Admiralty has given notice (No. 651 of 1897) of the existence of the undermentioned rocks north-eastward of Tanna Keke island:—

1. A rocky patch, about 3 cables in diameter, with a depth of 2 fathoms on it, in a position with Sandraboni southern house bearing E. ¼ N., distant 2$\frac{3}{10}$ miles; and Mangandarie northern house N. ¼ E.
   Approximate position on Chart No. 1293, lat. 5° 26′ 45″ S., long. 119° 20′ 5″ E.
2. A rocky patch, with a depth of 3 fathoms on it, in a position bearing W. by N. ¾ N. distant 3$\frac{8}{10}$ cables, from rock (1).
   The white, *nun* buoy, previously moored about half a mile north-westward of rock (2), has been moved to the western side of that rock.
   A danger line has been drawn on the chart to include both the above rocks within it

Particulars of Cheribon light-vessel.

WITH reference to Notice to Mariners No. 205, dated the 28th October, issued by this office, the British Admiralty has given further notice (No. 652 of 1897) that on 15th September 1897, Cheribon light-vessel was moored eastward of Tanah reef, Cheribon bank.

Cheribon light-vessel shows an *occulting* light with a period of *twenty-five seconds*, thus:—light *fifteen seconds;* eclipse, *ten seconds;* elevated 33 feet above the sea, and visible in clear weather from a distance of 9 miles.

The light-vessel is painted red, with the word *Cheribon* in white letters on each side; and iron frame-work support, 29 feet high, carrying the light apparatus and a bell, stands amidships.

The light-vessel is moored in a depth of 5¼ fathoms at low water, in a position with Tanah point bearing W. ¼ N., distant 10¾ miles; and Bangka point S. ¼ W.

Approximate position, lat. 6° 29′ 50″ S., long. 108° 42′ 50″ E.

Also, that the northern white *nun* buoy, previously moored at the north-east edge of Tanah reef, has been withdrawn.

Shoals off Lowrie island (No. VIII, Claremont).

THE Portmaster, Brisbane, has given notice (No. 19 of 1897) that Lieutenant Glennie, R.N., commanding H. M. surveying ship *Dart*, reports the existence of small coral patches in the following approximate positions, viz:—

From a coral patch with a minimum depth of 5½ fathoms at L.W.S over it, the—
Centre of Binstead Island bears N. 62° 30′ W., distant $3\frac{9}{10}$ miles;
Centre of Lowrie Island bears S. 47° W., distant $2\frac{3}{10}$ miles;
Bow Reef Beacon bears S. 42° 45′ E, distant $4\frac{3}{10}$ miles.

It lies directly on the track recommended and is of small extent.

A coral patch of small extent, with a minimum depth of 8 fathoms at L.W.S., was found to lie N. by E., distant 5½ cables from the above.

From a coral patch with a minimum depth of 4¾ fathoms at L.W.S., the—

Centre of Binstead Island bears N. 43° 45′ W., distant $5\frac{34}{100}$ miles;
Centre of Lowrie Island bears N. 75° W., distant $1\frac{05}{100}$ miles;
Summit of Cape Sidmouth bears S. 9° 30′ W., distant $7\frac{05}{100}$ miles.

This shoal is of very small extent, and has 9 fathoms close to it.

Non-existence of shoal southward of Ras al Ara.

WITH reference to Notice to Mariners No. 12, dated 1st January 1897, issued by this Office on the report of the German steam-vessel *Sophie Rickmers* having touched on soft bottom, in a position with Ras al Ara bearing N. ¾ E., distant about 8 miles; or approximately in lat. 12° 30′ N., long. 43° 54½′ E.:—

The British Admiralty has given further notice (No. 627 of 1897), that the locality has since been closely examined by H.M. Ships *Marathon* and *Redbreast*, with the result that fairly regular soundings of 16 to 20 fathoms were found near the above position, with no indication of a shoal.

The 3 fathoms, shown in that position, has consequently been expunged from the chart.

NOTE.—Although the soundings obtained prove that the shoal ground of Rasal Ara has not extended to the southward, they do show an extension to the westward, there being a depth of one fathom, with 9 to 11 fathoms close south-westward, in a position with Ras al Ara bearing N. ¼ W., distant nearly 3½ miles; or approximately in lat 12° 34¾′ N. long. 45° 55′ E.

Amended particulars of Khandala shoal.

THE British Admiralty has given notice (No. 644 of 1897) that the locality of Khandalla shoal has recently been examined by Lieutenant and Commander W. V. Howard, H.M. Surveying Vessel *Dart*, with the result that two shoals have been found in the vicinity, now named Khandalla shoals, of which the particulars are as follows:—

The positions are given as on Chart No. 2921:—

1. A shoal, about two cables long north and south and one cable broad, with a least depth of 13 feet, coral bottom, on it, and depths of 8 to 9 fathoms, mud bottom, close around; situated in a position with Heath rock beacon bearing S. 10° W., distant nearly 2½ miles; and Cone peak (about 2,000) N. 75° W.

Approximate position, lat. 13° 25′ 55″ S., long. 143° 40′ 20″ E.

2. A shoal, about 2 cables long north and south and one cable broad, with a least depth of 18 feet, coral bottom, on it, and 9 to 10 fathoms, mud bottom, close around; situated N. 27° W., distant about half a mile from shoal (1), or in a position with Heath rock beacon bearing S. 4° W., distant 2¾ miles; and Cone peak N. 77° W.

NEW ZEALAND.

Exhibition of light on Rocky point, near cape Palliser.

THE Marine Department, Wellington, N. Z., has given notice (No. 17 of 1897) that on and after Wednesday, the 27th October 1897, a light will be exhibited from sunset to sunrise from the lighthouse which has been erected on Rocky Point, near Cape Palliser, the position and characteristics of which are as follow:—

Rocky Point is situated in latitude 41° 36′ 45″ S., and longitude 175° 18′ 45″ E., as measured from the Admiralty chart.

The tower is constructed of cast-iron, and has a concrete base. The total height from the bottom of the base to the top of the lantern is 58 ft. It is situated 640 ft. distant from high-water mark, at an elevation of 210 ft. above the level of the sea, and is painted white.

The light will be 258 ft. above sea-level at high water, and is a dioptric revolving white light of the second order, flashing twice every half-minute, with intervals of three seconds between the flashes. It will be visible to seaward over an arc of the horizon of about 214°, or as far as the land will allow, and should be seen in clear weather about twenty-five statute miles from the deck of a vessel of ordinary height.

CAUTION.—It is anticipated that Cape Palliser light will be visible from the sea between the following bearings: namely, from E. ¼ N. round by south and east to S.W. ¾ W. It will be seen from these bearings that the light shows over the Black Rocks and part of the mainland; therefore mariners are cautioned not to approach within four or five miles of the light until these dangers are passed.

NOTE.—All bearings are correct magnetic.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS OF CALCUTTA, FOR THE YEAR 1896-97.

MUNICIPAL DEPARTMENT.—MUNICIPAL.

Calcutta, the 1st December 1897.

RESOLUTION No. 5085M.

READ—

The Administration Report of the Commissioners of Calcutta for the year 1896-97.

Read again—

The Report for the year 1895-96, and the Resolution recorded by Government thereon.

THE Report, which was due to Government on the 31st July, was received on the 27th August. This is an improvement on previous years, but the Lieutenant-Governor trusts that it may still be found possible to submit the report on the date when it is due.

2. The post of Chairman of the Corporation was held by Mr. J. G. Ritchie up to the 13th April 1896, when he resigned. He was succeeded by Mr. H. C. Williams, who has since proceeded on furlough. Mr. W. R. Bright is at present officiating as Chairman, and the Report under review is submitted by him. There has been no change in the office of Vice-Chairman, which was held throughout the year by Babu Nilambara Mukarji. The post of Engineer

to the Corporation was held by Mr. A. J. Hughes, C.I.E., who succeeded Mr. James Kimber on his retirement in April 1896. The Lieutenant-Governor is glad to take this opportunity of endorsing the high appreciation recorded by the Commissioners of the eminent services rendered by Mr. Kimber during the time he held the post of Engineer to the Corporation. Among the appointed Commissioners, Prince Sir Jehan Kadar Mirza Mahomed Wahid Ali Bahadur, C.I.E., died during the year, and was succeeded by Maulvi Abdul Jubber, Khan Bahadur, C.I.E., and the Hon'ble Sir John Lambert, K.C.I.E., retired, his place being filled by Mr. A. H. James, the present Commissioner of Police. There were also a few changes among the elected Commissioners.

3. *Meetings and attendance of Commissioners.*—The total number of meetings of all kinds held by the Commissioners during the year was 248 against 215 in the previous year. Of these, 45 were general meetings against 51 in the previous year, 57 were meetings of the General Committee, 91 of Standing Committees, 29 of Special Committees, and 26 of Sub-Committees. The number of Commissioners who attended more than 50 meetings was 26 against 33 in the previous year. The Commissioners who attended the largest number of meetings were Mr. J. Ghosal, 165 meetings; Babu Nalin Behari Sirkar, 144; Babu Priya Nath Mullick, 133; the Hon'ble Rai Durgagati Banerji Bahadur, C.I.E., 109; Babu Kali Nath Mitter, 107; and the Hon'ble Babu Surendra Nath Banerji, 105. The average percentage of attendance among the elected Commissioners was 50 against 58 in the previous year, that among the appointed Commissioners 46 against 43, and that among the Commissioners representing the Port Commissioners, the Bengal Chamber of Commerce, and the Calcutta Trades Association combined, 47 against 43 in the previous year.

4. *Proceedings of Commissioners.*—A large number of questions were dealt with by the Commissioners in general meeting, of which the most important were the electric lighting of Calcutta, the introduction of electric tramways into the town, the repairs to the Town Hall, the disposal of the ashes of bodies cremated at the burning ghats, the provision of a new burial-ground for Muhammadans, certain questions regarding the new hospital at Bhowanipur, the adoption of measures for the protection of Calcutta against the bubonic plague, the opening of a dhobikhana, the disposal of the sewage from the Fort, the reorganization of the Warrant Department of the Municipality, and the examination of the pipe-sewers in order to ascertain whether the sub-soil is polluted by leakage from them. The lighting of Calcutta by electricity is a subject which has long been under consideration, and permission has now been given by the Commissioners to certain firms to apply to Government for sanction to introduce electricity into the town under Act IX (B.C.) of 1895. One of these firms, Messrs. Kilburn and Company, applied to the Commissioners for permission to substitute electric tramways for the existing service which is in a most unsatisfactory condition. After a discussion extending over several months, a Committee was appointed to consider and ascertain, in communication with the representives of the Tramway Company, the Indian Electric Company, and such other persons as might be necessary, whether arrangements could be made for the introduction of mechanical traction on the Calcutta Tramways, on terms which should be equitable towards and acceptable to both the Corporation and the other contracting parties, and if so, to frame an aggreement accordingly for ratification by the Commissioners. The matter is still under consideration. The condition of the Town Hall being such as to render it unsafe for any public purpose, it was resolved to put it into thorough repair. A Committee was appointed to consider the question, and on their recommendation the Engineer's estimate, amounting to Rs. 38,000, for reconstructing the roof and carrying out other necessary repairs to the building, was sanctioned. The work was entrusted to Messrs. Burn and Company, and the building was almost ready for use when the earthquake of 12th June 1897 caused considerable damage to it, and further repairs will have to be undertaken. The original repairs, though estimated at Rs. 38,000, have cost over a lakh of rupees. The practice of conveying by carts to Dhappa the ashes of persons cremated at Nimtollah and Kasi Mitter's burning-ghats having been generally condemned, the question of providing some better means of disposing of these

ashes was considered by the Commissioners. It has now been decided, with the consent of the Port authorities, to convey the ashes to a point on the river at the back of the Budge-Budge Sand, opposite the Chucksai khal, and there to throw them overboard on the first of the ebb-tide. The attention of the Commissioners was drawn to the insanitary condition of the Muhammadan burial-grounds at Gobra, New Kasiabagan, Talbagan and Khoyrati Goristhan, which had become a source of danger to the health of the people residing in the neighbourhood. These cemeteries were accordingly closed during the year, and a new cemetery was opened at Gobra for Muhammadan interments. As a part of the scheme for the establishment of a hospital for the south of Calcutta, it was decided that the building occupied by the Sumbhoo Nath Pundit Dispensary should be sold by the Corporation and the sale-proceeds, together with the trust funds, transferred to Government for the maintenance of the new hospital at Bhawanipur. It has since been proposed that some land required for the proper accommodation of the hospital should be made over to Government, and that the entire institution should be called after Sumbhoo Nath Pandit, but on these points no final decision has been arrived at. The appearance of plague in Bombay towards the end of September 1896 rendered it necessary to take steps for the protection of Calcutta, which are discussed in the paragraph dealing with the operations of the Health Department. The new dhobikhana was completed during the year at a cost of Rs. 23,408. A scheme is being prepared by the Military Works Department for the disposal the sewage from the Fort by constructing a pail depôt, in the salient of the covered-way of Clive's Ravelin in the Fort, and connecting it by means of a sewer with the municipal sewer at Dharamtala. The reorganization of the Warrant Department of the Municipality was considered during the year by a special Sub-Committee, whose report has since been laid before the Commissioners. The Lieutenant-Governor trusts that the Commissioners will lose no time in coming to a definite decision in the matter, and that they will consider the suggestion, made in paragraph 8 of the Resolution on the Report for 1895-96, that notices of demand should be issued at an earlier stage in the proceedings for recovering rates. The question of the alleged pollution of the sub-soil in the town by leakage from the sewers was inquired into by a Special Committee appointed for the purpose. Twelve house-connections in each of 17 wards were opened and inspected, with the result that in 45 out of 204 leakage was perceptible. It is not stated, however, whether the leakage was of such a character as to pollute the soil or to what extent actual pollution had taken place. The Committee have recommended the more frequent flushing of the sewers to avoid deposits of sewage.

5. *Loans.*—At the commencement of the year the loan liability of the Corporation stood as follows:—

	Rs.	A.	P.
Unpaid balance of 6 per cent. Debenture Loan of 1866	5,000	0	0
5 per cent. Debenture Loans	1,44,01,900	0	0
4½ " "	30,48,800	0	0
4 " "	18,00,000	0	0
	1,92,55,200	0	0
Balance of Consolidated Loans from Government ...	46,01,367	8	8
Total ...	2,38,56,567	8	8

A new loan of 20 lakhs, bearing interest at the rate of 3½ per cent. per annum and repayable in 15 years, was raised during the year, and Rs. 2,71,611-2-7 of the consoldated loans from Government were repaid, leaving a balance of Rs. 2,55,84,956-6-2 as the loan liability of the Corporation at the close of the year. Against this they had in their reserve funds, and in the special fund for the repayment of the loan of 1866, a total sum of

Rs. 18,34,182-15-10. Since the close of the year the Corporation have obtained the sanction of the Government of India to the raising of a further loan of 20 lakhs, bearing interest not exceeding 4 per cent., and repayable in 21 years.

6. *Income and Expenditure.*—The following statement compares the receipts and expenditure of the Municipality for the past two years :—

The total income exceeded that of the previous year by Rs. 1,27,515, of which Rs. 47,236, Rs. 29,828, Rs. 9,938, and Rs. 9,725 represent increased income under general rate, water-rate, lighting rate and sewage rate, respectively, which is said to be due to the enhancement of assessment on revaluation and to better collections. The balance of the increase was made up under the heads of license and registration fees, fines, conservancy receipts, hospitals, vaccination, and other miscellaneous receipts. The total expenditure exceeded that of the previous year by Rs. 49,177. The increase was due chiefly to more interest having been paid on loans, and to the extraordinary expenditure incurred on conservancy for the purpose of protecting Calcutta from the plague.

7. *Financial position.*—The year opened with a net cash balance of Rs. 2,86,819 at credit of the Revenue Funds, and a net credit balance of Rs. 3,98,464 in the Capital Funds. During the year the total receipts of the Revenue Funds, as shown in paragraph 6 above, amounted to Rs. 47,98,298, and the expenditure to Rs. 48,76,336, leaving a net balance of Rs. 2,08,781 to be carried to account, while the receipts of the Capital Funds, added to the opening balance, amounted to Rs. 26,11,379, and the expenditure to Rs. 10,19,244, leaving a net credit balance of Rs. 15,92,135.

8. *Assessment and collection of the consolidated rate.*—During the year under report the revaluation of houses, lands and bustis in the town, after the disposal of appeals filed under section 135 of the Calcutta Municipal Act, resulted in a net increase of Rs. 2,75,976. The assessed annual valuation of the town on the 31st March 1897 therefore stood at Rs. 2,04,16,541 against Rs. 2,01,40,565, the figure at which it stood on the 31st March 1896. The number of objections against enhanced assessments, including 891, remaining from the previous year was 2,026. Of these 981 were disposed of, leaving 1,045 pending at the close of the year.

The current demand of the consolidated rate was Rs. 38,75,914 against Rs. 38,15,233 in the previous year, showing an increase of Rs. 60,681 due to the revision of assessments. Added to this there was an outstanding balance of Rs. 4,94,616 remaining from the previous year, so that the gross demand for the year was Rs. 43,70,530. The gross collections amounted to Rs. 36,67,467 against Rs. 35,79,462, the amount realized in the previous year. The percentage of collections on the gross demand was 83·91, which represents some improvement on the proportion of 81·40 collected in the previous year. The incidence of the consolidated rate per head of the population of Calcutta was Rs. 5-15-5 against Rs. 5-14 in the previous year, and that of the total municipal taxation Rs. 6-13-10 against Rs. 6-15-0.

9. There was a satisfactory increase in the collections made during the year in the Collector's Department, the amount collected being Rs. 28,07,212, or a percentage of 86·94 on the demand, against Rs. 27,40,685, or a percentage of 85·44, in the previous year. The Joint Collector's Department, however, was not so successful. The collections amounted to Rs. 6,25,655 against Rs. 6,25,358 in the previous year. The percentage of collections on the demand was 82·54 against 83·09. There was an appreciable increase in the realizations of the Warrant Department, the amount realized for consolidated rate-bills being Rs. 2,34,600 as compared with Rs. 2,13,419, the amount realized in the previous year. Since the close of the year the Warrant Department has been reorganized, and it is hoped that this will lead to a great improvement in the collections.

10. *License and Registration Department.*—The following statement compares the gross receipts under the several heads in this department for the past two years:—

	1895-96.			1896-97.		
	Rs.	A.	P.	Rs	A.	P.
I.—Tax on trades and professions ...	3,45,564	12	2	3,44,908	7	9
II.—Tax on carriages and animals ...	1,44,739	8	7	1,49,088	3	3
III.—Cart registration fees	77,616	8	0	80,126	4	0
IV.—Fees for the removal of trade refuse	64,537	2	0	65,818	4	0
V.—License fees for cow-sheds, &c. ...	53	8	0	135	8	0
VI.—Registration fees for hackney carriages, &c.	19,354	6	0	19,455	8	6
VII.—Miscellaneous receipts... ...	1,031	6	0	773	3	0
VIII.—Fines under section 90 of the Calcutta Municipal Act ...	7,283	2	9	7,843	4	0
IX.—Fines under section 80 of the Calcutta Municipal Act ..	1,220	8	0	1,095	0	0
Total ...	6,61,400	13	6	6,69,243	10	6

The total receipts exceeded those of the previous year by Rs. 7,843. The total number of licenses for professions, trades and callings fell from 27,562 to 26,881, and the decline in the yield of the tax is ascribed partly to delays in issuing process and partly to the depressed state of trade during the year. The number of licenses issued for carriages was 5,205 against 5,245, and that for animals 6,273 against 6,877. The number of carts registered was 20,056 against 19,453 in the previous year. The number of hackney carriages registered was 3,636 against 3,607, the increase being in the number of third class carriages.

11. *Survey.*—Forty-one surveys were made and plans drawn up in connection with projects of improvements and boundary disputes and for the sale of land;

and about 298 cases of encroachment and demarcation of boundaries of properties abutting on public grounds, besides 466 miscellaneous cases, were enquired into and reported on.

12. *Market, lighting, and printing.*— The income realized from the Municipal Market declined from Rs. 1,33,883 to Rs. 1,32,233, or by Rs. 1,650, due chiefly to the falling off in the meat-supply and the consequent loss in fees from stalls and for the cartage of meat from the slaughter-house. The profit derived by the Commissioners from the market after paying all expenses amounted to Rs. 1,06,077 against Rs. 1,13,049 realized in the previous year. The new poultry range was completed and occupied during the year, and forms a valuable addition to the market. The number of gas and oil lamps in Calcutta, including the added area, on the 31st March 1897, were 6,391 and 2,061, respectively, against 6,254 and 2,046 on the 31st March 1896. The total cost of lighting in the Town and Suburbs was Rs. 3,92,258 against Rs. 3,91,460 in the previous year, showing an increase of Rs. 798 on account of the increased number of lamps. The electric lighting of Harrison Road, which had broken down owing to the decay of the underground cables, was resumed with overhead conductors, wired in accordance with the regulations of the English Board of Trade. An arrangement has been made with Messrs. Kilburn and Company to work the plant for a yearly payment of Rs. 9,750 The lighting has been satisfactory under the altered conditions. Much work was done in the Printing Department, which brought in a net profit of Rs. 2,581 to the Corporation.

13. *Litigation.*—The number of fresh civil suits instituted by the Corporation during the year was 40, of which 38 were for the recovery of dues, the amount involved being Rs. 22,448. Of the 38 cases 36 were decreed, 1 was compromised, and 1 remained pending at the close of the year. The Corporation also appeared as plaintiff in 25 cases pending from the previous year, and of these 18 were decreed, 3 were compromised, 1 was dismissed, 1 was withdrawn owing to the death of the party, and 2 were left pending. The number of fresh civil suits in which the Corporation appeared as defendant was 6. Of these 1 was decided against and 1 in favour of the Corporation, and the remainder had not been disposed of at the close of the year. There were also 2 cases pending from the previous year, of which 1 was settled by arbitration in favour of the Corporation, and 1 was compromised. The number of cases instituted by the Corporation in the Police Court was 26,778, against 19,785 in the previous year, being an increase of 5,993 cases chiefly contributed by the Conservancy Department, which instituted 4,660 cases more than in the previous year. Of the total number of cases instituted, 13,497 were successful, 630 were dismissed, 6,590 were withdrawn, and 5,061 remained pending at the close of the year. The Commissioners rightly observe that the fines were very small, and so far from having a deterrent effect, are likely to serve as a direct incentive to persons to disregard the provisions. The remedy is probably to be found in the appointment of a Magistrate for the trial of municipal cases under section 422 of the Act. The cost of litigation was Rs. 14,255 against Rs. 22,413 in 1895-96.

14. *Education.*—The amount spent by the Commissioners on primary education during the year was Rs. 2,939, against Rs. 3,250, the amount spent in the previous year. The money was distributed among 69 schools in the several wards of the town. Although the grant has been reduced, the number of schools aided is slightly larger than in the previous year.

15. *Town and busti improvement.*—The total amount expended on town and busti improvements was Rs. 52,576 against Rs. 74,084 in the previous year. The Capital Fund from which this expenditure is met opened the year with a balance of Rs. 41,643. The receipts amounted to Rs. 73,066, and the balance at the end of the year was Rs. 62,133. Of the total expended, Rs. 25,070 represents expenditure on town improvements, which consisted chiefly in the opening of a new road connecting Kumartooly Street with Schalch's Street, the widening of the road south of Dalhousie Square, the improvement of of Council House Street, and the widening and improving of other streets and lands. The remainder was expended on busti improvements, such as the construction of busti roads, bathing platforms, latrines, the filling of tanks, &c. Rs. 3,551 was spent in the improvement of the bustis in Hastings.

16. *Engineer's Department.*—The daily supply of filtered and unfiltered water amounted to 26,169,476 gallons, against 25,977,814 gallons in the previous year. About 1½ miles of pipes were added to the distribution system for filtered water, making the total length of filtered water main 312·06 miles. In addition to this 5,882 feet of 3-inch and 72 feet of 2-inch pipes were laid to extend the water-supply to the new Plague Hospital at Manicktolla. The total number of premises connected was 27,184. The average daily consumption of filtered water was 20,785,655 gallons against 20,284,181 in the previous year, the daily consumption per head being 41·42 gallons in the town and 10 94 gallons in the suburbs. By section 153 of the Act, the Commissioners are bound, so far as may be reasonably practicable, to supply filtered water at a pressure of 10 feet from 6 A.M. to 8 P.M, and at a pressure of 30 feet for two hours in the forenoon and one hour in the afternoon. The mains, however, which were laid down to carry a much smaller discharge, cannot supply more than twenty millions gallons without a serious loss of pressure, and so long as the pumps are occupied in forcing excessive quantities of water through constricted mains, the statutory pressure of thirty feet cannot be kept up. The length of the unfiltered water mains was increased by about 3 miles, and the total length is now 78·78 miles, with which are connected 1,562 premises, 153 public conveniences, 52 bathing-platforms, 305 sewer-flushing chambers, and 2,929 ground hydrants. The daily consumption of unfiltered water per head of the population was 12·47 gallons. Steps have been taken by the Commissioners, on the advice of their Health Officer, to substitute filtered for unfiltered water at all bathing platforms. This will greatly increase the consumption of filtered water, and it is questionable whether the supply will be equal to the demand. The Commissioners should consider whether anything can be done to prevent the water being wasted by persons using the bathing-platforms.

A combined scheme for improving the outfall of the sewers of the Town proper, and for draining the suburbs and the area between the canal and the Circular Road was commenced during the year. Larger pumps are to be fixed at Palmer's Bridge, a new high-level sewer is to be constructed which will meet a high-level sewer intended for the suburban outfall, and the combined sewage of the Town and Suburbs is to be carried in a channel lined with masonry to a new outfall at Bainolla, some miles below the present outfall in the Balliaghata Canal. A main sewer is also to be constructed which will enter from Watgunge on the Hooghly bank, and passing under Tolly's Nala by gravitation, will discharge at a station to be established near the Rifle Range on the Eastern Bengal State Railway. The suburban outfall will be precisely similar to that now working at Palmer's Bridge. There will be two pumping-stations for the suburban main sewer, one at the Budge-Budge road and one at the outfall. The foundation-stone of the drainage works was laid by the Lieutenant-Governor, Sir Alexander Mackenzie, on the 26th November 1896. The temporary project for the suburban drainage has been carried out and is said to be working satisfactorily. In connexion with the extension of the sewerage system to the Suburbs, road projects have been undertaken which are of great importance to the Suburbs. The principal of these are the Badiapara road, which traverses a very filthy quarter of the Suburbs and will give a new and greatly needed means of access to the Kalighat temple, the extension of the Lansdowne road, the high-level sewer road, the improvement of the Hazra road, the storm-water escape and sewer road, and the Kalighat road.

17. *Health Department.*—The number of births recorded during the year 1896 was 12,603, which is higher than that recorded in any of the previous seven years, except 1892 and 1893, when the numbers were 12,688 and 13,492 respectively. The birth-rate per 1,000 of the population was 18·4 against 16·0 in 1895 and 17·82, the average of the previous seven years. The number of deaths recorded was 24,356, or a ratio of 35·7 per 1,000 of the population, against 27,031, or a ratio of 39·6 in 1895 and against 22,254, or a ratio of 32·7, the mean of the five years 1891 to 1895. The following statement compares the mortality from the different causes in the last two years:—

	Fevers.	Small-pox.	Bowel-complaints.	Cholera.	Other causes.	Total.
1	2	3	4	5	6	7
1895 ...	11,345	2,220	3,269	2,699	8,098	27,031
1896 ...	9,564	69	2,967	3,449	8,307	24,356

This shows that while the mortality from all other causes, specially small-pox, declined, that from cholera increased considerably. The disease prevailed throughout the year, and was most virulent in the months of March, April and May. In April the number of deaths from cholera reached the high figure of 1,214. As a prophylactic against the disease, anti-choleratic inoculation according to M. Haffkine's method, was practised during the year on persons who voluntarily submitted to the operation; 2,500 such inoculations were performed. Vaccination against small-pox was carried on vigorously during the year, but owing to the comparative immunity which the town enjoyed from this disease the number of vaccinations fell considerably below that of the previous year. The total number of persons vaccinated was 11,976 against 54,982 in 1895. Of these 9,450 were cases of primary vaccination and 2,528 of re-vaccination. 90·8 per cent. of the primary vaccinations and 9·8 per cent. of the re-vaccinations were successful.

18. In order to protect Calcutta agninst the introduction of the plague from Bombay, and to check the spread of the disease if it should by any means be imported, a special staff was appointed by the Commissioners to cleanse and disinfect filthy houses and localities. The operations of this staff were directed with great energy by Dr. C. Banks, who was appointed temporarily to be Chief Superintendent of Conservancy. An enormous quantity of accumulated filth and refuse was removed from various parts of the town, drains were cleansed, and houses and privies washed with lime. For the purpose of detecting cases of plague, the town was divided into 17 sanitary circles, each under the charge of a medical man, whose duties were to ascertain what sickness prevailed in his district and, as far as possible, the cause of death. These officers were required to visit the lodging-houses, grain depôts and rag-shops, to keep a watch for at least 10 days over persons arriving from infected areas, and to report to the Chief Superintendent any premises requiring special cleaning. A plague hospital was constructed at Manicktola, and sites were selected and provision made for the construction of other hospitals as soon as the necessity for them should arise. Two ambulances were constructed, and orders have been given for an Equifex sprayer at a cost of Rs. 4,000, and an Equifex steam disinfector at a cost of Rs. 15,000. Within the last few months the revival of plague in Bombay and its appearance in other parts of India have rendered it necessary to take further precautions for the protection of the city of Calcutta. By Plague Regulation No. 9 of the 10th November, extensive powers have been conferred upon the Chairman, including the powers of appointing Health Officers and Assistant Health Officers, and of fixing their pay. In the event of plague reaching Calcutta, it will be the duty of the Chairman to exercise these powers at once; but until that necessity arises, the Lieutenant-Governor does not wish to interfere with the discretion vested in the Chairman by the Regulation. It is understood that a complete scheme has been prepared showing what action should be taken on the occurrence of the first case, and the further measures to be adopted in the event of the infection spreading. Under the orders conveyed in Resolution No. 465T.—M. of the 10th November, the scheme will be submitted to the Plague Commission for examination. The object of the Government is to secure that, without incurring any needless expenditure, the authorities responsible for the protection of the City from plague, shall be placed in such a position that no emergency can take them unawares.

19. A special Commission was appointed by Government during the year to consider and report on the question of framing suitable building regulations for the Town of Calcutta. The report of the Commission has not yet been received.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE ZOOLOGICAL GARDEN, CALCUTTA, FOR 1896-97.

REVENUE DEPARTMENT—MISCELLANEOUS.

Calcutta, the 3rd December 1897.

RESOLUTION—No. 3633.

READ—

The Report of the Honorary Committee for the management of the Zoological Garden, Calcutta, for the year 1896-97.

The total receipts of the Garden amounted to Rs. 55,607, against Rs. 44,347 in the previous year, while the expenditure fell from Rs. 44,106 in 1895-96 to Rs. 42,211 during the year under report. The increase in the receipts is more apparent than real, and is due to the inclusion of Rs. 14,964, being portion of a Government grant of Rs. 20,000 made for improvements. Rupees 5,036 of the grant were spent by the Public Works Department in raising the land known as Begunbari, and a part of the balance was spent by the Committee on building accommodation for servants and cattle. If this sum is left out of account, the receipts during the year amount to Rs. 40,643, showing a decrease of Rs. 3,704 from those of the previous year. The income fell off under all heads, except those of fees for the admission of carriages and of fees for fishing. The closing balance increased from Rs. 4,985 to Rs. 18,318, which amount includes the unexpended portion of the Government grant referred to above.

2. The number of visitors admitted to the Garden on payment in 1896-97 was 160,008, against 165,152 in the previous year. The decrease is possibly due to some extent to the pressure of high prices during a year of scarcity.

The following statement shows the number of visitors who paid entrance money in each year, since 1891-92:—

Years.	Number of visitors.
1891-92	116,382
1892 93	139,173
1893-94	162,449
1894-95	154,532
1895 96	165,152
1896-97	160,008

3. Two hundred and sixty-three additions were made during the year to the collection of animals in the Garden, consisting of 72 mammals, 102 birds and 89 reptiles. Seven animals were born in the garden, and the rest were obtained by presentation or purchase. The Committee specially thank the Nawab Bahadur of Murshidabad, Nawab Ashanullah Khan Bahadur of Dacca, Mr. W. B. DeCourcey, Deputy Commissioner of Peshawar, and the Raja of Khundah in Hazaribagh for their valuable presents.

4. Appendix E contains a list of the animals which are most wanted for the Garden. The Lieutenant-Governor trusts that the Committee will be able ere long to secure many of these animals. His Honour is glad to learn that a large number of students and teachers continue to avail themselves of the privilege of free admission to the Garden, though the Committee notice with regret that the primary object of this system of free admission remains yet unrealised, namely, to train young students to observe the habits and forms of animals. The Committee mention with commendation a little work entitled "Hours with Nature," published by Babu R. B. Sanyal, the Superintendent of the Garden, as well calculated to awaken an interest in the study of natural history in young people.

5. The Lieutenant-Governor observes with pleasure that the Committee have allowed a dozen inmates of the Dullunda Lunatic Asylum to be admitted free to the Garden every week; the privilege appears to be highly appreciated.

6. As in three previous years, experiments were conducted by Brigade-Surgeon-Lieutenant-Colonel D. D. Cunningham in the Joy Gobind Law Laboratory to test the efficacy of alleged remedies for cures of snake-bite; no report

was submitted, as Dr. Cunningham fell ill and was obliged to leave for England at short notice, and to resign the Presidentship of the Committee. The Lieutenant-Governor fully agrees with the Committee in their high appreciation of the valuable services rendered by Dr. Cunningham to the Garden, during his long connection with it, as a member of the Committee, as Honorary Secretary, and as President.

The Committee have also sustained a severe loss in the retirement (since the close of the year) of Colonel J. Waterhouse, I.S.C., who had been their Honorary Secretary for four years, and had taken a leading part in many schemes for the improvement of the Garden.

7. The thanks of the Lieutenant-Governor are again due to the members of the Committee for their efficient management of the Garden.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Honorary Secretary to the Committee for information, and that it be published in the Gazette.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,

Secretary to the Govt. of Bengal.

FINANCIAL RESOLUTION.

FINANCIAL DEPARTMENT.—FINANCE.

Calcutta, the 6th December 1897.

RESOLUTION—No. 6025F.

THE Lieutenant-Governor is now in a position to review the actual financial results of the year 1895-96, the revised estimates for 1896-97 and the budget estimates for 1897-98. The Accountant-General's memorandum on the accounts of the year 1895-96 has been received; and although the accounts of 1896 97 have not yet been finally closed, the approximate figures for twelve months given in his accounts for March 1897 are sufficient for practical purposes. The figures of the revenue and expenditure of the first five months of the current year have been received from the Accountant-General, and these afford sufficient data for a revised forecast of the probable position of the Province in the first year of the new contract.

PART I.

Accounts, 1895-96.

2. The approximate actuals adopted in the Financial Resolution No. 769T.F., dated the 10th October 1896, assumed that the year 1895-96 had opened with a credit balance of Rs. 43,21,996 and had closed with a balance of Rs. 57,89,149, that the total amount available for expenditure during the year was Rs. 5,01,49,092, and that of this sum Rs. 4,43,59,943 had been spent. The actual result was more favourable than this by Rs. 30,928. The amount actually available for expenditure was Rs. 5,01,73,517, and the amount actually expended Rs. 4,43,53,440, leaving a closing balance of Rs. 58,20,077. The actuals furnished by the Accountant-General in his memorandum on the accounts of the year are compared in the following table with the approximate actuals adopted in the Financial Resolution of October 1896 quoted above:—

.....	.....	Provincial Surplus	14,67,153	14,98,081

3. There was an increase of Rs. 24,425 on the receipt side, of which Rs. 2,880 was under *Provincial Rates* due to increased collections of Public Works Cess, and Rs. 20,835 under *Miscellaneous* owing to the adjustment of certain unclaimed deposits for 1892-93 and 1894-95 in the accounts of 1895-96.

4. On the expenditure side the actual charges show a decrease of Rs. 6,503 only, which is more than covered by the decrease under *Land Revenue* (Rs. 11,637) owing to the adjustment of a part of the cost of the office establishment of the Director of Land Records and Agriculture against the Imperial grant for the Bihar S / tlement Operations.

PART II.

Approximate Actuals, 1896-97.

5. The following table compares the approximate actuals for 1896-97 with the revised estimates as passed by the Government of India in March last, and shows that, according to the latest information, the receipts were better than the revised estimate by Rs. 4,38,255, while the expenditure exceeded the revised estimate by Rs. 7,47,620. Taking into consideration a small increase of Rs. 77 in the opening balance, the net result is a reduction of the closing balance by Rs. 3,09,288. The details of these fluctuations are discussed in the following paragraphs:—

RECEIPTS.

6. *Land Revenue.*—The Accountant-General's March account shows that the total collections under this head in 1896-97 amounted to Rs. 3,87,67,700 against Rs. 3,92,00,000 passed by the Government of India as the revised estimate for the year. The decrease is attributed chiefly to failure of crops. The actuals include Rs. 1,52,255 recovered from landholders on account of survey and settlement charges, which were wholly Imperial. The 12 per cent. on collections from Government estates came to Rs. 4,63,607 against Rs. 4,90,000 adopted in the revised estimate passed by the Government of India. The Provincial share of Land Revenue was therefore one-fourth of (Rs. 3,87,67,700—1,52,255—4,63,607) *plus* Rs. 4,63,607, or Rs. 1,00,01,567. The adjustments between Imperial and Provincial Revenues will probably result in a net deduction of Rs. 13,62,634 from the Provincial share of Land Revenue as shown below:—

7. The actual expenditure on the remodelling of the Hijili Tidal Canal in 1896-97 amounted to Rs. 36,362. The expenditure on Military and Imperial Civil Works, including the percentage charges for establishment and tools and plant, as reported by the Public Works Department, amounted to Rs. 42,801, and a credit has been taken for this amount against Rs. 45,000 passed in the revised estimate for the year. In April 1896 the Government of India directed the discontinuance of the system of prepayment of duty on Bengal ganja exported to the North-Western Provinces and Oudh, and authorized such ganja to be exported in bond. They also expressed their readiness to compensate the Government of Bengal for any loss of revenue which might result from the introduction of the new system during 1896-97. An application has already been made to the Supreme Government for an assignment of Rs. 10,967, being the loss incurred by Provincial revenues in consequence of the change, and a credit of this amount has been provisionally taken.

8. *Salt.*—The actual receipts in 1895-96 under rent of warehouses were abnormally high (Rs. 1,78,408), and the estimate for 1896-97 was originally passed for Rs. 1,75,000. In view of the decline in receipts in the first eight months of the year, the revised estimate was reduced to Rs. 1,53,000, but the actual collections proved to be lower still and reached Rs. 1,34,239 only. The decrease was due to heavy deliveries from the golahs and smaller stocks in bond.

9. *Stamps.*—The total receipts amounted to Rs. 1,75,74,296 against Rs. 1,74,23,000, the revised estimate passed by the Government of India. Three-fourths of this sum or Rs. 1,31,80,722 have accordingly been taken as the Provincial share of the receipts, as against Rs. 1,30,69,000 in the revised estimate, showing an increase of Rs. 1,11,722. The increase occurred under general stamps, and was due to the execution of a large number of mortgages and deeds of sale owing to the prevailing scarcity and failure of crops.

10. *Excise.*—The receipts amounted to Rs. 1,33,99,312 against Rs. 1,35,50,000, the revised estimate passed by the Government of India. One-fourth of this sum or Rs. 33,49,828 has been taken as the share of the Local Government. The decrease was general, and was due to famine and high prices of food-grain prevailing in all the districts of Bengal.

11. *Forest.*—The receipts amounted to Rs. 13,70,849 against Rs. 12,80,000, the revised estimate passed by the Government of India. One-half of this sum or Rs. 6,85,425 has been taken as the share of the Local Government. The increase was due to the demand for sleepers from the Government forests.

12. *Interest.*—The actuals amounted to Rs. 2,31,876 against Rs. 2,45,000, the revised estimate as shown below :—

	Revised estimate passed by the Government of India.	Approximate actuals.
	Rs.	Rs.
Class I.—Interest on advances to cultivators	24,000	16,836
„ II.— Ditto ditto under special laws	34,000	25,637
„ III.—Interest on loans to landholders and other notabilities	3,000	3,551
„ IV.—Interest on loans to Municipalities, District Boards and other Public Bodies	1,25,000	1,24,387
Interest on Government securities	12,000	11,884
Miscellaneous	47,000	49,581
Total ...	2,45,000	2,31,876

13. *Jails.*—The original estimate for 1896-97 was passed by the Government of India for Rs. 8,58,000 with reference to the actuals of 1894-95, amounting to Rs. 8,52,000. The receipts in the first nine months of 1896-97 showed an increase, and the revised estimate was placed at Rs. 8,89,000. The actual receipts showed a still further increase due to larger supplies to the Military Department and amounted to Rs. 9,70,703.

14. *Marine.*—The receipts were Rs. 9,37,027 against Rs. 9,64,000, the revised estimate passed by the Government of India. The decrease was in Pilotage receipts.

15. *Stationery and Printing.*—The budget estimate of Rs. 1,32,000 was raised by the Government of India to Rs. 1,50,000 in the revised estimates. The actuals amounted to Rs. 1,28,216 as shown below:—

	Budget estimate.	Revised estimate.	Approximate actuals
	Rs.	Rs.	Rs.
Stationery receipts	1,000	2,000	1,172
Sale of gazettes and other publications	98,000	1,07,000	94,567
Other press receipts	33,000	41,000	32,477
Total ...	1,32,000	1,50,000	1,28,216

16. *Miscellaneous.*—The revised estimate as passed by the Government of India amounted to Rs. 9,28,000, and the approximate actuals reported by the Accountant-General in the account of March 1897 aggregate Rs. 8,92,486; but these figures are liable to adjustment. The average actuals of the past five years (1891-92 to 1895-96) amounted to Rs. 9,12,000, and this amount will be adopted as the latest estimate for the year.

	Rs.

1892-93 ...	8,27,000
1893-94 ...	8,63,000

17. *Railways.*—The following statement compares the budget and revised estimates as passed by the Government of India with the actuals of the year:—

	Budget estimate.	Revised estimate.	Actuals.
	Rs.	Rs.	Rs.
Gross receipts ...	1,30,00,000	1,48,00,000	1,50,05,866
Working expenses ...	56,75,000	59,00,000	60,40,686
Net receipts ...	73,25,000	89,00,000	89,65,180
Provincial share ...	36,63,000	44,50,000	44,82,590

The increase in receipts was due to the carriage of larger quantities of jute and grain and stores for construction, while the increase in expenditure arose partly from the enhanced traffic and partly from the opening of new stations.

18. *Irrigation—Major Works.*—The total receipts amounted, as shown below, to Rs. 19,09,613 against Rs. 16,90,000, the revised estimate, and Rs. 15,00,000, the budget estimate, for the year:—

	Budget estimate.	Revised estimate.	Actuals.
	Rs.	Rs.	Rs.
Orissa Project	3,45,000	4,15,000	4,74,217
Midnapore Canal	2,40,000	2,43,000	2,79,757
Tidal Canal	60,000	85,000	90,946
Sone Project	8,55,000	9,47,000	10,64,693
Total ...	15,00,000	16,90,000	19,09,613

The increase is mainly due to (1) enhanced receipts under water-rates owing to the great demand for canal water, caused by the failure of the rainfall; (2) better collections arising from the high prices obtained by the cultivators; (3) the realisation of arrear demands on the Orissa and Sone Canals; and (4) to larger transport receipts due to the demand for rice.

19. *Civil Works by Public Works Department.*—The original estimate of receipts under this head was Rs. 1,80,000, which was raised to Rs. 2,28,000 in the revised estimate, so as to provide for an estimated increase in the profit of the Calcutta Workshops and in the Government share of the surplus profits of the Darjeeling-Himalayan Railway for the year ending 30th June 1896. The actual receipts on these two accounts were, however, more than were anticipated, amounting to Rs. 36,507 and Rs. 63,649, respectively, and the revenue was thus brought up to Rs. 2,71,369.

20. *Contributions.*—The Accountant-General's account for March 1897 shows that a sum of Rs. 1,17,933 was contributed by local funds to Provincial in aid of Famine Relief in addition to Rs. 2,87,000 adjusted as relief expenditure in the local accounts. The amounts shown under Contributions are given below:—

	Rs.
Khulna	23,000
Palamau	20,000
Muzaffarpur	40,000

EXPENDITURE.

21 *Land Revenue.*—The total Provincial charges amounted to Rs. 37,22,516 against Rs. 36,70,000, the revised estimate passed by the Government of India, as shown below :—

	Revised estimate.	Approximate actuals.
	Rs.	Rs.
(1) Charges of District Administration ...	31,51,000	31,97,639
(2) Management of Government estates ...	4,30,000	4,29,062
(3) Land Records and Agriculture ...	89,000	95,815
Total ...	36,70,000	37,22,516

The increase under (1) was for salaries and supplies and services.

22. *Forests.*—The total charges of the Forest Department amounted to Rs. 6,90,042 against Rs. 6,65,000, the revised estimate for the year. The Provincial share of the charges was Rs. 3,45,021. The increase was mainly under timber and other produce removed from the forests by Government agency, and was more than covered by enhanced receipts.

23. *Law and Justice—Courts of Law.*—The total charges amounted to Rs. 89,61,305 against Rs. 88,90,000, the revised estimate passed by the Government of India. The increase was under Civil and Sessions Courts and Criminal Courts and was due partly to payments of compensation for dearness of provisions and partly to increased expenditure under salaries.

24. *Jails.*—The total expenditure of this department was Rs. 25,82,791 against Rs. 24,70,000, the revised estimate for the year. The increase was due to larger outlay for the purchase of raw materials required to meet the demands of the Military and Police Departments and was accompanied by a corresponding increase in receipts.

25. *Police.*—The total charges amounted to Rs. 62,19,324 against Rs. 61,10,000, the revised estimate for the year. The details are :—

	Revised estimate.	Approximate actuals.
	Rs.	Rs.
Presidency Police	7,74,000	7,68,179
Superintendence	1,53,000	1,65,903

Cattle-pounds	5,000	4,237
Refunds	5,000	2,737
Total ...	61,10,000	62,19,324

The increase occurred chiefly under the head District Executive Force, and was due partly to the opening of new outposts and to an increase in the number of Inspectors and Sub-Inspectors and their travelling allowances, but chiefly to compensation for the dearness of food-grains, a concession which was extended to the constables employed on watch and ward duty on railways and as punitive police.

26. *Education.*—The total charges amounted to Rs. 27,37,752 against Rs. 26,75,000, the revised estimate passed by the Government of India, as shown below :—

The increase under Direction was due to the deputation of the Director of Public Instruction on special duty in connection with the reorganisation of the department. The increase under Government Schools represents the cost of furniture for the new boarding school for boys at Kurseong.

27. *Famine Relief.*—The total expenditure on famine relief for 1896-97, as passed by the Government of India, amounts to Rs. 23,00,000 thus:—

	India. Rs.
Imperial	.....
Provincial	18,50,000
Local	4,50,000
Total ...	23,00,000

The expenditure in 1896-97 as adjusted up to August 1897 amounted to Rs. 25,67,000, of which Rs. 2,87,000, has been taken against Local, and the balance, Rs. 22,80,000, against Provincial. If the local contributions to famine expenditure which have passed through the Provincial account are ultimately shown under relief in the local accounts, the distribution between Provincial and Local will be the following:—

	Rs.
Provincial	21,62,000
Local	4,05,000
Total ...	25,67,000

The details of the Provincial expenditure as already booked by the Accountant-General and the Examiner of Public Works Accounts are shown below:—

28. *Irrigation—Major Works—Working expenses.*—The actual charges amounted to Rs. 12,81,881 against Rs. 13,75,000 provided for in the revised estimate. The decrease was distributed over all the canals and was due to economical working.

29. *Minor Works and Navigation.*—The works in charge of the Public Works Department cost Rs. 17,78,208 against Rs. 18,00,000 provided for in the revised estimate passed by the Government of India. The short outlay was due to an overestimate of the charges for "Establishment."

30. *Civil Works.*—The budget estimate of the Public Works Department was Rs. 43,00,000, but this was reduced on the revised estimate to Rs. 37,17,000, and the actual expenditure came to only Rs. 35,24,575. Funds were transferred to the Civil Department to meet expenditure incurred by District Boards on Provincial buildings in their charge, and some large projects for the improvement of the Medical College, Calcutta, were deferred in consequence of the famine. The increase of Rs. 44,000 in the Civil Department is chiefly for compensation for ferries resumed and larger contributions to Excluded Local Funds.

31. *Contributions.*—The total under this head amounted to Rs. 16,85,149 against Rs. 15,39,000 provided for in the revised estimate. The increase was due partly to special grants made to the District Boards of Dinajpur and Bogra for the construction of feeder roads and to the District Board of Jalpaiguri for the improvement of roads in the Duars and partly to the grants made to the Chaukidari Reward Funds in certain districts, equivalent to the surplus balances of the funds on the 31st March 1895, up to which date their receipts and payments were classified as Provincial revenue and expenditure.

32. *Closing Balance.*—The closing balance as shown above amounts to Rs. 37,97,712 against Rs. 41,07,000 estimated by the Government of India. The approximate actuals thus yield a result worse than the revised estimate by Rs. 3,09,288, which is more than accounted for by the increased expenditure on Famine Relief amounting to Rs. 4,30,283.

PART III.

The new Provincial Settlement.

33. A new settlement for the five years commencing from the 1st April 1897 has now been fixed by the Government of India. The chief alteration made in the conditions of the settlement is the imperialization of the receipts and charges of the Eastern Bengal State Railway, one-half of the net earnings of which was previously assigned to this Province, while by way of compensation for this loss of growing revenue, the Provincial share of the receipts from Excise has been raised from one-fourth to one-half. The only additional charges provincialised are the survey and settlement expenses other than in Bihar, and the pensionary charges for the servants of the Imperial Marine Department, and for Branch Pilots and other officers of the Provincial Marine Department, together with the allowances for their widows and orphans. The inter-provincial adjustments previously allowed with Upper Burma have been discontinued. On the other hand, as important administrative changes in the Salt Department are under consideration, the receipts and expenditure of that Department have been reserved for the present as Imperial. The settlement provides for an annual contribution of Rs. 14,19,000 to the Imperial Treasury from the assigned revenues of the Province against Rs. 14,39,000 paid during the currency of the last contract.

Budget Estimate, 1897-98.

34. The Lieutenant-Governor has already in separate Resolutions reviewed the estimates of receipts and charges for the current year. Later information,

however, has led to a modification of those in some respect. The following table shows the figures passed by the Government of India and the estimates which the Lieutenant-Governor has now decided to adopt :—

35. *Land Revenue.*—The total collections in 1896-97 amounted to Rs. 3,87,67,700, including Rs. 1,52,255 on account of survey charges recovered in Bihar, and the estimate for 1897-98 has been passed by the Government of India for Rs. 3,92,50,000, including Rs. 3,00,000 for such recoveries which are wholly Imperial. The collections in the first six months of the current year were Rs. 1,28,49,000 against Rs. 1,29,24,000 in the corresponding period of last year, showing a decrease of Rs. 75,000. The average receipts of the past five years, excluding recoveries of survey and settlement charges, amounted to Rs. 3,87,53,000, while the corresponding receipts in 1896-97 were Rs. 3,86,15,445. The Settlement Officer, North Bihar, expects to recover 5½ lakhs in the current year on account of survey and settlement charges in the three districts of Muzaffarpur, Champaran and Saran, provided the *bhadoi* and *aghani* harvests are good, and the Director of Land Records anticipates an increase of two lakhs in revenue in consequence of the new settlements in Orissa. There is therefore no reason to modify the estimate passed by the Government of India, which will accordingly be retained. The Provincial share will stand at Rs. 1,01,42,000. The adjustments between Provincial and Imperial will probably result in a net transfer of Rs. 7,93,000 to Imperial as shown below—

36. The Chief Commissioner of Assam has sanctioned the grant of certain additional junior scholarships to pupils in Assam in commemoration of the sixtieth anniversary of the reign of Her Majesty the Queen-Empress. As these scholarships are of a special nature, the Assam Administration has asked for the sanction of the Government of India to an additional grant to Bengal of Rs. 2,880 in 1897-98 and a similar sum in 1898-99 through the adjusting head of Land Revenue. A credit of Rs. 3,000 in round numbers has therefore been taken in the Provincial share of Land Revenue.

37. *Stamps.*—The estimate of total revenue under this head, as passed by the Government of India, amounts to Rs. 1,74,25,000. The Comptroller-General's statement shows that the receipts during the first five months of the current year exceeded those of the corresponding period of last year by Rs. 1,91,000, the increase being mainly under General Stamps. The actual receipts in 1896-97 amounted to Rs. 1,75,74,000, and the Lieutenant-Governor thinks that the estimate for 1897-98 may safely be raised to Rs. 1,77,00,000. The Provincial share will be Rs. 1,32,75,000.

38. *Excise.*—The estimate for 1897-98 amounted to Rs. 1,34,50,000 against Rs. 1,33,99,000, the actuals of 1896-97. The settlements of excise licenses up to the 31st May 1897 show a decrease of Rs. 4,01,124 as compared with the results of the corresponding period of last year. The decrease is mainly due to the prevailing scarcity and high prices of food-grains, owing to which a large number of licenses have remained unsettled in some districts, while in some others settlements could only be effected at reduced fees. The high

price of *mahua*, caused by a short crop which has been largely used for food, has added to the difficulty of settling outstill licenses. The Comptroller-General's returns also show a falling off of Rs. 3,85,000 in the first five months of the current year, as compared with the collections of the corresponding period of 1896-97. In view of these figures the estimate under this head will be placed at Rs. 1,28,00,000. The Provincial share of one-half will stand at Rs. 64,00,000.

39. *Provincial Rates* —The following statement compares the estimates under this head with the actuals of the last two years :—

	Actuals, 1895-96.	Approximate actuals, 1896-97.	Budget estimate, 1897-98.	Estimate, 1897-98, now adopted.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
(1) Public Works Cess	41,36,981	43,07,112	40,60,000	43,00,000
(2) General rate for the management of private estates	1,40,352	1,50,199	1,40,000	1,40,000
Total ...	42,77,333	44,57,311	42,00,000	44,40,000

The latest return from the Accountant-General shows an increase of Rs. 42,000 in the collections under Public Works Cess in the first five months of the current year, as compared with those of the corresponding period of last year. It seems therefore that the collections have not been affected by the famine; and as the actuals in 1896-97 amounted to Rs. 43,07,112, the Lieutenant-Governor thinks that it will be safe to raise the estimate under Public Works Cess collections to Rs. 43,00,000. The estimate of total receipts under Provincial Rates will be placed at Rs. 44,40,000.

40. *Customs.*—The estimate under this head amounts to Rs. 91,000 against Rs. 94,114, the approximate actuals for 1896-97. The collections in the first five months of the current year amounted to Rs. 31,001 against Rs. 33,778 obtained in the corresponding period of last year. The estimate will be retained.

41. *Assessed Taxes.*—Both the estimate for 1897-98 and the revised estimate for 1896-97 were passed by the Government of India for Rs. 49,00,000. The actual collections in last year amounted, however, to Rs. 49,18,436. The collections during the first five months of the current year show a falling off of Rs. 50,000 as compared with those of the corresponding period of last year, and the arrear balance at the close of 1896-97 was Rs. 1,42,605 against Rs. 1,64,461 in 1895-96. In view of these figures the estimate for the current year has been reduced from Rs. 49,00,000 to Rs. 48,50,000. The Provincial share will stand at Rs. 24,25,000.

42. *Registration.*—The estimate under this head amounts to Rs. 14,20,000, against Rs. 15,44,696, the approximate actuals of 1896-97, and Rs. 13,41,493, the actuals of 1895-96. The actuals in the first five months of the current year show an increase of Rs. 84,762 over those of the corresponding period of last year. As, however, the receipts in the later part of 1896-97 were comparatively large on account of the large number of bonds, mortgages and deeds of sale registered owing to the prevailing scarcity, it would not be safe to place the estimate at a higher figure than Rs. 15,00,000. The Provincial share will be Rs. 7,50,000.

43. *Police.*—The approximate actuals in 1896-97 amounted to Rs. 1,88,435, and the receipts during the first five months of the current year show an increase of Rs. 7,000, as compared with those of the corresponding period of last year. The estimate will be raised from Rs. 1,80,000 to Rs. 2,00,000.

44. *Marine.*—The receipts during the first five months of the current year amount to Rs. 4,02,095, against Rs. 2,77,597 obtained in the corresponding period of last year, showing an increase of Rs. 1,24,498. The increase is mainly under Pilotage receipts in Calcutta which fluctuate with the tonnage of vessels visiting and leaving the port. The aggregate receipts in 1896-97 were Rs. 9,37,027, and the estimate for the current year will be raised from Rs. 9,54,000 to Rs. 10,50,000..

45. *Education.*—The receipts under this head were estimated at Rs. 6,27,000, which included Rs. 40,000, being the fees from boarders in the Eden Hindu Hostel. As the accounts of the hostel are kept outside the Government accounts for the present, the estimate will be reduced to Rs. 5,87,000.

46. *Medical.*—The receipts under this head in 1896-97 amounted to Rs. 1,98,848, and the sums realised in the first five months of the current year show an increase of Rs. 2,000, as compared with the receipts of the corresponding period of last year. The estimate will be reduced from Rs. 2,11,000 to Rs. 2,00,000.

47. *Scientific and other Minor Departments.*—The approximate actuals in 1896-97 amounted to Rs. 2,03,980, and the receipts during the first five months of the current year show a decrease of Rs. 34,000, as compared with those of the corresponding period of last year. The decrease is under the head Cinchona Plantation and is due to the reduced sale of quinine in a year of scarcity. The estimate will be reduced from Rs. 2,23,000 to Rs. 2,00,000.

48. *Stationery and Printing.*—The total Provincial receipts in the first five months of the current year show a decrease of Rs. 3,000 as compared with those of the corresponding period of last year. The actuals in 1896-97 amounted to 1,28,216, and the estimate for the current year will be reduced from Rs. 1,34,000 to Rs. 1,24,000.

49. *Miscellaneous.*—The average actuals in the past five years, 1891-92 to 1895-96, amounted to Rs. 9,12,000, and the approximate actuals for 1896-97 to Rs. 8,92,486. The receipts in the first five months of the current year show a decrease of nearly Rs. 84,000. The receipts under this head are generally adjusted at the end of the year; but looking to the actuals of 1896-97, and those of the first five months of the current year, it will not be safe to place the estimate at a higher figure than Rs. 9,12,000. The estimate will therefore be reduced from Rs. 9,35,000 to Rs. 9,12,000.

50. *Irrigation Major Works.*—The Government of India placed the revised estimate for 1896-97 under this head at Rs. 16,90,000, and the estimate for 1897-98 at Rs. 16,50,000. The latest returns received from the Examiner of Public Works Accounts show that there has been an increase of Rs. 1,84,754 in the actual collections of the first four months of the current year, as compared with the receipts of the corresponding period of last year. The receipts in 1896-97 amounted to Rs. 19,09,613, and the average actuals of the past five years were Rs. 17,02,000. The collections depend mainly on the rainfall; and as during the present year this has been plentiful and favourably distributed, the estimate of Rs. 16,50,000 will be allowed to stand for the present.

51. The receipts under *Irrigation Minor Works* in charge of Civil Departments amounted to Rs. 1,33,000 in 1896-97, and those in the first five months of the current year show an increase of Rs. 2,000 as compared with the receipts of the corresponding period of last year. The estimate will be placed at Rs. 1,36,000.

52. *Civil Works by Civil Department.*—The receipts under this head in 1896-97 amounted to Rs. 2,46,069, and the realizations in the first five months of the current year show a decrease of Rs. 11,000, as compared with those of the corresponding period of last year. The estimate for 1897-98 will be reduced from Rs. 2,52,000 to Rs. 2,40,000.

EXPENDITURE.

53. *Land Revenue.*—The original estimate under this head amounting to Rs. 45,71,000 will be reduced by—

(1) Rs. 3,240 which have been made over to the Public Works Department for the construction of three record-rooms at Pipli, Jajpur and Bhadrak for the preservation of settlement papers;

(2) Rs. 2,000 on account of anticipated savings in the payment of Exchange Compensation Allowance;

(3) Rs. 5,000 granted to the Road Account of the Sonthal Parganas for agricultural improvements in Government estates;

(4) Rs. 1,668 granted to the District Board of Gaya for the construction of an inspection bungalow at Azamatganj; and

(5) Rs. 7,272 granted to the District Road Fund, Palamau, for the construction of three khas tahsil offices in the Government estates of that district.

Against these reductions a provision of Rs. 6,114 has been made for the pay of establishment for a new steamer and flats for the Sundarbuns Commissioner and of Rs. 30,000 for the payment of compensation for dearness of food-grains. On the whole, therefore, the estimate will be raised from Rs. 45,71,000 to Rs. 45,88,000.

54. *Provincial Rates.*—The Provincial expenditure was originally estimated at Rs. 1,19,000 against Rs. 74,204, the approximate actuals of 1896-97. It was then intended to revise the arrangement sanctioned in 1879, under which the Government cost of collecting the cess was fixed once for all at Rs. 48,000, which was equivalent to one-third of the cost in 1877, and the balance was made payable by the District Funds. In submitting proposals for the new Provincial Settlement, the Government of India were asked to make an assignment so that the Government share might be fixed at a sum equal to one-third of the cost actually incurred in 1896-97. But that Government was unable to make any assignment on this account; and in view of the diminished resources of this Government, it has been decided to defer sanction to the contemplated change for the present. The estimate under this head has now been reduced from Rs. 1,19,000 to Rs. 71,000.

55. *Customs.*—A saving of about Rs. 5,000 is expected under Exchange Compensation Allowance, and the estimate will be reduced from Rs. 8,00,000 to Rs. 7,95,000.

56. *Interest.*—An additional allotment of Rs. 14,25,000 has been sanctioned by the Government of India for loans for agricultural purposes. As the Provincial Government will have to pay interest on this sum, the estimate will be raised from Rs. 2,15,000 to Rs. 2,40,000.

57. *Post Office.*—The estimate under this head amounts to Rs. 10,000 against Rs. 4,919, the approximate actuals of 1896-97. The proposal to start a daily postal service between Chittagong and Lungleh has been deferred for the present, and the provision of Rs. 5,000 made on this account will be omitted. The total grant under this head will now stand at Rs. 5,000.

58. *General Administration.*—A saving of about Rs. 13,000 is expected under Exchange Compensation Allowance, and the estimate will be reduced from Rs. 17,28,000 to Rs. 17,15,000.

59. *Law and Justice—Courts of Law.*—The original estimate under this head amounting to Rs. 89,42,000 will be reduced by Rs. 27,000 on account of savings in Exchange Compensation Allowance. Against this reduction provision has been made for the salary and office rent of an additional Sub-Judge in Dacca whose appointment for six months has been sanctioned since the passing of the budget and also for the payment of compensation for dearness of food-grains. Extra grants have also been sanctioned for "fees to pleaders in criminal and other cases" and remuneration to copyists. The total grant will stand at Rs. 90,59,000.

60. *Jails.*—The estimate under this head amounting to Rs. 22,32,000 will be raised by Rs. 5,000 for repairs of damages due to the earthquake and by Rs. 12,000 for compensation for dearness of food-grains against a reduction of Rs. 2,000 on account of anticipated savings in Exchange Compensation Allowance. The total grant will now stand at Rs. 22,47,000.

61. *Police.*—The estimate under this head will be reduced by Rs. 13,000 for savings under Exchange Compensation Allowance, while it will be raised by Rs. 3,000 to provide floating outposts at Alipore in the district of Khulna and at Kowkhali in Backergunge for the protection of boats carrying rice, &c. The grant has also been raised on account of charges incurred in connection with the riots at Tallah, for the payment of compensation for dearness of food-

grains and for repairs to buildings damaged by the cyclone in the district of Chittagong, and in the Chittagong Hill Tracts. The total now stands at Rs. 63,17,000.

62. *Education.*—The estimate under this head will be raised by Rs. 5,000 for the purchase of an oil engine for the Presidency College Laboratory and for the payment of compensation for dearness of food-grains against a reduction of Rs. 25,000 on account of savings under Exchange Compensation Allowance, and the grants transferred to the Public Works Department as shown in paragraph 66 below. The total grant will now stand at Rs. 27,26,000.

63. *Medical.*—The estimate of Rs. 19,18,000 has been raised by Rs. 88,000 to meet expenditure incurred in connection with the prevention of the bubonic plague and on sending pilgrims to their homes and by Rs. 6,000 on account of the compensation for dearness of provisions, while on the other hand it has been reduced by Rs. 12,000 on account of savings under Exchange Compensation Allowance. The total grant will therefore stand at Rs. 20,00,000.

64. *Superannuation.*—The following table shows the Provincial charges under this head during the past six years:—

	Rs.	Increase. Rs.
1891-92	16,00,000	.....
1892-93	17,03,000	1,03,000
1893-94	17,40,000	37,000
1894-95	17,80,000	40,000
1895-96	18,47,000	67,000
1896-97	19,18,000	71,000
Total ...		3,18,000

The increase during the last five years averaged Rs. 64,000 a year. The actuals in the first five months of the current year show an increase of Rs. 27,405 (exclusive of Marine Department pensions which have been provincialized in the new contract) as compared with the payments during the same period of last year. The estimate will be placed at Rs. 19,18,000 + Rs. 65,000 (increase in 1897-98) + Rs. 57,000 (Marine pensions) = Rs. 20,40,000.

65. *Famine Relief.*—The total grant for Famine Relief in 1897-98 was originally passed for Rs. 1,00,48,000 distributed as follows:—

	Rs.
Imperial	70,13,000
Provincial	22,18,000
Local	8,17,000
Total ...	1,00,48,000

The actual appropriation to the end of September 1897 has been Rs. 86,51,000 thus:—

	Budget grant.	Appropriation to end of September.
1. Salaries and establishment, Civil Department	5,64,000	4,11,000
2. Relief works by Public Works Department, including establishment ...	41,88,000	19,77,000
3. Relief works in charge of Civil Department	21,71,000	26,84,000
4. Relief to people employed otherwise than in relief work	10,93,000	22,000
5. Gratuitous relief	20,29,000	26,08,000
6. Miscellaneous	3,000	9,49,000
Total ...	1,00,48,000	86,51,000

The Revenue Department have sanctioned further allotments of Rs. 47,000 and Rs. 37,000 for the Patna and Chota Nagpur Divisions, respectively, and it is anticipated that when the expenditure on works in charge of the Public Works

Department is finally adjusted, the total during the current year will probably amount to about Rs. 88,58,000, thus showing a saving of Rs. 11,90,000. An application will probably have to be made to the Government of India for the appropriation of a lakh of rupees out of this saving in granting advances for the relief of the people in the district of Chittagong who have been reduced to destitution by the severe cyclone which visited that district on the 24th October 1897. If this application is granted, the saving will be Rs. 10,90,000. As no portion of the expenditure on Famine Relief during 1896-97 has been debited to Imperial, one-half of the anticipated savings in 1897-98 has been taken provisionally to the Provincial account, and the total grant from Provincial Revenues reduced from Rs. 22,18,000 to Rs. 16,73,000.

66. *Civil Works in charge of the Public Works Department.*—The grant for Provincial Civil Works for the current year was originally fixed at Rs. 32,50,000. It has been raised to Rs. 33,67,282 as the net result of certain additions and deductions sanctioned during the past seven months as shown below:—

	Rs.
Cost of temporary sheds, &c., for schools, &c., damaged by earthquake	5,000
Rebuilding the southern half of the Gaya Zilla School ...	13,868
Cost of extra work on the Zilla School building, Malda ...	321
Cost of three record-rooms with racks at Pipli, Jajpur and Bhadrak	3,240
Grant for retransfer of Provincial Civil Works from the District Board of Hooghly	47,269
Grant for savings in the annual maintenance grant of ditto...	7,780
Refunds by the District Boards, Bogra, Dinajpur and Pabna, for earthquake expenditure	1,50,904
Total addition ...	2,28,382
Deduct for grants to Local Funds for Provincial Civil Works and establishment, &c.	1,11,100
Net addition ...	1,17,282

An additional grant of Rs. 5,374 will have to be made for percentage charges for establishment, tools and plant on Imperial works transferred to the management of local bodies in 1896-97. The total grant will accordingly stand at Rs. 33,76,000.

67. *Contributions.*—The regular grants made to District Boards to establish equilibrium between the receipts and charges of the departments under their management and for the maintenance of roads transferred to them amount to Rs. 7,27,681. Adding certain other grants to Local Funds for maintaining Imperial and Provincial Civil Works and deducting Rs. 47,871 resumed from the District Board of Hooghly, the net total amounts to Rs. 8,69,409. To this should be added:—

	Rs.
Annual grants to the non-cess districts	70,000
For management and improvements of Government Estates in the Sonthal Parganas and for Rajmahal drainage ...	27,956
Annual grant to non-Board districts for collecting cess and for improvements of roads in Government estates ...	8,873
Maintenance of technical schools in Pabna and Rangpur ..	1,560
Special grants for maintenance of Provincial and Imperial Civil Works, including agricultural improvements in the Sonthal Parganas	1,31,687
Total ...	2,40,076

These make a total of Rs. 11,09,485, but from this should be deducted Rs. 1,58,684, being the total refunds made to the Civil Department by the District Boards of Hooghly, Bogra, Dinajpur and Pabna during the year to meet the cost of repairing the damages done by the earthquake, &c. The net total therefore amounts to Rs. 9,50,801; but as the grants from which reappropriations have been made to meet emergent demands in consequence of the earthquake will ultimately have to be recouped, and as some provision is necessary to meet demands arising from the late cyclone in Chittagong and other unforeseen contingencies, the estimate under this head will be placed at Rs. 11,19,000 against Rs. 12,25,000, the original grant.

ORDER.—Ordered, that a copy of this Resolution be submitted to the Government of India, Department of Finance and Commerce, for information.

Ordered also, that a copy of the above Resolution be forwarded to the Board of Revenue; to all Commissioners of Divisions; to the Accountant-General; to the Inspectors-General of Civil Hospitals, Police, Jails and Registration; to the Directors of Public Instruction and Land Records and Agriculture; to the Conservator of Forests; to the Port Officer, Calcutta; to the Superintendent of the Royal Botanic Gardens, Calcutta, and to all Departments of this Government, for information.

Hospitals and Dispensaries.—Besides the contributions for hospital buildings, which have been mentioned above under the head "Public Buildings," the sum of Rs. 9,572 was received during the year towards the maintenance and management of hospitals and dispensaries. The principal donors were Babu Nanda Lal Sen of Baldhara in the district of Dacca, who granted property, with an annual income of Rs. 516, for the maintenance of a dispensary to be established at his own village; Rai Kamaleshwari Prosad Singh, Bahadur, of Monghyr, who gave Rs. 8,056 for a Zenana Hospital; Rai Banomali Roy Bahadur, of Pabna, who gave Rs. 1,000 to the Lady Dufferin Fund, and Maharaja Surjya Kantha Acharjya, Bahadur, of Mymensingh, who, besides his donation for the construction of an eye-ward in connection with the Nasirabad Dispensary, also undertook to pay the cost of its maintenance.

Scholarships, &c.—This head shows a total of Rs. 27,197; Maharaja Sir Jotindro Mohun Tagore, K.C.S.I., gave a further proof of his liberality and public spirit during the year in devoting Rs. 15,000 to the foundation of scholarships for the promotion of Sanskrit learning. Srimati Krishna Kumari Chowdhurani of Taras, in the Pabna district, gave Rs. 6,000 to found a scholarship in honour of Sir Alexander Mackenzie's visit to the town of Pabna. Mr. E. J. Barton, late District Magistrate of Jessore, contributed Rs. 5.097 for the foundation of a scholarship in the Jessore Zilla School.

Miscellaneous.—The total amount entered under this heading is Rs. 3,12,800; the principal donors being Sir Walter DeSouza, who gave Rs. 2,47,300 for creating an Endowment Fund for charitable purposes; Babu Ram Lal Mukerji of Boinchi, who gave Rs. 50,000 for creating an Endowment Fund for the relief of distress; Raja Ram Narain Singh Bahadur of Kharia, Monghyr, who gave Rs. 15,000 to be expended by the District Magistrate on public purposes at his discretion.

Besides the above-mentioned donations, many others were received during the year for various purposes, and the names of the donors are included in the statement hereto appended. The thanks of the Lieutenant-Governor are due to one and all of these gentlemen for their liberality and public spirit.

ORDER.—Ordered that a copy of this Resolution, and of the Statement, be forwarded to the Judicial, Political, Revenue, General, Financial and Public Works Departments of this Government for information and necessary action.

Ordered also that a copy of the Resolution and of the Statement be forwarded to the Board of Revenue, the Inspector-General of Civil Hospitals, Bengal, the Sanitary Board and the Sanitary Commissioner, Bengal, and to all Commissioners of Divisions for information.

Ordered also that the Resolution and the Statement be published in the Supplement to the *Calcutta Gazette* for general information.

RESOLUTION REVIEWING THE DIVISIONAL REPORTS ON THE WORKING OF THE DISTRICT BOARDS IN BENGAL DURING 1896-97.

MUNICIPAL DEPARTMENT—LOCAL SELF-GOVERNMENT.

Calcutta, the 7th December 1897.

RESOLUTION—No. 5344L S.-G.

READ—

The Reports from Commissioners of Divisions on the working of the District Boards in Bengal during 1896-97.

Read again—

The Resolution reviewing the Divisional Reports on the working of the District Boards in Bengal during 1895-96.

Only three out of the eight Divisional Reports for 1896-97 were received on or about the prescribed date, viz., those from the Bhagalpur, Dacca and Chittagong Divisions. Those shown on the margin were submitted very late, the last three being 31 days, 37 days and 15 days, respectively, behind time. It has been explained in some cases that the delay was caused by the submission of incomplete or late reports by some District Officers. The Officiating Lieutenant-Governor trusts that steps will be taken to ensure the earlier preparation of these reports in future.

Report from the Rajshahi Division, dated the 10th August 1897.
Report from the Burdwan Division, dated the 23rd August 1897.
Report from the Orissa Division, dated the 26th August 1897.
Report from the Presidency Division, dated the 4th September 1897.
Report from the Patna Division, dated the 13th September 1897.

2. *Constitution and working of District and Local Boards.*—The number of District Boards remained unchanged during the year; but, in consequence of the abolition of the Sadar Local Board of the Muzaffarpur district and the establishment of two new Local Boards in the district of Noakhali, the total number of Local Boards was increased from 103 to 104. Of the 794 members of District Boards, 182 held their seats *ex-officio*, 287 were nominated by Government and 325 were elected by the Local Boards, against 176, 290 and 328, respectively, in the previous year. There was an increase of five official members and a corresponding decrease of non-official members. The number of European or Eurasian members was 191, against 198 in the preceding year, the remainder being natives of the country. The total number of meetings held by the District Boards was one more than in the previous year, and the average attendance at each meeting was 10·9, against 10·1 in 1895-96. The improvement noticed last year in the number of meetings that had to be adjourned and of those that proved abortive for want of a quorum was maintained during the year, the figure for the last two years being 54, as against 71 in 1894-95. The 104 Local Boards had a total strength of 1,255 members. Of these, 43 held their seats *ex-officio*, 794 were nominated by Government and 418 were elected members. The number of official members was 155 and of non-officials 1,100. There were only 106 European and Eurasian members in the Local Boards, the rest being natives of India. The Local Boards called 1,119 meetings during the year under report, or 48 less than in 1895-96. Of this number, 182 were adjourned or proved abortive from the absence of a quorum. There was an improvement in the attendance of members, the average number present at each meeting being 5·7, against 4·9 in the previous year. Taking the classes separately, the attendance of official members remained unchanged, while that of the non-official members increased from 4·0 to 4·8. The Rampur Hát and Supaul Local Boards head the list with 20 meetings during the year.

3. *Elections.*—General elections of members of Local Boards were held during the year in Mymensingh, Backergunge, Midnapore and the several districts of the Orissa Division, but they do not appear to have aroused any general interest.

4. *Occupation of Members.*—The following table classifies the members of the several District and Local Boards according to their professions and occupations:—

	Government servants.		Zamindars, &c.		Pleaders and Mukhtears.		Planters.		Missionaries.		Government pensioners.		Other occupation.		Total number of members.
	Number.	Ratio per cent.	Number.	Ratio per cent.	Number.	Ratio per cent.	Number.	Ratio per cent.	Number.	Ratio per cent.	Number.	Ratio per cent.	Number.	Ratio per cent.

The numbers of Government servants, zamindars, pleaders and mukhtears on both the District and Local Boards show an increase over the figures of 1895-96. The other fluctuations do not call for remark.

5. *Powers of Local Boards.*—The only changes in respect of the powers of Local Boards were the withdrawal of the control of secondary education from the Local Boards in Burdwan, and the delegation of the charge of minor water works to the Local Boards of Cuttack.

6. *Union Committees.*—The system of Union Committees was extended by the formation of 5 unions in Balasore, 4 in Noakhali, and 1 in Pabna and Malda. The following statement gives particulars regarding the constitution, income and expenditure of the several Union Committees:—

Name of Division and District.	Name of Union.	Date of establishment.	Area.	Population.	Number of members.	Number of meetings held.	Income.					Expenditure.

* The allotment made to this union was withdrawn for famine relief.

Excluding those in Pabna and Malda which had not been fully constituted during the year, there were altogether 57 unions covering an area of nearly 950 square miles with a population of 969,329. The number of members was 468, all of whom were appointed by the Commissioners of the Divisions. The number of meetings held was 303. The sources from which their income was derived are shown in columns 8 to 11, the total receipts being Rs. 18,921, of which Rs. 13,222 were spent. Only 17 unions spent the whole, or nearly the whole, amount allotted to them during the year. The work done consisted chiefly of improvement of tanks and repair of roads within their respective jurisdictions. The Commissioner of Burdwan reports that the

Union Committees in Midnapore appear generally to have worked well during the year, the only exception being Daspur, which sent in bills for more money than it actually spent and supported the bills by false vouchers. In the district of Hooghly all the Committees, except those of Balagar and Haripal, expended the sums allotted to them, and submitted their accounts regularly. The unions in the district of Howrah are said to have evinced very little interest in their duties, except when the question of allotting the sum placed at their disposal first came up for consideration. The Union Committees in the 24-Parganas are said to have done good work, and the Chairman of the District Board thinks that they will be serviceable in improving village sanitation. In Khulna they are said to have taken great interest in their work, but the Chairman remarks that unless more funds are placed at their disposal, it is hopeless to expect any material improvement in the villages. The Commissioner of the Presidency Division observes :—

The unions are made far too large to excite the local interests of substantial villagers, who are the class to whom it is desirable that the conduct of village affairs should be confided, and the Committees are formed of the fussy class of whose maladministration municipalities furnish numerous instances. If there is to be Local Self-Government in a union, the area must not be too large for all the people to take a joint interest in its roads, schools, pounds, ferries or dispensaries, and then the people will be glad to have those institutions managed by their own representatives. The true representatives of the people find it impossible to take an interest in the overgrown areas of the unions, and the present Committees do not represent the people at all.

The Union Committees in Nadia have had very little to do during the year, as a portion of the funds placed at their disposal was withdrawn for expenditure on famine relief. In the district of Tippera, the Chandpur and Matlab Union Committees worked satisfactorily; and the Chairman of the Sarail Union is reported to have taken much interest in his work. The Union Committees in the district of Noakhali met only once or twice towards the close of the year to transact some formal business. There has been no change in the powers entrusted to Union Committees. Account Rules for Union Funds were framed and brought into operation with effect from 1st April 1896

The year 1895-96 closed with a credit balance of Rs. 14,05,434 (corrected figures). At the close of the past year, 1896-97, this had risen to Rs. 15,86,212, but more than two lakhs consisted of deposits which were not at the disposal of the Boards. The actual closing balances amounted to more than half of the year's income in Bogra and Tippera and to more than one-third in Dinajpur, Jalpaiguri, Rangpur and Cuttack. The District Funds of Saran, Champaran, Darbhanga, Monghyr and Bhagalpur closed with deficit balances. The expenditure on famine relief operations exhausted all the funds of the Darbhanga and Bhagalpur District Boards which could be made available for the purpose. In Saran the deficit is said to be due to the income from road cess falling considerably short of the estimate.

INCOME.

8. *Provincial Rates.*—The increase of Rs. 1,46,459 over the receipts of the past year is attributed to better collections and also to the increased yield of cesses where estates have been revalued. The decrease in Saran, Champaran, Muzaffarpur, Khulna, Noakhali and Chittagong is ascribed to the bad harvests and high prices of food-grains which rendered it impossible to collect the full amounts due.

9. *Interest.*—The increase under this head from Rs. 35,102 to Rs. 45,581 is mainly due to a larger collection of arrears of road cess.

10. *Pounds.*—The number of pounds increased from 3,583 to 3,661, and their income from Rs. 4,03,462 to Rs. 4,58,821. The deposit of a quarter's rent enjoined in the Resolution for the year 1894-95, and the change in the system of accounts introduced by this Government Notification No. 1053L.S.-G., dated the 29th December 1896, under which all security deposits are credited to the accounts instead of being held in suspense pending adjustment, have brought about a considerable decrease in the outstanding balance. The new pound forms are in use in all the districts, but complaints are still received of their being too intricate for the farmer. In some districts this difficulty is reported to have been removed by the Inspector of Pounds instructing the farmers how to fill them up. Pounds were inspected by Government and District Board officials when on tour, and in some cases special Inspectors of Pounds have been appointed. Leases of pounds were granted, wherever this was possible, for a longer period than one year to persons of known position and solvency, and complaints against pound-keepers decreased accordingly.

11. *Scientific and other Minor Departments.*—Only five districts, viz., 24-Parganas, Dacca, Shahabad, Saran and Gaya, show receipts under this head, which were derived from conservancy and sanitary arrangements made at certain fairs.

12. *Miscellaneous.*—The increase of revenue under this head from Rs. 1,81,023 to Rs. 2,03,839, is ascribed chiefly to larger recoveries of the cost of collecting arrear cesses.

13. *Minor Works and Navigation.*—The sum of Rs. 200 shown against 24-Parganas represents the rent of a fishery in the drainage channel along the Diamond Harbour Road. The canal revenue in Chittagong rose from Rs 15,004 to Rs. 16,083, which was due to higher bids at auction.

14. *Civil Works, including Ferries.*—There has been a steady increase in the income from ferries during the past four years, as shown below:—

	Rs.
1893-94	3,83,158
1894-95	3,94,072
1895-96	4,18,814
1896-97	4,61,884

This satisfactory result is chiefly due to better settlements, but the receipts have also been enhanced by the practice of crediting security deposits as rent. The unexpected inspection of ferries by Government officers on tour has had good results, and in several districts Inspectors of Pounds and Ferries have been appointed to control ferry farmers. With a few exceptions the condition of

ferry-boats, landing-stages and approaches seems to have been good. Several complaints were made during the year of delay in crossing mails on the part of the ferry farmers. These complaints were duly enquired into, and the offenders punished.

15. *Contributions.*—Contributions by Government or private individuals for the execution of particular works (column 63 of Form II) amounted to Rs. 10,46,159, against Rs. 6,63,209 in 1895-96. The contributions to District Boards from Provincial revenues to maintain equilibrium between the receipts and expenditure (column 67 of Form II) amounted to Rs. 5,13,912 against Rs. 5,10,907. In both cases the increased grants made by Government account for the difference.

16. *Loans.*—The District Board of Monghyr obtained from Government, during the year, the first instalment (Rs. 50,000) of a loan of Rs. 1,00,000 sanctioned for bridge and road work. The sum of Rs. 6,000 shown against Chittagong represents the first instalment of a loan obtained by the District Board from a leading zamindar of the district for the excavation of the Sikal baha Canal. The zamindar is reported to have offered to lend the full amount required for the work (Rs. 13,000, without interest for three years.

17. *Deposits and Advances.*—The income under this head decreased from Rs. 6,79,911 to Rs. 5,07,780. The decrease is generally ascribed to the fact that securities for pounds and ferries for the year 1897-98 received in March last were, under the notification referred to in paragraph 15, credited to rent direct and not held in deposit as in previous years.

Expenditure.

18. *Administration.*—The expenditure under this head amounted to Rs. 2,98,761, against Rs. 2,97,949 in 1895-96. The increase is due to the causes mentioned in last year's Resolution.

19. *Education.*—The statement below shows the expenditure incurred by the several District Boards on education during the last two years under its main heads:—

This abstract shows that 45·9 per cent. of the total expenditure on education was devoted to primary schools, 22·7 to inspection and 21·0 to middle schools.

20. The following statement compares for the past two years the expenditure of each District Board on primary education and on education as a whole, and the percentage which the expenditure bears in each case to the ordinary annual income:—

The highest place in respect of educational expenditure as a whole is taken by the District Board of Balasore, which spent 38·7 per cent. of its income on this purpose. The District Boards of Pabna, Dacca, Faridpur, Tippera,

Malda, Cuttack and Puri, also devoted more than 30 per cent. of their income to education, while all the District Boards in the Patna and Bhagalpur Divisions, with the exception of Malda only, and the District Boards of Jalpaiguri and Backergunge show an expenditure below 20 per cent. In Darbhanga the proportion was only 9·5 per cent. Under primary education, Balasore again heads the list with a ratio of 30·6 per cent. In the 24-Parganas, Pabna, Dacca, Faridpur, Tippera, Malda and Cuttack, the expenditure was 20 per cent. or more, and in five districts, viz., Gaya, Shahabad, Muzaffarpur, Darbhanga and Jalpaiguri, it was below the prescribed minimum of 10 per cent.

21. From the statistics given in subsidiary Table III appended to the Departmental Report on Public Education, it appears that the total number of schools maintained by District Boards during the year was 179, and the total number of pupils 11,023, showing an increase of one school and 329 pupils. The increase in the number of pupils occurred chiefly in middle vernacular schools. The number of schools aided by District Boards declined from 34,391 to 33,267, while the number of pupils in them increased from 913,072 to 925,854. The increase of pupils is most marked in lower primary schools for boys paid by rewards. The number of high schools maintained by District Boards remained the same, viz., three, but the number of pupils in them increased from 980 to 1,064. The number of middle schools increased from 160 to 162, and their pupils from 9,271 to 9,565. The number of upper and lower primary schools maintained by District Boards continued to be six and two respectively: in the former case the number of pupils declined by two, and in the latter it rose from 37 to 45. There were six industrial schools maintained by District Boards with 211 pupils, against seven schools and 266 pupils in 1895-96. The number of girls' schools aided by District Boards and of the pupils in them decreased by 90 and 1,500 respectively, as the following figures will show:—

	1895-96.		1896-97.	
	Schools.	Pupils.	Schools.	Pupils.

22. There has been no change in the educational functions delegated to District Boards. The Director of Public Instruction makes the following remarks on this subject in his annual report:—

"With the accumulated experience of years, and with the Magistrate as Chairman and the Deputy Inspector of Schools as an *ex-officio* member, District Boards are now becoming efficient factors in the control of middle and primary schools. Harmony is year by year more in evidence between these bodies and the officers of the Department, and in the reports for 1896-97 no complaints of friction are recorded. Delay in payments of grants-in-aid is reported from two divisions, but even these complaints are becoming less frequent. In some districts Local Boards are entrusted with the management of primary education, but their administration is not generally attended with success. The experiment of giving these bodies a share in the control of secondary education in some districts was marked by failure. District Boards have still no control over schools in municipal and cantonment areas. The Boards have also no power over what are known as circle schools and those few schools for girls which are in receipt of aid from the grant-in-aid fund, though they may be situated in extra-urban tracts."

23. *Technical and other Schools.*—There is nothing new to note under this head except that the technical school at Purnea, which had been in existence for about five years, was closed on the 31st March, as it did not prove a success. Of indigenous schools, there were in Midnapore 78 Sanskrit *tols*, with 949 pupils, 15 Koran schools, with 194 pupils, and 2 elementary schools, with 14 pupils. In Hooghly there were 55 *tols*, with 268 pupils, 26 Arabic or Persian

schools, with 340 pupils, and 9 elementary and other schools, with 73 pupils. In the districts of Burdwan, Birbhum and Howrah there were 49, 29 and 23 indigenous schools, with 563, 326, and 228 pupils, respectively. The District Board of Mymensingh subsidized 3 *tols* and the District Board of Faridpur 2 *tols* and 1 madrassa.

24. *Female Medical Education.*—In addition to the scholarships granted by the several District Boards mentioned in last year's Resolution, the District Boards of Malda and Pabna gave scholarships to girls who wished to study medicine in Calcutta. The District Board of Saran discontinued the grant of scholarships for want of candidates. A female scholarship-holder in Champaran having passed her final examination in the Temple Medical School, entered the service of the Board on a salary of Rs. 40 with a house allowance of Rs. 5, and has been attached to the Motihari Municipal Dispensary. Candidates were found during the year for the scholarships offered during the previous year by the District Boards of Burdwan and Tippera.

25. *Medical.*—In paragraph 11 of the Resolution of the Government of India, dated the 20th August 1897, reviewing the administration of District and Local Boards, it is stated that the expenditure under the head "Medical" was lower in Bengal than in any of the larger Provinces, though probably there is no province more in need of hospitals and dispensaries, and that although the total expenditure in Bengal has increased from Rs. 42,546 in 1889-90 to Rs. 1,92,810 in 1895-96, there is still room for much improvement. During the period in question the number of dispensaries maintained by District Boards has risen from 23 to 136, and the number aided by District Boards from 5 to 39; but it is doubtful whether any substantial increase on these figures can be looked for, unless means can be found of adding materially to the resources of the Boards. Their incomes now consist of (1) receipts from road cess, (2) assignments from Government of more or less improvable revenues, and (3) grants from Government for specific purposes. Under head (2) no large expansion of receipts can be looked for, nor is the Government in a position to increase the grants under head (3). The cess receipts tend to increase as revaluations are made of the lands liable to pay the cess; but the increase is slow, and although under the law the District Boards, subject to the direction of the Commissioner, possess ample discretion as to the purposes on which they may spend the District Fund, instructions have been given to them that, as a general rule, an amount approximately equivalent to the proceeds of the road cess should be devoted to the objects which the Legislature had in view when Bengal Act IX of 1880 was passed.

26. The Mankar Charitable Dispensary was transferred during the year to Bud-Bud, in order to afford medical relief to pilgrims and persons travelling in search of work along the Grand Trunk Road during the famine. The dispensary at Purbasthali, referred to in last year's Resolution, was opened by the District Board of Burdwan on 1st August 1896, and a sum of Rs. 508 was expended by that body on account of its maintenance. The dispensaries at Dhuniakhali and Haripal, in the district of Hooghly, were closed from the beginning of March 1897, as they were found to be useless. The temporary dispensary at the Singti outpost in the district of Howrah was also closed during the year The District Board of the 24-Parganas have offered to contribute Rs. 300 a year to the dispensary at Budge-Budge, which will be opened shortly. The District Board of Gaya increased its subscription to the male ward of the Pilgrim Hospital from Rs. 1,500 to Rs. 2,500 in consequence of the increase in the number of patients from the rural tracts in the district. The District Board of Muzaffarpur also enhanced its contribution to the local charitable dispensary by Rs. 1,000. The District Board of Backergunge took over the management of Nawab Sir K. Ahsanulla Bahadur's Dispensary at Kanakdia. The District Board of Chittagong sent up two boys to the Veterinary Institution at Calcutta, one of whom died after the examination, and the other is still studying. The District Board of Monghyr paid a monthly subsidy of Rs. 15 to Dr. Macphail of the Baudel Medical Mission for attending twice a week the dispensary at Chakai in the south of the district. The

following list shows the dispensaries which were opened during the year by the several District Boards:—

Khulna	District Board	...	Kalaroa Dispensary in the Satkhira subdivision.

The District Board of Birbhum spent Rs. 133; the District Board of Midnapore, Rs. 265, the District Board of Hooghly, Rs. 151, the District Board of Nadia, Rs. 100, the District Board of Bhagalpur, Rs. 820, and the District Board of Cuttack, Rs. 347, in affording medical relief to cholera patients. The District Board of Noakhali is also reported to have incurred large expenditure in giving medical aid to cholera-stricken people in several parts of the district. The construction of a building for the Lady Dufferin Hospital at Suri is in progress, and the District Board of Birbhum have promised a monthly contribution of Rs. 20 in aid of that institution. The Bankura and Hooghly District Boards continued their contributions towards the support of the Branch Lady Dufferin Hospital at Bankura and Chinsura, and the District Board of Dacca its contribution towards the maintenance of the local Dufferin Hospital.

27. *Sanitation.*—The total outlay on sanitation increased from Rs. 99,640 in 1895-96 to Rs. 1,87,060 in 1896-97. The figures in the margin show how these amounts were apportioned among the various sub-heads of expenditure in both years.

	1895-96. Rs.	1896-97. Rs.
Improvement of water-supply ...	65 894	1,51,268
,, of village sites ...	8,247	7,816
Conservancy of towns and villages ...	593	837
Sanitation at fairs	8,830	8,295
Other sanitary expenditure ...	16,071	17,794
Total ...	99,640	1,86,060

These statistics show that a substantial progress has been made in the improvement of the water-supply of rural areas. The largest expenditure under this head was incurred in Mymensingh, where the amounts allotted were more than double those of the previous year. The minimum limit of Rs. 5,000 prescribed by Government was attained in ten districts only, viz., Burdwan, Hooghly, 24-Parganas, Dacca, Mymensingh, Faridpur, Backergunge, Saran, Monghyr and Bhagalpur. The District Board of Cuttack devoted only Rs. 47 to that purpose.

28. Early in the year scarcity of water began to be felt in many districts, and efforts appear to have been made by almost all the District Boards to give relief by sinking temporary wells in the sandy beds of rivers and in low lands, by excavating permanent wells in populous places and on road-sides, and by deepening tanks and clearing and repairing old wells. In many places difficulty was experienced by District Boards in obtaining control of tanks to be reserved for drinking purposes. In the 24-Parganas owners of tanks were invited either to make gifts of their tanks to the District Board, subject to the reservation of rights of fishing, or to take subsidies for re-excavation with the stipulation that the tank should be reserved to the public for drinking purposes and should be kept clean, subject to the owner's right of fishing. The Board's proposals are said to have met with a ready response. The Commissioner of the Burdwan Division states that the scarcity of water had the good result of compelling the owners in some cases to re-excavate their tanks. He mentions that in some districts the Boards found it difficult to obtain control of tanks to be reserved for drinking purposes, and were thus

compelled to dig wells instead of clearing tanks, although tank-water is greatly preferred by the people. Tube wells were tried in Jahanabad and elsewhere, but a number of them were choked by mischievous persons throwing stones and clods. The same happened in the case of ring-wells, and the Commissioner intimates a doubt whether it is worth while spending money on wells of these kinds, unless some one made himself responsible for their preservation from injury. As the opening of either a tube or ring-well confers a marked benefit on the neighbourhood, there ought to be no difficulty in inducing some persons of influence to agree to look after it. The District Board of Dacca purchased 30 tube-wells, but only a few of them were sunk during the year. In Mymensingh the District Board raised its allotment for water-supply from Rs. 10,000 to Rs. 15,000, and the munificent donation of Rs 14,000 was made by Rai Jogendra Kishor Rai Chaudhri Bahadur of Ramgopalpur. In Faridpur, owing to the sandy nature of the soil, tanks were found to run dry, and tube-wells proved a failure. A trial is now to be made of wells built with grooved bricks, which can be constructed very cheaply. In the Patna Division 25 new wells were sunk, 790 were repaired or cleansed, and 228 were supplied with chains, buckets and poles. The total expenditure amounted to Rs 17,647.

29. In connection with the systematic inquiries which are being held under the special orders of this Government into the sufficiency of rural water-supply throughout the Province, District Boards were instructed to prepare two registers, showing whether the existing sources of water-supply in every village containing more than 100 houses were sufficient for the needs of the population, and what ought to be done to extend or improve them. It was also enjoined that both the registers should be examined periodically by the Chairman of the District Board and by Inspecting Officers, with a view to the issue of orders under sections 90, 118 and 119 of the Bengal Local Self-Government Act, and to ascertain whether orders already passed under those sections are duly enforced. Every attempt was made by the District Boards to complete these registers, but owing to the want of full information on the subject, the registers in many districts could not be completed during the year, and consequently no inspection could be made of them by the Inspecting Officers.

30. *Drainage.*—The following statement shows the expenditure incurred by the several District Boards in the improvement of drainage:—

	Rs.		Rs.
Howrah ...	... 90	Dinajpur ...	... 947
24-Parganas	... 1,730	Rangpur ...	... 2,316
Murshidabad	... 735	Noakhali ...	... 193
Jessore ...	... 1,509	Gaya	... 1,928
Rajshahi ...	... 380	Champaran	... 1,039

Darbhanga ... ... Rs. 371

No expenditure was incurred under this head by the other District Boards.

31. *Scientific and other Minor Departments.*—The District Board of Pabna continued to maintain two bulls at Pabna and at Sirajganj, and the Shahabad District Board an Arab stallion at Buxar for breeding purposes. The sum of Rs. 54 shown against Khulna represents petty charges incurred on the keep of a bull in the Khulna Jail, which has since been returned to the Veterinary Department.

32. *Stationery and Printing.*—The total expenditure under this head has risen from Rs. 50,495 in 1895-96 to Rs. 53,133 in the year under report.

33. *Miscellaneous.*—The expenditure under this head declined from Rs. 71,354 to Rs. 62,607. In some districts this decrease is said to be due partly to the short expenditure under the heads "Serais and Dák Bungalows" and "Miscellaneous and unforeseen charges," and partly to the transfer of certain charges to their proper heads under "Civil Works." In other districts it is attributed to the fact that there had been an unusual expenditure in the preceding year on account of general elections.

34. *Famine Relief.*—The total outlay under this head was Rs. 2,86,990, of which Rs. 13,082 were spent on charitable relief, Rs. 2,49,830 on public works, and Rs. 24,078 on miscellaneous works. By far the largest expenditure was incurred by the District Board of Darbhanga, in which district the expenditure on public works alone amounted to Rs. 1,53,510 The Board opened test relief works at the end of October as soon as distress began to be felt, and continued to contribute towards relief operations up to the end of the year.

35. *Civil Works.*—The statement below compares the expenditure under the head of Civil Works during the past two years :—

Year.	Ferry establishment, contingencies and refunds.	Original Works.	Repairs.	Establishment and contingencies.	Tools and Plant.	Water-supply and water-works.	Drainage works.	Total.
1	2	3	4	5	6	7	8	9
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs	Rs.
1895-96	45,682	14,09,268	23,11,022	6,26,547	21,888	51,975	5,198	44,71,680
1896-97	46,548	12,26,650	19,51,779	6,66,973	20,550	98,913	12,744	40,23,157
Difference	+866	—1,83,618	—3,59,243	+40,126	—1,338	+46,938	+7,546	—4,48,723

The decline in expenditure of Rs. 4,48,723 is due to the fact that original works had to be suspended, and repairs restricted in order to meet the requirements of famine relief. The Muzaffarpur District Board spent the largest sum on original works, Rs. 1,33,248, the principal work undertaken and completed by the Board during the year being the pontoon bridge over the Bur-Gundak river at Akra Ghat. Among the other more important works undertaken by the District Boards during the year may be mentioned the construction of a metalled feeder road from the Kissenganj Railway Station to Hansdah at a cost of Rs. 10,834, repair of the provincial road from Jessore to Calcutta at a cost of Rs. 11,901, improvement of the road from Fangi to Kaliganj at a cost of Rs. 10,000, construction of an iron girder bridge over the Ghangher nalla on the Jahanad-Urwal road at a cost of Rs. 27,124, and of a similar bridge over the Pamer river, the improvement of the Dhurabra-Ukhgaon road at a cost of Rs. 11,899, the improvement of the Sonborsa road at a cost of Rs. 10,000, completion of four masonry bridges at Darbhanga at a cost of Rs 19,957 and of a masonry bridge of five spans on the Darbhanga Sakri road at a cost of Rs. 13,065, and the remodelling of the road from Bhadrak to Chandbali at a cost of Rs. 16,572.

36. Appendix C will show that the mean provincial percentage of cost of Civil Works on total expenditure was 60·3, the maximum (65·8) occurring in the Bhagalpur Division and the minimum (53·6) in the Orissa Division. The percentage of the cost of establishment on total expenditure was 9·1 for the whole province, against 8·6 in 1895-96; but in 13 districts the proportion exceeds 10 per cent., and in Champaran it stands as high as 15·9. For the whole province the salary of the District Engineer represents 38·7 per cent. of the total cost of establishment. This proportion is exceeded by 16 districts, Champaran showing so much as 67·4. The provincial mean ratio of cost of establishment to expenditure on original works and repairs is exceeded by 21 districts, and the provincial mean ratio of the District Engineer's salary to expenditure on original works and repairs by 18 districts.

37. *Village Roads.*—The statement in the margin compares the outlay on village roads in each Division during the past two years. These figures do not include a sum of Rs. 2,369 spent by the District Board of Gaya during the year in the improvement of the village roads in the Government estates in the district. No figures are entered against the Bhagalpur Division, as in former years the scheduled roads under the Local Boards in the Bhagalpur and Monghyr districts were erroneously treated as village roads, and the whole question of classification of the village and district roads in those districts is now under the consideration of the Boards. The expenditure was highest in the Dacca Division, where a total length of 2,235 miles was maintained by the Board at an average cost of Rs. 9·8 per mile on their ordinary income. The decrease in the Patna and Presidency Divisions and the Birbhum district of the Burdwan Division was generally due to the withdrawal of money for famine relief.

	1895-96. Rs.	1896-97. Rs.
Burdwan Division ...	40,261	36,896
Presidency ditto ...	43,957	31,925
Rajshahi ditto ...	28,691	19,432
Dacca ditto ...	68,403	73,473
Chittagong ditto ...	50,149	41,166
Patna ditto ...	74,925	38,732
Bhagalpur ditto ...	42,406	.. ...
Orissa ditto ...	17,927	22,579
Total ...	3,61,718	

38. *Water Communications.*—Besides the improvements detailed in last year's Resolution, an expenditure of Rs 280 was incurred during the year by the Narainganj Local Board in excavating a village khal and in clearing silt and jungle from some other khals. In Chittagong the boat traffic is reported to have been much facilitated by the opening of a new canal connecting the Karnafuli river with the Murali Khal. The District Board of the 24-Parganas spent Rs. 301 in maintaining a drainage channel along the Diamond Harbour road.

39. *Steam Communications.*—The only change to note under this head is that in Tippera the steamer service between Akhaura and Maniknagar having proved unprofitable was withdrawn, and the boat service was restored on a monthly subsidy of Rs. 50.

40. *Miscellaneous Public Improvements.*—The following amounts were spent by the different Boards under the head of Arboriculture:—

	Rs.		Rs.		Rs.		Rs.
Burdwan	2,271	Murshidabad	173	Pabna	1,975	Patna	741
Birbhum	936	Jessore	912	Dacca	729	Gaya	1,846
Bankura	74	Khulna	291	Mymensingh	3,141	Shahabad	2,276
Midnapore	166	Rajshahi	325	Faridpur	70	Saran	522
Hooghly	1,950	Dinajpur	1,238	Backergunge	200	Champaran	343
Howrah	300	Jalpaiguri	380	Tippera	1,282	Monghyr	2,463
24-Parganas	537	Rangpur	1,573	Noakhali	1,359	Bhagalpur	2,478
Nadia	530	Bogra	169	Chittagong	1,432	Purnea	1,492
	Malda Rs. 183				Balasore Rs 826.		

A further expenditure of Rs 2,123 was incurred by the District Board of Gaya in constructing ten new walls and Rs. 572 by the District Board of Muzaffarpur in repairing and maintaining two small bunds.

41. *Railway Feeder Roads.*—Proceedings were instituted during the year for the acquisition of the land required for the Debipur feeder roads in the district of Birbhum. Rupees 800 was sanctioned by the District Board of the 24-Parganas for land for a feeder road connecting the new railway station at Halishahar on the Eastern Bengal State Railway with the village of Halishahar. A sum of Rs 10,834 was spent by the District Board of Nadia out of the loan of Rs. 20,000 obtained by that body from Government for the construction of the metalled feeder road from the Kissenganj railway station to Hansdah. The construction of the feeder roads from Bharamara to Karimpur *viâ* Taragonia and Allumdanga to Gangni *viâ* Hat Boalia, which were mentioned in last year's Resolution, was undertaken by the Public Works Department as a famine relief work. In Jalpaiguri the road from Latagori to Tondubasti, for which Government sanctioned a grant-in-aid of Rs. 11,200, was commenced during the previous year and completed during the year under report. In Dinajpur the feeder roads from Thakurgaon towards Nilphamari and from Thakurgaon towards Domer were improved. The railway feeder road from Fanji to Kaliganj, for which a sum of Rs. 10,000 was sanctioned by Government, was much improved. In Noakhali two feeder roads were constructed during the year, and two such roads in Chittagong were under construction. The construction of the road leading to the Sabour railway station on the East Indian Railway was completed by the District Board of Bhagalpur during the year.

42. *Railways and Tramways.*—The survey of the projected railway from Burdwan to Katwa and from Katwa to Hooghly *viâ* Kalna was almost completed during the year. The Howrah-Sheakhala and Howrah-Amta Steam Tramways were nearly completed; they have since been opened. Messrs. Martin and Company have obtained an extension of time up to 16th June 1898 for the completion of the steam tramway from Ranaghat to Krishnaghar. The earthwork on the feeder line of railway from Segowlie to Ruxaul has been nearly completed.

43 *Amendment of the Bengal Local Self-Government Act.*—The opinions called for from Commissioners of Divisions and Associations and other public bodies on the provisions of the Bill to amend the Bengal Local Self-Government Act, which was introduced into Council towards the close of the year 1895-96, have been received, and are now under the consideration of this Government.]

44. *General Remarks.*—The Officiating Lieutenant-Governor will conclude this review by reproducing the observations recorded by the several Commissioners of Divisions in their reports on the working of District and Local Boards during the year:—

Mr. G. Stevenson, Officiating Commissioner of the Burdwan Division, writes:—

"I myself have nothing to add to my remarks on this subject made in paragraph 81 of last year's report. Further experience of the Division has but confirmed me in the views there expressed. District Boards may be useful at least as consultative bodies, but Local Boards are superfluous entirely, especially at the head-quarters of the district, so far as practical utility is concerned. As seems to me, the only point that can at present with any force be urged in their favour, is that they may perhaps in time be a means of educating the people in Local Self-Government."

Mr. E. V. Westmacott, Commissioner of the Presidency Division, states:—

"As regards my opinion on the working of the Boards and Union Committees, it has been recorded in paragraphs 95, 96 and 97 of my report in last year, and the experience of another year has shown me no reason to modify it."

Mr. P. Nolan, Commissioner of the Rajshahi Division, observes:—

"In my opinion the District Boards have worked very well during the year. As indicated by Mr. Peake, it is a defect that the District Engineers are not liable to transfer; a healthy current is necessary in this part of the country to prevent stagnation It is, moreover, difficult to provide for their going on leave. The only one who took furlough in the Division in recent years was suspended on his return, being accused by the officer acting of embezzlement: the case is under enquiry."

Mr. L. Hare, Officiating Commissioner of the Dacca Division, remarks:—

"Throughout this Division the District Boards have fulfilled their recognised function as consultative bodies. All the District Officers report that they have found them useful. The Local Boards have also, for the most part, taken interest in their work and in the expenditure of the funds allotted to them."

Mr. F. R. S. Collier, Officiating Commissioner of the Chittagong Division, says:—

"On the whole, I consider the working of the District Boards in the Division to have been satisfactory. The burden of administration of course falls mainly on the Chairman and Vice Chairman. But the criticism and advice, which the local knowledge and experience of the members of the Boards enable them to offer, are often of the most valuable kind, and prevent much waste of public money."

Mr. J. A. Bourdillon, Officiating Commissioner of the Patna Division, records the following observations:—

"The remarks of all the Chairmen of District Boards are judicious, and, though the notes are different, they are in harmony. The District Boards have been most useful in counsel. For action the year has afforded less scope than usual, since all the savings that could be effected were made over to Government for expenditure in the relief operations. Hence in several districts ordinary road repairs are much in arrears, but, on the other hand, many of the old district roads have been improved, and some new ones made by famine labour, and in the long run the Boards will be no losers."

Mr. W. B. Oldham, C.I.E., Commissioner of the Bhagalpur Division, makes the following remarks:—

"In my Annual General Administration Report for the Division for the last year, I remarked:—

"'All these District Boards have been praised for some years past, but last year each one of them appears in a very favourable light. They concentrated all their resources for the relief of distress, and gave up every other object in this view. In the same way they have co-operated as strongly as possible with the other local authorities, and with abundant room for friction in some details, there has been absolutely none of it. They have shown themselves most keenly alive to their responsibilities as answerable in a very large degree for the welfare of the districts which they represent. The Local Boards, too, it appears, have given all assistance in their power.'

"But on the Local Boards remarks must still be negative. It may be hoped that many of them will be superseded by the Union Committees with more definite scope and opportunities for useful work."

Mr. H. G. Cooke, Commissioner of the Orissa Division, comments as follows:—

"With the exception of Puri, where the attendance of the Board's members left something to be desired, I have no reason to suppose that the members fail to attend to their duties. The Local Boards, too, are fairly punctual in holding meetings. The weakest part of the machinery is to be found undoubtedly in the committees of the Boards. A consultative

body that meets once a month for the despatch of business, represents in itself some sacrifice of promptness in the disposal of work, which, it is hoped, is counterbalanced by the knowledge and experience that the members place at the disposal of the President; but, when such consultative body delegates important duties to committees, who meet irregularly or not at all, and who neglect urgent business for months together, the mischief to the despatch of business is enormously increased with no corresponding advantage. The Boards do not appear to exercise any pressure on these committees to compel them to discharge their duties with punctuality. So far as my experience goes, the only remedy lies in the selection of the members of these committees and arranging for a quorum of officials and such non-officials as may be relied on to attend being always available in the station, if not in the Government offices."

45. The Officiating Lieutenant-Governor concurs generally in the following opinion expressed by Sir Charles Elliott on the working of District and Local Boards:—

"During the last five years Sir Charles Elliott has watched with interest the working of District and Local Boards, and has formed a distinct opinion as to their respective merits as departments of the public service. In District Boards the Government possesses a valuable agency for assisting the executive of the districts with information as to local wants and conditions, and advice in the manifold details of internal executive administration. The strength of these Boards resides in the fact that they represent more or less adequately the chief interests of the district, and that the questions which come before them are important enough to arouse their interest, while at the same time they are relieved by the executive of the duty of controlling and supervising details. The chief defect of the District Boards consists in the large area of their jurisdiction and in the difficulty of appointing a body of men who will effectually represent all parts of the district and all intersts in it. The division of functions between the Boards and their Chairmen is one well adapted to the work that has to be done. The representative body supplies the information and experience on which to base the decision as to what should be done; the officer who wields the executive power in the district gives effect to those decisions. With Local Boards it is different. It has hitherto been found impossible to extend their functions so as to give them work of sufficient importance to enlist their interest keenly. Nor, at any rate in most cases, have they at their head an officer of experience in business with a sufficient staff at his disposal. Thus their energies flag, and the work that is given them to do is too often indifferently looked after. The policy by which these defects can be cured seems to be one involving larger decentralisation, the devolution of some of the work now retained by the District Boards, the appointment of an official Chairman, and the abolition of the Sadar Local Board, which is an evident superfluity. It is possible also that the extension of Union Committees and the promotion of village sanitation may stimulate the energies of Local Boards and provide for them congenial work in supervising and guiding the action of the Committees; or again the latter being more closely in touch with local interests, may in time absorb the functions of Local Boards and render these bodies superfluous. Either result, however, must be the work of time, and it would be premature to venture on any forecast of what will happen within the next few years.

Since these words were written, the course of events has tended generally to indicate that the further development of Local Self-Government in Bengal is likely to take the form of the extension of Union Committees with some powers of permissive taxation for strictly local purposes; but the recent distress has compelled the Government to lay aside for the present all schemes of this kind. It is impossible at present to say how soon they may be resumed; but when the time comes to reopen the subject, Mr. Stevens apprehends that larger issues will be raised, and that the question of increasing the resources of the District Boards and widening their financial responsibilities will have to be fully considered.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Secretary to the Govt. of Bengal.

Imports.—During the period under report, the imports of rice amounted to 38,977 cwts., against 32,729 cwts. in the week ending 21st November 1896. The amount imported from Burma was 20,810 cwts., against only 5,719 cwts. in the third week of November 1896, that from Chandbali and Balasore 15,641 cwts., against 27,010 cwts. and that from the Straits Settlements 2,517 cwts. against nil in the corresponding period of last year. Imports of paddy and gram and pulses remained very nearly the same as in the corresponding week of 1896.

Exports.—In the following statement the total quantity of each kind of food-grain exported by sea during the third week of November 1897 is compared with that for the corresponding period of 1896 :—

	15TH TO 21ST NOVEMBER			
	1896.		1897.

Total ...	104,313	1,41,981	111,833	1,52,217

Foreign ports.

The exports of rice from Calcutta to foreign ports rose from 64,618 cwts. in the third week of November 1896 to 74,534 cwts. in the period under report. There were no exports to Mauritius which took 40,011 cwts. in the corresponding period of last year. The despatches to Ceylon showed an increase of 45,616 cwts., and those to Aden of 5,262 cwts. The exports of gram and pulses fell from 11,952 cwts. to 902 cwts., and those of miscellaneous food grains from 2,947 cwts. to only 27 cwts, owing chiefly to the cessation of exports to Mauritius which received 9,653 cwts , and 2 947 cwts. respectively in the corresponding period of 1896.

Indian ports.

As regards Indian ports, the exports of rice during the third week of November 1897 amounted to 24,331 cwts., against only 2,731 cwts. in the corresponding period of last year, owing chiefly to larger exports to Bombay and the Madras ports. Exports of paddy to Cochin and Calicut aggregated 3,709 cwts., and wheat to Rangoon 1,736 cwts against nil in the corresponding week of 1896. The decrease under gram and pulses amounted to 14,485 cwts. in consequence of the cessation of exports to Bombay, which took 14,427 cwts. in the corresponding period of last year.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

The imports of rice into Chittagong during the week under report amounted to 3,069 cwts, of which 2,996 cwts. came from Burma against nil in the week ending 21st November 1896. The export trade of the Balasore ports fell off by 8,320 cwts., chiefly on account of smaller despatches of rice and gram and pulses to Calcutta. False Point despatched 17,459 cwts. of rice to Colombo and Cochin, against 2,865 cwts. during the corresponding week of the last year. Bombay, which received 436 cwts of rice from False Point during the week ending 21st November 1896, drew nothing in the period under review.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1·6° lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

NOTIFICATIONS OF THE BOARD OF REVENUE.

NOTICE.

No. 2227B.

OPIUM.

THE HON'BLE MR. W. H. GRIMLEY.

APPLICATIONS for tickets of admission to the Opium Sale Rooms for the year 1898 should be made at the office of the Board of Revenue, Lower Provinces, on or after the 21st December 1897. Tickets for the year 1897, which have not already been surrendered, should be returned at the same time.

By order of the Board of Revenue, L. P.,

C. R. MARRIOTT,
Offg. Secretary.

CALCUTTA, *the 8th December 1897.*

NOTIFICATION No. 2234B.

Dated Calcutta, the 9th December 1897.

THE following rules under the Bengal Excise Act for regulating the preparation and sale of methylated spirits in Bengal, having been approved by the Lieutenant-Governor, are published for general information, in supersession of the present rules in section XII at pages 131—133 of the Excise Manual, 1891.

2. The new rules shall take effect from the 1st June 1898.

C. R. MARRIOTT,
Offg. Secy., Board of Revenue, L. P.

Spirit rendered effectually and permanently unfit for human consumption, generally known as methylated spirit.

Spirit rendered unfit for human consumption, an exciseable article.

1. Spirit rendered effectually and permanently unfit for human consumption, whether country-made or imported, is an exciseable article within the meaning of section 4 of the Bengal Excise Act (VII of 1878), but is subject to the special relaxations allowed under this section.

Application where to be made.

2. An application for a license to remove spirit, rendered effectually and permanently unfit for human consumption, on payment of an *ad valorem* duty of 5 per cent. must be made to the Collector of the district, or to the Superintendent of Excise Revenue of Calcutta, if the spirit is to be taken from a distillery within 20 miles of Calcutta, or from the Custom House, or is to be used in his jurisdiction.

May be used within the distillery.

3. The Collector or the Superintendent of Excise Revenue may also authorise the use of spirit, so rendered effectually and permanently unfit for human consumption, within the walls of the licensed distillery in which it was manufactured, after payment of the reduced duty of 5 per cent. *ad valorem*. In this case, the use of the spirit will be under the supervision of the same excise establishment as the manufacturing operations of the distillery.

Issue of license.

4. The Collector, or the Superintendent of Excise Revenue, on sanctioning the removal of spirit under Rule 2, shall issue a license in Form 34 in Appendix A, authorising a person to remove spirit rendered effectually and permanently unfit for human consumption under the following rules from a distillery or from the Custom House, on payment of the reduced duty of 5 per cent. *ad valorem*.

Ingredients to be used.

5. Whenever country spirit is to be rendered effectually and permanently unfit for human consumption, the ingredient to be used for admixture with the spirit shall be caoutchoucine, which shall be mixed with the spirit in the proportion of 1 part of volume of the caoutchoucine to 99 parts of volume of the spirit, which shall not be of less strength than 30 per cent. over-proof.

Test by Chemical Examiner.

6. The ingredient to be used for admixture with the spirit must be tested by the Chemical Examiner to Government, who must certify to the Collector, or the Superintendent of Excise Revenue, that it will effectually and permanently render unpalatable and unfit for human consumption the spirit with which it is mixed.

Valuation.

7. For the purpose of fixing the amount of duty to be levied on such spirit, its market value is fixed by the Collector, or the Superintendent of Excise Revenue, subject to the revision of the Commissioner of Excise.

Expense.

8. Any expense which may be incurred by the Collector, or the Superintendent of Excise Revenue, in rendering spirit unfit for human consumption, or for ascertaining by chemical or other process that it has been effectually and permanently so rendered, must be paid by the person wishing to remove the spirit before its removal is allowed.

Certificate of Chemical Examiner.

9. Spirit imported by sea, rendered effectually and permanently unfit for human consumption, will be dealt with by the Collector of Sea Customs. Spirit manufactured in any other Province and imported into Bengal shall pay full duty, unless the Chemical Examiner to Government shall have certified, on a sample sent to him, that the spirit has been rendered effectually and permanently unfit for human consumption in accordance with Rule 5 above, or in some other equally efficacious manner. The use of wood-naptha shall not be held to render spirit effectually and permanently unfit for human consumption.

License for sale.

10. A license in Form No. 34A is required for the sale of spirit rendered effectually and permanently unfit for human consumption. Such license shall be granted, free of cost, by the Collector of the district, or the Superintendent of Excise Revenue.

Penalties for unauthorised use or possession.

11. The unauthorised use or possession or sale of spirit rendered effectually and permanently unfit for human consumption shall subject the offender to the penalties provided in the Excise Act.

FORM No. 34.

The following are the conditions of sale:—

1.—The opium will be sold for exporation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.— The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-books and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipt, or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6 —The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any

of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1896-97, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

NOTIFICATION.

No. 5472M.—The 13th December 1897.—It is hereby notified for general information that in supersession of all previous rules issued under section 82 of Bengal Act III of 1884, as amended up to the 1st November 1896, the Lieutenant-Governor is pleased to make the following rules under the aforesaid section of the Act for keeping the accounts of Municipalities and also for the audit of such accounts. These rules will come into force on the 1st April 1898:—

ACCOUNT RULES FOR MUNICIPALITIES.

Preliminary.

In these rules, unless there be something repugnant in the context—

(i) the term 'treasury' means a Government treasury with which a municipality banks, and includes a bank or a branch bank with which a municipality banks with the sanction of the Local Government;

(ii) 'treasury officer' includes the officer in charge of a bank.

GENERAL.

1. The registers and forms prescribed in these rules provide for all classes of transactions usually occurring in municipalities of ordinary size. But if it is found that the account rules and forms herein prescribed do not conveniently meet the special requirements of a municipality, they may be added to or modified by the Municipal Commissioners with the sanction of the Examiner of Local Accounts in Bengal.

2. The cash and account branches of each Municipal Office shall be kept distinct from each other, and under distinct officers, who, for the purposes of these rules, will be termed, respectively, Tax-Daroga or Cashier and Accountant.

In no case shall the same person compile the Municipal accounts and superintend the collection of the rates and other Municipal income.

3. As the officer in charge of a Treasury and the Vice-Chairman of a Municipality occupy the respective positions of banker and constituent (Rule 20), no person connected with the treasury shall assist in any way in collecting Municipal revenue or in posting the Municipal books.

4. The Chairman, Vice-Chairman or Secretary shall at the time of audit cause to be produced all accounts, registers, documents and subsidiary papers which may be called for by the Local Auditor to assist him in his investigation.

5. All accounts and registers shall, as far as possible, be maintained in English. All books of account and registers shall be substantially bound and paged before being brought into use, and no accounts shall be prepared on loose sheets or in loosely bound volumes.

6. All corrections and alterations in accounts shall be neatly made in red ink, and attested by the initials of the Chairman, Vice-Chairman, or Secretary. Similarly, all alterations and corrections in a voucher shall be duly authenticated by the payee. *Erasures shall on no account be permitted in registers, statements, vouchers, or accounts of any description.*

SECURITY.

7. The Secretary, Accountant, Tax-Daroga, Cashier, and tax-collecting sarkars in the employ of a Municipality shall furnish such security as the Commissioners may think proper.

Nothing in this rule shall be understood to prohibit such security as the Commissioners may think advisable being taken from any other officer or servant in the employ of a Municipality.

The prescribed form of security bond for Municipal employés is appended to these rules.

EMBEZZLEMENTS.

8. Whenever an embezzlement of Municipal moneys is discovered, the fact shall be immediately reported by the Chairman of the Municipality to the Examiner of Local Accounts, and when the matter has been fully enquired into, a further and complete report shall be submitted of the total sum of money misappropriated, the method in which the embezzlement was effected, and the steps taken to recover the money and punish the offenders.

CLASSIFICATION OF TRANSACTIONS.

9. No change shall be made in the prescribed list of major and minor account headings without the consent of Government, and the same headings shall, except as provided in Rules 61 and 75, be used in all accounts prepared or issued by a Municipality.

BUDGET ESTIMATE.

[*The regulations regarding the preparation and sanction of the Budget Estimate are contained in sections 72 to 76 of the Act.*]

10. The estimate shall be prepared in English in appended Form No. I by the Accountant of the Municipality. The receipts shall be estimated in detail, but the totals only of the estimated expenditure shall be entered in the body of the Budget Estimate against the several headings.

The expenditure chargeable to loans shall be distinguished from that chargeable to revenue, and the balance shall be subdivided thus:—

	Rs. A. P.
Opening balance of loan funds	.....
Appropriation of loan funds	.....
Closing balance of loan funds ...	.....
Opening balance of revenue funds	.....
Appropriation from revenue	.....
Closing balance of revenue funds ...	.....

Particulars regarding the appropriation of loan funds shall be taken from the appropriation Register Form XXIIA, prescribed in rule 81A.

11. The budget shall be accompanied by a schedule in Form IA for each major head, in which shall be entered full details of the estimated expenditure under that head in the Budget Estimate.

FORM No. I(A).

DETAILED ITEMS OF EXPENDITURE.	Number of persons.	Rate of monthly pay.	Monthly aggregate.	Annual amount.	REMARKS.
1	2	3	4	5	6
		Rs.	Rs.	Rs.	

12. In preparing the budget, what is expected to be paid during the year shall be provided for and not the liability likely to be incurred or to fall due within the year. All existing liabilities, which cannot be liquidated before the commencement of the year for which the budget is being prepared, must also be ascertained and provided for.

13. In the form of Budget Estimate and the quarterly and annual accounts to be prepared for publication, all sums received by the Municipal Commissioners are treated as forming one General Municipal Fund, but in appropriating the funds at their disposal, the Commissioners must conform to the special provisions of the Bengal Municipal Act, which direct that after the payment in each case of the proportionate share to be fixed by the Commissioners in meeting of the cost of collection and supervision and of the keeping and audit of accounts, the net receipts on account of the water and lighting rates, as also of fees for the cleansing of private privies and cess-pools, shall be spent only on the purposes of Parts VII, VIII and IX of the Act, respectively; and to give effect to these provisions of the law, a separate account showing the receipt, charges and balance on account of each of these rates, &c., shall be prepared in Form II, as given below :—

FORM II.

Subsidiary Account of special rates (*Rate.*)

Month and year.	Receipts from rate.	Other receipts, *i.e.*, recoveries of charges, &c.	Proportionate share of fines and penalties.	Total receipts.	Direct charges.	Proportionate share of cost of collection and supervision.	Interest on capital outlay.	Total charges.	BALANCE.		REMARKS.
									Debit.	Credit.	
1	2	3	4	5	6	7	8	9	10	11	12

The credit balance of each of these accounts must be carried forward and not appropriated for general purposes, but if there is a continuous debit balance, it may be cleared by adding the deficit to the receipts as a contribution from the general fund. The direct receipts and charges will be transcribed from the monthly accounts, but the proportionate shares of cost of collection and supervision and of the keeping and audit of accounts will be estimated and entered in this account without disturbing the classification in the consolidated accounts of the Municipal Fund. For example, if a proportionate share of the cost of collection is to be charged against the water-rate, it will be entered in column 7 of the statement, but the full cost of collection must continue to be shown in Forms XIII and XVIII under the head "A 2—Collection of taxes," and not proportionately under that head and "C 1—Water-supply." The same rule applies to the proportionate distribution of the receipts to the credit of the subsidiary funds.

CASHIER'S CASH-BOOK.

14. The Cashier shall keep a cash-book in Form III, in which he shall enter all sums received by him on account of the Municipality.

FORM III.

15. The entries shall be in full detail of names and particulars, except in regard to collections, for which separate registers are prescribed, but as regards tax collections made be sarkars, only the daily "Total arrears" and "Total current" need be shown. The detailed headings for classification of the receipts should be according to the sources of income and the requirements of the Municipality. If the number of receipts is too varied to admit of a separate column being provided for each head, one column may be allotted to miscellaneous receipts, and these entries, with a description of the same, will be transferred to the Accountant's cash-book, and be classified in the abstract register of receipts.

16. When a remittance is to be made to the treasury, a line shall be drawn across the register, and the various money columns shall be totalled. The addition of the entries in the column "Total of each item" will give the total of the remittance, and the subsidiary cash columns will show the totals of the various heads of revenue. If any money is received after the remittance for the day has been made to the treasury, it shall be entered below the total thus struck, but the date in column 1 shall be the actual date of receipt and not of remittance.

17. As an alternative procedure the Cashier's cash-book may be kept in Form III(A), and the details of the classification to be shown in the payment side worked out in a separate abstract.

FORM III(A).

18. Any revenue paid direct into the treasury, either by servants of the Municipality who are authorised to collect or by other persons, will not be entered by the Cashier in his cash-book, as he need keep a record only of the money which passes through his hands. Each servant who collects miscellaneous sources of income and remits money to the treasury shall keep a cash account in such detail as is necessary; but if the collections he makes are recorded consecutively in one of the prescribed registers, and he can prepare his chalan direct from the register, no further account is required. For example, if a clerk is appointed to collect the horse and carriage tax, and remits his collections direct to the treasury instead of through the Cashier, he can prepare his chalan from Form XXIII without keeping a separate cash account.

19. The Vice-Chairman or Secretary shall, once at least in every week, examine the Cashier's cash-book, together with the pass-book, so as to satisfy himself that all money received has really been remitted to the treasury without delay, and that the Cashier does not retain in hand sums of money in excess of the security which he may have given, and that he always remits to the treasury the whole and not part of the day's receipts; and he shall initial the cash-book in token of having made this examination. He shall further once at least in every fortnight examine the Cashier's or the Accountant's cash-book with all the subsidiary forms (other than rate-bill forms) and registers in which receipts are given or collections recorded, with the view of testing whether all sums received are actually brought to account.

TRANSACTIONS WITH TREASURY.

20. All sums received on account of the Municipal Fund shall be paid into a treasury.

21. All moneys received on account of the Municipality shall be remitted intact to the treasury as often as can be conveniently managed, and shall on no account be appropriated towards expenditure.

22. All moneys paid into the treasury to the credit of the Municipal Fund, whether by servants of the Municipality or others, shall be accompanied by a chalan in the appended Form No. IV.

If the remittances to the treasury are all made through the Cashier, the chalan shall be in duplicate, and the forms shall be bound in books. The second part shall be removed from the book and retained by the Treasury office, and the original or counterfoil shall be receipted by the treasury officials and brought back to the Municipal office by the servant sent with the remittance.

When remittances are made by more than one officer or by a person not in the employ of the Commissioners, the chalans shall be in triplicate. The first part shall be retained by the Treasury office, the second part shall be sent to the office of the Municipality whenever the pass-book is returned (Rule 24), and the third part shall be delivered to the person paying in the money.

23. The details of each remittance classified according to the different heads of revenue will appear in the Cashier's cash-book, Form III or Form III(A), payment side. The chalans

for remittances by the Cashier shall therefore record only the name of the Municipality on account of which the money is sent to the treasury, and details of the notes and coins of which the remittance is composed.

24. With the remittances shall be sent the pass-book of the Municipality. Upon receipt of the money by the treasury, both sides of the pass-book shall be written up to date by the Treasury Accountant, the entries shall be initialled by the Treasury officer, and the book returned at once to the Municipal office. [See Rule 58.]

25. The pass-book will be supplied gratis by the treasury. It is not a Municipal account book, but is simply a copy of the account kept in the treasury of the money paid in and taken out by the Municipality, and must therefore always be written up *only by the Treasury Establishment*, by whom the original account is kept.

26. No entries or marks shall, under any circumstances, be made in the pass-book by any one connected with or working in the Municipal office. At the close of each month the balance in the pass-book shall be struck, the amount written in words, and signed by the Treasury Officer.

PAYMENT ORDERS AND PAYMENT OF CLAIMS.

27. Claims against a Municipality shall ordinarily be discharged by cheques drawn upon the Municipal banker.

28. The Commissioners may authorize the advance to the Vice-Chairman, Secretary, Accountant, or Cashier of the Municipality of a specified sum of money as an imprest to meet petty expenditure. Similar advances may also be made to schools, dispensaries or other municipal institutions. Provided that without the sanction of the Commissioner of the Division, the amount of any one advance shall not exceed Rs. 100.

Payments exceeding Rs. 20 shall not ordinarily be made from the imprest.

29. The imprest shall be recouped as often as is nesessary in the manner prescribed in Rules 41 to 43 below.

30. Every bill or other claim for payment shall be presented in the first instance to the Accountant, who shall check and examine it, and, if it be found correct and in order, initial it in token of correctness and submit it for orders to the Chairman or Vice-Chairman. If payment of the bill so presented is to be made, a payment order shall be endorsed on the document, that is to say, on the bill presented by the person who prefers the claim. The payment order shall, except as otherwise provided in Rule 73, run as follows:—"Pay (Rs.) Rs. only," the amount being written in words as well as in figures, and the order shall be signed by the Chairman or Vice-Chairman, if the amount to be paid does not exceed Rs. 500. If both the Chairman and Vice-Chairman be absent, or be unable to sign, no order for payment shall be made on the bill. Orders for the payment of a sum of money in excess of Rs. 500 shall be signed both by the Chairman and Vice-Chairman, or by the Chairman or Vice-Chairman and another Commissioner.

31. If the bill is to be paid out of the imprest, the Vice-Chairman shall, before signing the payment order, see the bill stamped with the words "Paid in cash" in conspicuous type, and shall then make it over to the Accountant or Cashier for payment. If the bill is to be paid by cheque, it shall be made over to the Accountant or Cashier, and shall be stamped "Paid by cheque No. " in conspicuous type. In the latter case the amount shall be entered, as soon as the cheque is signed, in the appropriate column of the cash-book of the Municipality (Form No. XI).

32. Every payment made, either in cash or by cheque, shall be covered by a receipt, stamped, if necessary, signed by the person to whom the money is due, and to whom it has actually been paid. A receipt signed by another person or by a Municipal employé is invalid.

33. All claims which are preferred and accepted should be paid at the earlist possible date. If a bill is presented and payment is not made within a month of its presentation, or if the claim is contested, it shall be entered in a register in Form V as given below:—

This register and the register of works (Rule 120) are required for ascertaining the unpaid demands for which provision has to be made in the next year's budget (see Rule 12), and at the close of the year the unpaid amounts shall be shown in the column "Balance" and be carried forward to the register of the next year. To ensure a complete record of the liabilities in cases where bills may not have been presented all orders for supplies or works other than those for which formal agreements have been taken, and particulars of which are entered in the register of works (see Rules 111 and 120), shall be entered in an order book in Form VI.

NOTE.—The total of the bill will be the joint total of columns 4 and 11. The amount of column 8 (net amount payable) will be disbursed in the municipal office. The total of the Provident Fund shown in column 12 will be remitted to the Savings Bank by a cheque drawn in favour of the Postmaster, and the income-tax shown in column 7 will be paid by cheque to the Collector of the district.

36. Every municipal employé shall give a receipt in the appropriate column of the form for the sum paid to him, and shall in the case of sums exceeding Rs. 20 affix a receipt stamp before signing. The cost of such receipt stamp must be borne by the person who receives the money, and not by the Municipality.

37. One bill, whether for establishment or other charges, shall ordinarily only contain details of charges to be taken against one of the budget heads. If in any case a bill be presented which contains charges against more than one head, the Accountant shall enface in red ink on the bill itself, above the payment order, the details of the apportionment of the charges. These details shall be also shown in the cash-book (Form No. XI) in the column "Head of account in abstract register."

38. All bills and vouchers that have been paid shall be numbered consecutively for the year in order of payment, shall be stamped "paid" or "cancelled," and shall be pasted in a guard-book.

Sub-vouchers for payments made out of the office imprest shall be filed separately, and shall be attached to the voucher for recoupment, a memorandum referring to this voucher being placed in the guard book.

IMPREST ACCOUNT.

39. Whenever the Municipal Commissioners shall decide that an imprest is to be granted to the Vice-Chairman, Secretary, or other officer for the payment of petty charges, the following procedure shall be adopted:—

On first receiving or taking charge of the permanent advance, the holder shall sign and file an acknowledgment in these terms:—"I acknowledge to have in my possession a permanent advance of Rupees (Rs.), which sum is due from me to the Municipality, and I am personally accountable for the amount."

A similar acknowledgment shall also be given by the holder on the first working day of each year.

The permanent advance, when first drawn, shall be charged in the cash-book to the head "Advances," and shall be debited to the holder's account in the advance ledger.

There will be no further entries in the ledger account until the advance is finally repaid. If the amount originally fixed for the permanent advance is subsequently increased or decreased by the Municipal Commissioners, the original advance shall be repaid and a fresh advance drawn.

40. The Chairman or other holder shall make payments from his permanent advance from time to time as may be required, and for each payment he shall obtain and hold a bill receipted by the payee, or, in the case of petty office expense, a written detailed statement of the sums spent.

These bills or statements shall be numbered consecutively, enfaced or stamped "Paid in cash" and enterd in the expenditure columns of the permanent advance account (Form

VIII), the classification of the charges being carefully entered in the columns provided for the purpose.

41. The permanent advance may be recouped whenever necessary, and it must always be recouped on the last working day of the month.

The procedure of recoupment is as follows:—

The Chairman or other officer holding the advance shall compare the sub-vouchers with the entries in the permanent advance account: he shall deface them by stamping them "cancelled," so that they cannot be used again. He shall total and initial the column "Amount of sub-voucher" in the permanent advance account, and also the amounts in the classification columns, the cross total of which should agree with the total of the column "Amount of sub-voucher," and shall rule a red ink line across the page.

42. The voucher for recoupment shall then be drawn out in Form No. IX, and it shall be enfaced with the usual payment order in the form prescribed in Rule 30. The Chairman shall draw out a cheque in his own favour for the amount, and initial the entries in the recoupment columns.

43. The recoupment shall always be in full of expenditure from the last recoupment to date, so that the balance in hand after recoupment will always be the full amount of the advance.

44. The serial number of the sub-vouchers shall always recommence with No. 1 after each recoupment.

CHEQUES.

45. Cheques drawn on a Treasury shall be in Form No. X annexed. Cheque books, containing 100 cheques each, will be provided by the officer in charge of the Treasury. Each book should bear a number which should be repeated upon each cheque contained in it,

together with the consecutive number of the cheque form, and the drawing officer should notify to the treasury upon which he draws the number of the cheque-book which he from time to time brings into use. Outside the book there should be instructions to keep it under lock and key in the personal custody of the drawing officer, who, when relieved, should take a receipt for the correct number of cheques made over to the relieving officer, a specimen of whose signature should at the same time be forwarded to the treasury concerned.

46. On receipt of a cheque-book from the Treasury, the officer to whom the duty of signing cheques is allotted shall count the cheques, and shall record on the back of the cheque-book that "This cheque book contains forms." The cheque book shall remain in the custody of the officer who usually *signs* the cheques.

47. The cheque book in use may be made over to the Accountant or Cashier whenever required, but it shall be returned before the office is closed for the day. The officer in whose custody it is to remain shall satisfy himself periodically that all unused cheques are in the book, and that none have been surreptitiously extracted.

48. No cheque shall ordinarily be signed unless required for immediate delivery to the person to whom the money is to be paid. The practice of retaining signed cheques in the office should not be permitted, except under very exceptional circumstances, which should be recorded.

49. Every cheque shall be drawn in English in favour of the person to whom the money is actually to be paid, and no cheque shall be drawn in favour of one person for payment to a third party. The sole exceptions permitted to this rule are in the case of a cheque issued—(*a*) for a sum of money distributable as pay or wages among a number of municipal employés, and (*b*) for a sum of money due to a person residing outside the district in which the Treasury is situated with which the Municipality banks. In such cases the cheque shall be drawn in favour of the Chairman, Vice-Chairman, or Secretary, who will in case (*a*) endorse the cheque to a named individual by whom the actual distribution is to be carried out, and in case (*b*) cash the cheque himself and forward the sum by half-notes and stamps in registered covers, or by money-orders to the payee.

50. The amount of every cheque drawn shall be written in words as well as in figures, both on the cheque itself and on the counterfoil, and the counterfoil shall be initialled by the person who signs the cheque.

51. All cheques drawn for a sum in excess of Rs. 20 shall bear a receipt stamp of the value of one anna, and this receipt stamp shall be affixed before the cheque is signed. The cost of the stamp is payable by the Municipality which issues the cheque, and not by the person in whose favour the cheque is drawn.

52. Cheques shall be signed either by the Chairman or Vice-Chairman. They may also be signed by the Secretary if the Municipal Commissioners so direct; but in that case a copy of the resolution empowering the Secretary to sign cheques shall be sent to the Accountant-General, Bengal, and also to the Treasury where the account is kept.

53. If a Municipality situated in a subdivision and banking at a sub-treasury requires money to be paid at the District Treasury, a cheque may be drawn for the amount upon the sub-treasury, with a request that an order may be issued for the payment of the amount from the District Treasury, or *vice versâ*.

CANCELLATION OF CHEQUES.

54. When a signed cheque is cancelled, it shall be enfaced or stamped "cancelled" by the Chairman, and shall be destroyed by the Government auditor as soon as the accounts for the month in which the cheque was drawn have been audited.

The fact of cancellation shall be noted in red ink under the initials of the drawer of the cheque upon the counterfoil, and also across the passing order which has been enfaced upon the voucher.

CORRECTION OF THE CASH-BOOK AND ABSTRACT REGISTER WHEN CHEQUES ARE CANCELLED.

55. If the cheque is cancelled before the cash transactions of the month in which it was issued have been totalled, the entry in the cash-book and also in the abstract register shall be struck out in red ink under the initials of the Chairman or Vice-Chairman.

If, however, the abstract register has been totalled, the amount of the cheque shall be credited in the cash-book as a miscellaneous receipt, and if the correction is made in the year in which the cheque was issued, "deduct entries" shall also be made in the adjustment register under that head and the head of expenditure to which it was originally charged.

56. Cheques are current for three months only. After the expiration of that period, payment will be refused at the Treasury, and the person in whose favour the cheque was drawn will therefore have to bring it back to be re-dated. No fresh cheque should be issued: the lapsed cheque shall simply be re-dated and the alteration initialled by the Chairman or official whose duty it would be to sign the cheque. A note of the fact of re-dating shall be entered in the cash-book against the original transaction and upon the counterfoil of the cheque itself. The alteration will in no way affect the accounts, and no further entries shall be made.

CASH-BOOK.

57. The cash-book of the Municipality shall be kept in English in Form No. XI by the Municipal Accountant. It shall be a substantially bound volume containing a sufficient

number of pages to contain at least one year's transactions. It shall be carefully paged before being brought into use.

* This column is intended to show any necessary particulars other than "head of account."

58. As soon as the pass-book is received back from the Treasury (see Rule 24), the Accountant shall compare and verify the entries in the pass-book with the duplicate chalans and with the cashier's cash-book to ensure that all remittances have been duly brought to account in the Treasury, and the Accountant will then write up the receipt side of his cash-book (Form No. XI) from the chalans and the Cashier's cash-book.

In writing up his cash-book the Accountant shall transcribe the totals only under the various account headings in the Cashier's cash-book into his cash-book, but at the same time he shall prove the compilation of the account and test the accuracy of the amount and the classification of the items forming the totals by referring to all the forms and registers in which receipts are given or collections recorded. All miscellaneous receipt and license-book counterfoils shall thus be checked daily by the Accountant, but the collections of municipal taxes should be compared only with the sarkar's collection registers, after they have been duly receipted by the tax-daroga and without scrutinising the counterfoils of the bills.

59. The payment side of the cash-book shall be posted from the details of the vouchers and of the cheques drawn. The amount of each cheque shall be entered as soon as the cheque is signed (see Rule 48).

60. The cash-book shall be balanced at the close of every month, and signed by the Chairman, Vice-Chairman, or Secretary in token of the correctness of every entry made therein. The balance brought out shall be stated both in words and figures, and shall be agreed with the balance shown in the pass-book of the Municipality, thus:—

Add cheques drawn, but not yet cashed—			
Rs. A. P.

NOTE.—When a cheque has been cancelled, (see Rule 55), it will of course not be entered in the list of cheques drawn but not cashed.

ABSTRACT REGISTERS OF RECEIPTS AND EXPENDITURE.

61. All the entries on the receipt side of the cash-book (Form No. XI) shall be posted by the Accountant, *one by one*, direct from the cash-book into the abstract register of receipts (Form No. XII), and all the entries on the payment side of the cash-book shall be similarly posted into the abstract register of expenditure (Form No. XIII).

When transactions under any head are very numerous, it will be best to open two or more columns with the same heading, and headings under which there can be no transactions may be omitted. This will save space in the register.

62. The abstract registers shall be kept in English, and shall be posted as often as may be convenient, but in no case later than ten days after the close of the month to which the account relates.

63. The cash transactions in the abstract registers shall be totalled every month, and the grand totals of the different heads of receipts and expenditure must necessarily be equal to, and shall be compared by the Vice-Chairman or Secretary with, the totals of receipts and payments in the cash-book (Form No. XI). He shall initial the abstract registers in token of having made this comparison.

The adjustments represent the totals appearing in the register of adjustments described below.

ADJUSTMENTS.

64. For the record of transactions other than cash, a register of adjustments shall be opened in Form No. XIV.

FORM XIV..

		"Add" entries ...																		
		Total ...																		
		"Deduct" entries ..																		
		Total ...																		
		Net total receipt heads									Net total payment heads ...									

NOTE.—As an adjustment cannot affect the balance of the account, the net totals of the receipt heads and the payment head must always agree.

65. The chief adjustments are—

(1) Rectification of errors in classification
(2) The adjustment of a bill against an advance.
(3) The charge to a head of expenditure by credit to deposits of a sum due on a contractor's bill which sum is retained as a security deposit.
(4) Adjustments due to refunds of income or recoveries of expenditure.

These transactions shall be entered, item by item, in the register of adjustments, whence the totals pass into the abstract registers of receipts and expenditure; but before the postings are made in the abstract registers the net total of the receipt heads shall be agreed with the net total of the payment heads.

66. The methods of entry in the register of adjustments are as follows:—

In case (1) the adjustment shall be made by entering the amount in the space for "Add entries" in the column for the head to which the amount is to be added, and, again, in red ink in the space for "Deduct entries" in the column for the head from which the amount is to be deducted. Both entries will be made on the receipt side if the amount is to be transferred from one head of receipt to another, and both will be made on the expenditure side if the amount is to be transferred from one head of expenditure to another.

In case (2) the adjustment shall be made by entering the amount in the space for "Add entries" in the column of the expenditure side for the head to which charges on account of the particular expenditure incurred are to be taken, and on the receipt side in the space for "Add entries" under the head "Advances recovered." A corresponding entry must of course be made on the receipt or credit side of the advance ledger, Form No. XV, of the person by whom the expenditure was incurred, and to whom the amount adjusted was originally advanced.

In case (3) the adjustment shall be made by entering the amount on the expenditure side in the space for "Add entries" in the column for the head to which the balance of the charges of the bill from which the deduction has been made has been taken, and on the receipt side in the spaces for "Add entries" under "Deposits received."

In case (4) an adjustment shall be made only when the income was originally received or the expenditure incurred in the same year in which the refund or recovery is made. When income is refunded the refund shall be charged to the major head of expenditure corresponding to the major head of receipt to which it was originally credited, or if there be no such head to "Miscellaneous." The amount shall then be deducted in the adjustment register from both the head of receipt to which it was originally credited and the head of expenditure to which the refund is charged. When expenditure is recovered the amount shall be credited to the major head of receipt corresponding to the major head of expenditure to which it was originally charged, or if there be no such head to "Miscellaneous." The amount shall then be deducted in the adjustment register from both the head of expenditure to which it was originally charged and the head of receipt to which the recovery is credited.

67. Adjustments made by deduction in the abstract registers shall always be written in red ink.

ADVANCES.

68. All moneys advanced to contractors or to the Chairman, Vice-Chairman, Municipal Commissioners, or other individuals under whose personal superintendence a work is being executed, all sums paid without proper vouchers, the amount of the imprest, and any other advance that may be made shall, in the first instance, be charged to the head "Advances" and entered in the advance ledger (Form No. XV). A separate account shall be opened in this ledger for each person to whom an advance has been given, and this account shall be credited with the amount of any repayments that may be made.

69. Advances for works to be carried out departmentally should not be for the full sanctioned cost of the work, but should be restricted to the amount actually necessary to meet immediate payments; and as this amount is exhausted, it can be recouped by submitting detailed bills for the expenditure incurred.

70 In the case of advances made to contractors or others for the execution of works, the account shall be credited with the actual value of the work done upon receipt of detailed bills and proper vouchers for the expenditure incurred out of the advance. These adjustments shall be carried through the adjustment register in the manner prescribed in Rules 64 to 66. Before the order for adjustment is made, the bills and vouchers put forward in support of the expenditure shall be passed by the Chairman or Vice-Chairman, or both, in the same manner as other bills are passed. The passing order shall run thus:—"Passed for Rupees

71. The different accounts in the advance ledger shall be balanced quarterly and signed by the Vice-Chairman or Secretary. The officer who signs the accounts shall at the same time satisfy himself that steps are being taken to recover or adjust advances which have been outstanding for more than three months. At the close of every quarter a list in Form XV(A) shall be prepared of outstanding advances.

DEPOSITS.

72. All sums of money received by way of security deposit from contractors or others and all sums received which are not the property of the Municipality, and have been placed with the Municipal authorities for a temporary purpose only, shall be credited to the head "Deposits received" in the abstract register of receipts (Form No. XII), and shall be entered on the credit side of the deposit ledger (Form No. XVI). As in the advance ledger, a separate account shall be opened for each depositor, and the accounts shall be balanced quarterly and signed by the Vice-Chairman or Secretary.

QUARTERLY AND ANNUAL ACCOUNT.

75. At the close of every month the totals under the various heads of account recorded in the abstract registers (Forms Nos. XII and XIII) shall be entered in English by the Accountant in the separate registers (Forms Nos. XVII and XVIII) against the corresponding heads under the appropriate month.

If it is desired to show the expenditure in greater detail than according to the prescribed budget heads, additional detailed heads may be inserted in the register of expenditure, and the particulars of the charges to be posted under these heads can be obtained from the cash-book or vouchers.

These two registers form the quarterly statement required under section 71 of the Act to be prepared immediately after the close of each quarter.

77. A copy of this account shall be sent not later than the 30th April following to the Magistrate of the district in which the Municipality is situated.

78. To enable the Magistrate to make the prescribed comparison between the estimates and the actual receipts and expenditure of the Municipality, the amounts by which the actual figures fall short of or exceed the estimated figures shall be shown in two separate columns provided for the purpose within the body of Form No. XIX.

AUDIT.

78A.—The accounts of the municipality shall be examined and audited by the Examiner of Local Accounts in Bengal as far as possible, not less often than once in twelve months.

78B.—In auditing the accounts, the Examiner shall see that they have been kept and are presented in proper form; that the particular items of receipt and expenditure are stated in sufficient detail; and that the payments are supported by adequate vouchers and authority. He shall examine whether all sums received, or which ought to have been received, are brought into account, and also whether the expenditure is in all cases such as might lawfully be made. He shall also reduce such payments and charges as are exorbitant; and shall surcharge moneys not duly accounted for, or lost by negligence, upon the person who ought to account for the same, or whose negligence or improper conduct has caused the loss; and shall disallow and strike out such payments as are not authorized by law or competent authority. He shall also ascertain the total unpaid liabilities of the Municipality, and also whether these can be met out of the municipal fund when falling due.

78C.—The reports of such examination shall be forwarded by the Accountant-General, Bengal, to the Chairman of the municipality, and copies to the Commissioner of the Division and the Magistrate of the district. The Chairman shall be bound to remedy any defects or irregularities that may be pointed out by the Accountant-General or the Examiner.

REGISTER OF SECURITY DEPOSITS OTHER THAN CASH.

97. Security deposited in *cash* shall be entered at once in the cash-book of the Municipality and the deposit ledger, and paid into the Treasury like revenue. All other forms of security, such as Government paper, bonds for landed property, and the like, shall be recorded in a register in Form No. XX. When the security is surrendered, the depositor shall give a receipt in the column provided for the purpose:—

When a loan is raised in the open market under the condition that a Sinking Fund is to be formed for its repayment, the payments to the Sinking Fund, as they fall due, shall be made to the Commissioner of the Division and the Collector of the District, who shall hold the funds in trust for the redemption of the principal of the loan. On receipt of the money, the Trustees shall lodge it in the Treasury for credit to a Personal Ledger Account to be opened in their names, and as soon as a sufficient balance is available, they shall invest the same in Government securities for retention in the custody of the Comptroller-General under the rules in Chapter 11 of the Civil Account Code. When any loans or debentures fall due, the Trustees shall realise the whole or a sufficient portion of the securities held in their names, and apply the sale-proceeds thereof, so far as they will extend, to satisfy such loans or debentures. The interest accruing on the investments shall be added to the balance of the Trust account, until the Sinking Fund is complete.

The transactions of the trust account shall be recorded in a cash-book in Form No. I of the "Account Rules for the guidance of Administrators of Trust Funds" issued with Finance Circular No. 2, dated 23rd February 1886, which shall be kept by the Trustees. As soon as possible, after the 31st March in each year, the Trustees shall forward to the Chairman of the Municipality, an abstract of the account in Form No. III of the Trust Fund Rules, and obtain from him a written acknowledgment of the correctness of the account. The Trustees shall bring to the notice of Government any default in payment to the Sinking Fund, which is not immediately remedied.

81A. To watch the appropriation of funds raised by loan to the purposes for which the loan has been taken, an appropriation register shall be kept in Form XXIIA.

TAX UPON OCCUPIERS OF HOLDINGS OR RATE UPON THE ANNUAL VALUE OF HOLDINGS, LATRINE RATE, LIGHTING RATE, AND WATER RATE.

82. The procedure in connection with the above rates will be found in Appendix A of these rules, which provides for collection either from door to door, or at the municipal office.

One or other of these systems shall be adopted with such modifications as may be found necessary, and as are approved by the Examiner of Local Accounts.

TAX ON CARRIAGES, AND ON HORSES AND OTHER ANIMALS.

83. The register prescribed in section 139 of the Act for the exhibition of the amount of taxes realised on account of carriages and horses and other animals shall be maintained in Form No. XXIII annexed.

84. *As soon as* a license fee or tax has been paid, *and not before*, the license shall be prepared in Form No. XXIV annexed; and when the necessary particulars have been posted in the register (Form No. XXIII annexed), both register and license shall be placed before the Chairman, Vice-Chairman, Secretary or other licensing officer, who shall sign the license and initial the register in the proper column.

NOTICE TO OWNERS OF CARRIAGES, AND ON HORSES AND OTHER ANIMALS (*suggested*).

85. Under section 133 of the Act, owners of carriages, and horses, and other animals liable to the tax are required to forward to the Commissioners statements in writing, containing descriptions of the carriages, and horses, and other animals for which they are bound to take out licenses. To facilitate this procedure, a supply of printed statements in Form No. XXV annexed may be obtained and distributed to the owners of vehicles which are taxable. These forms might with advantage be circulated by post to the owners of the different carriages, horses, &c., for which taxes were paid during the preceding half-year.

FEES ON THE REGISTRATION OF CARTS.

86. Tin tickets shall be issued to owners of carts which have been registered. These tin tickets shall be of a different colour for each period of issue. They shall be of a size sufficiently large to be easily distinguishable, and they shall bear consecutive numbers. Licenses or receipts for the registration fee (in Form XXXVI) may be given in addition to the tin tickets if this is found to be desirable.

As soon as the registration fee and the price of the tin ticket have been paid by the owner of the cart, the necessary particulars shall be entered in a register in Form No. XXVI, and the ticket shall be affixed to the cart by a Municipal servant.

MISCELLANEOUS RECEIPTS.

90. For money received by a Municipality on account of the tax upon occupiers of holdings, or rate upon the annual value of holdings, latrine rate, lighting rate, and water rate, a form of receipt has been prescribed in Appendix A (Form F). For money received on account of tax on carriages, horses, and other animals, the license issued will be a sufficient receipt.

For all other money received by the Municipality under the rules in this part, the Vice-Chairman or Secretary shall give a receipt in Form No. XXXVI. The total amount received shall be written in words, both on the receipt itself and on the counterfoil: the latter need only be initialled by the officer who signs the receipt. In the case of cart registration, if no license or receipt is given, the tin ticket will suffice.

The forms shall be bound in books, containing 100 forms each, and they shall be numbered before the book is brought into use. [See Rule 91 below.]

LICENSES AND RECEIPTS.

91. All license and receipt forms shall be bound in counterfoil books. Each book shall contain 100 forms, and no book shall be brought into use until *all* the forms and counterfoils have been consecutively numbered. The numbers shall, if possible, be printed.

Only one book for each purpose for which a separate book is required shall be given out by the Vice-Chairman or Secretary at a time, and until the book thus issued has been used up, no new book shall be given out.

The receipt and issue of all license and receipt forms shall be recorded in a stock-book (Form G of Appendix A of these rules may be used), and on no account shall loose unnumbered license or receipt forms be kept in the office.

RECEIPTS ON ACCOUNT OF MUNICIPAL POUNDS, FERRIES, RENT OF MUNICIPAL BUILDINGS, LANDS, &c.

92. Separate registers in Form XXXVII shall be opened to show the details of each source from which periodical municipal revenue is derived, for which there is a fixed monthly, quarterly, half-yearly or annual demand. As, however, the sources of revenue and the circumstances are very varied, the form may be modified, with the approval of the Examiner of Local Accounts, to meet local requirements; but, except as provided in Rule 99, the principle of showing the collections in monthly columns should be retained, unless the number of leases is very small.

93. The register shall show all demands due arranged in serial order—(1) on expired leases of the previous year; (2) on unexpired leases of the previous year; (3) on leases granted for the current year.

The entries under (1) and (2) shall be taken from the register of the previous year. In the former case the demand due will appear in columns 8 and 10, and in the latter in columns 8, 9 and 10. The Accountant shall fill up the current year's register in respect of these demands in the manner indicated above, and lay it with the register for the previous year before the Vice-Chairman, who, after comparing the entries, shall place his initials in column 12.

In respect of (3), when the agreement with the lessee has been signed and the security deposit paid, the Accountant shall fill up columns 1 to 11 and post the amount in the deposit ledger.

He shall then lay the agreements, the register, the deposit ledger and the chalans (or the cashier's cash-book) before the Vice-Chairman, who shall—

(*a*) Compare the entries in columns 1 to 7 with the agreements.

(*b*) See by reference to the chalans (or the cashier's cash-book) that the deposits (column 11) have actually been paid.

(*c*) Place his initial against the entries in the deposit ledger and in column 12 of the register.

NOTE.—When all the leases are for one year only, the amount paid as a security deposit may be credited direct to "Rent" and be included in the progressive total of the collections in columns 16, 20, 24, and 28.

94. When all the accounts, arrears as well as current, have been posted and checked by the Vice-Chairman, column 10 of the register shall be totalled and signed by him.

95. The payments made in satisfaction of the demand shall be posted in the column for the month in which the money is credited in the Accountant's cash book, *e.g.*, a payment credited in June on account of May will appear in the column for June and not for May. The entries shall be made by the Accountant from the chalans (or the cashier's cash-book, if details are not shown in the chalans), and when all the receipts have been posted, they shall be totalled and agreed with the credit for the month in the abstract register of receipts.

96. When the monthly posting of the receipts has been completed, the register shall be laid before the Vice-Chairman, who shall compare the total for the month with the abstract register of receipts and, as far as possible, the details of the credits with the chalans or the cashier's cash-book. He shall also carefully compare the credits with the particulars of the demand and take the necessary action for the recovery or settlement of the outstandings.

97. The security deposit which usually amounts to one-fourth of the annual rental will ordinarily be taken in satisfaction of the demand for the last three months of the year in which the lease expires, and shall be transferred by adjustment from "Deposits" to "Rent" and entered in the register in the column for March. Such credits in the register may be made in red ink to distinguish them from cash payments made during the same month.

98. If any part of the deposit has been taken as a fine for non-fulfilment of contract, the balance may be taken in part satisfaction of the demand during the last three months of the year; and if on the 31st March the deposit or balance of deposit will more than cover the demand, the balance will be refunded in cash to the lessee. But in no case may any sum be removed from deposit and transferred to another head except under the orders of the Vice-Chairman, who shall at the time initial the debits made in the deposit ledger.

99. When the number of demands is very large and bills are issued for their recovery as in the case of rents of municipal lands and houses, the system prescribed for rate collections in Appendix A may be adopted with slight modifications of the forms of bill and collection registers.

100. For income for which there is no fixed demand, *e.g.*, daily market fees, &c., a daily collection register shall be kept showing (1) date, (2) from whom received, (3) amount received, and (4) daily total, with any further particulars required, and when the circumstances admit of it, receipts in Form XXXVI with counterfoils should be given for each collection.

MISCELLANEOUS SUBSCRIPTION REGISTER.

101. Whenever a Municipality undertakes the collection of voluntary subscriptions to be devoted to a specific purpose, such as the erection of a town hall or market, the subscription

book or books to be sent round with the appeal for subscriptions shall be in Form No. XXXVIII. The books shall be numbered, and a list of them shall be kept which shall be initialled by the Vice-Chairman:—

If separate receipts are given to subscribers for their contributions, separate books of the Form No. XXXVI prescribed in these rules for the grant of miscellaneous receipts shall be brought into use.

102. At the end of each month or quarter the amounts (whether paid up or not) shown in the subscription books (Form No. XXXVIII) shall be totalled, and the total posted into an abstract in Form No. XXXIX. The abstract shall be checked and signed by the Vice-Chairman or Secretary. The officer who signs the abstract shall at the same time satisfy himself that steps are being taken to realise the promised subscriptions.

104. All cash receipts of municipal hospitals and dispensaries shall be deposited in the treasury to the credit of the Municipal Fund, and all charges shall be drawn from that Fund. But for each institution vested in the Commissioners, a subsidiary balanced account shall be kept in Form XLA, in which shall be credited (*a*) all endowments, funds, and contributions received by the Commissioners on its behalf, and (*b*) all sums allottted in the budget estimates for its establishment and maintenance which are chargeable to the general revenues of the Municipal Fund, and in which all expenditure incurred shall be charged. The balance of this account which shall be struck at the close of each month shall not be appropriated to any object other than the establishment and maintenance of the institution to which it belongs.

A copy of the monthly statement of accounts in Form XXII of the rules for the management of hospitals and dispensaries, which is prepared by the Managing Committee, shall be sent to the Municipal Office for comparison with the balanced account kept by the Commissioners.

PUBLIC WORKS.

Estimates.

107. Except in cases of emergency or to prevent damage or loss, no work shall be put in hand until a properly detailed estimate has been prepared and sanctioned. All estimates for new works and repairs the amount of which is Rs 500 or more shall be sanctioned by the Commissioners at a meeting and signed by the presiding officer.

107A. In the case of the following classes of estimates or projects, the sanction of the Commissioners shall be provisional only, and subject to the confirmation and approval of the authority indicated:—

(*a*). All projects for new works, the estimated cost of which exceeds Rs. 5,000 ... ...
(*b*). All projects for works which may affect or alter the course of any river which is navigable at any time of the year or on either bank of which there is any public embankment ...
(*c*). All projects for embanked roads passing through country subject to floods or irrigated from canals ... ...

} Sanction of the Local Government in the Municipal Department to be obtained through the Commissioner of the Division and the Sanitary Board.

The sanction of the Commissioners to an estimate for an original work which forms part of a contemplated scheme, although such estimate may in itself be within the limit up to which the Commissioners can sanction, shall be subject to the confirmation and approval of the same authority as the estimate for the whole scheme would be, and no such estimate for a part of a scheme shall be sanctioned unless the nature and approximate cost of the entire scheme is fully set forth in the report of the estimate.

When the sanction of the authority indicated is received, the provisional sanction of the Commissioners shall be confirmed by a resolution to be formally recorded in their proceedings, and the execution of the work may thereafter be proceeded with in accordance with any provision that may be made for it in the budget of the year.

108. A revised estimate shall be prepared when an estimate is likely to be exceeded either from the rates being found insufficient or from any other cause, and it shall be submitted for the approval of the authority whose sanction would be necessary if it were an original estimate.

109. To facilitate the preparation of estimates a schedule of rates of each kind of work commonly executed shall be kept up. This schedule shall be passed by the Commissioners at a meeting and kept corrected up to date so as to be a trustworthy record of the rates at which work is actually being done.

110. The estimates shall be filed in order of sanction and indexed.

Agreements.

111. For every work given out on contract an agreement on stamped paper shall be taken and executed in accordance with section 37 of the Bengal Municipal Act.

Contractors' Bills.

112. Payments for works given out on contract for which running accounts are kept shall be made in Form XLIII. On the completion or cessation of the work, the contractor shall be required to submit his bill for final adjustment of his claims, and when a final settlement is made with a contractor, he shall add in his own hand writing that the payment is in full settlement of all demands. As a further safeguard final bills may be printed on yellow paper to distinguish them from bills for payments on account.

113. When contractors or suppliers are paid up at once on completion of the work or supplies, Form No. XLIV may be used for the bill. In this form the accounts of several works and, if necessary, of more than one payee, may be included.

Completion Certificate.

114. When a work is completed a completion certificate (signed by the Vice-Chairman, Secretary, or a Ward Commissioner and certifying that the work has been satisfactorily completed) shall be submitted along with the final bill, and in the absence of such a certificate no contractor should be finally paid up.

Measurement Book.

115. The measurement book (Form XLV) is the basis of all accounts of quantities, whether of work done by daily labour or by the piece or by contract or of materials received, which have to be counted or measured. From the measurement book all quantities should be clearly traceable into the documents on which payments are made, and a reference to the voucher on which the quantities are entered for payment as well as the date of entry should be given by endorsement on the original entries. The measurement book shall accompany the bills to the Municipal office, and no contract certificate or bill should be passed without crossing off the connected entry in the measurement book. The document on which payment is made should invariably bear a reference to the number and page of the book in which the detailed measurements are recorded.

116. The entries in the measurement book should, if possible, be made in ink; but when this is not possible and the entries have to be made in pencil, the pencil entries should not be inked over but left untouched. The "contents or area" should, however, be invariably inked in.

117. To enable the overseer or other officer in charge of works to submit his measurement book with the bills or accounts to the Municipal office, it will be necessary to provide two or more books for his use. The measurement books after they are completed must be returned to the Municipal office for record.

Muster Roll.

118. When work is done by daily labour through departmental agency, the basis of the account will be the muster roll, and when payments are not made daily the muster roll must be a nominal one, *i.e.*, the names of the labourers, must be entered in it. This shall be kept in Form XLVI. The nominal muster roll is the initial record of the labour employed each day on a work, and must be written up daily by the subordinate deputed for the purpose each morning before the labourers begin work.

119. When possible, an extract from the measurement book should be endorsed on the muster roll, and the quantity of work turned out should be compared with the cost of the labour employed, so as to afford satisfactory evidence that the outturn of work gives a sufficient return for the money spent. Any deficiency in this respect should be noticed by the paying officer.

Register of Works.

120. The register of works shall contain a record of every original work or repair estimated to cost more than Rs. 200, showing the expenditure incurred in comparison with the estimate, and the arrears due on accounts for which part payments have been made. When the work is estimated to cost under Rs. 2,500 the record of outlay need not be kept by sub-heads, and Form XLVII will be used. But a record should be kept by sub-heads, and Form XLVII(A) used when the outlay is estimated to cost not less than Rs. 2,500; provided that sub-heads under Rs. 200 need not be separately detailed in the register.

STOCK AND STORE ACCOUNTS.

121. For stock and store accounts, registers shall be kept in Form XLVIII with any additional details or columns which may be found requisite.

A separate set of pages shall be assigned to each description of stock or tools and plant. The figures entered in the column "Balance" shall be certified to half-yearly by the Vice-Chairman or Secretary as representing articles found by actual counting or measurement, and if any excess or deficiency be found, the register shall be corrected accordingly.

122. When there is a large balance of stores for use by the Engineering Department registers of daily receipts and issues with inner columns for each kind of stores may be kept instead of Form XLVIII. These registers should be balanced monthly in a separate abstract and a half-yearly return, showing the receipts and issues month by month and the balances should be prepared for stock-taking. The daily registers, the monthly abstract and half-yearly return may be in Public Works Department Forms 9, 12 and 13.

123. A separate account should be kept of tools temporarily lent to contractors or in use by Municipal subordinates. When no longer required they will be received back by the store-keeper and transferred to the account of articles in store.

124. In stock-taking it is not necessary that count of everything should be made at the same time. The stock-taking may be arranged so as to go on gradually in the manner most convenient to the officers concerned. The date on which each item of stores was actually counted should be entered in the stock and store register or the half-yearly balanced return.

RECORD OF SERVICE.

125. A service-book in Form No XLIX, printed in English and the vernacular, shall be supplied at his own cost to every employé holding a substantive appointment on the permanent establishment of a municipality.

It shall be kept in custody of the Chairman or Vice-Chairman, whose signature, as well as that of the employé on the first page, shall be attested every five years.

The service-book is a contemporary record of the employés official life, including leave of every description, every period of suspension from employment and every other interruption of service, with full details of its duration. Every entry relating thereto shall be written across the page, and attested by the Chairman, or Vice-Chairman, or the Secretary.

126. The Chairman or Vice-Chairman is primarily responsible that every necessary entry is made, especially in regard to leave or suspension, but it is also the duty of each employé to remind the Chairman, Vice-Chairman, or Secretary when any entry is necessary, and to see that his own service-book is properly written up and attested. Service-books shall be introduced and kept up, whether rules for the grant of pensions and gratuities have been framed or not.

PENSIONS AND GRATUITIES.

127. Before any pension or gratuity authorised by rules framed under section 47 and approved by Government under section 59 of the Bengal Municipal Act is sanctioned, a report shall be made to the Accountant-General, specifying the grounds on which the pension or gratuity is to be awarded, accompanied by the applicant's service-book and a full statement of his service as shown therein and in other available records. The Accountant-General will then report what pension or gratuity is admissible under the rules.

MODEL RULES FOR THE MANAGEMENT OF A PROVIDENT FUND.

I. In the following rules:—

(*a*) Salary means monthly salary, and does not include travelling or personal allowances.

(*b*) Servant includes every non-pensionable employé holding a substantive appointment under the Municipality, and whose salary is not less than Rs. 15. Provided that an officer officiating in an office which is vacant, or the permanent incumbent of which does not draw any part of the pay on count service, may, if he is confirmed without interruption in his service, be allowed to join

the Provident Fund with retrospective effect from the date of his joining the officiating service. The monthly subscriptions to the fund shall not in such a case be less than 10 per cent. on the salary of the officer till all arrear subscriptions are paid up.

(*c*) Depositor means a servant on whose behalf a deposit is made under these rules.

(*d*) Interest means the interest which is paid on a deposit at a Government Savings Bank under the rules in force for such institutions.

II.—Every servant shall be required to subscribe at the rate of 6¼ per cent, or one anna in the rupee, on his salary to a Provident Fund, of which an account will be opened at the Post Office Savings Bank. This deduction shall be made by the Municipality upon every salary bill presented, and the net salary only shall be paid to the servant. In making this deduction fractions of a rupee of salary should be omitted.

III.—It shall be competent to the Municipality to make a contribution to the deposit account of each servant equal to, but not exceeding, one-half of the deduction made from his salary under the preceding rule, provided that if the total of the contributions shown in the bill on which a remittance is made to the Savings Bank contains a fraction of an anna, it shall be increased to the next highest anna by an addition to the bill of the difference between this fraction and unity. These provisional increases in the contribution will be shown in the abstract of balances until adjusted at the close of the year (see Rules VIII and IX below), but they will not appear in the depositor's ledger accounts.

IV.—The deductions under Rule II and the contributions under Rule III shall be paid to the Postmaster for credit to the account of the Provident Fund in the Savings Bank. The payment of the deduction shall be debited in the accounts to the same head as the salary, and the contributions shall be charged to the service head "Miscellaneous," sub-head "Provident Fund Contributions" The remittances to the savings bank should, whenever possible, be made between the 1st and 4th of each month, in order that interest may accrue for the month of deposit.

V.—The deposits and contributions with interest thereon at the credit of any servant may be withdrawn—

(*i*) on the decease of depositor, when the amount shall be paid to his legal heirs;

(*ii*) on his ceasing to be a servant of the Municipality, by resignation, retirement, reduction of establishment, or by transfer to service under some other Local Fund, or to Government service, when the amount shall be paid to the servant himself.

VI.—If a servant is dismissed, the Municipality may, with the sanction of the Commissioner of the Division, withhold all or any part of the contribution allotted to him with the interest accrued thereon, and pay to the servant only the balance at his credit without such contribution and the interest thereon. In the case of there being any outstandings against a servant who may have resigned or been dismissed, the Municipality may deduct the amount of such outstandings from his deposits, and pay him the balance only after such deduction.

VII.—Any contribution and interest thereon withheld from a dismissed servant shall be credited to the Municipal Fund.

VIII.—A Provident Fund Ledger in the following form, having a separate page for each depositor's account, will be maintained in the Municipal Office:—

Serial No. *Name* *Appointment*

Deposits.					Balance after each transaction	Initials of Vice-Chairman or Secretary.	Columns for Calculation of Interest.		Remarks and note of withdrawal.
Voucher.		Remittance to Savings Bank.		Amount.			Principal or lowest complete sum of 6 rupees between the close of the fourth day and the end of the month.	Amount of interest at 3 pies a month on every complete sum of Rs. 6 out of the principal shown in column 8	
Number.	Date	Cheque number.	Date						
1	2	3	4	5	6	7	8	9	10

As soon as any sum remitted to the Savings Bank under Rule IV is credited by the Postmaster in the pass-book, the portion creditable to each depositor shall be entered in the ledger on the page set apart for his account. The totals of column 6 of this ledger will be

proved with the total balance of the pass-book monthly by means of an abstract of balances in the following form:—

Serial number	Name.	Appointment.	Balances as shown in column 6 of Depositor's ledger.												
			April.	May.	June.	July.	August.	September	October.	November.	December.	January	February.	March, without interest.	March, with interest.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
		Total ...													
Add—Temporary increases to contributions under Rule III and fractions unadjusted at close of the year under Rule IX															
Deduct—Interest on accounts closed during the year under Rules V and VI															
		Total in pass-book ...													

The "add" and "deduct" entries will not appear in the column "March, with interest."

IX.—Calculation of the interest due on each account shall be made yearly according to the Post Office Savings Bank rule as follows:—

"Interest will be allowed for each calendar month on the lowest balance at credit of an account between the close of the fourth day and the end of the month: provided that interest shall only be calculated at the rate of three pies a month on every complete sum of six rupees."

The yearly interest thus calculated shall be added to the principal in column 6 of the Provident Fund ledgers. These balances shall then be posted in the column "March, with interest" of the abstract prescribed in Rule VIII, and as soon after the 15th of June as the interest is added by the Post Office to the principal of the fund the balance of the pass-book shall similarly be entered in this column of the abstract. Provided that when a servant dies or ceases to be a servant of the Municipality, the calculation of interest due on his account, and the necessary addition to the principal in column 6 of his ledger account will be made forthwith, on receipt of an application from him or his heirs, as the case may be, for the amount due. The difference between the total of the ledger balances (excluding the adjustments shown at the foot of the abstract) and the balance of the fund shown in the pass-book shall be withdrawn from the Savings Bank and be credited as a miscellaneous receipt. If, however, the difference contains a fraction of an anna, or if the total difference is less than 4 annas, this fraction or sum shall be left in the Savings Bank for adjustment at the close of the following year. When the balances have been thus compared and adjusted, the ledger account for the next year shall be opened, and a copy of his ledger account for the past year, signed by the Vice-Chairman, shall be given to each depositor.

X.—No voluntary deposits from servants will be credited to the Provident Fund.

XI.—Servants are not eligible to subscribe to the Provident Fund while absent on leave other than privilege leave.

XII.—On a depositor leaving the service, his account shall be closed, and unless the amount at his credit be withdrawn within a certain period, viz.—

for balances of Rs. 10 and under, one year,
for balances over Rs. 10, three years,

it shall be written off as a dead account, and repaid only under the orders of the Commissioner of the Division

XIII.—When accounts become "dead" they must be removed from the Provident Fund ledger and be credited in the cash-book as a miscellaneous receipt, the money being drawn out of the Savings Bank. On an amount being thus written off, it should be entered in a "dead account" register, in which subsequent repayments shall be noted in order to avoid a double payment

APPENDIX A.

Procedure to be adopted by Municipalities for the collection of the tax on persons occupying holdings, the rate on the annual value of holdings, latrine rate, lighting rate, and the water rate.

GENERAL.

1. In municipalities in which there is a responsible paid Secretary, any duties which are assigned to the Vice-Chairman in the rules contained in this Appendix may, under the written orders of the Chairman, be performed by the Secretary.

2. The general principle of the following rules is that there shall be a demand register in which all changes in the demand are to be entered and from which the bills are to be prepared. The bills, when written out, are to be entered in a Bill Register in which the satisfaction of the bills by collection or remission is to be posted, and the total of the bills issued as shown in this register must agree with the total of the demand for the same quarter in the Demand Register. For each officer entrusted with the collection of bills an account or ledger is to be kept in which he will be debited with the demand for the quarter as shown in the Demand and Bill Registers, and credited with the collections and remissions. These accounts are to be closed and balanced monthly and the totals of the several accounts are to be brought together in the form of a progress statement to show the state of the entire collections.

The rules for carrying out the principles indicated above allow of alternative methods to meet the requirements of the largest and smallest municipalities. If there is a sufficient establishment it is desirable to keep the Assessment Department distinct from the Collection Department. The former, which might be placed in charge of the Head-Clerk, should keep the Demand and Mutation Registers and prepare the bills and progress statements, and the latter should deal with the collections and post the settlement of the bills in the Bill Register. But if the same officer is in charge of the Collection and Assessment Departments, the Demand and Bill Registers may be combined (see rule 13), and the Remission Register may, if convenient, be combined with the sarkar's ledger (see rules 27 and 49). The Vice-Chairman shall apportion the duties between the Head-Clerk or Accountant and the Tax-Daroga, so as to distribute the work evenly, and to keep, if possible, a cross check on the accounts of the Collection Department. The sarkars who are employed in the actual work of collection shall not, however, be allowed to prepare the bills or have access to the Bill Register (see rule 40), and the Accountant or Head-Clerk shall in every case audit the cancelled bills, as provided in rule 23, and check the progress statements (rule 51).

DIVISION OF THE MUNICIPAL AREA INTO CIRCLES.

3. The municipality shall be divided into collecting circles by a calculation based on the area of ground to be traversed and the number of bills to be delivered. Each circle shall be numbered, and to each circle shall be appointed a sarkar. The collecting circles should be as compact as possible, and so arranged as to distribute the work of tax collecting evenly among the sarkars. No collecting circle shall contain more houses than can be visited by one sarkar during the working days of a month.

4. The circles having been determined, and the assessment list, or the valuation and rating list prescribed by section 112 of the Act, having been published, the registers of the municipal rates and taxes shall be opened.

5. Whenever a municipality levies a house-rate upon owners and also a rate or rates upon occupiers for water, lighting and latrines, a double set of registers shall be opened, *i.e.*, one set for owners and the other for occupiers. When two or more rates are chargeable to the occupier, they may be drawn on one bill, and, if found convenient, the necessary additional columns may be introduced in the forms and registers, so as to avoid keeping a separate set for each rate.

6. When the tax on persons and the rate on holdings are both in force in the same municipality, duplication of the forms may be avoided by making the divisions of the collecting circles coincident with the wards in which each rate is imposed. By this means there will be a complete division of the two rates throughout the accounts, but it may be found preferable to keep a separate progress statement, Form L, for each rate.

7. The following is a list of the forms and registers which shall be kept:—

A or B —Demand registers, by circles.
C.—Petition register. (This may, if convenient, be kept by circles.)
D.—Mutation register, by circles.
E.—Remission register, by circles. This may be dispensed with in certain cases. (See rule 27.)
F.—Bill forms.
G.—Stock book.
H.—Bill register, by circles. (This may be combined with the Demand Register, Form B, see rule 13.)
I.—Sarkars' collection registers, by circles.

J.—Transit register, by circles.
K.—Sarkars' ledger, by circles.
L.—Progress statement for entire demand.
M.—Register of warrants issued. (This may, if convenient, be kept by circles.)

THE DEMAND REGISTERS.

8. The demand register shall be in Form A.

FORM A.

Circle No.

			Annual value	Quarterly instalment.	Date of revising order.	Future rate. Annual value.	Future rate. Quarterly instalment.			
1	2	3	4	5	6	7	8	9	10	11

A separate volume shall be assigned to each collecting circle. Columns 1 to 5 shall be filled up from the assessment or rating list. Sufficient space shall be left between each name for posting revisions. Spaces may also be left at the end of each street or mahalla or other convenient interval for the insertion of new holdings brought under assessment.

9. Before the preparation of the bills is commenced, the Demand Register shall be totalled. This should be done, if possible, at least a month before the beginning of the first quarter of the year from which the revised assessment will take effect. The totalling may, if it be found convenient, be made by subdivisions, but these subsidiary totals must be carried forward or summed on a separate page of the Demand Register, so as to arrive at the total of the circle. When the total has been struck the Vice-Chairman, Secretary or a Commissioner appointed for the purpose shall carefully compare the entries in columns 1 to 5 with the assessment or rating list, and with the orders of the Commissioners of appeal, and shall sign the register in token of having made this comparison.

10. As petitions against the rating list come in (see rules 16 and 17 below), the number and date of each shall be noted in column 11, "Remarks." Any reduction allowed after the Demand Register has been written up, but before it has been totalled and the preparation of the bills has commenced, shall be entered in the assessment list or rating and valuation list, and the entries in columns 4 and 5 of the Demand Register shall be corrected, but all subsequent alterations shall be noted in columns 6 to 8, with reference to the orders of reduction or enhancement contained in the file of orders and the Mutation Register.

11. The Vice-Chairman shall take care that the Demand Registers are free from erasures, and no alterations shall be made in them except under the initials of the Vice-Chairman or other officer empowered to sign for him.

12. The total originally struck in the Demand Register shows the demand for the first quarter of the assessment. To arrive at the demand for the second quarter it is necessary to add the new and enhanced assessments made during the first quarter, which take effect from the second quarter, and similarly to deduct permanent remissions or reductions in the demand. The calculation will be shown thus:—

	Rs.
Demand for first quarter of—as per column 5, Demand Register	
Add new and enhanced assessments	.....
Total ...	.....
Deduct remissions and reductions	.....
Demand for the 2nd quarter of	.....

and so on, from quarter to quarter, until the assessment is revised. These entries may be made in continuation of the original total struck in the Demand Register, or they may be noted in an abstract on the opening page. The total of all the circles may also, if desired, be brought into one view in a separate abstract

NOTE.—If the percentage on the valuation at which the rate is levied is changed under section 102 of the Act during the currency of the assessment, it will be necessary to correct the Demand Register in accordance with section 98A. This may be done by correcting the figures in columns 4 and 5 or 7 and 8, Form A; or, if the alteration is foreseen by providing an additional column or columns between 5 and 6; or by re writing the Demand Register.

13. The Demand Register is the principal record of the Assessment Department, and the officer in charge of that department shall be responsible for seeing that it is correctly prepared, and that all alterations therein are attested by the proper authority. When, however, the same officer controls the Collection and Assessment Departments, the Demand Register may be kept in Form B, which also serves the purposes of the Bill Register.

NOTE.—Any necessary particulars regarding remissions can be entered in columns 10, 15, 20 and 25. "Remarks," or columns 8 and 9, may be subdivided so as to show remissions separately from payments. (See rule 38 below.) The "Remarks" columns may also be used to record the receipt of notice of vacancy.

14. The demand portion of this register (columns 1 to 5) shall be prepared in accordance with the directions given in rules 8 to 12 above, except that all corrections will be made by altering the figures shown in columns 4 and 5. If, however, this is found to be inconvenient, additional columns (6 to 8, Form A) may be inserted to show the revisions.

15. The register will require to be rewritten annually during the last quarter of each year. Careful comparison must then be made of the entries relating to the assessment, columns 1 to 5, in the old and new registers, and the total of the first quarter brought out by addition shall be proved with the figures arrived at by adding to and deducting from the demand of the last quarter of the previous year the increases and decreases in the mutation register. The Vice-Chairman shall sign the register in token that the agreement has been made. The portion relating to the settlement of the demand will be written up in the same manner as the Bill Register, Form H, as provided in rules 38 and 39 below.

PETITIONS.

16. Petitions against the assessment should, if possible, be presented in forms of a uniform pattern. The use of the form annexed to these rules is suggested for this purpose.

17. Petitions shall be registered in Form C by means of which the progress made in dealing with petitions shall be watched.

CHANGES IN THE DEMAND.

18. All permanent alterations in the demand, whether as increases by new assessments, or the enhancement of the existing assessments, or as decreases by the cancellation or reduction of existing assessments, shall be recorded in the register of Mutations in Form D.

MUTATION REGISTER, FORM D.

Register of changes in the permanent demand made during the quarter ending :—

19. This register shall be writen up from the orders passed by the revising authority, and shall be total ed at the close of each quarter. The total of the increases shall then be added to the previous quarter's demand in the Demand Register, and from the sum shall be deducted the total of the decreases so as to work out the demand of the ensuing quarter (see rule 12).

20. As soon as the revising order has been passed and registered, it shall be made over to the assessor or other officer in charge of the Demand Register, who shall correct the demand and shall give a certificate on the order to the following effect—"Certified that the corrections in the demand directed by these orders have been entered in the Demand Register." The order shall then be placed in a file with the other orders of the same quarter.

21. As an alternative system the details of the order may be entered in Form D either in the column "Remarks" or in an additional column to be opened between columns 5 and 6. The corrections in the Demand Register shall then be made with reference to the entries in the Mutation Register, each of which shall be initialled by the officer making the correction; and the certificate in the form prescribed in rule 20 above shall be given at the foot of the Mutation Register after it has been totalled

22. The alteration in the demand to be entered in Form D will not be retrospective. If occasion for a retrospective addition to the demand arises, as for instance by applying section 94 of the Municipal Act, it will be necessary to issue a supplementary bill and to correct the opening demand of the current quarter; but in view of the inconvenience to to which such changes give rise, it is desirable to defer all increases in the assessment until the beginning of the next quarter.

REMISSION OF BILLS.

23. When the Bill Register for any quarter has been closed, every bill entered therein must be satisfied either by collection or remission or partly by each method. The manner of dealing with the remissions shall be as follows.

First.—If the demand has been entirely remitted, the order of remission, together with the receipts and counterfoils, shall be placed before the Vice-Chairman or the officer in charge of the Assessment Department, who shall see that both the receipts and counterfoils are stamped "Cancelled" in large type, and shall initial the former in token of having compared them with the orders The receipts (with the bills attached, if they have not been served) shall then be removed from the counterfoils and be given to the Accountant, together with the remission orders. The Accountant shall compare the receipts with the orders, and after giving a certificate of agreement on the order, shall retain the bills in safe custody for scrutiny and destruction by the Local Auditor.

Secondly.—If the demand has been remitted in part only, the necessary corrections shall be made in the counterfoil and the receipt, and also in the bill, if it has not been issued, and shall be initialled by the Vice-Chairman, who shall also initial the remission order. If the two rates are drawn in one bill and one of them is remitted in full, the remission shall be attested by the Vice-Chairman as if it were a partial remission of one rate.

24. After the orders have been compared by the Accountant or the Vice-Chairman with the cancelled or corrected bills, as provided above, the orders shall be made over to the Bill Register poster, who shall return them with a certificate that the necessary postings have been made in the Bill Register. The remissions shown in lists shall next be entered in the Remission Register or the sarkar's ledger (see rules 26 and 27), and the list shall then be placed in a guard file.

25 For remissions granted for one quarter or one holding it is unnecessary to have a standard form of remission order, but the period for which the remission is granted shall always be clearly stated. If many remissions are granted by one order, either as a legal reduction on account of vacancy, &c., or to clear the accounts of irrecoverable demands, the

amounts to be remitted should be entered in the lists in columns according to the quarter to which they belong, the headings being as shown below :—

1	2	3	4	5	6	7	8	9	10

The total of these lists should be given both in words and figures when they are passed by the revising authority.

This form gives all the essential information, but the Commissioners may, if they so desire, insert additional columns to show the names of the rate-payers, the number and locality

of the holding, and the amount of the original assessment, so that a complete record of the remissions may remain in the Remission Register in case the remission orders are lost. At the close of each month the register shall be totalled and the total of each of the quarterly columns 3 to 11 shall be entered in the sarkar's ledger (Form K) [See rule 49.]

27. As an alternative system a detailed record of the remission orders may be kept in the sarkar's ledger (see rule 49), and the Remission Registers may be dispensed with.

BILLS AND BILL FORMS.

N.B.—This bill should not be accepted as a receipt. On payment of the tax, the separate receipt printed in red ink should be demanded, and it should be seen that it bears the same printed numbers as the bill delivered previously, and that a separate receipt is given for each quarter's tax.

29. If the circumstances of the municipality admit of all bills being served without leaving them with the rate-payers, the third portion of Form F may be dispensed with, and the second portion with the alteration of the heading to "bill and receipt, &c." may be used both as the bill and the receipt. In this case the third part shall not be printed.

30. An estimate shall be made of the number of forms likely to be required for a year's consumption, and the complete year's supply shall be consecutively numbered and stitched in books, each containing 100 forms. Arrangement may be made with the Superintendent of Government Printing at Calcutta to supply the bill forms printed in English or in the vernacular, or in both languages.

31. The surplus forms, which will be very few in number, if proper care be taken in making the estimate and indents, shall be destroyed by the Vice-Chairman at the end of each year.

32. The Vice-Chairman or Secretary shall keep the stock of bill forms in his personal custody and under lock and key. On receipt of the forms from the press they shall be counted under the supervision of the Vice-Chairman or Secretary, and on the fly-leaf or corner of each book shall be noted the number of forms it contains, attested by the initial of the person who counted them. The bills shall then be entered in the stock register of bill forms.

33. All issues whether to the bill writers or for the purpose of destruction of the surplus forms (rule 31) shall be recorded in this register. Bills returned by the bill writers to the Tax Daroga or Assessor will not be shewn in this register but if any entire books of forms are unused, they should be returned into stock as a receipt. If the balance becomes broken into two or more series, it will be necessary to bracket the figures in columns 4 and 5, showing each series separately.

34. To ensure that the bill writers deliver back all forms which they have been entrusted to fill up, the assessor or tax-daroga shall prepare a statement in the following form which shall be signed by the Vice-Chairman :—

Number of bills issued as per Stock Register ...	...	
Add unused bills issued in previous quarter (if any)	...

Assessor or Tax-Daroga. *Vice-Chairman.*

35. The bills forming the balance should either be cancelled or (except in the last quarter of the year) they may be left in the bill books and be used for the next quarter's demand. The latter course should be adopted only when the number of unused bills is large, and particular care must be taken to record the balance correctly in the memorandum prescribed in the preceding rule.

36. The bills shall be filled up from the Demand Register, Form A (or columns 1 to 5, Form B). Before the bills are brought to be signed they should be compared with the Demand Register by some responsible officer, who shall record a certificate in the flyleaf of each book as follows:—"I hereby certify that I have examined this bill book and have ascertained the correctness of the numbering and correspondence of the sums and names in the bills and receipts and counterfoils, with the Demand Register, and I certify that the number of forms in this book for the rate for the quarter of amounts to (in words)." This certificate may be printed on the flyleaves of the bill books.

37. The bills shall be signed or stamped with a *fac-simile* signature by the Chairman, Vice-Chairman, Secretary, or the Commissioner for the ward to which the bills belong, and the signing officer shall satisfy himself that the comparison of the bills with the Demand Register has been carefully made.

If a *fac-simile* stamp be used, it shall always be kept in the personal custody of the officer whose signature it represents, and shall never be used except in his presence and actually in his sight.

BILL REGISTER.

38. The Bill Register, Form H, shall be prepared from the signed bills. The form provides separate columns for noting payments and remissions, but if it is important to economise space, as when two rates are entered in the same register, one column will suffice both for collections and remissions the latter being posted in red ink or with a distinguishing mark.

FORM H.

39. The columns "Amount of bill" shall be totalled and agreed with the demand for the same quarter shown in the Demand Register (see rules 12 and 15), and until the agreement has been made and certified to by the signature of the Vice-Chairman or Secretary in both registers, the bills shall not be issued for collection. As soon as the bills have been issued, the demand for each circle should be entered in the sarkar's ledger, whence it will pass into the progress statement.

40. The satisfaction of the bills by payment or remission shall be posted daily in the Bill Registers, and the Vice-Chairman shall be personally responsible for seeing that the work does not fall into arrears. The collecting sarkars shall not be allowed to have access to these registers.

SERVICE OF BILLS.

41. When the Bill Registers have been completed, in accordance with rule 39, the bills shall be made over to the tax-daroga for collection. Subject to the general control of the tax-daroga, each sarkar shall be responsible for the collection and disposal of the bills connected with the particular circle assigned to him. The tax-daroga shall distribute the bills to the sarkars, and he shall be responsible for seeing that the sarkars do not retain in their possession any bills for a longer period than is necessary for actual delivery, and that all receipts which have been removed from the counterfoils have been credited in the collection registers.

42. The tax-daroga shall commence the service of the bills on the first day of the quarter by making over to each of the sarkars one or more books of his circle for delivery to the rate-payers. If the tax be paid upon presentation of the bills, the sarkars shall sign the red receipt which he shall deliver to the tax-payer and shall note the date of payment in the counterfoil of the bill, and enter details of each paid bill in the daily register of collection, Form I.

NOTE.—Columns 11 and 16 may be omitted if the specification of "total arrears" and "total current" is given below total of each day's collection.

43. If the tax be not paid on presentation of the bill, the sarkar shall (if triplicate bills be used) separate the bill from the receipt and serve the bill in manner prescribed in section 356 of the Act. He shall at the same time, whenever possible, mention the date when he will again demand payment. The date of service shall be noted in the counterfoil. The receipt shall not be detached from the counterfoil, except on payment or remission in full of the demand, and it shall be the duty of the tax-daroga to bring to the notice of the Vice-Chairman any instance in which he may detect an infringement of the rule.

44. The sarkar shall return to the Municipal office either every day or, if so permitted by the Vice-Chairman, every alternate day, and shall deliver to the tax-daroga all the money he has collected, together with the daily register Form I, and the bill books in his possession.

The tax-daroga or his assistant shall check the account by comparing the credits with the counterfoils, and after initialling the latter, he shall cursorily run through the books and see that there are no counterfoils from which the receipts are missing which have not been initialled by him or his assistant or by the officer attesting remissions. He shall then total the register and see that it corresponds with the money given to him by the sarkar and if all is in order, he shall initial the account in token of having received the money. If the service of the bills in the book or books in the possession of the sarkar has been completed, he shall return them to the tax-daroga, and take away a fresh batch for service.

45. Each batch of bills handed over to the sarkars for service shall be entered in a Transit Register in Form J.

When arrears are due the sarkar must take with him the books for those quarters as well as for the current quarter, but all bill books taken away by the sarkars shall be entered in Form J, the sarkars giving an acknowledgment of their receipt and the tax-daroga of their return to him.

46. If the sarkar takes the daily register with him on his rounds, he shall be provided with two copies, which he shall use alternately, and he shall leave one copy in the office to enable the tax-daroga to post his books. If, however, owing to the size of the register or to there being more than one kind of tax, the register is inconveniently large to carry, he may take with him a note-book in the following form—

NAME.	No. of bill.	Whether for last or current year.	For what quarter.	House.			Latrine.			Water.

				Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.

The entries in this book shall be transcribed into the daily collection register, and when filled up, it shall be returned to the office for record.

NOTE.—If the taxes are collected during the quarter in which they are due, and there are no arrears, this form may be used in place of Form L.

47. The entries in the sarkar's daily register shall be posted into the bill register (see rule 40), and the tax-daroga shall post the total received from each sarkar into his cash-book, as provided in Part I of the Account Rules.

48. The tax-daroga or head clerk shall then post the sarkar's ledgers, Form K, one of which shall be kept for each circle of collection.

NOTE.—By inserting a column "number of bills" between columns 1 and 2, and similar columns in the Collection and Remission Registers, the actual number of bills outstanding, as well as their value, can be ascertained.

49. The entries under the heading Collections shall be filled up from the daily totals in the daily collection register under the various quarterly columns. The remissions may either be taken from the file of remission orders (see rule 24) or, if a Remission Register is kept (see rule 26), from that register. The sample form given above provides for entry of the total of each day's remissions according to the former method, but if the latter method is adopted, the form may be simplified by recording only the total of the Remission Register for the month concerned, in one entry in the various quarterly columns, as it is unnecessary to show details of the remission orders in the sarkars' ledger as well as in the Remission Register.

50. The sarkars' ledgers shall be closed and balanced at the end of each month, and the totals of the collection and remission shall then be posted into the Progress Statement Form L.

NOTE.—If there is only one circle of collection Form K may be made to serve the purpose of the Progress Statement.

51. The entry under the heading "Demand" will be the aggregate of the circle demands of the same quarters in the demand and bill registers and the sarkars' ledgers. The figures to be posted as "collections up to the end of the previous month," and "remissions up to the end of the previous month" will be those shown as "Grand total of collections" and "Grand total of remissions" in the progress statement of the previous month. The collections of the month shall be verified by the Accountant with the Abstract Register of Receipts, Form XII, and the Cashier's cash-book, Form III, and the remissions with the remission register or file of remission orders. If any discrepancies are noticed, the accounts of the month must be re-checked until the errors are detected and rectified. As soon as the correctness of the progress statement has been proved by the Accountant, he shall sign it and lay it before the Vice-Chairman, and when it has been passed and signed by the Vice-Chairman, it shall be placed with the sarkars' ledgers before the next ordinary meeting of the Municipal Commissioners.

52. The progress statement represents the state of the collection accounts as a whole and sarkars' ledgers of each circle separately, and they should be carefully scrutinized with a view to the adoption of measures for the collection or remission of arrears.

53. The progress statements and sarkars' ledgers show only the aggregate of the demands under each quarter. To obtain details of the unrealized bills reference must be made to the bill registers, and to ensure that these important registers are kept posted up to date as well as to prove the correctness of the accounts, and act as a deterrent to the commission of fraud, a comparison shall be made once a year, or oftener if the Commissioners desire it, of the entire balance of bills in hand and the blank spaces in the bill register. If any differences are found, they must be reconciled immediately either by tracing the cause of the error or recovering from the tax-daroga or sarkars any deficiencies for which they are unable to account. If the scrutiny leads to the detection of any embezzlement, the facts shall be immediately reported to the Examiner of Local Accounts, in accordance with rule 8, Part I of these rules.

54. Every year, in the month of April, the Commissioners shall submit a copy of the Progress Statement, Form L, for the month of March preceding, through the Magistrate to the Commissioner of the Division, and if there are outstandings extending further back than the first quarter of the previous year, full explanation shall be given as to why these taxes have neither been collected nor remitted, and the Commissioner of the Division shall forward these explanations to Government with his remarks with his annual report on the working of municipalities in the Division.

55. The form of remission register, daily collection register, sarkars' ledgers and progress statements classify the outstandings for each quarter separately of the current and previous years only. Except under very special circumstances, taxation should never be allowed to fall into arrears extending over more than one complete year. If, however, arrears of earlier date than the previous year still remain on the books, they shall be consolidated into one account and be shown in the column "Old arrears" in the forms referred to above. At the same time a list shall be made from the Bill Register of all such bills, the letter A being placed against the blank spaces, and future realizations and remissions shall then be noted in these lists, and not in the original bill registers, which will have been finally cleared.

56 The form of list may be similar to that prescribed for the Bill Register (Form H). The same care must be taken to have the payments and remissions posted in these lists, as in the bill registers (see rule 40). The consolidation of two or more quarters' outstandings into one account may also be made at any time when more than 75 per cent. of the demand has been satisfied, but the separate lists of uncollected demands must always be prepared before this is done.

SERVICE OF NOTICES OF DEMAND AND DISTRESS WARRANTS.

57. If the amount mentioned in the bill be not paid on presentation thereof under rule 42, the notice of demand with a copy of the bill annexed may be served at once and at the latest it shall be served on the first day of the second month of the quarter when the sarkar shall again take round the undelivered receipts, together with the notices of demand which shall in the interval have been attached to the receipts by the tax-daroga. If the demand is then not paid, the notice of demand shall be left with the assessees, and the undelivered receipt shall be returned to the tax-daroga for the preparation of distress warrants, with a note of the date on which the notices of demand were served. When fifteen days shall have elapsed after the delivery of a notice of demand, the sarkar shall proceed with a warrant of distress, and if the demand as well as the fee prescribed by law for the warrant expenses be not then satisfied, he shall make an attachment of the defaulter's property, preparing an inventory of all goods and chattels so attached, and proclaiming a notice of sale by beat of drum.

WARRANT DEPARTMENT.

58. The procedure prescribed in the preceding rule presupposes the service of the warrants by the sarkars. If there is a separate warrant department, the bills transferred to that department should be deducted from the balance of the sarkars' ledgers and be treated as a separate circle or circles of collection. Each warrant sarkar or bailiff shall keep a collection register in Form I, and the progress of his work shall be recorded in a ledger in Form K, the monthly totals of which shall be embodied in the progress statement, Form L. The remissions and collections shall either continue to be shown in the original bill registers, or separate registers may be opened for the Warrant Department, the letter W being entered in the original bill register against all bills transferred. The latter course need be adopted only when there is a complete division between the Collection and Warrant Departments.

59. As warrants are issued they shall be recorded in a register in Form M—

And the fees realized otherwise than by the seizure and sale of property, for which a form of account is prescribed in Form E (4th schedule of the Municipal Act), shall be recorded therein.

BILLS PAID AT OFFICE.

60. In the event of unpaid bills of which the counterfoil and red receipt are in the custody of the tax-daroga being brought to the Municipal Office and there satisfied, the tax-daroga should deal with the transaction precisely as the collecting sarkar does in ordinary course. All collections thus made shall be entered immediately in a form of collection account; and, on the return of the sarkars, the entries shall be transferred to the respective collection registers of the circles to which they belong.

61. If payment of taxes is made at the office when the prescribed form of receipt has been taken by the sarkar on his rounds, a provisional receipt for the money shall be given by the tax-daroga in a form of printed receipt bound in a book with counterfoils and serially numbered in print (Form XXXVI will serve if such receipts are rare), and on return of the sarkar, the tax-daroga shall be responsible for removing the formal receipt from the bill book and noting the payment of the claim in the counterfoil. The receipts shall then either be sent to the rate-payer or be cancelled and attached to the counterfoil of the provisional receipt. The risk and trouble attendant on this procedure may, however, be avoided if the Commissioners give notice under section 117 of the Act of the hours on which the office will be open for the receipt of money. The sarkars should then be required to attend the office during those hours, either before or after their daily rounds, and the Commissioners would be under no obligation to accept payments except when the sarkars were in attendance.

COLLECTION OF TAXES AT TH MUNICIPAL OFFICE.

62. An alternative procedure is suggested, the distinctive feature of which consists in the refusal to permit the sarkars to collect any money. Their duty will be strictly limited to serving the bills and notices of demand upon the assessees in the manner prescribed in the preceding rules. But each bill will contain a caution against the payment of any money to the server of the bill, and a direction to the rate-payer to proceed to the municipal office and pay the amount of the bill there.

63. At the end of each week the serving peon will bring back the bill-books and receipts to the municipal office with a certificate that every bill missing from the book has been properly served upon the assessee.

64. The tax-daroga, assisted by a sufficient number of clerks, should remain in the municipal office at a counter during certain fixed hours of each day, and upon presentation of a bill by a tax-payer, he should receive the amount and hand to the tax-payer the corresponding red receipt.

65. The amount so received should be entered in a Daily Collection Register, Form I, one such register being used for each kind of rate or tax. A separate register or set of registers, should, of course, be supplied to each receiving clerk.

66. If this method of collection is adopted, it will not be necessary to subdivide the accounts into circles of collection. The daily totals of the various collection registers can be brought together in an abstract and the grand totals transcribed into Form K as one collection account. The accounts of the warrant sarkars or bailiffs may, however, be kept as separate circles of collection in accordance with rule 58, but ordinarily the Transit Register, Form J should suffice to show the liability of each warrant sarkar.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Bankura, will be put up to sale at the Bankura Collectorate on the 1st February 1898, corresponding with the 20th Magh 1304 Bengali.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

CORPORATION OF CALCUTTA.

Loan Notification.

THE Commissioners of Calcutta are prepared, with the sanction of the Governor-General in Council, given under section 404 of Act II (B.C.) of 1888, to open a Debenture Loan for Rs. 10,53,600 (ten lakhs fifty-three thousand and six hundred) on the security of the rates, taxes and dues imposed and levied under the Calcutta Municipal Consolidation Act, 1888.

2. The Debentures will have a currency of twenty-one years from the 1st February, 1898, and will bear interest at the rate of 4 per cent. per annum, payable on the 1st February and 1st August of each year.

3. The form of the Debentures will be that given in the Twelfth Schedule of Act II (B.C.) of 1888.

4. No Debentures will be issued for any sum less than Rs. 500, and above that amount Debentures will be issued only for complete sums of Rs. 100.

5. Tenders for the whole or any part of the above loan of Rs. 10,53,600 will be received by the Secretary to the Corporation up to 2 o'clock P.M. of Thursday, the 16th December, 1897.

6. Each tender must be made out in the form annexed to this Notification, and enclosed in a sealed cover, addressed to the Secretary to the Corporation, and superscribed "Tender for Municipal Loan of 1897-98."

7. Each tender must be accompanied by Government Promissory Notes, Calcutta Municipal Debentures, Currency Notes or Cheques for not less than 3 per cent. of the amount tendered.

8. When a tender is accepted, the deposit, when made in currency notes or cheques, will be held as a payment in part of the amount tendered, and will bear interest at the rate of 4 per cent. per annum from the date of acceptance of the tender, provided that the whole amount tendered is paid up in the manner hereinafter prescribed; but no debenture will issue for the sum so deposited so long as the entire amount of the tender is not paid.

9. The deposits on tenders which may not be accepted will be returned on application, and no interest will be payable on such deposits. If an allotment after being made is not taken up, and the full amount allotted is not paid as hereinafter prescribed, the deposit will be forfeited.

10. The rate at which a tender is made must be specified in rupees, or rupees and annas; a tender in which the rate is not so specified will be rejected as null and void.

11. The rates stated in a tender must not contain any fraction of an anna. If a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna.

12. The balance of the accepted tenders must be paid into the Bank of Bengal in the following instalments:—

One-third by the 31st December, 1897.
Ditto by the 14th January, 1898.
Ditto by the 31st January, 1898.

Parties whose tenders are accepted will have the option of paying all or any of the instalments before the dates specified above, and will receive interest from the date of such payment.

13. Anticipation interest will be paid on all instalments from the respective dates on which such instalments are paid into the Bank of Bengal to the 31st January, 1898.

14. The Commissioners have fixed the minimum at Rs. 98, and are not prepared to accept any tender at a lower rate. In the case of two or more tenders at the same rate a *pro rata* allotment will be made (if the tenders are accepted), but no allotment will be issued if the amount distributable on any tender is less than Rs. 500.

15. The tenders will be opened by the Loan Committee of the Commissioners at 2-30 P.M. on Thursday, the 16th December, 1897, at the Municipal Office.

W. R MACDONALD, Secretary to the Corporation.

Municipal Office, dated Calcutta, the 1st December 1897.

Patna District Board.

PRELIMINARY ADVERTISEMENT.

Proposed Tramway from Bakhtiarpore, East Indian Railway, to Bihar—Capital required about Rs 5,00,000.

SUBJECT to the sanction of Government, the District Board of Patna is prepared to grant a concession to a competent Company to construct and work a Tramway by steam or other motive power on the district road which connects Bakhtiarpore with Bihar.

Bakhtiarpore is a station on the East Indian Railway 310 miles from Calcutta and 23 miles distant from Patna City Station; it is on the south bank of the Ganges, is a stopping place for river craft of all kinds and a ferry station for boats plying to north side of the Ganges.

Bihar is a town of 50,000 inhabitants, situate 19 miles distant south of Bakhtiarpore Station; it is the centre of a large and important subdivision of the district of Patna, a Government cutcherry, Treasury and Munsif's Court being located in the town of Bihar.

In Bihar and the neighbourhood many large *melas* are held yearly, as instance—

Hindu	*Melas*	Rajgir.
do.	do.	Pawapore.
do.	do.	Bargaon.
do.	do	Girick.
do.	do.	Bihar Town.

The Rajgir *mela* continues for one month and is visited by many thousands of persons from all parts of India. At Rajgir are also hot springs visited by invalids for their health's sake: there are many ancient Jain and Buddhist shrines and temples and other interesting curiosities in and about Rajgir. The existing road from Bakhtiarpore to Bihar is the only track by which all produce and materials are imported and exported; there is no existing communication by water or rail between Bihar and any other station.

The above road has been raised and bridged throughout its whole length beside being metalled with stone ballast for a width of 9 feet along its centre; it is practically dead level all the way and there are no very sharp curves on it.

There is an enormous traffic along the road; statistics compiled from returns taken daily for 12 months show an average daily traffic of 365 passengers by horse, gharry, riding, palkee, on foot, and an average daily carriage of 800 maunds of goods; these returns were made some six years ago. During 1896 on checking the traffic for one month an increase of 50 per cent. was observed.

Gauge proposed is 2 feet 6 inches.

If a Steam Tramway were laid on this road there is no doubt whatever that the daily traffic would quickly grow much heavier.

The District Board is prepared to guarantee a dividend not exceeding four per cent. per annum on the capital outlay as soon as the Tramway is opened throughout its length. It is proposed that there should be three intermediate stations between the termini at Bihar and Bakhtiarpore, and that through booking of goods and passengers with the East Indian Railway should be arranged for.

Firms desirous of obtaining a concession should apply to the undersigned for detailed information as to the terms decided upon by the Board and passed by Government.

T. INGLIS, Chairman.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

ACT No. V OF 1897.

An Act to amend the law relating to the Partition of Estates.

WHEREAS it is expedient to amend the law relating to the partition of estates;

And whereas the sanction of the Governor-General of India has been obtained, under section 5 of the Indian Councils Act, 1892, to the provisions contained in section 12 of this Act amending the Code of Civil Procedure; 55 and 56 Vict., c. 14. XIV of 1882.

It is hereby enacted as follows :—

CHAPTER I.

PRELIMINARY.

Short title, extent and commencement.

1. (*1*) This Act may be called the Estates Partition Act, 1897;

(*2*) It extends to the territories for the time being under the administration of the Lieutenant-Governor of Bengal; and

(*3*) It shall come into force on the day on which it is first published in the Calcutta Gazette after having received the assent of the Governor-General.

Repeal and savings.

2. (*1*) On and from that day the Estates Partition Act, 1876, shall be repealed. But— Ben. VIII of 1876.

(*a*) this repeal shall not affect the previous operation of the said Act, or anything duly done or suffered thereunder, or any fine incurred thereunder;

(*b*) Where in any pending case an order under section 63 of the said Act was made before the said day, the subsequent proceedings shall, unless all the proprietors request otherwise, be carried on under the said Act, as if this Act had not been passed;

(*c*) subject to clause (*b*) of this section, all pending proceedings which have been commenced under the said Estates Partition Act, 1876, before the said day shall be carried on under this Act, save that, where in any case the Collector has before that day directed that an application for partition be admitted, section 11 of the said Estates Partition Act, 1876, shall apply instead of clauses (*a*) and (*b*) of section 11 of this Act.

(2) Any enactment or document referring to the said Estates Partition Act, 1876, or to any enactment repealed thereby, shall, so far as may be, and subject to sub-section (*1*) of this section, be construed to refer to this Act or to the corresponding portion thereof.

(Estates Partition Act.—Chapter I.—Preliminary.—Section 3.)

3. In this Act, unless there be something repugnant in the subject or context,— Definitions.

(i) "Board" means the Board of Revenue for the territories for the time being under the administration of the Lieutenant-Governor;

(ii) "Collector" means the Collector of the district on the revenue-roll of which an estate which is under partition, or which it is proposed to bring under partition, is borne, and includes—

(*a*) any officer whom the Board generally vests (as it is hereby empowered to do) with the powers of a Collector under this Act, and to whom the Collector has, with the sanction of the Commissioner, delegated (as he is hereby empowered to do) any of his functions in respect of the partition of an estate, and

(*b*) any officer whom the Board specially vests (as it is hereby empowered to do) with the powers of a Collector for the purposes of any partition under this Act;

(iii) "Commissioner" means the Commissioner of Revenue to whom the Collector engaged in making a partition is subordinate;

(iv) "Deputy Collector" includes any Assistant Collector, Deputy Collector or Sub-Deputy Collector whom the Collector may appoint (as he is hereby empowered to do) to effect a partition under this Act, or to conduct any of the proceedings connected with such partition;

(v) "proprietor" includes every person who is in possession of any estate under partition or any portion of such an estate, or of any interest in any such estate or in any part of such an estate, as owner thereof, whether or not such person is a recorded proprietor of the estate;

(vi) "recorded proprietor" means a person whose name is registered on the Collector's General Register of revenue-paying land as proprietor of an estate, or of any share or interest therein;

(vii) the words "tenure," "permanent tenure," "holding" and "tenant" have the meanings attached to them in the Bengal Tenancy Act, 1885; VIII of 1885.

(viii) "applicant" means any person who has applied to the Collector under the provisions of this Act for the separation from a parent estate of land representing the interest of such person in such estate, and for the assignment to him of such land as a separate estate liable for a demand of land-revenue distinct from that for which the parent estate is liable;

(ix) "estate" means all lands which are borne on the revenue-roll of a Collector as liable for the payment of one and the same demand of land-revenue;

(x) "joint undivided estate" means an estate of which two or more persons are proprietors;

(xi) "parent estate" means an estate for the partition of which proceedings are in progress under this Act, or of which the partition has been effected under this Act;

(Estates Partition Act.—Chapter I.—Preliminary.—Section 3.)

(xii) "separate estate" means any distinct estate which is formed by the partition of a parent estate under this Act, or for the formation of which, by such partition, proceedings are in progress under this Act;

(xiii) "land" does not include houses or other buildings standing thereon;

(xiv) "rent" means whatever is lawfully payable or deliverable in money or kind by a tenant to his landlord on account of the use or occupation of the land held by the tenant; and "rent payable in kind" means, in money, the amount which would be determined as the rent if a commutation were made under section 40, sub-section (4), of the Bengal Tenancy Act, 1885; VIII of 1885.

(xv) "assets," when used with reference to land, means—

(*a*) in the case of land held by cultivating raiyats—the rent payable by them;

(*b*) in the case of land which is occupied by a proprietor—the rent which might reasonably be expected to be payable by cultivating raiyats if the land were occupied by them;

(*c*) in the case of land held on a permanent tenure which was created by all the proprietors of the estate, and which by any law for the time being in force is protected against the purchaser at a sale for arrears of land-revenue—the rent payable by the holder of such tenure;

(*d*) in the case of land held on a tenure which,

although not protected as aforesaid, is admitted by all the recorded proprietors of the estate to be a permanent tenure subject only to the payment of an amount of rent fixed in perpetuity, and

is of such nature that the rent thereof is not liable to be enhanced under any circumstances by the proprietors of the estate or any person deriving his title from such proprietors,—

the rent payable by the holder of such tenure, whether he be known as talukdar, patnidar or mukarraridar or by any other designation;

(*e*) in the case of unoccupied land and land forming portion of a village site—such amount, if any, as the Deputy Collector may determine with reference to all the circumstances of the case,

and includes—

(*f*) all profits derived out of land by proprietors from trees, rights of pasturage, forest rights, fisheries and all other legal sources;

(Estates Partition Act.—Chapter II.—Right to Claim Partition.—Sections 4, 5.)

(xvi) "assets," when used with reference to an estate, means the assets of all land included in the estate;

(xvii) "Chapter" means a Chapter of this Act; and

(xviii) "section" means a section of this Act.

CHAPTER II.

RIGHT TO CLAIM PARTITION.

Who entitled to claim partition.

4. (*1*) Subject to the provisions of this Act, every recorded proprietor of a joint undivided estate who is in actual possession of the interest in respect of which he is so recorded shall be entitled to claim a partition of the said estate and the separation therefrom and assignment to him as a separate estate of land representing the interest of which he is in such possession.

(*2*) Any two or more of such recorded proprietors may claim that land representing the interests of all such claimants be formed into one separate estate to be held by them as a joint undivided estate; and every provision of this Act which applies to an applicant for partition shall apply to any two or more persons making any such claim.

Partition according to interest.

5. (*1*) If the interest of any recorded proprietor who is entitled to claim partition is an undivided share in an estate held in common tenancy, he shall be entitled to have assigned to him as his separate estate land of which the assets shall bear the same proportion to the assets of the parent estate as his undivided share in the parent estate bears to the entire parent estate.

(*2*) If the interest of such recorded proprietor is the proprietary right over specific mauzas or lands forming part of the parent estate and held by him in severalty, he shall be entitled to have assigned to him as his separate estate the said mauzas or lands.

(*3*) If the interest of such recorded proprietor consists of an undivided share held in common tenancy in specific mauzas or tracts forming part of the parent estate, but not extending over the whole area of the parent estate, he shall be entitled to have assigned to him as his separate estate land, situated within such specific mauzas or tracts, of which the assets shall bear the same proportion to the assets of such specific mauzas or tracts as his undivided share in such specific mauzas or tracts bears to the entire mauzas or tracts:

Provided that, if the interest of such recorded proprietor consists of such an undivided share in more than one mauza or tract, he shall not be entitled to have land assigned to him in every such mauza or tract, but the Collector may assign to him as his separate estate land situated

in any one or more of the said mauzas or tracts, subject to the condition that the assets of such land are in proportion to the aggregate of the interests which he holds in all such mauzas or tracts.

(*4*) If the interest of such recorded proprietor consists partly of land held in severalty, and partly of an undivided share either in the whole estate or in specific land held in common tenancy, he shall be entitled to have the portion of the common land falling by partition to his share added to the land held by him in severalty, and the estate thus formed shall be assigned to him as his separate estate, so that the assets shall bear the same proportion to the assets of the whole estate as his interest in all the land and undivided shares held by him bears to the aggregate interests of all the proprietors.

(*5*) If the interest of such recorded proprietor is of more than one of the kinds specified in the preceding sub-sections, land shall be assigned to him as far as possible in accordance with the principles therein laid down.

Separation of land held in common between the proprietors of two or more estates, when the estates are not under partition.

6. Whenever any land is held in common between the proprietors of two or more estates not being under partition, any one or more of such proprietors may, without applying for partition of their several estates *inter se*, apply for separation of the land held by them in common, and for the allotment of the proper shares of such land to each of their separate estates, the land-revenue of those estates remaining unaltered; and such application shall be dealt with as far as may be in accordance with the provisions of this Act.

Partition of lands under Act where a partition has been made by private arrangement.

7. (*1*) Where the lands of an estate have been divided by private arrangement formally made and agreed to by all the proprietors, and each proprietor has, in pursuance of such arrangement, taken possession of separate lands to be held in severalty as representing his interest in the estate, no partition of the estate shall be made under this Act except—

(*a*) on the joint application of all the proprietors, or

(*b*) in pursuance of a decree or order of a Civil Court.

(*2*) No objection to the partition of an estate under this Act on the ground that the lands have been divided by private arrangement shall be admitted unless it is presented before the Collector records a proceeding under section 20 declaring the estate to be under partition.

Tenants for life not entitled to claim partition.

8. Notwithstanding anything hereinbefore contained, no person having a proprietary interest in an estate for the term of his life only shall be entitled to claim partition under this Act.

(Estates Partition Act—Chapter III.—Security of the Land-Revenue.—Sections 9—13)

CHAPTER III.

SECURITY OF THE LAND-REVENUE.

Future partitions not to relieve land from liability for total land-revenue, unless made as provided in this Act.

9. No partition of an estate made after the commencement of this Act shall relieve any land from liability to the Government for the total demand of land-revenue assessed upon the estate of which the land forms part, unless the partition is made as herein provided.

Amount of land-revenue to be assessed on each separate estate.

10. Except as otherwise provided in this Act, the amount of land-revenue assessed on each separate estate shall bear the same proportion to the whole amount of land-revenue for which the parent estate was liable as the assets of such separate estate bear to the whole assets of the parent estate.

Restrictions on partition of estate with reference to land-revenue.

11. Subject to clauses *(b)* and *(c)* of section 2 of this Act, no partition of an estate shall be made, and no application for the partition of an estate shall be admitted,—

(a) if the annual amount of land-revenue for which the separate estate of the applicant would, after partition, be liable would not exceed ten rupees; or

(b) if, after separation of the applicant's interest, the annual amount of land-revenue for which the separate estate of the remainng proprietor or proprietors would be liable would not exceed five rupees; or

(c) if the Collector considers that for any reason any of the separate estates would be likely to prove an insufficient security for the payment of the land-revenue which would be separately charged upon it.

Execution of decree for partition.

12. *(1)* Any Civil Court which has made a decree for the partition or for the separate possession of a share of an undivided estate paying land-revenue to the Government may, notwithstanding anything in section 265 of the Code of Civil Procedure, cause the decree to be executed in the manner prescribed in section 396 of that Code; and, if it does so the joint and several liability of the entire estate for the whole of the land-revenue chargeable upon it shall not be prejudiced or affected. XIV of 1882.

(2) If any decree is sent to the Collector for execution under section 265 of the said Code, the execution thereof shall be subject to the restrictions imposed by section 11 of this Act.

Power to refuse partition which would result in formation of estates scattered so as to endanger the safety of the land revenue.

13. The Collector may refuse to admit an application for the formation of land held in severalty into a separate estate, or to proceed with a partition undertaken on such an application, or to admit or proceed with any other application for partition, if, in consequence of the land being intermingled with that held by other proprietors, the result of the partition would be to form out of a compact estate one or more estates consisting of scattered parcels of land in such a way as, in the opinion of the Collector, to endanger the safety of the land-revenue:

Provided as follows:—

(*a*) a partition may be allowed in any such case if the recorded proprietors agree to such a distribution of land as would make the estates formed by the partition reasonably compact;

(*b*) nothing in this section shall be deemed to prohibit the partition into separate estates of any parent estate which before such partition is not compact and consists only of scattered parcels of land.

Interest alienated with special condition as to liability for land-revenue.

14. No proprietor who has alienated any portion of his interest in an estate, or in any specific land of an estate, by private contract, with the condition that the transferee shall be liable in respect of the interest acquired by him to pay a specified amount or a specified share of the land-revenue for which the estate is liable (such amount or share being other than the proportionate amount or the proportionate share for which such transferred interest if formed into a separate estate would be liable under section 10),

and no proprietor who has derived his title from any proprietor who has made any alienation as aforesaid,

shall be entitled to claim a separation under this Act of the interest which he continues to hold in the estate;

and no such transferee as aforesaid, and no person deriving his title from such a transferee, shall be entitled to claim a separation of the interest which has been so acquired:

Provided that a separation of such interests may be made if the parties concerned agree—

(*a*) to waive the conditions of the contract as regards the proportion of land-revenue for which the transferor and transferee or their representatives respectively are liable, and

(*b*) to hold the estates which may be allotted to them respectively by the partition subject to the payment of such amount of land-revenue as may be assessed upon them respectively under this Act

Sale, for arrears of land-revenue, of an estate which is under partition.

15. If any estate has been declared to be under partition as provided in section 29, any arrears of land-revenue accruing due thereon before the date specified in the notice issued under section 91 may be realised by sale of the estate as if the same had not been declared to be under partition; and, if such sale takes place, the partition proceedings shall cease from the date thereof, but shall be revived if the sale is set aside.

Sale, for arrears of land-revenue, of share in an estate which is under partition.

16. Nothing contained in section 15 shall be deemed to affect the provisions of section 10, section 11, section 12, section 13 or section 14 of Act XI of 1859 (*an Act to improve the law relating to sales of land for arrears of revenue in the Lower Provinces*

(Estates Partition Act.—Chapter IV.—Initiation and Discontinuance of Partition Proceedings.—Sections 17—19.)

under the Bengal Presidency), or any similar law for the time being in force, in respect to the opening of separate accounts for different shares in an estate and the protection afforded to such shares thereby:

Provided that, if any share in any estate is sold for its own arrears of land-revenue while such estate is under partition in accordance with the provisions of this Act, such share shall be sold subject to the partition proceedings, which shall proceed as if no such sale had taken place; and the purchaser of the share sold may, from the date of such sale, exercise all the rights which the proprietor whose share he has purchased might have exercised, and shall be subject to all the liabilities to which such proprietor would have been subject in respect of the partition proceedings.

CHAPTER IV.

INITIATION AND DISCONTINUANCE OF PARTITION PROCEEDINGS.

Application for partition how to be made.

17. Every application for partition shall be made in writing to the Collector of the district on the revenue-roll of which the estate is borne, and shall be presented by the applicant or by his duly authorized agent.

Application to be signed and to contain certain particulars.

18. Every such application shall be signed by the applicant, or by his duly authorised agent, and shall contain the following particulars, so far as they are known to or can be ascertained by him, namely:—

(*a*) the name of the parent estate;

(*b*) the number under which such estate is borne on the revenue-roll, and the land-revenue demand for which it is liable;

(*c*) the number under which such estate is borne on the Collector's General Register of revenue-paying lands;

(*d*) the name and address of every proprietor, whether recorded or unrecorded, of such estate, the name and address of every proprietor of any other estate holding land in common with the proprietors of the parent estate, and the name of the post office of the area within which each of the said proprietors resides;

(*e*) the character and extent of the interest of which each proprietor of the parent estate is in possession;

(*f*) a specification of any land held by proprietors of the parent estate in common with proprietors of other estates, and of the rights of such proprietors respectively in such land, and

(*g*) such further particulars, if any, as may be prescribed by rules made by the Board.

Application to be accompanied by copy of rent-roll and by specification of previous measurements and record-of-rights.

19. (*1*) Every such application shall, subject to the provisions of sub-section (*4*) of this section, be accompanied by a copy of the rent-roll of the estate, and by a specification referring

to the papers of every measurement and record of rights which has respectively been made of and prepared for the estate by any officer appointed in that behalf by the Government or other competent authority and of which the person verifying the application under sub-section (*2*) has knowledge.

(*2*) The said application, rent-roll and specification shall be verified at the foot of the application, by the applicant, or by his duly authorised agent having personal knowledge of the facts stated therein, in the manner following, or to the like effect:—

"I, A. B., declare that the particulars contained in this application and in the rent-roll and specification accompanying it are correct to the best of my knowledge and belief."

(*3*) If the said application, rent-roll or specification contains any entry which the person making the verification knows or believes to be false, or does not believe to be true, such person shall be liable to be punished in the same manner as if he gave false evidence.

(*4*) If the person presenting the application is unable to produce a rent-roll as required by sub-section (*1*) of this section, he shall state the reason of such inability, and the name and address of the person who has in his possession the information necessary for the preparation of such rent-roll; and the Collector may, if he thinks fit, require such person to produce such rent-roll.

Procedure if application is not in order.

20. If any such application does not in the opinion of the Collector fulfil the requirements of the foregoing sections of this Chapter, he may either reject it or return it for amendment.

Notification and notice of application.

21. If in the opinion of the Collector the application fulfils the said requirements, and if there appears to him to be no objection to making the partition, he shall—

(*a*) publish a notification of the application in the manner prescribed by section 104, and also by causing copies to be posted up at the Court of the Judge of the district and at the Court of every Munsif and Sub-divisional Officer within whose jurisdiction, and at every police-station within the jurisdiction of which, any land appertaining to the estate is known to be situated;

(*b*) by such notification invite any person claiming any proprietary right in the estate, who may object to the partition, to state his objection, either in person or by duly authorized agent, on or before a day to be specified in the notification, not being less than thirty or more than sixty days from the date of the publication of the notification on the estate; and

(*c*) serve a notice of the application on such of the recorded proprietors of the estate as have not joined in the application, on any unrecorded proprietor who has been named in the application, and on every proprietor of any other estate who holds land in common with the proprietors of the estate to which the application relates.

Power to reject application on receipt of objection.

22. If any person claiming a proprietary right as aforesaid states an objection to the partition on or before the day specified in

(Estates Partition Act.—Chapter IV.—Initiation and Discontinuance of Partition Proceedings.—Sections 23—26.)

the notification published under section 21, or at any subsequent time if it shall then seem fit to the Collector to admit such objection, and the Collector, on consideration of the objection, is of opinion that there is good and sufficient reason for rejecting the application, he may reject the same, and if he does so shall record the grounds of such rejection.

Procedure when objection raises any question of right or title or of extent of interest.

23. If any such objection raises any question of right or title or of extent of interest as between any applicant and any other person claiming to be a proprietor of the parent estate, and if it appears to the Collector that such question has not been already determined by a Court of competent jurisdiction, the Collector may hold such inquiry into the objection as he may deem necessary, and, if he be satisfied that the applicant is in possession of the extent of the interest for the separation of which he has applied, may, instead of rejecting the application as provided in section 22,

(*a*) direct that the partition proceedings shall proceed for the purpose of forming and assigning to the applicant a separate estate in accordance with the extent of interest claimed by him in the parent estate; or

(*b*) direct that such proceedings be postponed for four months.

Resumption of proceedings after postponement.

24. At the expiration of the said four months the Collector shall resume the proceedings, unless the person who has made the objection, or some other person,—

(*a*) has obtained an order from a Civil Court directing that such proceedings be stayed, or

(*b*) shows that a suit has been instituted before a Civil Court to try some question of such a nature as to lead the Collector to think the proceedings ought to be stayed until the question has been finally decided or until the proceedings in such Court in respect thereof shall have terminated.

Suits instituted after four months not to affect or stay proceedings for partition.

25. No suit instituted in a Civil Court, after the lapse of four months after the Collector has—

(*a*) made a direction under clause (*a*) or clause (*b*) of section 23; or

(*b*) recorded a proceeding under section 29,

by any person claiming any right or title in or to a parent estate, shall avail to affect or stay the progress of any proceedings which may have been taken under this Act for the partition of the estate.

Decree made while partition proceedings are in progress.

26. (*1*) Every decree affecting a parent estate made by a Civil Court after the estate has been declared under section 29 to be under

(Estates Partition Act.—Chapter IV.—Initiation and Discontinuance of Partition Proceedings.—Section 27.)

partition, but before the date specified in the notice served under section 94,—

(*a*) shall be made in recognition of the proceedings in progress under this Act for the partition of the estate, and

(*b*) shall be framed in such manner that the decree may be applied to, and carried out in reference to, the separate estates which the Collector in his proceeding recorded under section 29 has ordered to be formed out of the parent estate.

(*2*) If the effect of any such decree be to declare any person or body of persons to be entitled to any extent of interest in the parent estate in excess of the extent of interest which the Collector in the said proceeding has declared to be held by such person or body of persons, the decree shall specify, separately in respect of every proprietor or body of proprietors of whose interests the Collector has separately specified the extent in the said proceeding, the proportion of such excess which such person or body of persons is entitled to recover from every such proprietor or body of proprietors;

and every person or body of persons so entitled to recover any extent of interest from any such proprietor or body of proprietors shall, for the purposes of the partition proceedings, be deemed to have the same rights, and to be subject to the same liabilities, as a person who has acquired such extent of interest from a proprietor or body of proprietors by private purchase after an estate has been brought under partition under section 29 and on the date on which the decree was passed;

and such person or body of persons may apply, as in this Act provided, for the separation and assignment to him or them of the lands representing the extent of interest so acquired;

and, notwithstanding anything contained in section 11, such application shall be dealt with as provided in section 30;

and the lands thereupon assigned to the said person or body of persons shall be amalgamated with his or their separate estate.

Decree made after partition proceedings completed.

27. (*1*) Every decree affecting a parent estate made by a Civil Court after the date specified in the notice served under section 94, in a suit which was instituted as mentioned in section 25,—

(*a*) shall be made in recognition of the partition proceedings, and

(*b*) shall be framed so as to give effect to the division of the parent estate into separate estates which has been ordered by the Collector, and so as not to disturb such division.

(*2*) If the effect of any such decree be to declare any person or body of persons to have been entitled to any extent of interest in the parent estate in excess of the extent of interest which is represented by the separate estate assigned to such person or body of persons by the Collector in the partition proceedings, the decree shall specify, separately in respect of the proprietor or joint proprietors of every separate estate formed by the partition, the proportion of such

(Estates Partition Act.—Chapter IV.—Initiation and Discontinuance of Partition Proceedings.—Sections 28, 29.)

excess of interest which such person or body of persons is entitled to recover from such proprietor or joint proprietors;

and every person or body of persons so entitled to recover any extent of interest from the proprietor or joint proprietors of a separate estate shall be entitled to recover such extent of interest out of the separate estate which has been assigned to such proprietor or joint proprietors, and out of such separate estate only;

and the decree shall be executed by placing the person or persons so entitled in the position of a recorded joint proprietor or recorded joint proprietors of such separate estate, holding the same as a joint undivided estate in common tenancy with the proprietor or joint proprietors to whom such separate estate was assigned by the Collector in the partition proceedings, the extent of the interest of the joint proprietors respectively in such estate being such as is declared in the decree.

Power of Civil Court to order partition on application being made to Collector.

28. (*1*) A Civil Court may at any time direct the Collector, upon an application being made to him in accordance with sections 17, 18 and 19,—

(*a*) to assign to any person land representing a specified interest in any estate, or in any specified village or tract of land in an estate, to be held by such person as a separate estate; or

(*b*) to divide off from any estate any specified land or villages, and to assign it or them to any person to be held as a separate estate:

Provided that no Civil Court shall in any such case—

(*i*) specify the amount of land-revenue for which any separate estate which it may direct to be formed under the provisions of this section shall be liable, or

(*ii*) direct the Collector to carry out a partition otherwise than in accordance with the provisions of this Act.

(*2*) The Collector shall assess the land-revenue on every such separate estate in accordance with the provisions of this Act.

Admission of application for partition, and procedure thereupon.

29. If no objection be made, within the time specified in the notification published under section 21, to an application for partition, or when all objections have been disposed of, and if the Collector has no reason to believe that any obstacle exists to his making the partition as applied for,

he shall direct that the application be admitted, and shall record a proceeding—

(*a*) declaring the estate to be under partition for the purpose of forming and assigning to the applicant a separate estate;

(*Estates Partition Act.—Chapter IV.—Initiation and Discontinuance of Partition Proceedings.—Sections 30, 31.*)

(*b*) declaring the extent of interest in the parent estate which he finds to be held by the applicant or joint applicants; or, if more than one separate application for separation has been admitted, the extent of interest in the parent estate which he finds to be held by every separate applicant or body of joint applicants, respectively;

(*c*) declaring the extent of interest which remains to any recorded proprietor or body of recorded proprietors who are not applicants;

(*d*) ordering that land proportionate to the interest so declared to be held by each applicant, or body of joint applicants respectively, shall be formed into a separate estate, to be assigned to such applicant or body of joint applicants; and

(*e*) ordering that land proportionate to the interest so declared to remain to any recorded proprietor or body of recorded proprietors who are not applicants shall be left forming a separate estate;

and shall at the same time issue a notice to each of the proprietors by registered post letter informing him that the application for partition has been admitted and that the partition will be proceeded with, and requiring him to register his name and address and to appoint an agent to accept service of process and to make any appearance or application or do any act required or authorized to be made or done by a party to a partition under this Act.

Subsequent application for separation of another share.

30. (*1*) At any time after the Collector has recorded a proceeding under section 29, and before the Deputy Collector has partitioned the land into separate estates under section 57, any recorded proprietor in the estate, other than the original applicant, may apply for the separation of his share.

(*2*) The Collector may reject or admit any such application; and if he admits it may order either that proceedings for effecting such separation shall be carried on simultaneously with the previous proceedings or that compliance with the application be postponed until such previous proceedings have been completed and the shares separated in accordance therewith.

(3) When the consideration of any application which has been postponed under sub-section (*2*) is resumed, the papers of the previous proceedings aforesaid may be used so far as they are applicable.

Power of Collector to refer application for partition to Deputy Collector.

31. The Collector may refer any application for partition to any Deputy Collector for the purpose of making inquiries and doing any other thing authorised or required by this Chapter:

Provided that every order—

(*a*) rejecting an application under section 22,

(*b*) directing, under section 23, that partition proceedings shall proceed or shall be postponed,

(Estates Partition Act.—Chapter IV.—Initiation and Discontinuance of Partition Proceedings.—Chapter V.—Establishments and Costs.—Sections 23—35)

(*c*) directing, under section 29, that an application for partition be admitted,

(*d*) made under section 30, or

(*e*) appointing a Deputy Collector under section 32,

and every proceeding recorded under section 29,

shall be made and recorded, respectively, by the Collector and not by any Deputy Collector.

Power of Collector to appoint Deputy Collector to carry out partition.

32. As soon as the Collector has declared an estate to be under partition as provided in section 29, he may appoint a Deputy Collector to carry out the partition and all or any of the proceedings necessary thereto.

Power to strike partition case off the file, on petition of parties. Recovery of costs.

33. (*1*) If, at any time after an order has been passed for making a partition of a parent estate, all the recorded proprietors of the estate present a petition to the effect that they do not wish the partition to proceed, the Collector may, after such enquiry as he considers necessary, strike the partition case off the file, and at the same time require the proprietors to pay all costs incurred in and about the partition.

(*2*) Any such costs which have not already been levied as provided in section 37 shall be levied in proportion to the shares of the respective proprietors.

Power of Commissioner to strike partition case off the file. Recovery of costs.

34. (*1*) If, at any time after an order has been passed for making a partition, it appears to the Commissioner that any sufficient reason exists why the partition should not be proceeded with,

he may, on the report of the Collector or otherwise, after issuing a notice calling on the persons interested to show cause why the partition case should not be struck off the file, and after considering any objections which may be made, order the partition case to be struck off the file.

(*2*) All costs which have not already been levied as provided in section 37 shall thereupon be levied in proportion to the shares of the respective proprietors.

CHAPTER V.

ESTABLISHMENTS AND COSTS.

Power to appoint establishments and prescribe scale of remuneration.

35. The Deputy Collector, with the approval of the Collector, and subject to any rules made in that behalf by the Board, may appoint such persons as may be needed for the purposes of any proceedings under this Act and prescribe the scale of their remuneration.

(Estates Partition Act.—Chapter V.—Establishments and Costs.—Sections 36—40.)

Power to appoint special establishment.

36. In any district or division in which partitions are so numerous or extensive as to render necessary the appointment of a special establishment in the office of the Collector or of the Commissioner, the Collector or the Commissioner, as the case may be, with the previous sanction of the Board, may appoint such establishment.

Estimating and levy of cost of partition.

37. (*1*) As soon as possible after an estate has been declared to be under partition as provided in section 29, the Collector shall estimate the cost of making the partition; and the amount shall be levied from the proprietors in such instalments and at such times as may be fixed by rules made by the Board.

(*2*) If the amount first estimated is found insufficient, supplementary estimates may be made from time to time, and the required amount may be levied as provided in sub-section (*1*).

Apportionment of cost of partition.

38. The cost of making a partition shall be apportioned on the proprietors of the several shares in proportion to their shares:

Provided that whenever it appears to the Collector that any partition proceedings have been unnecessarily delayed and the cost of the partition enhanced, by obstacles vexatiously put in the way of the completion of the proceedings by one or more of the proprietors, or by want of due diligence on the part of one or more of the proprietors in carrying out any requisition made upon him or them,

the Collector may direct that such portion of the cost as he may think proper, in excess of the amount proportionate to the share or shares of such proprietor or proprietors, shall be paid by him or them.

Power of Deputy Collector to declare cost of local inquiry and by whom it is to be paid.

39. Whenever any local inquiry is held by the Deputy Collector or any other officer, in consequence of an objection raised by any person to any record of measurements, rent-roll or other information which has been laid before the Deputy Collector, the Deputy Collector may declare the cost which has been incurred by such inquiry, and may direct that the entire cost so declared—

(*a*) shall be paid by the person making the objection, or by any one of the proprietors; or

(*b*) shall be paid, in such proportions as the Deputy Collector thinks fit, by the said person and the proprietors or any of them; or

(*c*) shall be deemed to be a part of the cost of the partition.

On completion of partition, total cost to be declared and account adjusted.

40. (*1*) Upon the completion of a partition, the Collector shall make an order declaring the total cost thereof.

(Estates Partition Act.—Chapter V.—Establishments and Costs.—Sections 41, 42.)

(2) The account shall then be adjusted, either by returning to the proprietors any sums which they may have paid in excess of the total cost, or, if necessary, by levying from them, in the manner provided in section 108, any sums remaining due.

Power to direct that salary of Deputy Collector, and cost of special establishment, be recovered as part of costs of partitions.

41. (1) Whenever it appears to the Lieutenant-Governor that the work required to be done in connection with partitions under this Act in any district is so great that it would, if concentrated in the hands of one or more Deputy Collectors, fully occupy the time of such one or more Deputy Collectors, he may make an order directing that the salary of such one or more Deputy Collectors, as the case may be, shall be recovered from the proprietors of estates under partition in such district, as part of the costs of such partitions.

(2) For the purposes of sub-section (1) the salary of a Deputy Collector shall be deemed to be the amount of salary which is drawn by a Deputy Collector of the lowest grade.

(3) Whenever it appears to the Lieutenant-Governor that the said work in any district is so great as to occupy a considerable portion, though not the whole, of the time of a Deputy Collector,

or whenever a special establishment is appointed under section 36,

the Lieutenant-Governor may direct that a portion of the salary of such Deputy Collector or the whole of the cost of such special establishment shall be recovered from the proprietors of estates under partition in such district, as part of the costs of such partitions.

Estates Partition Fund.

42. (1) The Lieutenant-Governor may direct that in any district a Fund, to be called the "Estates Partition Fund," shall be formed, into which all sums levied from the proprietors of estates in such district in respect of partitions of their estates shall be paid and from which all costs of making partitions of estates in such district shall, except as provided in section 43, be defrayed.

(2) When the formation of an Estates Partition Fund has been directed in any district, the charges leviable in that district from the proprietors of any estate under partition may, notwithstanding anything contained in the foregoing sections of this Chapter, be levied according to a general scale of fees to be fixed by the Board.

(3) Such scale of fees shall be fixed, as nearly as may be, so that the receipts and expenditure of the said Fund shall balance one another, and shall be revised from time to time by the Board so as to secure compliance with this condition.

(4) The said fees shall be apportioned, and the proportionate amount thereof due from any proprietor or proprietors may be increased, in the manner and under the circumstances mentioned in section 38.

(Estates Partition Act.—Chapter V.—Establishments and Costs.—Chapter VI.—Proceedings up to the Determination of the Partition.—Sections 43—45.)

(5) The said fees shall be levied from the proprietors in such instalments and at such times as may be fixed in accordance with any rules which the Board may make in this behalf.

(6) An abstract of the Estates Partition Fund of each district, made up to the end of each financial year, shall be published in the Calcutta Gazette and posted up at the office of the Collector of the district.

Order by Civil Court for payment by parties of costs of partition.

43. (1) Whenever any Civil Court makes a decree awarding or declaring any proprietary right in an estate, and requires the Collector to make a partition of the estate, the Court shall, subject to the provisions of sections 38 and 39, at the same time direct either—

(a) that the party or parties who has or have withheld the right so decreed shall defray the whole of the costs of the partition or the whole of the fees payable in respect of the partition under section 42, or

(b) that the said costs or fees shall be defrayed by all or any of the parties to the suit in which the decree was made, in such proportions as the Court may, upon a consideration of the particular circumstances of the case, deem equitable.

(2) Copies of all orders passed under sub-section (1) shall be transmitted to the Collector for his guidance, together with the precept which the Court issues to him requiring him to divide the estate; and the Collector shall levy the said costs or fees from the parties, in accordance with the order, in the same manner and by the same means as if the levy of such costs or fees had been ordered by himself.

CHAPTER VI.

PROCEEDINGS UP TO THE DETERMINATION OF THE PARTITION.

Powers of Deputy Collector in making a partition.

44. Every Deputy Collector making a partition shall, as regards the estate under partition, have so far as they are applicable all the powers exerciseable by a Survey Officer under the Bengal Survey Act, 1875, and by a Revenue Officer employed in preparing a record-of-rights under Chapter X of the Bengal Tenancy Act, 1885.

Ben. V of 1875.

VIII of 1885.

Deputy Collector when to make survey and prepare record of existing rents and assets.

45. As soon as the Collector has recorded a proceeding under section 29, declaring an estate to be under partition, the Deputy Collector shall, subject to the provisions of section 49, make a survey and prepare a record of existing rents and other assets of all lands included in the estate.

(Estates Partition Act.—Chapter VI.—Proceedings up to the Determination of the Partition.—Sections 46, 47.)

Particulars to be recorded.

46. In making a survey and preparing a record of existing rents and other assets of land under section 45, the Deputy Collector shall ascertain and record the following particulars, namely:—

(*a*) the name of each proprietor, landlord and tenant of the estate, and of every owner of revenue-free land and occupier of rent-free land therein;

(*b*) the situation, area and boundaries of the land owned or occupied by each of the said persons, and the character and extent of the interest held by each, and the area of all other land in the estate which is not held by tenants;

(*c*) the rent then payable for all rent-paying lands,—

(i) as stated by the landlord,

(ii) as stated by the tenant, and

(iii) as taken by the Deputy Collector for the purposes of the partition; and

(*d*) the assets, if any, of all other lands;

and shall be guided by such rules as the Board may make under section 121, clause (*l*).

Attestation of survey papers and record of existing rents and assets.

47. (*1*) When the Deputy Collector has made a survey and prepared a record of existing rents and other assets of land under section 45, he shall publish a notification, in a form to be prescribed by the Board, fixing a day on which he will be present in the village, or at a convenient place within limits of distance to be fixed by general or special order of the Board, for the purpose of attesting the survey papers and record of existing rents and other assets.

(*2*) On the date fixed by the notification, or on any other date to which the proceedings may be adjourned, the entries made in the record of existing rents and other assets under section 46, or such of them as the Board may by rule prescribe, shall be read out, and corrected or added to as may appear necessary, in the presence of such of the interested persons as are in attendance.

(*3*) If the correctness of any entry is disputed, the Deputy Collector shall note the statements of such of the persons aforesaid as are interested in the disputed entry and shall, after making such local enquiry, if any, as he thinks fit, pass a summary order declaring what entry shall be accepted for the purposes of the partition.

(*4*) If the correctness of any measurement is called in question and a fresh measurement is demanded, the Deputy Collector may require the costs of the re-measurement to be deposited.

(*5*) If the re-measurement shows the original measurement to have been inaccurate, the amount deposited shall be refunded to the objector.

(*Estates Partition Act.—Chapter VI.—Proceedings up to the Determination of the Partition.—Sections 48—50.*)

Publication of survey papers and record of existing rents and assets.

48. When the survey papers and the record of existing rents and other assets have been attested as provided in section 47, the Deputy Collector shall cause a copy thereof to be locally published in such manner and for such period as the Board may by rule prescribe, and there shall be furnished to each landlord and tenant a copy of such of the entries relating to his estate, tenure or holding, as the case may be, as the Board may by rule prescribe.

Power of Deputy Collector to accept previous survey, record-of-rights, measurements or rent-rolls, instead of making a new survey and a record of existing rents and assets.

49. If at any time a survey of the estate under partition or any part thereof has been made or a record-of-rights prepared by an officer appointed in that behalf under the orders of the Government, or

if any measurement papers and rent-rolls are filed under section 19, or at any time before a survey has been begun under section 45, and if the correctness of such measurement papers and rent-rolls is admitted in writing by all the proprietors, and is verified by the Deputy Collector after testing on the spot, and if the Deputy Collector is satisfied that the land-revenue would not be endangered,

the Deputy Collector may, unless the Collector otherwise directs, and after making any correction which may appear necessary, accept the papers of such survey, or the said record-of-rights, measurement papers or rent-rolls, instead of making a new survey and preparing a record of existing rents and other assets under section 45.

Record of order fixing of day for determining partition and service of notices.

50. When the documents referred to in section 48 have been published, or any documents referred to in section 49 have been accepted, the Deputy Collector shall record an order stating that such documents have been adopted for the purposes of the part tion, and shall—

(*a*) fix a day on which to determine the partition of the lands into the several separate estates,

(*b*) publish a notification calling on all the proprietors to be present on the day so fixed, such day being not less than thirty or more than sixty days after the publication of the notification in his office, and at the same time serve a notice on each of the proprietors to the same effect, and

(*c*) serve a similar notice on the proprietors of each of the adjoining estates, inviting them to appear and file their objections, if any, if they dispute the possession of any land of the estate under partition.

(Estates Partition Act.—Chapter VII.—Partition by Amicable Arrangement or by Arbitration.—Sections 51—55.)

CHAPTER VII.

PARTITION BY AMICABLE ARRANGEMENT OR BY ARBITRATION.

Power to allow partition to be made by proprietors themselves or by arbitrators.

51. (*1*) If all the recorded proprietors present, on or before the day fixed under section 50, a petition requesting to be allowed to make the partition on the basis of the papers adopted by the Deputy Collector under Chapter VI,—

(*a*) privately among themselves, or

(*b*) by arbitration,

the Deputy Collector may grant the request.

(*2*) If, after such request has been granted, the proprietors or the arbitrators fail to make the partition within such time as may be fixed by the Deputy Collector in that behalf, the Deputy Collector shall make the partition himself.

Procedure on reference to arbitration.

52. When a partition has been referred to arbitration, the proceedings shall, except as hereinafter otherwise expressly provided, be conducted in accordance with the provisions of sections 506 to 522 (both inclusive) of the Code of Civil Procedure, so far as they are applicable. XIV of 1882.

Arbitrators to deliver a partition paper.

53. (*1*) The arbitrator or arbitrators shall, within a period to be fixed by the Deputy Collector, which period may be further extended by him, deliver to the Deputy Collector a full and complete paper of partition, in such form as the Board may, by rule, prescribe.

(*2*) If default is made in complying with sub-section (*1*), the Deputy Collector may withdraw the case from arbitration and may make the partition himself.

Remuneration of arbitrators.

54. (*1*) The arbitrator or arbitrators, on delivering the paper of partition as aforesaid, shall be entitled to reasonable fees for his or their services.

(*2*) The amount of such fees shall be fixed, with the approval of the Commissioner, by the Deputy Collector who made the reference to arbitration, and shall be deemed to form part of the costs of making the partition.

Approval of Deputy Collector and other authorities.

55. Every partition made under this Chapter by proprietors or by an arbitrator or arbitrators shall be subject to the approval of the Collector and the confirmation of the Commissioner:

Provided that no such partition shall be disallowed except—

(*a*) on the ground of fraud, or

(*b*) on the ground that the partition cannot be confirmed without endangering the safety of the land-revenue.

(Estates Partition Act.—Chapter VII.—Partition by Amicable Arrangement or by Arbitration.—Chapter VIII.—Making of Partitions by the Deputy Collector, and Approval thereof by the Collector.—Sections 56, 57.)

Assessment of land-revenue.

56. When a partition has been made under this Chapter, the land-revenue on each separate estate into which the parent estate is divided by such partition shall be assessed by the Collector in the manner prescribed by section 10.

CHAPTER VIII.

MAKING OF PARTITIONS BY THE DEPUTY COLLECTOR, AND APPROVAL THEREOF BY THE COLLECTOR.

Procedure where no petition presented under section 51.

57. (*1*) If no petition is presented under section 51, the Deputy Collector shall, on the day fixed under section 50, or on any subsequent day or days to which the hearing may be postponed by notice posted at his office,—

(i) consult all proprietors who are present, and

(ii) hear, and, after such enquiry as he may consider necessary, dispose of, any objections which they may urge.

(*2*) The Deputy Collector shall then proceed to determine how the lands of the parent estate shall be partitioned into the separate estates, and all matters arising out of such partition; and shall cause to be prepared—

(*a*) a paper of partition, in a form prescribed by rules made by the Board, specifying in detail—

(*i*) the lands which he has included in each separate estate, and the area of such lands,

(*ii*) the rental of such lands, and the other assets, if any, of each separate estate,

(*iii*) the name or names of the recorded proprietor or proprietors of each separate estate,

(*iv*) any stipulations which may have been made regarding places of worship, tanks or other matters mentioned in Chapter IX, and

(*v*) the amount of land-revenue to be assessed on each separate estate in the manner prescribed by section 10; and

(*b*) a map showing the lands which fall within each separate estate and the boundaries of such lands.

(*3*) In making the partition the Deputy Collector shall be guided by the provisions of Chapter IX, and shall make the partition in the manner which, in his opinion, is on the whole most in accordance with those provisions and most equitable and convenient to all parties concerned.

(Estates Partition Act.—Chapter VIII.—Making of Partitions by the Deputy Collector, and Approval thereof by the Collector.—Sections 58—60.)

Submission of case to Collector; his duties.

58. (*1*) The partition, as made under this Chapter, shall be submitted for the sanction of the Collector, and he shall by notice fix a day for the consideration of the same.

(*2*) Every such notice shall be served on the proprietors and shall be published in the manner prescribed by section 104.

(*3*) The day fixed by the said notice shall be not less than fifteen days after the publication of the notice at the Collector's office.

(*4*) After hearing and disposing of any objection which may be preferred, the Collector shall pass such orders as he may think proper—

(*a*) approving the partition, with or without amendments; or

(*b*) making a new partition; or

(*c*) returning the papers to the Deputy Collector for amendment of the partition, or for making a new partition, with such directions as to the Collector may seem fit in regard to the issue of a notice to appear to the proprietors or any of them who are specially interested.

(*5*) If the papers are returned to the Deputy Collector, the Collector shall, on their re-submission, proceed again to consider the partition as provided in the foregoing sub-sections of this section.

Duties of Deputy Collector when partition has been approved by Collector, or when Collector makes a new partition.

59. (*1*) When the partition has been approved by the Collector, the Deputy Collector shall, after making such alterations as may be necessary in the partition paper or map, or preparing a new partition paper or map, in accordance with the orders passed by the Collector,

(*a*) cause to be prepared a separate extract of the portion of the partition paper which relates to each separate estate;

(*b*) cause to be tendered to any recorded proprietor of a separate estate, or any authorized agent of such proprietor, who may be in attendance at the Deputy Collector's office, the extract which relates to such separate estate, and

(*c*) publish a notification at his office calling upon every proprietor to whom or to whose agent an extract from the partition paper has not been tendered as aforesaid, to take out of the Deputy Collector's office the extract of the portion of the partition paper relating to his separate estate.

(*2*) If the circumstances of the partition so require, an extract of the map prepared by the Deputy Collector, or a copy of such map, shall be annexed to every separate extract from the partition paper mentioned in sub-section (*1*).

(*3*) The Deputy Collector shall also proceed in the manner hereinbefore provided when the Collector makes a new partition.

Proprietor not appearing on fixed day not entitled to make objection.

60. No proprietor who has failed to appear before the Deputy Collector in person or by agent on a day fixed, under section 50 or section 57 for

(Estates Partition Act.—Chapter VIII.—Making of Partitions by the Deputy Collector, and Approval thereof by the Collector.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy.—Sections 61—63.)

the partition of the lands into the several separate estates, and no proprietor who has failed so to appear before the Collector on a day fixed under section 58, shall, unless he shows sufficient cause for such failure, be entitled at any subsequent time to make any objection to the orders which may be passed on such days respectively.

Submission of the papers to the Commissioner after approval of the partition by the Collector.

61. When a partition has been approved by the Collector, or when he has made a new partition, and after the tender of extracts and the publication of a notification as provided in section 59, the Collector—

shall cause a notice to be served on each of the recorded proprietors, stating that the papers will be submitted at once for confirmation of the partition by the Commissioner, and that any appeals or objections must be presented to the Commissioner, or to the Collector for transmission to the Commissioner, within thirty days from the date of the service of the said notice;

and shall, after the issue of such notice, forward to the Commissioner all papers relating to the partition.

CHAPTER IX.

GENERAL PRINCIPLES FOR MAKING PARTITIONS.

Lands held in common tenancy.

Separate estates to be made compact.

62. Each separate estate shall be made as compact as is compatible with the primary object of making an equitable partition among the proprietors and with the provisions of this Chapter.

Circumstances to be considered in making partitions.

63. In selecting the villages or land to be assigned to each separate estate formed out of a parent estate which has been held in common tenancy, the Collector shall take into consideration the advantages or disadvantages arising from—

(*a*) situation;

(*b*) the vicinity of roads, railways or navigable rivers or canals;

(*c*) the nature and quality of the soil and produce;

(*d*) the quantity of cultivable and uncultivable waste land;

(*e*) the facilities for irrigation;

(*f*) the state of embankments and watercourses, and

(*g*) liability to accretion and diluvion;

and any other circumstances affecting the value of the land.

(Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy.—Sections 64—68.)

Rights when dwelling-house belonging to one proprietor is situated on land to be allotted to another proprietor.

64. (*1*) If a dwelling-house belonging to one proprietor is situated on any land which it may be necessary to include in the separate estate of another proprietor, the owner of the house may retain occupation thereof, with the buildings and grounds immediately attached thereto, upon agreeing to pay rent annually in perpetuity for the land occupied by the house, buildings and grounds to the proprietor of the separate estate in which such land is included.

(*2*) The limits of the land so occupied and the rent to be paid for it shall be fixed by the Deputy Collector, and shall be stated in the paper of partition.

(*3*) In every such case a defined pathway shall, as far as possible, be secured to the owner of the house, leading from the house to some portion of the separate estate allotted to him.

Power to apply section 64 to gardens, etc.

65. Whenever the Deputy Collector thinks fit, he may apply the provisions of section 64 to gardens, orchards, land planted with bamboos, and any other land which in his opinion is of special value to the proprietor in whose occupation it is found to be, in consequence of improvements made by such proprietor or of the particular use to which such land is put.

Rent for land fixed under section 64 or 65 deemed to be the assets of the land.

66. The rent fixed in perpetuity on any land by the Deputy Collector under section 64 or section 65 shall be deemed, for the purposes of the partition, to be the assets of such land.

Redemption of rent fixed under section 64.

67. When the dwelling-house of one proprietor, with the buildings and grounds immediately attached thereto, has been included in the separate estate of another proprietor, and the rent to be paid in perpetuity for the land occupied thereby has been fixed by the Deputy Collector and stated in the paper of partition,

the first-mentioned proprietor may apply to the Deputy Collector for permission to redeem the rent so fixed, and the Deputy Collector shall give such permission unless he is of opinion that the redemption would endanger the safety of the land-revenue for the payment of which the separate estate in which such dwelling-house, buildings and grounds have been included will be liable.

Amount payable in redemption of rent.

68. (*1*) If the Deputy Collector gives permission as aforesaid, he shall certify the amount payable by the applicant in redemption of the rent.

(*2*) Such amount shall be ten *per centum* above the sum which would be required to produce, in interest at four *per centum per* annum, an annual sum equal to the said rent.

(Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy.—Sections 69—73.)

Such amount when payable.

69. The amount certified under section 68 may be paid to the Deputy Collector at any time before, but not after, possession is, under section 94, given to the several proprietors of the separate estates allotted to them.

Notice of payment to be given, and land to be held rent-free.

70. On receipt of such payment, the Deputy Collector shall give notice to the proprietor in whose separate estate the land is situated—

(*a*) that such payment has been made ;

(*b*) that the sum will be paid to him or to his authorized agent on application, and

(*c*) that, from the date on which possession as aforesaid is given, the proprietor who has redeemed the rent of such land will be entitled to hold the land as a rent-free tenure secured against the proprietor to whom the notice is given and against any auction-purchaser at a sale for arrears of revenue, including the Government;

and from such date the land shall be so held as a rent-free tenure.

Collector to register the rent-free tenure.

71. The Deputy Collector shall at the same time give notice to the Collector of the district of the creation of such tenure, and the Collector shall thereupon cause such tenure to be specially registered in the manner provided by section 42 of Act XI of 1859 (*an Act to improve the law relating to sales of land for arrears of revenue in the Lower Provinces under the Bengal Presidency*) or by any similar law for the time being in force.

Drawing of lots for equal shares.

72. When two or more of the separate estates consist of the same proportions of the parent estate, the Deputy Collector may, if he thinks proper, direct the parties entitled thereto respectively to draw lots in his presence for the equal separate estates which have been formed by assignment of land,

unless the recorded proprietors of the equal shares agree among themselves as to the allotment of the equal separate estates and present a petition to that effect, or

unless for any other reason the Deputy Collector, with the sanction of the Collector, thinks proper to assign the equal separate estates to the proprietors of the equal shares without causing lots to be drawn.

Order and method of drawing lots when aggregate of two or more shares equals one other share, or equals the aggregate of two or more other shares.

73. (*1*) When the aggregate of two or more shares equals one other share, or equals the aggregate of two or more other shares, the Deputy Collector, with the sanction of the Collector, may cause such aggregate shares to be treated as one share for the purpose of

(Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy.—Section 73.)

determining by lots as aforesaid which portion of the parent estate shall be assigned to each proprietor as his separate estate;

and may decide which shares shall be formed into one aggregate share for the purpose of causing such lots to be drawn;

and may cause lots to be drawn in like manner as often as he thinks proper for such purpose.

(2) After lots have been drawn once (or more than once if necessary) as aforesaid, the Deputy Collector shall proceed to divide the portion of the parent estate which has fallen by lot to each aggregate share, among the proprietors of the different shares which were formed into such aggregate share for the purpose of drawing lots, and shall assign to every such proprietor his separate estate within such portion in such position as the Deputy Collector may think proper.

Illustrations.

I.—The partition of a parent estate is being made into the following shares:—

8 annas.	3 annas.
4 annas.	1 anna.

For the purposes of drawing lots, the 4 annas, 3 annas and 1 anna shares may be taken together, and considered to be an aggregate 8 annas share.

The Deputy Collector will divide the parent estate into two halves of equal value, and will then cause lots to be drawn, in order to determine which of the two halves shall be assigned to the proprietor of the integral 8 annas share, and which shall be divided among the proprietors of the 4 annas, 3 annas and 1 anna shares.

Subsequently, if necessary, the Deputy Collector may again cause lots to be drawn by the proprietor of the 4 annas share on the one hand and the proprietors on the other hand of the aggregate share made up by taking together the 3 annas share and the 1 anna share.

II.—The partition is being made of a parent estate into the following shares:—

6 annas.	3 annas.
4 annas.	2 annas.
	1 anna.

Two tracts in the estate may first be marked off, the value of each being equivalent to a 6 annas share; and then, for the purpose of drawing lots in respect of the assignment of these two tracts, the 4 annas share and the 2 annas share may be taken together as an aggregate 6 annas share, and lots may be drawn between the proprietor of the aggregate 6 annas share so formed on the one hand, and the proprietor of the integral 6 annas share on the other.

One of the two 6 annas tracts having thus been finally assigned to the proprietor of the integral 6 annas share, the Deputy Collector will proceed to assign the rest of the estate among the remaining sharers; and he may again, for the purpose of causing lots to be drawn, mark off two tracts, the value of each of which shall be equivalent to 5 annas of the parent estate, and may cause lots to be drawn for these two tracts between the proprietors of the 4 annas share and the 1 anna share taken together as an aggregate 5 annas share on the one hand, and the proprietors of the 3 annas share and the 2 annas share taken together as another 5 annas share on the other.

Finally, their separate estates will be assigned to the proprietor of the 4 annas share and of the 1 anna share respectively, within the tract which fell to them jointly by lot; and their separate estates will be assigned to the proprietors of the 3 annas share and of the 2 annas share respectively within the tract which fell to them jointly by lot.

(Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy.—Lands held in severalty.—Sections 74—76.)

Deputy Collector may require proprietors to attend or appoint agent for the purpose of drawing lots.

74. The Deputy Collector may, by notice, require any proprietor, in respect of whose share lots are to be drawn as provided in section 72 or section 73, to attend at the office of the Deputy Collector in person or by authorized agent, at a time to be fixed by the Deputy Collector, for the purpose of drawing lots;

and may similarly require the proprietors of any shares which he may have ordered to be formed into an aggregate share for the purpose of drawing lots, jointly to appoint an agent to draw lots on their joint behalf; and if at the time fixed for drawing such lots, such proprietors have failed to agree to any such joint appointment, or fail to cause the attendance of an agent authorized to act jointly for all such proprietors, all such proprietors shall be deemed to have failed to comply with the Deputy Collector's requisition.

In default, Deputy Collector may appoint a person to draw lots.

75. If any proprietor or proprietors fail to comply with a requisition of the Deputy Collector under section 74, the Deputy Collector may appoint a person to draw lots on behalf of such proprietor or proprietors.

Lands held in severalty.

Partition according to separate possession, and apportionment of land-revenue.

76. (*1*) When the lands of an estate have been divided by private arrangement formally made and agreed to by all the proprietors, and each proprietor is, in pursuance of such arrangement, in possession of separate lands held in severalty as representing his interest in the estate, the joint application presented under section 7 may be to the effect—

(*a*) that a partition of the estate be made by assigning to each proprietor or to two or more proprietors jointly, as his or their separate estate or estates, the lands of which they are in separate possession in pursuance of such arrangement, and

(*b*) that each separate estate so formed be made liable for such portion of the entire land-revenue of the parent estate as was paid by the proprietor or proprietors thereof under the private arrangement aforesaid.

(*2*) The Deputy Collector who is appointed to carry out the partition in accordance with such application shall satisfy himself that the assets of each separate estate which it is proposed to form will be sufficient to secure the payment of the annual amount of land-revenue for which it is proposed to make such separate estate liable.

(*3*) If the Deputy Collector is not satisfied that the assets of each such separate estate will be sufficient as aforesaid, or that, with reference to the circumstances of the case, the partition of the land and the assessment of the land-revenue

(Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in severalty.—Lands held in common tenancy and Lands held in severalty.—Sections 77—80.)

thereon may be made in the manner proposed without endangering the safety of the land revenue, he shall reject the application, unless all the recorded proprietors agree that the land-revenue for which the parent estate is liable shall be apportioned among the separate estates so to be formed in such a manner that the safety of the total amount of the land-revenue shall not be endangered.

Lands of which each proprietor is in possession to be allotted to him.

77. Whenever the Deputy Collector who is appointed to carry out a partition finds that, in pursuance of a private arrangement formally made and agreed to by all the proprietors of an estate, the proprietors respectively, or any of the proprietors, are in possession of separate parcels of land held in severalty as representing portions only of their respective interests in the parent estate, while other land of the parent estate is held in common tenancy between such proprietors, then, notwithstanding anything contained in section 7, a joint application shall not be required, and the Deputy Collector shall allot to the separate estate of each proprietor the land of which such proprietor is found to be in possession in severalty in accordance with such private arrangement.

Explanation.—Land held in the occupation of the several proprietors of an estate as sir, khamar or nij-jote, or under any other similar denomination, shall not be deemed to be land held in severalty as representing portions of their respective interests in the parent estate within the meaning of this section, which applies only to cases in which there has been a *bonâ fide* division, by private arrangement among the proprietors, of land held by tenants.

Collector may cause transfer of lands agreed to by parties.

78. Notwithstanding anything in section 77, the Collector may cause any transfer of land agreed to by the parties to be made from the possession of one proprietor to that of another.

Lands held in common tenancy and Lands held in severalty.

Places of worship, etc.

79. Places of worship, burning-grounds and burial-grounds which have been held in common previous to the partition of an estate, and land of which the proceeds have been assigned by the proprietors jointly for religious, charitable or public purposes, shall continue to be held in common unless the proprietors otherwise agree among themselves, in which case they shall state in writing the agreement into which they have entered, and the Deputy Collector shall enter a note of the agreement in the paper of partition.

Tanks, wells, water-courses, reservoirs and embankments.

80. (*1*) Tanks, wells, water-courses, reservoirs and embankments shall be deemed to be attached to the land for the benefit of which they were originally made.

(*Estates Partition Act—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy and Lands held in severalty.—Sections 81—83.*)

(*2*) In cases in which, from the extent, situation or construction of any such works, it is found necessary that they should remain the joint property of the proprietors of two or more separate estates, the paper of partition shall specify, as far as the circumstances admit, the extent to which the proprietors of each of such estates may make use of the same, and the proportion of the charges for repairs to be borne by them respectively.

Splitting up of tenure or holding and apportionment of rent thereof.

81. (*1*) No tenure or holding shall be split up for the purposes of a partition unless it is reasonably necessary to do so in order to effect an equitable partition.

(*2*) If a tenure or holding be split up as aforesaid, the total existing rent thereof, as ascertained under Chapter VI, shall not be altered, but shall be apportioned among the several parts into which the tenure or holding is divided.

(*3*) When it is proposed to split up a tenure or holding and apportion the rent thereof as aforesaid, the Deputy Collector shall cause a notice to be served on the tenants concerned and, after hearing their objections, if any, may order that the tenure or holding be split up, and that the rent thereof be apportioned as aforesaid.

(*4*) The Deputy Collector shall notify such apportionment to the tenants concerned.

Land held rent-free not to be divided, except with consent of recorded proprietors.

82. When the Deputy Collector finds in a parent estate land which is claimed to be held rent-free and for which no rent is actually paid (whether the proprietors of the estate do or do not claim a right to receive rent from the land), he shall not make any division or assignment of such land among the separate estates, but shall specify in the partition papers and proceedings that such land is left appertaining jointly to all the separate estates which are formed out of the parent estate, in the proportion which each separate estate bears to the parent estate:

Provided that such land or any of it may be allotted among the different separate estates with the consent of all the proprietors of the parent estate.

Land held at fixed rent on permanent intermediate tenure.

83. (*1*) When the Deputy Collector finds in a parent estate any land which is held at a fixed rent on a patni or other permanent intermediate tenure created by all the proprietors of the estate or admitted by all the recorded proprietors to have been so created, he may either—

(*a*) assign such land and the assets thereof entirely to one or more of the separate estates formed out of the parent estate; or

(*b*) leave such land unassigned to any separate estate, and specify in the partition paper and proceedings that the land is left appertaining jointly to all the separate estates which are formed out of the parent estate in the proportion which each separate estate bears to the parent estate.

(*Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy and Lands held in severalty.—Sections 84, 85.*)

(*2*) In the event of such land being so left unassigned, the Deputy Collector shall assign to each separate estate such share of the rent of the tenure as bears the same proportion to the entire rent of the tenure as the separate estate bears to the parent estate.

(*3*) In dealing with a tenure under this section, the Deputy Collector shall take into consideration the extent of the land comprised in the tenure, and all other circumstances of the case.

Land held in common between the proprietors of two or more estates how to be dealt with when one estate is under partition.

84. When any land is held in common between the proprietors of two or more estates, one of which is under partition in accordance with the provisions of this Act, the Deputy Collector shall first allot to the estate under partition a portion of such common land of which the assets are in proportion to the interest which the proprietors of such estate hold in the said common land;

and all the provisions of this Act in respect of the allotment, between the shareholders in one estate, of land which is held jointly by such shareholders, shall, as far as possible, apply to the allotment of the proportionate share of such common land to the estate under partition;

and, in respect of the service of notices, the hearing of objections, and all other procedure in view to such allotment, the proprietors of the estate under partition, and all other proprietors of estates who have an interest in the said common land, shall be deemed to be joint proprietors of a parent estate consisting only of the land so held in common:

Provided that all costs of any division of lands so held in common between the proprietors of two or more estates shall be deemed to be costs of making the partition of the estate which is under partition, and shall be leviable, as provided by this Act, from the proprietors of such estate; and the proprietors of any other estate having an interest in such lands shall not be required to bear any portion of such costs.

When proprietors of other estates may be required to pay a portion of the costs of making a division under section 84.

85. Notwithstanding anything contained in section 84, if it appears to the Collector that the proceedings for any such division have been unnecessarily delayed and the cost of such division enhanced, by obstacles vexatiously put in the way of the completion of such division by any proprietor of any estate other than that under partition, or by want of due diligence on the part of any such proprietor in carrying out any requisition made upon him,

the Collector may direct that such sum as he shall think fit shall be levied from every such proprietor who is responsible for such delay or additional cost;

and every sum so levied shall be taken in diminution of the amount payable by the proprietors of the estate under partition as costs of such partition.

(Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy and Lands held in severalty.—Sections 86—88.)

Allotment made under section 84 to be submitted to the Collector.

86. Every allotment made under section 84 shall be submitted for the approval of the Collector, who may confirm, amend or reject the same, and, if he rejects it, may make or direct to be made another allotment.

Land so allotted how to be dealt with.

87. When any allotment made under section 84 has been approved by the Collector, the land so allotted shall be dealt with in every respect as if it were held in common tenancy by such of the proprietors of the estate under partition as were found to hold interests in the common land.

Procedure when dispute or doubt exists as to whether any land forms part of a parent estate.

88. (*1*) If a dispute or doubt is found to exist as to whether any land forms part of a parent estate, the Deputy Collector shall, after due notice to the parties interested, enquire into the fact of possession, and shall report his conclusions to the Collector; and thereupon the Collector shall dispose of the matter as follows:—

(*a*) he may order that the partition case be struck off the file, if such an order appears to him advisable, and whether the possession of the disputed land is with the proprietors of the parent estate or otherwise; or

(*b*) he may order that the partition shall proceed, and that the disputed land be treated as part of the estate under partition, if the possession of such land is with the proprietors of the parent estate and the claim of the other parties to the right in such land appears to him untenable; or

(*c*) he may order that the partition shall proceed, but that the disputed land shall not be treated as part of the estate under partition, if the possession of such land is with the other parties and the claim of the proprietors of the parent estate to the right in such land appears to him untenable:

Provided as follows:—

(i) if a claim to land alleged to be in dispute is filed after the Deputy Collector proceeds under section 57 to determine how the lands of the parent estate shall be partitioned into the separate estates, the claim shall not be enquired into under this section unless the delay on the part of the claimant is explained to the satisfaction of the Deputy Collector;

(ii) no partition shall be made in any case mentioned in this section if such partition would involve the assignment to any separate estate of such a quantity of the disputed land that the removal of such land from such estate at any subsequent time would, in the opinion of the Collector, endanger the safety of the land-revenue for which such estate would be liable after the partition.

(*2*) If a partition case is struck off the file under clause (*a*) of this section, no fresh application for partition shall be admitted unless and until the applicant shows that the dispute or

(Estates Partition Act.—Chapter IX.—General Principles for making Partitions.—Lands held in common tenancy and Lands held in severalty.—Chapter X.—Procedure before the Commissioner up to the Completion of a Partition.—Sections 89, 90.)

doubt aforesaid has been decided by a Court of competent jurisdiction, or has been amicably settled; but, if a fresh application is admitted, the proceedings shall be revived from the point at which they were interrupted.

Procedure when partition completed in pursuance of order under section 88, clause (*b*), and proprietor of an estate dispossessed of any land by decree.

89. If, after a partition has been completed in pursuance of an order passed by the Collector under section 88, clause (*b*), the proprietor of any separate estate is dispossessed by a decree of a Court of competent jurisdiction of any land which has been assigned to his estate by the partition,

the partition shall not be disturbed, but such proprietor shall be entitled to recover from the proprietors of the other separate estates formed by the partition such compensation as may be fair and equitable, having regard to the reduction in the proportionate value of his separate estate which is caused by such dispossession;

and such compensation may be recovered in a Court of competent jurisdiction from the proprietors of those separate estates on which a proportionate share of the total loss caused by the dispossession does not fall.

CHAPTER X.

PROCEDURE BEFORE THE COMMISSIONER UP TO THE COMPLETION OF A PARTITION.

Procedure if proceedings require amendment or if appeal or objection presented.

90. (*1*) If it appears to the Commissioner that the proceedings of the Collector should be amended, or if an appeal or objection is presented within the time allowed by section 61, the Commissioner shall, by order, fix a day (not being less than thirty days from the date of such order) for hearing and disposing of the case, and shall cause notice of such day to be served through the Collector on all the parties.

(*2*) On the day so fixed, or on any subsequent day to which the hearing of the case may extend or is postponed by a notice posted up in his own office, the Commissioner shall, after hearing and disposing of all appeals and objections, and calling for any further information which he may consider necessary, either confirm the partition as approved or made by the Collector, with or without amendments, or return the papers of the partition to the Collector for any amendments which the Commissioner may think proper to be made.

(*3*) If the papers are returned to the Collector for amendment, the Collector shall proceed to make the required amendments or to cause them to be made in the same manner as if he had himself passed such orders on a partition submitted to him for approval by a Deputy Collector, and shall thereafter return the papers to the Commissioner, who may then confirm the partition.

(Estates Partition Act.—Chapter X.—Procedure before the Commissioner up to the Completion of a Partition.—Sections 91—94.)

Procedure in other cases.

91. If it does not appear to the Commissioner that the proceedings of the Collector require amendment, or if no appeal or objection is presented within the time allowed by section 61, the Commissioner may proceed to consider the case without issuing any notice, and may confirm the partition as approved or made by the Collector.

Commissioner may return the papers for amendment or enquiry as often as he thinks fit.

92. The Commissioner may, before confirming a partition, return the papers for amendment or enquiry as often as he thinks fit, and as often as he so returns them the procedure prescribed in the foregoing sections of this Chapter shall be applicable.

Procedure by Collector on receipt of Commissioner's order confirming, or Board's order sanctioning, a partition.

93. (*1*) After the expiration of not less than sixty days from the date of the order of the Commissioner confirming a partition,

or if an appeal has been preferred to the Board, or if any proceedings in respect of the partition be pending before the Board, then on receipt of the final order of the Board, if such order does not set aside but maintains, with or without amendments, the partition as confirmed by the Commissioner,

the Collector shall cause to be published at his office, and at some conspicuous place in each of the estates separately constituted by the order of the Commissioner or the Board, as the case may be, a notice that the partition has been confirmed or sanctioned by the Commissioner or the Board, with or without amendments, as the case may be.

(*2*) If the partition as so confirmed or sanctioned involves any amendments which may conveniently be made on any extracts of the partition paper or on any maps which have been prepared and delivered to recorded proprietors under section 59, the Collector shall cause a notice to be served on every recorded proprietor whose estate is affected by such amendments, requiring him to produce such extracts and maps in order that such amendments may be noted on them;

and, if the alterations made in the partition as so confirmed or sanctioned be such as to make it desirable to prepare fresh extracts or maps as aforesaid, the Collector shall cause such fresh extracts or maps to be prepared; and shall cause a notice to be served on each proprietor declaring the extract and map which was delivered under section 59 to be cancelled, and requiring him to take out of the Collector's office the fresh extract or map which has been prepared.

Procedure as to giving possession of separate estates.

94. (*1*) The Collector shall then proceed to give the several proprietors possession of the separate estates allotted to them, and, if necessary, may require the assistance of the Magistrate in giving such possession;

and shall cause to be served on every recorded proprietor of a separate estate a notice—

(*a*) informing him that from the date specified in such notice the separate estate assigned to him, as described in the extract from the partition paper prepared and delivered or tendered to him

(Estates Partition Act.—Chapter X.—Procedure before the Commissioner up to the Completion of a Partition.—Chapter XI.—Miscellaneous.—Sections 95—99.)

under section 59 or section 93, as the case may be, will be deemed to be separated from the parent estate, and to be separately liable for the amount of land-revenue specified in the notice, and

(*b*) calling upon him to enter into a separate engagement for the payment of such land-revenue.

(*2*) The date specified in such notice shall be not more than three months after the proprietors have been given possession of their respective separate estates as provided in sub-section (*1*).

Each separate estate to be borne on the revenue roll and General Register as separately liable for the land-revenue assessed upon it.

95. From the date specified in such notice, each separate estate shall be borne on the revenue roll and General Register of the Collector as a distinct estate separately liable for the amount of land-revenue assessed upon it under this Act, and shall be so liable whether or not the proprietor has entered into a separate engagement for the payment of the amount of land-revenue so assessed upon the estate.

Boundary marks.

96. (*1*) The Collector may direct the erection of such boundary marks as he thinks proper, to distinguish the lands of each separate estate; and the cost of such boundary marks shall be deemed to be costs of the partition.

(*2*) Boundary marks so erected shall be assigned to zamindars, or to zamindars jointly with tenure-holders, for preservation, as provided in the third clause of section 29 of the Bengal Survey Act, 1875; and, after they have been so assigned, the provisions of sections 19, 20 and 52 to 57 (both inclusive) of the said Act shall apply in the case of such boundary marks. Ben. V of 1875.

CHAPTER XI.

MISCELLANEOUS.

Powers of Deputy Collector as to production of documents and attendance of witnesses.

97. For the purposes of any enquiry under this Act, the Deputy Collector shall, in addition to the powers specifically conferred upon him by this Act, have the powers conferred by Chapters X and XIV of the Code of Civil Procedure for compelling the production of documents and enforcing the attendance of witnesses. XIV of 1882.

General power to refer arbitration.

98. The Deputy Collector, with the consent of all the parties concerned, may refer to arbitration any point arising in the course of a partition; and the provisions of sections 52, 53 and 54 shall, as far as possible, be applicable to such references.

Saving of tenures, leases and encumbrances.

99. If any proprietor of an estate held in common tenancy and brought under partition in accordance with this Act has given his share or a portion thereof in patni or other tenure or on lease, or has created any other encumbrance thereon, such tenure, lease or encumbrance shall hold good as regards the lands finally allotted to the share of such proprietor, and only as to such lands.

(Estates Partition Act.—Chapter XI.—Miscellaneous.—Sections 100—102.)

Illustrations.

I.—A, the proprietor of a quarter share in a joint-undivided estate held in common tenancy, gives to B a patni tenure of the whole of his interest in the estate, entitling B, as long as such estate is held in common tenancy, to collect one-fourth of the rent payable by every raiyat on the estate; and

partition of the said estate is made under this Act, and certain specific lands are assigned to A as his separate estate.

B will become patnidar of the entire separate estate which has been assigned to A, and will be entitled to collect the whole of the rents from the raiyats on that estate.

II.—A, a proprietor of a quarter share in a joint-undivided estate held in common tenancy, gives to B a patni tenure of one-half of his share in the estate, entitling B, as long as such estate is held in common tenancy, to collect one-eighth of the rent payable by every raiyat on the estate; and

partition of the estate is made under this Act, and certain specific lands are assigned to A as his separate estate.

B will become patnidar of one-half of A's separate estate, and will hold his patni in common tenancy with the half of A's interest which A has not given in patni, so that B will be entitled to collect one-half of the rent payable by every raiyat on A's estate, and A will be entitled to collect the other half.

Uniting of estates.

100. (*1*) If two or more estates come into the possession of one proprietor or of the same body of proprietors, such proprietor or body of proprietors may, after being recorded as proprietors, apply to have the estates united and to hold them as a single estate.

(*2*) Every such application shall be made in writing to the Collector, and the Collector shall, if he sees no objection to doing so, comply with it not less than thirty days after the publication of a notification thereof, and shall then cause the necessary entries to be made in the records of his office and report the case to the Commissioner.

If separate estate falls into arrear, Collector to enquire into cause and report to Commissioner.

101. If any separate estate created under this Act falls into arrear so as to necessitate a sale of the land for the discharge of the arrear at any time within six years from the date of the confirmation or sanction of the partition by the Commissioner or the Board, as the case may be,

the Collector shall, if possible, ascertain the cause of the estate having fallen into arrear, and shall enquire whether the same is due to any fraudulent or erroneous allotment of the assessment or assignment of lands at the time of the partition, and shall make a report upon the case to the Commissioner for such action as the Commissioner may think proper.

Power of Lieutenant-Governor to order a new allotment of the land-revenue.

102. If it is proved to the satisfaction of the Lieutenant-Governor at any time within six years from the date of the confirmation or sanction of a partition by the Commissioner or the Board, as the case may be, whether or not upon enquiry made under section 101, that through any fraud or error at the time of making the partition the assets of the lands assigned to any separate estate were not in proportion to the amount of land-revenue for which such estate was made liable, or that the amount of land-revenue assessed on any separate estate was not in proportion to the assets of the lands assigned to such estate,

(Estates Partition Act.—Chapter XI.—Miscellaneous.—Sections 103—105.)

the Lieutenant-Governor may order a new allotment of the land-revenue upon the separate estates in accordance with the principles prescribed in this Act, on an estimate of the assets of each such estate as they stood at the time of the partition, such estimate being made on such evidence and information as may be procurable.

Power to require proprietors of under-assessed estates to make refund to proprietors of over-assessed estates.

103. (*1*) Whenever the Lieutenant-Governor passes an order under section 102 for the re-allotment of the land-revenue on any separate estate, he may direct that the proprietors whose estates are found to have been under-assessed shall, for each year during which they have held possession of the separate estates, be required to pay, to the recorded proprietors of the estates which have been over-assessed, a sum equal to the annual amount in which the latter are found to have been over-assessed; and in default of payment such sum shall be recoverable as provided in section 108.

(*2*) No order passed by the Lieutenant-Governor under sub-section (*1*) shall be liable to be contested in any Court.

Publication of notifications.

104. Every notification required by this Act to be published shall, unless it is otherwise specially directed, be published by posting up copies of the same—

(*a*) at the office of the Collector,

(*b*) at the office of the Deputy Collector who is to make, is making or has made the partition,

(*c*) at the village office or village offices, if any, of the proprietors of the parent estate, and

(*d*) in one or more of the principal villages in the said estate.

Service of notices.

105. (*1*) Any notice required by this Act to be served on any person may be served—

(*a*) by delivering the notice to the person to whom it is directed, or, on failure to effect such delivery, by posting it on some conspicuous part of the house in which the said person usually resides; or

(*b*) by sending a registered letter, containing the notice, to such person, directed to the address, if any, which he has registered under this Act; or

(*c*) by delivering the notice to a general agent of the person to whom it is directed, or to any person who has been appointed in that behalf, or who has been appointed an agent of the person to whom the notice is directed for the general purposes of any partition under this Act; or

(*d*) by affixing a copy of the notice at the village office of the person to whom the notice is directed;

or, if no such village office be found, and if the notice cannot be served in any of the other modes mentioned in this section, by affixing a copy of the notice on some conspicuous place on the estate to which the notice relates.

(*2*) Where two or more persons are joint applicants for the separation of an estate to be held by them jointly as a separate estate, the service of a notice, in any of the modes mentioned in sub-section (*1*), on any one of such joint applicants shall be deemed to be good and sufficient service on both or all of them.

(Estates Partition Act.—Chapter XI.—Miscellaneous.—Sections 106—110.)

Mistakes and irregularities not to vitiate proceedings.

106. If the directions of this Act are in substance and effect complied with, no proceedings thereunder shall be affected—

(*a*) by reason of any mistake or informality unless any person has suffered, or is in danger of suffering material injury in consequence of such mistake or informality; or

(*b*) by reason of the omission to publish any notification required by this Act, or to serve any notice on any person whose name is not recorded on the Collector's registers as proprietor of the estate in respect of which the notice is required by this Act to be served.

Fine in case of non-compliance with requisition.

107. If any proprietor or other person fails to comply, within the time fixed therefor by notice, with any requisition made upon him under this Act by the Collector or Deputy Collector, the Collector or Deputy Collector, as the case may be, may impose upon him such daily fine as he may think fit, not exceeding fifty rupees;

and such fine shall be payable daily until the requisition is complied with;

and the Collector or Deputy Collector, as the case may be, may proceed from time to time to levy the amount which has become due in respect of any such fine:

Provided that, whenever the amount payable exceeds five hundred rupees, the Collector shall report the case specially to the Commissioner, and no further levy in respect of the fine shall be made otherwise than by the authority of the Commissioner.

Fees, &c., to be recoverable as public demands.

108. Except as herein otherwise expressly provided, all fees, fines, costs and other sums ordered under this Act to be paid by any person shall be deemed to be public demands, and shall be recoverable under the Public Demands Recovery Act, 1895. Ben. I of 1895.

Powers and functions of Deputy Collector may be exercised by Collector.

109. All or any powers and functions which are assigned by this Act to a Deputy Collector may be exercised and discharged by the Collector;

and whenever it is provided by this Act that any act done or order made by a Deputy Collector shall require the sanction of the Collector, or shall be appealable to the Collector, then if such act has been done, or such order has been made, by the Collector, it shall be deemed to have been sanctioned by the Collector or to have been confirmed by the Collector in appeal, as the case may be.

Power to vest Collector or Deputy Collector with settlement powers.

110. (*1*) The Lieutenant-Governor may vest any Collector or Deputy Collector with all or any of the powers which, under the provisions of any law for the time being in force, might be exercised by them respectively, or might be conferred on them respectively, if they were making a settlement of a parent estate.

(*2*) Such powers may be conferred either generally in respect of all estates in the partition of which the Collector or Deputy Collector may at any time and in any district be engaged, or specially in respect of any particular estate.

(Estates Partition Act.—Chapter XI.—Miscellaneous.—Sections 111, 112.)

Appeals to the Collector, and admission by him of objections.

111. (*1*) An appeal, if presented within one month from the date of the order appealed against, shall lie to the Collector against every order of a Deputy Collector—

(*a*) directing, under section 39, by whom or how the costs of an enquiry held in consequence of an objection raised shall be paid;

(*b*) made under section 47, sub-section (*3*), declaring what entry in a record of existing rents and other assets of land shall be accepted for the purposes of the partition;

(*c*) made under section 50, adopting a record of existing rents and other assets of land;

(*d*) refusing, under section 51, to allow recorded proprietors to make a partition privately among themselves or by arbitration;

(*e*) rejecting, under section 76, sub-section (*3*), an application for partition according to separate possession;

(*f*) directing, under section 81, sub-section (*3*), that a tenure or holding be split up, and that the rent thereof be apportioned; or

(*g*) imposing a fine under section 107.

(*2*) Objections to any other orders passed by the Deputy Collector shall only be admitted by the Collector if made when he proceeds to consider a partition under section 58.

Appeals to the Commissioner, and admission by him of objections.

112. (*1*) An appeal, if presented to the Commissioner, or to the Collector for transmission to the Commissioner, within one month from the date of the order appealed against, shall lie to the Commissioner against every order of a Collector (whether such order be passed by the Collector in the first instance or in appeal from the order of a Deputy Collector)—

(*a*) rejecting an application for the partition of an estate, or for the separation of a share, or putting an end to proceedings for effecting a partition or separation after the application has been admitted;

(*b*) directing, under section 29, that an application for partition or separation be admitted;

(*c*) directing, under section 38, that any proprietor shall pay more than his proportionate share of the cost of a partition;

(*d*) made under section 50, adopting a record of existing rents and other assets of land;

(*e*) refusing, under section 55, to approve a partition made by proprietors or by an arbitrator or arbitrators;

(*f*) refusing to allow a partition to be made under section 76 in accordance with separate possession;

(*g*) directing, under section 83, that any sum exceeding five hundred rupees shall be levied from the proprietor of an estate not under partition;

(*h*) confirming, amending or rejecting, under section 86, an allotment made under section 84;

(*i*) made under section 88, when a dispute or doubt exists as to whether any land forms part of a parent estate;

(*j*) imposing or confirming the imposition of a fine under section 107; or

(*k*) imposing any fine amounting to more than fifty rupees, or directing the payment of any costs amounting to more than fifty rupees.

(Estates Partition Act.—Chapter XI.—Miscellaneous.—Sections 113, 114)

(2) Objections to any other orders passed by the Collector shall only be admitted by the Commissioner if made when he proceeds to consider a partition under section 90 or section 91.

Appeals to the Board.

113. An appeal, if presented to the Board, or to the Commissioner for transmission to the Board, within six weeks from the date of the order appealed against, shall lie to the Board against every order of the Commissioner—

(*a*) confirming, modifying or reversing any order of the Collector rejecting an application for the partition of an estate, or putting an end to proceedings for effecting a partition after the application has been admitted;

(*b*) confirming, modifying or reversing any order of the Collector directing, under section 29, that an application for partition be admitted;

(*c*) confirming or amending a partition as approved or made by the Collector; or

(*d*) imposing, or confirming the imposition of, any fine amounting to five hundred rupees, or ordering, or confirming an order directing, the payment of any costs amounting to more than five hundred rupees.

Limitation of appeals; revision by Board; further appeal to Board.

114. (*1*) Except in the cases mentioned in section 113, when an order of a Collector, whether passed by him in the first instance or in appeal from the order of a Deputy Collector, is upheld by the Commissioner, no further appeal shall lie; but the Board, acting either on the application of the party aggrieved or of their own motion, may call for the record of the case and pass such order as they think fit.

(*2*) When an order of a Collector, whether passed by him in the first instance or in appeal from the order of a Deputy Collector, is modified or reversed by the Commissioner, a further appeal shall lie to the Board in the following cases only, namely, when the order of the Collector was one—

(*a*) directing, under section 38, that any proprietor shall pay more than his proportionate share of the cost of a partition, when the excess which he is ordered to pay exceeds five hundred rupees;

(*b*) made under section 50, adopting a record of existing rents and other assets of land;

(*c*) directing, under section 85, that any sum exceeding five hundred rupees shall be levied from the proprietor of an estate not under partition; or

(*d*) confirming, amending or rejecting, under section 86, an allotment made under section 84.

(Estates Partition Act.—Chapter XI.—Miscellaneous.—Sections 115—119.)

Stay of proceedings pending appeal or revision.

115. When an appeal is presented under section 111, section 112 or section 113, or when the Board calls, under section 114, sub-section (*1*), for the record of a case, the proceedings shall not be stayed pending the appeal or revision unless the appellate or revising authority so directs.

Revision of proceedings connected with giving possession.

116. (*1*) Any proceedings of a Deputy Collector, Collector or Commissioner connected with giving possession to the proprietors of their respective separate estates in pursuance of section 94 may be set aside or amended by the Collector, Commissioner or Board, as the case may be, provided that the revising authority shall, within three months from the date on which such possession has been given, make an order to the effect that such proceedings are under its consideration.

(*2*) Every such order shall, when made by the Commissioner or the Board, be communicated to the Collector of the district, and the Collector shall cause all such orders to be published by notification.

Orders as to costs on appeal.

117. The Collector, the Commissioner and the Board respectively may pass such orders as they think fit in respect of the payment of the costs of any appeal which is made to them respectively under this Act.

Powers of officers exercising jurisdiction under this Act with regard to false evidence or forgery.

118. If, in any case in which a Collector or other officer exercises jurisdiction under this Act, any person is guilty of the offence of giving or fabricating false evidence, or of forgery, as defined in the Indian Penal Code, or of abetting any of those offences, such Collector or other officer shall have the same powers in respect of such offence, and of the person charged with committing the same, as are vested by the Code of Criminal Procedure, 1882, in a Civil Court when any such offence is committed before or against such Court, or when a document believed to be a forgery is given in evidence in any proceedings in such Court.

XLV of 1860

X of 1882.

Certain orders under this Act not liable to be contested or set aside by civil suit.

119. No order—

(*a*) refusing to admit an application for partition, or to carry out a partition, on any of the grounds mentioned in section 11; or

(*b*) made under section 20, section 30, Chapter V, Chapter VII, Chapter VIII, Chapter IX (except section 81), Chapter X, section 107 or section 117,

shall be liable to be contested or set aside by suit in any Court, or by any means other than those expressly provided in this Act:

Provided that—

(*i*) any person claiming a greater interest in lands which were held in common tenancy between two or more estates than has been allotted to him by an order under section 84 or section 86; or

(*ii*) any person who is aggrieved by an order made under section 88,

may bring a suit in a Court of competent jurisdiction to modify or set aside such order.

(Estates Partition Act.—Chapter XI.—Miscellaneous.—Sections 120, 121.)

Board to be guided by orders or instructions of Lieutenant-Governor

120. In the execution of the duties imposed on the Board by this Act, the Board shall be guided by such orders or instructions as they may from time to time receive from the Lieutenant-Governor.

Power of Board to make rules.

121. The Board may from time to time, with the previous sanction of the Lieutenant-Governor, make rules,—

(*a*) prescribing, in pursuance of section 18, clause (*g*), particulars to be contained in applications for partition;

(*b*) for regulating the appointment of persons under section 35 and the scale of their remuneration, and for enabling an officer making a partition to keep himself informed of the proceedings of such persons and to exercise a proper control over them;

(*c*) for determining the costs of partitions;

(*d*) for fixing, for the purposes of section 37, the instalments in which and the times at which the cost of making partitions shall be levied from proprietors;

(*e*) for fixing a general scale of fees for the levy of charges from proprietors of estates under partition, when the formation of an Estates Partition Fund has been directed under section 42;

(*f*) for fixing the instalments in which and the times at which the said fees shall be levied from proprietors;

(*g*) generally, for regulating the receipts, disbursements and management of any Estates Partition Fund formed under the said section 42;

(*h*) prescribing what entries in the record of existing rents and other assets shall be read out and, when necessary, corrected or added to, under section 47, sub-section (*2*);

(*i*) prescribing the manner in which and the period for which copies of survey papers and records of existing rents and other assets shall be published under section 48;

(*j*) prescribing the entries in survey papers or records of existing rents and other assets of which copies shall be furnished to landlords and tenants under the said section 48;

(*k*) prescribing the form of partition papers to be delivered under section 53 or prepared under section 57; and

(*l*) generally, for the guidance of officers in conducting partitions or making a survey and preparing a record of existing rents and other assets of land under this Act.

KOREA, EAST COAST—(1) YOKUCHI DO—(2) CAPE BOLTIN—(3) TIZENKO BAY.

(1) Sunken rock northward of Yokuchi Do.

THE British Admiralty has given notice (No. 691 of 1897) that information has been received, dated 24th September 1897, of the existence of a sunken rock, with a depth of 4 feet on it, situated in a position with Tobi Do summit bearing N. 88° W., distant 6 miles; and Ord island summit N. 4° W.

Approximate position, lat. 34° 42′ 15″ N., long. 128° 18′ 45″ E.

(2) Rock westward of Cape Boltin.

Also of the existence of a white rock, situated in a position with cape Boltin bearing E. ½ N., distant 6½ miles; and south-eastern extreme of the south-eastern Arefiev islands S.S.W.

Approximate position on Chart No. 1316, lat. 40° 48′ 45″ N., long. 129° 35′ 30″ E.

(3) Sunken rock south-eastward of Tizenko bay.

Also, of the existence of a sunken rock, on which the sea breaks, situated eastward of the point separating Tizenko and Stepanof bays, in a position with east extreme of Ninue island, bearing N. by W. ½ W., distant nearly one mile; and south-east extreme of Mojaiska point N.E. by E. ½ E.

Approximate position, lat. 41° 55′ 55″ N., long. 129° 59′ 40″ E.

Sunken rocks north-eastward of Tanna Keke island.

THE British Admiralty has given notice (No. 651 of 1897) of the existence of the undermentioned rocks north-eastward of Tanna Keke island:—

1. A rocky patch, about 3 cables in diameter, with a depth of 2 fathoms on it, in a position with Sandraboni southern house bearing E. $\frac{1}{8}$ N., distant $2\frac{8}{10}$ miles; and Mangandarie northern house N. $\frac{1}{4}$ E.

   Approximate position on Chart No. 1293, lat. 5° 26′ 45″ S., long. 119° 20′ 5″ E.

2. A rocky patch, with a depth of 3 fathoms on it, in a position bearing W. by N. $\frac{3}{4}$ N. distant $3\frac{8}{10}$ cables, from rock (1).

   The white, *nun* buoy, previously moored about half a mile north-westward of rock (2), has been moved to the western side of that rock.

   A danger line has been drawn on the chart to include both the above rocks within it

Particulars of Cheribon light-vessel.

WITH reference to Notice to Mariners No. 205, dated the 28th October, issued by this office, the British Admiralty has given further notice (No. 652 of 1897) that on 15th September 1897, Cheribon light-vessel was moored eastward of Tanah reef, Cheribon bank.

Cheribon light-vessel shows an *occulting* light with a period of *twenty-five seconds*, thus:—light *fifteen seconds;* eclipse, *ten seconds;* elevated 33 feet above the sea, and visible in clear weather from a distance of 9 miles.

The light-vessel is painted red, with the word *Cheribon* in white letters on each side; and iron frame-work support, 29 feet high, carrying the light apparatus and a bell, stands amidships.

The light-vessel is moored in a depth of $5\frac{3}{4}$ fathoms at low water, in a position with Tanah point bearing W. $\frac{5}{8}$ N., distant $10\frac{3}{4}$ miles; and Bangka point S. $\frac{5}{8}$ W.

Approximate position, lat. 6° 29′ 50″ S., long. 108° 42′ 50″ E.

Also, that the northern white *nun* buoy, previously moored at the north-east edge of Tanah reef, has been withdrawn.

Shoals off Lowrie island (No. VIII, Claremont).

THE Portmaster, Brisbane, has given notice (No. 19 of 1897) that Lieutenant Glennie, R.N, commanding H. M. surveying ship *Dart*, reports the existence of small coral patches in he following approximate positions, viz:—

From a coral patch with a minimum depth of $5\frac{1}{2}$ fathoms at L.W.S. over it, the—
Centre of Binstead Island bears N. 62° 30′ W., distant $3\frac{9}{10}$ miles;
Centre of Lowrie Island bears S. 47° W., distant $2\frac{3}{10}$ miles;
Bow Reef Beacon bears S. 42° 45′ E., distant $4\frac{3}{10}$ miles.

It lies directly on the track recommended and is of small extent.

A coral patch of small extent, with a minimum depth of 8 fathoms at L.W.S., was found to lie N. by E., distant $5\frac{1}{2}$ cables from the above.

From a coral patch with a minimum depth of $4\frac{1}{2}$ fathoms at L.W.S., the—
Centre of Binstead Island bears N. 43° 45′ W., distant $5\frac{34}{100}$ miles;
Centre of Lowrie Island bears N. 75° W., distant $1\frac{85}{100}$ miles;
Summit of Cape Sidmouth bears S. 9° 30′ W., distant $7\frac{85}{100}$ miles.

This shoal is of very small extent, and has 9 fathoms close to it.

Non-existence of shoal southward of Ras al Ara.

WITH reference to Notice to Mariners No. 12, dated 1st JANUARY 1897, issued by this Office on the report of the German steam-vessel *Sophie Rickmers* having touched on soft bottom, in a position with Ras al Ara bearing N. ¾ E, distant about 8 miles; or approximately in lat. 12° 30′ N., long. 43° 54½′ E.:—

The British Admiralty has given further notice (No. 627 of 1897), that the locality has since been closely examined by H.M. Ships *Marathan* and *Redbreast*, with the result that fairly regular soundings of 16 to 20 fathoms were found near the above position, with no indication of a shoal.

The 3 fathoms, shown in that position, has consequently been expunged from the chart.

NOTE.—Although the soundings obtained prove that the shoal ground of Rasal Ara has not extended to the southward, they do show an extension to the westward, there being a depth of one fathom, with 9 to 11 fathoms close south-westward, in a position with Ras al Ara bearing N. ¼ W., distant nearly 3½ miles; or approximately in lat. 12° 34¾′ N. long. 43° 55′ E.

Amended particulars of Khandala shoal.

THE British Admiralty has given notice (No. 644 of 1897) that the locality of Khandalla shoal has recently been examined by Lieutenant and Commander W. V. Howard, H.M. Surveying Vessel *Dart*, with the result that two shoals have been found in the vicinity, now named Khandalla shoals, of which the particulars are as follows:—

The positions are given as on Chart No. 2921:—

1. A shoal, about two cables long north and south and one cable broad, with a least depth of 13 feet, coral bottom, on it, and depths of 8 to 9 fathoms, mud bottom, close around; situated in a position with Heath rock beacon bearing S. 10° W., distant nearly 2¼ miles; and Cone peak (about 2,000) N. 75° W.

Approximate position, lat. 13° 25′ 55″ S., long. 143° 40′ 20″ E.

2. A shoal, about 2 cables long north and south and one cable broad, with a least depth of 18 feet, coral bottom, on it, and 9 to 10 fathoms, mud bottom, close around; situated N. 27° W., distant about half a mile from shoal (1), or in a position with Heath rock beacon bearing S. 4° W., distant 2¾ miles; and Cone peak N. 77° W.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE PATNA DIVISION FOR THE YEAR 1896-97.

GENERAL DEPARTMENT—MISCELLANEOUS.

Calcutta, the 11th December 1897.

RESOLUTION—No. 3694.

READ—

The Annual General Administration Report of the Patna Division for 1896-97.

THE Commissioner's report was not received till the 13th August 1897, forty-two days after it was due to Government. The delay was unavoidable and due to the extra strain upon the District Officers on account of the famine.

Mr. Bourdillon, by whom the present report is submitted, was in charge throughout the year. In four out of seven districts there was no change of District Magistrate, and in three districts not even of Subdivisional Officers.

2. *Tours and Inspections.*—The Commissioner was 105 days on tour, his regular programme being much interfered with by the exigencies of famine

work. Of the District Officers, the Collector of Muzaffarpur (Mr. Hare) was unable to spend more than 66 days on tour, owing to the necessity of organising famine work at head-quarters, while among Subdivisional Officers, the tour of Mr. Beachcroft (Samastipur) extended to 73 days only, of which no explanation has been furnished.

The tours of District and Subdivisional Officers generally were adequate. In most districts, however, the requirements of famine work prevented any organised tour programme.

3. *Weather and Crops.*—Throughout the Division the rainfall was both insufficient and ill-distributed. The rains commenced late, and the excessive falls in the beginning of July and middle of August, notably in Muzaffarpur, damaged the *bhadoi* crop by floods; these alternated with long periods of drought, which withered the rice seedlings and newly transplanted rice. After the middle of September there was no rain until the end of November, when the fall was heavy in South Bihar only. Fortunately the cold-weather rains were favourable, and throughout February and March there were several substantial showers which greatly improved the *rabi* crop, of which, however, the area sown was below the average. The outturn of all crops suffered greatly and the loss was the more felt, in that the previous year's crops also had been deficient. Speaking generally, the Commissioner estimates the deficiency in each district as a whole on the normal harvests of the year at one-sixth in Patna and Gaya, one-fourth in Shahabad, in Saran one-third, Muzaffarpur two-fifths, and Champaran and Darbhanga one-half, but in the distressed areas the loss was even greater. In the distressed districts the outturn of the winter rice is estimated at from 1¼ to 5 annas of an average crop. The poppy crop was below the average, and the indigo season was only to some extent saved by the unusually good produce from the second cuttings.

4. *Public Health.*—The year was more unhealthy than its predecessor, and the rate of mortality for the Division rose from 30·46 to 38·5 *per mille*. Cholera and fever in the early months of the year caused a large mortality, especially in Muzaffarpur and Darbhanga. Some of the increase is attributed to better reporting in Patna, Gaya, and Saran, where special efforts were made to secure more accurate registration, but elsewhere it was due to excess of unhealthiness. The increased mortality of the year under review was not due to famine, for in consequence of the exceptionally dry autumn the death-rate in the last three months of the year, when alone increased death-rate from famine could have shown itself, was everywhere unusually low, in spite of the prevailing high prices and scarcity. The death-rate was in fact lower than the normal rate during the period of famine from December 1896 to October 1897.

5. *Material condition of the people.*—The scarcity which made itself acutely felt towards the end of the year greatly affected the material condition of the poor classes, though the high prices enabled such as had their crops unmortgaged to realise a larger profit on any surplus produce they had for sale. The Commissioner is of opinion that the famine relief operations have established the facts that about 3 per cent. of the population are habitually on the verge of starvation, or rather would be were it not for the intervention of private charity, and that much more grain is stored by the agricultural population than is usually supposed. At the same time the Commissioner points out that the poorer townsfolk, and the poor of the better classes everywhere, have been able to withstand the prevailing scarcity with very little outside assistance.

6. *Emigration and Immigration.*—The number of emigrants to the Colonies and the tea districts did not differ materially from that in the previous year, being 1,997 and 834 as against 1,961 and 865, respectively. With regard to the question raised in last year's Resolution as to the reason why emigration from the North-West Provinces and the Central Provinces should be so much greater than from Bihar, where the population is denser and poorer, the Commissioner offers various possible explanations, of which the most likely are the preference of local agents for coolies of the North-Western Provinces on account of their superior physique, the employment offered by the Indigo industry to such classes as would otherwise emigrate, the annual rice-cutting in the Terai and Lower Bengal, and the well-known dislike on the part of the people of Bihar to leave their homes.

7. *Prices of food and labour.*—Prices which were normal for the first five months of the year began to show the effects of the unfavourable crop prospects early in September, when a continued rise took the place of the fall which usually ensues as the *bhadoi* crops come upon the market. When the loss of the winter rice appeared certain, prices rose suddenly. After the subsidence, however, of the first panic, they remained steady until the close of the year, although from 80 to 100 per cent. above what they were at its commencement. Wages showed no corresponding increase, though the custom of payment in kind mitigated the pressure of the high prices for a large proportion of the agricultural labourers.

8. *Trade and Statistics.*—The effect of the prevailing scarcity upon the trade of the Division generally, and that in food-grains in particular, has been clearly analysed by the Commissioner.

Imports increased by 4·7 per cent. and exports by 45 4 per cent. The important part played by food-grains in this result is shown by the fact that whereas in 1895-96 such produce constituted 35·85 and 50·46 per cent. of the total exports and imports, respectively, the corresponding proportions in 1896-97 were 48·78 and 76·11 per cent. During the first-half of the year there were large exports of food-grains, mostly westwards, which converted a net excess of imports over exports of 1¼ lakhs of maunds in the same period of the previous year into a net excess of 14¼ lakhs of maunds exported. During the second-half of the year, when it became clear that the crops in Bihar would be a failure, there was a net excess of 6⅔ lakhs of maunds imported, as compared with a net excess of 7¼ lakhs of maunds exported during the corresponding six months of the preceding year. The import trade in food-grains from Calcutta during the year rose from 292 maunds in 1895-96 to 6,35,178 maunds and continued to increase greatly from the end of the year till the termination of the famine. The Nepalese authorities prohibited exportation of food-grains to Bihar, but there is no doubt that they were, notwithstanding the prohibition, smuggled across the frontier in large quantities. The river-borne traffic between Bihar and the Nadia Rivers was almost entirely killed by the scarcity.

9. *Civil Justice.*—The total number of original civil suits disposed of by District and Subordinate Judges rose from 2,468 last year to 2,595 in the year under report. Those disposed of by Munsifs fell from 39,405 to 38,259. Rent suits disposed of by District and Subordinate Judges fell from 213 to 122 in 1896-97, and by Munsifs from 22,705 to 22,243.

10. *Crime.*—The number of cognizable offences reported fell from 31,166 in 1895 to 30,056, though, if offences against sanitation are excluded, they rose from 22,278 in the preceding year to 23,099. The number of non-cognizable offences reported was 18,157 as against 19,739 in 1895. The chief increase in cognizable cases was under the head of Offences against property, and the prevailing high prices of food-grains is suggested as a reason, though, as the Commissioner points out, this could only have operated towards the close of the year. In the four northern districts and in the portions of Shahabad where the scarcity was most severe there was a diminution in the number of cases of robbery, but an increase in the number of other offences against property.

11. *Criminal Justice.*—There were fewer witnesses examined than in the previous year, and there were more Magistrates sitting, yet the proportion of witnesses detained over two days to those examined was slightly worse—4·8 per cent. as against 4·5 in 1895. The proportion is particularly high in Patna Sadar subdivision (11·01) and Barh (18·13), both of which were unfavourably noticed in last year's Resolution. The percentage in Patna City which last year was very high (16·07) has fallen to 1·44. The percentage of A Forms remanded six times and over to the total number disposed of (6·4) was practically the same as in the previous year. The results are worse in Buxar (31·6), Patna Sadar (17·5) and Barh (18·43). The proportion of decisions upheld on appeal improved, being 80·4 per cent. as against 74·9 per cent. in the previous year. The percentage of Sessions cases ending in conviction remained practically the same (72·7). The Lieutenant-Governor notices with pleasure the excellent work done by Mr. Savage, Collector of Gaya, in introducing the Chaukidari Act (VI of 1870) and in inducing respectable and influential men to act as

members of the village panchayets. The Raja of Deo volunteered to take the post of collecting member of his village panchayet: his offer was accepted, and he has himself been doing the work.

12. *Registration of Documents.*—There has been a considerable increase in the number of documents registered during the year, especially of mortgage and sale, which is attributed to the prevailing scarcity. The total number registered was 156,233, an increase of 40,803 and 12,774 over the totals for 1895-96 and 1894-95, respectively.

13. *Land Revenue.*—The current demand of land revenue was Rs. 82,22,835 against Rs. 82,33,656 in 1895-96. The decrease was under the head of Estates held direct by Government. The percentage of total current collections on current demand was 96·9. In permanently-settled estates the collections fell below the standard of 99 per cent. in Shahabad (94·79), Saran (98·20), Muzaffarpur (97·68). These were the same three districts that failed to attain the standard last year. It is noticeable that in Shahabad from 19·6 to 22·6 per cent. of the permanently-settled estates in the district defaulted at the various kists, while at the two sales which were held during the year, only 1·4 and 1·3 per cent. of the defaulting estates were actually sold. The excessive leniency in the administration of the Sale law in this district, which was commented on in last year's Resolution, appears still to continue. Special leniency may have been required by the circumstances of the year under review, but the Lieutenant-Governor trusts that arrears will be realised with promptitude during the current year. In temporarily-settled estates and estates held direct by Government, the percentage of current collections on current demand was as follows:—

	Temporarily-settled estates.	Estates held direct by Government.
Standard	*95·* per cent.	*90·* per cent.
Patna	83·40 „	74·54 „
Gaya	87·95 „	71·44 „
Shahabad	87·27 „	57 77 „
Saran	90·47 „	74·23 „
Champaran	85·22 „	... ..
Muzaffarpur	83·79 „	14·56 „
Darbhanga	98·11 „	78 52 „

The results in temporarily-settled estates are generally better, and those in Government estates generally worse, than in the previous year. The short collections in Government estates have not been explained, but were doubtless due to the prevailing distress.

The total balances outstanding were reduced from Rs. 3,02,810 in 1895-96 to Rs. 2,93,662. On the whole the collections, notwithstanding the scarcity that prevailed during the latter end of the year, were remarkably good, being 96·1 per cent. on the total demand against 96·3 per cent. in the previous year and 99·3 on the current demand against 99·6 in that year.

The Sale law throughout the Division was administered with great moderation, only 4·3 per cent. of estates liable to sale being actually sold.

As the result of the scarcity during the year, Rs. 1,15,740 were advanced under the Land Improvement Loans Act, XIX of 1883, chiefly in Gaya; Rs. 1,42,062 under the Agriculturists' Loans Act, XII of 1884, chiefly in Champaran, Saran, Muzaffarpur and Shahabad; and Rs. 17,315, chiefly in Saran, under the modified rules issued with Government Notification No. 69Fam. of 5th January 1897.

14. *Wards' and Attached Estates.*—There were two estates taken in charge and three released during the year; while one estate released was again taken under control within the year. The most important estate which came newly under the Court of Wards was that of Hatwa in Saran.

The total rent and cess demand due to the 23 estates under the Court's charge amounted to Rs. 20,12,066 arrear and Rs. 17,27,523 current. As pointed out in last year's Resolution, therefore, the arrear demand is still in excess of the current demand, and it has not been reported what effect has been

given to the orders of Government for the classification and remission of arrear balances. Mr. Stevens hopes that due attention will be given to this subject during the present year. The percentage of total collections on total demand fell from 44·4 to 36·3 per cent. in the present year. Leniency had to be shown to the raiyats on account of the unfavourable harvests.

The total expenditure on improvements amounted to Rs. 1,46,576, including Rs. 57,910 on account of maintenance of buildings, &c., and Rs. 43,458 as survey and settlement charges. Of the 21 estates under management in both this and the preceding year, 14 show an increase and 7 a decrease in expenditure under this head. The most noticeable decrease is in the Tikari and Narhan Estates, where only Rs. 66,271 and Rs. 9,962 were spent as compared with Rs. 99,503 and Rs. 11,187 in the previous year.

The decrease has not been explained, neither has it been clearly stated what effect, if any, has been given to the orders contained in Government Resolution No. 895T R. of 9th October 1896 on the necessity for a larger expenditure on agricultural and sanitary improvements in solvent estates. The expenditure classified by the Commissioner as cost of improvement of land and property amounts to Rs. 31,388, or 1·8 per cent. only on the total current rental of Rs. 17,27,523.

15. *Excise, Stamps and Income-tax.*—The excise revenue, which has been steadily increasing during the last five years, received a check, and fell by more than a lakh of rupees from Rs. 27,38,250 in 1895-96 to Rs. 26,34,807. The largest decrease was under the head of Country spirit, chiefly in the Gaya district. The opium revenue increased by Rs. 4,180. The total revenue derived from stamps amounted to Rs. 22,56,010 against Rs. 21,37,468 in 1895-96. The increase was largest in court-fees and non-judicial impressed stamps. Prosecutions under the Stamp Act numbered 31 only against 142 in the previous year. This large decrease, notably in Saran, has not been explained. The income-tax demand slightly increased and collections improved, the standard of 95 per cent. being reached in all districts.

16. *Monetary arrangements.*—The expectation that the extensive circulation of Government copper coin during the famine relief operations would help to displace the Lohia and Gorakhpuri pice which circulate in the Division was not fulfilled, and the Commissioner is of opinion that the provisions of the Metal Tokens Act have had no perceptible effect.

17. *Railways and other Public Works.*—Land acquisition proceedings were in progress on the Moghalsarai-Gaya Railway, and the earthwork in the Gaya district of the South Bihar Railway was nearly completed. The construction of the line from Hajipur to Katihar *viâ* Begumsarai was started, and two new projects in the Champaran district surveyed for lines from Bettiah to Bagaha *viâ* Shikarpur and from Bairagnia to Shikarpur. Progress was made in the construction of the Segoulie-Raksaul lines, while in Darbhanga earthwork on the Sakri-Jainagar line was commenced during the year and has been almost completed since its close.

18. *Canal irrigation.*—There was a large increase in the area irrigated from the Sone Canals, which amounted to 522,143 acres, as compared with 369,727 in 1895-96. The collections amounted to Rs. 9,58,925, or 99·02 per cent. of the demand, against Rs. 6,69,045 in the previous year, and the results generally are, as the Commissioner remarks, extremely creditable to the Superintending Engineer, Mr. Buckley, and his subordinates, and to the Deputy Collector Maulvi Syed Nasir-ud-din. The area irrigated from the Madhubani Canal in the Champaran district increased similarly from 3,919 acres in 1895-96 to 11,251 acres.

19. *Communications.*—There was a decrease in expenditure of the District Boards in the Division under the head of "Public Works" of more than a lakh and-a-half, as many works provided for in the budgets had to give way to the claims of famine relief, but it is to be remembered that famine relief work in many instances took the form of earthwork on roads.

20. *Education.*—The total number of schools in the Division decreased from 6,591 in the previous year to 6,431, but the Lieutenant-Governor notices with pleasure that, notwithstanding a falling off in the number of pupils in some parts owing to scarcity, the aggregate number of pupils in the Division rose from

176,107 to 178,011. The proportion of boys attending school to those of a school-going age increased from 15·3 to 15·5 per cent., varying from 31·2 per cent. in Patna to 11·3 in Champaran. There was a decrease in the number both of girls' schools and of pupils. The expenditure by District Boards on account of primary education was somewhat less than in the preceding year, amounting to 9·7 per cent. of their total income as against 10·9 per cent. The proportion was lowest in Darbhanga (7·6) and Shahabad (8·8). The proportionate expenditure by Municipalities was 3·6 per cent., as in 1895-96.

21. *Dispensaries and Hospitals.*—Two new dispensaries were opened in the Division during the year, making a total of 61. Their aggregate income amounted to Rs. 1,87,748, of which 46·1 per cent. was derived from subscriptions: 3·8 per cent. of the population were treated as out-patients, the total number of out-door patients being less than in the preceding year, though on the other hand the number of in door patients increased.

22. *Local Self-Government Institutions.*—The municipal general election was held on 13th March 1897. The number of municipalities remained unaltered. The total receipts rose from Rs. 6,30,655 to Rs. 6,48,811, and the expenditure from Rs. 6,19,874 to Rs. 6,86,914, but the receipts include a loan of Rs. 40,000 taken by the Darbhanga Municipality, and the expenditure, an investment by the Patna Municipality of Rs. 50,000, the balance of a loan.

The want of a scheme for flushing the drains of Patna town has been seriously felt, and satisfactory experiments have been carried out with the view of obtaining the necessary water-supply. The Municipality of Arrah is still unable to supply its pressing wants of drainage and conservancy for want of funds. Owing to the incompetence of the Chapra Municipality, the condition of the town has become most insanitary, but it is hoped that there will be an improvement under the new Commissioners, who have elected the Magistrate as Chairman. The affairs of the Darbhanga Municipality are in extreme disorder which it will take time to remedy.

The Commissioner reports that the District and Local Boards worked smoothly. Their total income amounted to Rs. 16,73,820 as against Rs. 16,94,495 in 1895-96, but the expenditure rose from Rs. 16,80,144 in 1895-96 to Rs. 18,24,186. The increase is largest in the Darbhanga, Muzaffarpur and Saran districts, and is due to the expenditure on famine relief.

23. *Employment of Muhammadans.*—As in the previous year, the Muhammadans who number only 11·32 per cent. of the total population held more than that proportion of appointments of all classes The percentage of such appointments held by them was 30·9 against 31·3 in 1895-96. The decrease was accidental, and was in the class of menial appointments only.

24. *Post Offices and Telegraphs.*—There has been an increase of 77,127 in the number of money-orders paid in the Division and of nearly ten lakhs in amount. The increase, notably in Saran, Shahabad and Gaya, is attributed to the home remittances of absentees who had emigrated in larger numbers than usual on account of the scarcity.

25. *State of Public Feeling.*—Public attention throughout the season was concentrated on the prospects of the crops and the price of food. The Commissioner observes that, while ordinarily well-informed Native gentlemen appeared ignorant of the relief organisation beyond their immediate neighbourhood, the masses generally appreciated the efforts of Government on their behalf.

26. *Conduct of Zamindars.*—The Commissioner draws attention to the generally reported fact that the ordinary native zamindars of the Division during the time of scarcity did little for the benefit and protection of their raiyats. He adds, however, that as they paid their revenue and cesses with punctuality, most of them found it difficult to meet their obligations, and had little left for benevolence. A conspicuous exception was the Maharaja of Darbhanga, who has expended money most freely in importing grain, making advances and organizing both relief works and gratuitous relief. The Court of Wards, who assumed charge of the Hatwa Estate on the death of the Maharaja, also incurred large expenditure on relief. The Commissioner observes that the Indigo Planters have as a body shown great liberality to their tenants and have rendered much assistance to Government in the administration of relief.

27. *Famine Relief.*—The Commissioner has given an interesting summary of the famine relief operations conducted during the year. The Lieutenant-Governor has already placed on record his high appreciation of the manner in which the relief operations have been conducted in the Patna Division, and the Government of India have expressed their hearty concurrence in his opinion. As a separate final report will be submitted on the whole course of relief operations in the Province, and the bulk of relief operations did not come within the year under review, it is not necessary to deal with the matter here at greater length.

28. The thanks of the Lieutenant-Governor are due to Mr. Bourdillon for his able administration of the Division during a year of exceptional difficulty and for his clear and concise report from which extracts are published for general information. Mr. Stevens desires also to thank the Collectors and the other officials for the diligent and generally efficient discharge of their ordinary duties notwithstanding the heavy pressure of famine work.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,

Secretary to the Govt. of Bengal.

III.—WEATHER AND CROPS.

17. This was the one subject which, throughout the greater part of the year has occupied the careful attention of all Revenue officers in the Division. The following figures give the rainfall at each Sadar station month by month, as compared with the normal fall and the totals for 1895-96.

The figures really tell their own tale, and I need not treat the well-worn subject at great length. The cold weather rains of 1895-96 were very short, and, taking the Division as a whole, they averaged only 0·17 of an inch, instead of an inch and-a-half, so that the *rabi* was a poor crop.

18. In 1896-97 the rains were very late, not commencing till the last week of June, though there were light showers in May; the first burst was followed by very heavy rain early in July, and then by two long periods of drought, lasting till the middle of August and the middle of September, respectively; after the latter date no rain fell till the time of the Sonepur camp (November 22nd) when there was a fall, which was heavy only in South Bihar and along the north bank of the Ganges. During the cold weather scattered showers fell from time to time, and there were substantial falls in Christmas week, on the 10th, 11th and 12th of February, on the 22nd, 23rd and 24th

March, and again on the 28th and 30th of the same month. This rain was of inestimable value in encouraging the raiyats, in refreshing the *rabi*, and in enabling catch crops to be grown such as *alua* and *china*.

19. The effect of weather such as that just described, which was characterised by rainfall ill-distributed as well as insufficient, was to produce floods at first (especially in Muzaffarpur) which did a good deal of damage to the *bhadoi*: the long intervals of drought scorched much of what had escaped the floods, and left the rice seedlings to wither in the seed beds or in the fields where they had been transplanted. Over a large area there was no transplantation of rice at all, and the complete absence of the rains from the middle of September to the end of November, destroyed a large proportion of what had been transplanted. Moreover, there was not sufficient moisture for sowing the *rabi* on the uplands, and although much low land, ordinarily too wet for *rabi*, was sown, yet even so the usual area under this crop was much curtailed. Where the *rabi* had been sown, the frequent showers during the cold weather kept it alive, and the winter crops turned out much better than had been at first expected. The *rahar* and the mustard were exceptionally fine. The outturn of all three crops in each district for the year have been estimated as follows by the Director of Land Records, following the reports of district officers:—

District.	Bhadoi.	Aghani.	Rabi.
1	2	3	4
Patna ...	10	10½	11¾
Gaya ...	12	8	16
Shahabad ...	7	4	9
Saran ...	6	1¼	11½
Champaran ..	8	3½	11¾
Muzaffarpur ...	5½	3	12
Darbhanga ...	10¼	5	14½

20. As the proportion borne by each crop to the whole crops of the district varies a great deal from district to district, the above figures do not give a fair idea of the relative loss of the whole year's crops. Speaking very generally, however, it may be said that the deficiency in each district on the normal harvests of the year was much as follows:—Patna and Gaya one-sixth, Shahabad one-fourth, Saran one-third, Muzaffarpur two-fifths, and Champaran and Darbhanga one-half. The deficiency has been met partly by large importations, partly by the production of hoarded stocks, and partly by spontaneous abstinence and reduction in consumption.

21. For the poppy the year was not unfavourable. In Patna the crop was nearly up to the average: in Gaya it was a little less than in 1895-96, which was a very good year, but a good deal more than in 1894-95: in Shahabad the crop is returned as representing 14 annas: for Saran no estimate in annas is given by the Collector, but the produce was rather more than in the previous year, and much less than in 1894-95, probably a 10-anna crop: in Champaran the area sown was much smaller than usual, and the result very poor, only 2,361 maunds being produced against 4,025 in 1895-96 and 5,318 in 1894-95. The Collector of Muzaffarpur does not notice the subject, while the Collector of Darbhanga says that in his district the crop was up to a full average. On the whole, it may be said that the crop was not up to the average, owing to want of moisture at first, so that poppy grown on unirrigated lands came to little. In South Bihar, where the rainfall was better and well irrigation is largely practised, the crop was somewhat better than it was north of the Ganges.

The general statistical results for the Division are given in the following table:—

Season.	Estimated produce.	Actual outturn.	Payments to cultivators—				Remarks.

22. At one time it looked as if the season of 1896-97 would be an extra ordinarily bad one for indigo, but although the early drought prevented the satisfactory growth of the plant, yet the heavy rain early in July followed by brilliant sunshine completely altered the prospects of the crop and a fairly good outturn was secured especially in Champaran and Darbhanga. Second cuttings were in many cases better than the first cuttings.

V.—MATERIAL CONDITION OF THE PEOPLE.

28. In my report last year I stated that, in the absence of great calamities, there was little difference in the condition of the people from one year to another. This year the scarcity which has overtaken the Division has of course greatly reduced the material condition of the masses: the failure of food crops noticed in paragraph 19 above, and the rapid rise of prices since October last over the whole of Northern India, have necessarily fallen very heavily on so poor and so dense a population as that which inhabits the Patna Division, and large numbers of them have been driven to seek gratuitous relief, and to go on to relief works. On the 5th June 1897, when the numbers on relief of all kinds was at its highest, the total was 733,850, or 9·7 per cent., of the population of the affected area, but it need hardly be said that in so widespread a calamity the whole population suffer. On the other hand it must be remembered that for the comparatively few who have had good crops, especially the cultivators of South Bihar, the high prices at which their surplus produce was sold brought them substantial profits, unless indeed it was already hypothecated to the mahajans, as it undoubtedly was in many cases. The famine relief operations, however, seem to establish two main points in connection with the material condition of the people, which are these: *firstly*, that about 3 per cent. of the population are always on the verge of starvation, and *secondly*, that much more grain is stored by the agricultural population than is generally supposed. The first point is proved by the rapidity with which the figures for gratuitous relief mounted to a certain level as soon as the local organization for relief was complete, coupled with the fact that all who were in receipt of gratuitous relief were found by all observers to be in absolute need of it. The second point is established by the circumstance that though imports of grain have been large, they have been quite insufficient to make up the deficiency between the outturn of the present year, and that which the population, according to a very moderate calculation, require for their support: as, however, there have been few or no cases of death from starvation, it is clear that the greater part of the unexplained balance must have been in the hands of the people themselves and of the local grain-dealers and zamindars. Another point is the remarkable

manner in which the poorer classes of townsfolk, and the genteel poor everywhere, have managed to weather the storm with very little outside assistance.

VI.—EMIGRATION AND IMMIGRATION.

29. The following table shows the number of emigrants registered during the last two years in the several districts of this Division:—

30. The decrease in Patna is reported to be due to the Emigration Agent not requiring coolies for embarkation to the colonies, and to recruitment thus ceasing for a time. In Gaya the Magistrate says no exact statistics are available in regard to free emigration to the tea districts, but the enquiries which have been made indicate that, as compared with the preceding year, it was of small moment, the number so recruited being given as only 70, including 16 dependents, against 101 in the preceding year. The falling off may account for the increase in registered emigration. The increase in colonial emigration in Shahabad may be ascribed to impending scarcity and prices, and the decrease in inland emigration is partly due to the small number of garden sardars who worked in the district during the year. Of the 160 emigrants registered for the colonies in Saran, only 32 belonged to the Saran district, and the rest were from the North-Western Provinces and Oudh.

31. The number of coolies recruited from the North-Western Provinces and the Central Provinces is said to exceed those recruited from Bihar. My attention was drawn to this question in paragraph 6 of the Government Resolution on my last year's report, in which it was asked why the number of registered emigrants from Bihar is decreasing, and why it was that the great majority of emigrants who pass through Calcutta for the tea districts and the colonies are natives of the North-Western Provinces and of the Central Provinces, where the population is neither so dense nor so poor as in Bihar. It is difficult to assign any specific reason for the decrease in registered emigration from Bihar and for an increase from the North-Western Provinces and the Central Provinces; but from enquiries made by me it appears that the following are some of the reasons:—

(*a*) The local agents give preference to the people of the North-Western Provinces and the Central Provinces over the Biharis, as they are of better physique.

(*b*) Closer supervision is said to be kept over the coolie depôts in Bihar than in the other provinces.

(*c*) The indigo industry in North Bihar employs a larger number of the emigrating classes.

(*d*) An annual exodus from the three frontier districts to the Nipal Terai at the time of *dhan* cutting also gives employment to many, not to speak of the large numbers who go annually to Bengal for the cold weather from Saran, Muzaffarpur and Shahabad.

(*e*) In Bihar there are three harvests—the *aghani*, *bhadoi*, and *rabi*—and though the population is denser in Bihar, the proportion of land under cultivation is larger than in the North-Western Provinces.

(*f*) Much depends on custom and the relative characteristics of the people who, in Bihar, generally prefer work nearer home.

32. There was free emigration from the Jugdispur Estate in Shahabad, belonging to Messrs. Mylne & Co., to their grant in Burma.

33. There were no complaints during the year in regard to the system of recruiting. The coolie depôts in the different districts were regularly inspected. In Shahabad five depôts were summarily closed, as the District Magistrate found they did not comply with the rules laid down by Government as regards ventilation and space for the coolies. In an inland emigration depôt at Arrah there were two cases of cholera, but the patients were provided with medical treatment and recovered. The agent was, however, prosecuted for not reporting the outbreak of the disease, and was convicted and sentenced to pay a fine of Rs. 100, and the depôt was closed, as it was in a most insanitary condition. It is reported that on the whole the condition of the coolie depôts in the Division is satisfactory.

34. There is practically no immigration into this Division, but in this particular year there has been a good deal of wandering of hungry people in search of work or relief from the North-Western Provinces into Champaran and Sara

VII.—PRICES OF FOOD AND LABOUR.

35. This subject, which in most years is one of commonplace interest, has this year been invested with absorbing importance. Appendix III furnishes figures showing the prices of the common food-grains and salt at the end of the last three years, and a glance at that will show how wide the difference is between prices in March 1897 and those in the two previous years. I also give here a statement which shows the price of common rice, wheat and maize on the last Saturday of each month in the year.

36. The progress of events is very clearly marked in this table. The year opened with normal prices which rose slowly, as is always the case, up till about the end of August, when they usually fall gently again with the incoming of the *bhadoi* harvest. In 1896 there was no fall in September; on the contrary, owing to the considerable failure of the *bhadoi*, the rise continued: early in October, when the absence of the *hathiya* rains made the loss of the *aghani* rice a certainty, prices rose suddenly everywhere, partly because cultivators held on to their stocks, partly because brokers began buying largely for export to the North-Western Provinces, and partly because it was not exactly known what stocks were in the districts. In November there was in many cases a slight recovery, and since that time, thanks to the good prospects of the *rabi* and to large importations, the price of grain, though for the most part rising gently, has shown no sudden oscillations, and panic has not reappeared. Since the close of the year the same steadiness has prevailed, and I have no doubt that prices will rise gradually till the end of August, when, if a good *bhadoi* is reaped, they should grow easier, though there can hardly be a return to normal conditions till the *aghani* rice is cut in November. It will be observed that prices at the end of the year were from 80 to 100 per cent. above what they were at its commencement,—a fact which is eloquent of the distress caused to all who live on fixed incomes or on charity, or who are paid in cash for their labour.

37. The cash wages of labour show little signs of increase. The vast majority of labour in this Division, *i.e.*, almost all of an agricultural character, is paid in kind, and immemorial tradition has fixed the amount thereof, so that the high prices of grain hit less hard than might have been expected a considerable section of the population who either live on their stores or are paid wages in kind. The wages paid on relief works were based on the current prices of the commoner kinds of grain, so as to allow each person who did a fair day's work to earn enough to support life on some cheap, coarse grain. In Patna, and doubtless in other large towns, the coolies and daily labourers stood out for a small increase in wage to meet the increased cost of food, and for some months all of the worst paid Government servants, and most servants in private employ, have been receiving some kind of compensation for dearness of grain.

* * * * *

IX.—TRADE AND COMMERCE.

43. The statistics under this head for the year under review have been compiled in accordance with the instructions contained in Statistical Department circular No. 1 of the 20th April 1896. Orders have since been received (viz. Statistical Department circular No. 103 of the 22nd July 1897) requesting that the trade statistics of the Division may be compiled in the form used by the Commissioner of Burdwan in his Annual Report for 1895-96, but I regret to say that these orders arrived too late for effect to be given them this year; they

will be carried out when my next report is submitted. It is to be noted further that in all the statistics in this Chapter traffic between different districts in this Division has been eliminated. The result is that the totals represent the foreign trade of the Division as a whole, but the details for districts do not represent the total trade for each district, and therefore they will not tally with district trade statistics to be found elsewhere, and by so much they fail to show the real trade of each district.

44. A statement now given as No. XXXV in the appendix, in accordance with Government orders on my report of last year, shows the up and down import and export traffic in 24 chief articles of commerce, which has been recorded in the several districts of the Division as carried (1) by rail, (2) along the Nadia rivers, and (3) by canal during the year. They also include the trade with Calcutta, but not that with Nepal, which is shown separately below. In the similar statement in last year's report (paragraph 76) the figures for Calcutta trade were wrongly omitted; and in order to make comparison easy, I have corrected the error and have reproduced the total figures for 1895-96 at the end of the statement.

45. An abstract of this trade, district by district, is shown below in thousands of maunds:—

Total ...	1,01,49	7,19	32,32	39,23	1,0°,68	71,55	1,80,23

Taking the Division as a whole, its trade amounted during the year to 1,80,23,000 maunds, of which imports were 1,08,68,000 maunds and exports 71,55,000. Looking at these figures from another point of view, it appears that the dealings of the Division with the North-Western Provinces and the west of India (columns 3 and 4) are represented by 39,60,000 maunds and with Calcutta, Bengal, and the east (columns 2 and 5) by 1,40,63,000 maunds. Patna, as usual, shows the largest trade and Champaran the smallest.

46. The significance of these figures, however, is not fully apparent till they are placed beside those of the previous year. Such a comparison will show what the double effect of the scarcity has been on the trade of the Division, chiefly of course through the medium of food-grains. The statement in the margin shows how the totals of the two years compare together. It will be seen that the imports increased by 4,87,967 maunds, or 4·7 per cent., which was nearly all in the up traffic, *i.e.*, that from the east. Exports, on the other hand, though as before less than the imports increased in a much greater ratio to the extent of 22,34,947 maunds equivalent to 45·4 per cent. The increase is chiefly in the up exports *i.e.*, those going to the west, which more than doubled themselves. The net result of the year's trade is that in the Patna Division the surplus of imports was in 1896-97

less by 17,46,980 maunds than it was in 1895-96, but the volume of trade increased by 27,22,914 maunds.

47. How greatly these figures are due to the traffic in food-grains I now proceed to show. Turning first to total imports, we find that whereas in 1895-96 out of the total imports (1,03,81,080 maunds), only 52,38,972 maunds, or 50·46 per cent., were food-grains; in 1896-97 out of a total import of 1,08,69,047 maunds they account for as much as 82,73,222 maunds, or 76·11 per cent. Next, as to exports, in 1895-96 the total was 49,19,220 maunds, of which 17,63,644, or 35·85 per cent., were food-grains. In 1896-97 the exports increased to 71,54,167, maunds or by 45·43 per cent.; and of this amount 34,90,474 maunds were food-grains, equivalent to 48·78 per cent. of the whole. Further information on this subject is given by the statement below, which shows in what grains the greatest fluctuations occurred, and in what direction both imports and exports travelled:—

Statement comparing the Food-grain traffic in 1895-96 and 1896-97 (in thousands of maunds).

It is clear that in the year under notice there was an immense increase in exportation to the west, the traffic more than trebling itself, and this great advance occurred chiefly under the head of gram and pulses: exportation to Bengal, on the other hand, fell off. Obviously this represents large despatches to the North-Western Provinces before scarcity was anticipated or declared in Bihar. On the other hand, the imports did not increase in early so great a ratio, the main advance being in rice and paddy from the east, and in other food-grains, which comprise the small millets and the cheaper kinds of grain. The down imports, *i.e.*, those from the west, fell off greatly as was expected.

48. Into district figures I do not consider it necessary to go at any length, partly because this is a divisional report, partly because the review could not be complete since inter-district figures are not given in the foregoing tables, and partly because I am unable, for reasons stated above, to institute a comparison between the figures of 1896-97 and those of 1895-96 without wholly recompiling the district figures for the earlier year. I give, however, the following table, which shows the figures for some of the principal articles of commerce district by district:—

49. *Food-grains.*—As regards food-grains, it is only necessary to repeat that early in the year grain was largely exported, and that in the last three months of the year a great deal was imported for the North Bihar districts. In further proof of this fact, I give in the margin figures obtained from the Railway Companies, which show most graphically the movements of the grain trade during the four last half-years. To begin with, in the half-year ending with September 1895 the imports were a lakh and a quarter of maunds; in the corresponding period of 1896 the imports had ceased and the exports were 14¼ lakhs, the measure of the difference between the two periods being thus 16½ lakhs of maunds; so, again, in the second-half of the year 1895-96 ending with 31st March 1896, the Division showed an excess of exports amounting to 7¼ lakhs, whereas in the second half of the year 1896-97 these exports had all changed into imports, and the excess in favour of imports was now 6⅔ lakhs, the measure of difference being nearly 14 lakhs. It is quite clear that during the greater part of the 12 months from 1st October 1895 to 30th September 1896, grain was pouring out of the Division mostly no doubt to the westward; the excess of exports over imports being 21,54,653 maunds. Then when it became clear that the crops in Behar were a failure, the tide turned, and during the last half of the year under review, viz., October 1896 to March 1897, a great excess of imports has been received equal, as above stated, to 6⅔ lakhs of maunds. When the report for the current year 1897-98 comes to be written, it will be found that there has been an enormous excess of imports for the period October 1896 to October 1897.

50. Turning to district figures, the statement above shows that Patna almost throughout has been a great exporting district, much of its imported grain being received by boat and road, so that it escapes registration as it comes into the great central emporium. Saran has consistently imported more than it exported, as it always does, but the extent of its need may be judged by the following figures for net imports during the four successive half-years of the statement—65,190, 8,171, 29,840, and 7,47,688. In the other districts it will be noticed that though there is a great difference in the volume of the trade, the history of the traffic is the same, *i.e.*, considerable exports in the first half-year, a falling off in the second, a large rise in the third, and then a complete change to large imports in the fourth period.

51. *Other goods.*—In other branches of trade the traffic figures are not so remarkable. Taking imports first, there has been a larger increase under gunny-bags, probably for packing grain, in linseed, which seems to have been almost all exported again, and in unrefined sugar. On the other hand, there was a large decrease in the imports of mustard seed, unmanufactured tobacco, and coal and coke, while there was a smaller shrinkage under cotton piece-goods, salt and kerosine oil. Under exports there has been a large rise under linseed, the whole of the imported seed having apparently been exported with much more besides: in mustard seed there has been a heavy decline corresponding to some extent with the decline in imports; sugar has also greatly fallen off in spite of the increase in exports: tobacco has largely increased, a somewhat remarkable result, since it was feared that the trade with the North-Western Provinces would be seriously checked by the scarcity prevailing there. On the contrary, the exports to the west have gone from 1,29,916 maunds in 1895-96 to 2,21,177 maunds in 1896-97. Salt has been stationary, and coal and coke have fallen off by about one-third.

52. *River-borne traffic between Bihar and the Nadia rivers.*—This appears to have been entirely killed by the scarcity. In 1895-96 the imports by this route were 89,350 maunds, and the exports 3,80,466 maunds. For 1896-97 the figures are—imports 8,101 maunds and exports 2,102 maunds.

53. *Trade with Calcutta.*—The subjoined statements exhibit separately the statistics of export and import trade between Calcutta and the districts of this Division carried by all routes, rail, road, river and canal during the year 1896-97:—

In previous years the trade with Calcutta in food-grains was so insignificant that it was not inserted in these tables. In the past year this has been completely changed, and they are now given. The import trade in food-grains has already been discussed, and no further comment seems called for here.

54. *Trade with Nipal.*—The statistics of this trade are given in the marginal statement, which is abridged from that given in my last report by the omission of columns for trade with Sikkim and Bhutan, since no such trade is carried on with this Division. Taking the imports from Nipal first, it appears that the total is less than last year by 79,228 maunds, chiefly owing to a large falling off in paddy, and smaller declines under wheat, rice and other food-grains, while on the other hand there is an advance under gram and pulses, linseed, mustard seed, raw cotton, and unmanufactured tobacco. Taking food grains alone, the imports were 16,50,813 maunds in 1895-96 and 15,48,776 maunds in the year under review. The deficiency is attributable to the embargo which was placed by the Nepalese authorities at the end of the year on the exportation of grain, but the figures are far below the truth, for there has undoubtedly been a very large contraband importation of grain from Nipal all through the last quarter of the year.

* Omitting the figures for piece-goods.

55. In the matter of exports to Nipal, the figures as they stand are complicated by the fact that in 1895-96 the piece-goods traffic was shown by weight and this year by value. As it is by far the largest item in the schedule, the latter is robbed of a good deal of its interest. However, eliminating from both years the figures against articles 18 and 19, we get a total export traffic for 1895-96 of 2,61,462 maunds, and in 1896 97 of 2,65,881 maunds, thus showing a slight rise, which is most noticeable in salt, coal and coke, unrefined sugar and gram and pulses, while there has been a falling off under rice, paddy, other food-grains, raw cotton, umanufactured tobacco, and kerosine oil.

56. Nothing is said in the district reports especially worthy of notice, except by Mr. Macpherson, who has very carefully reviewed the trade of this district for the year; his remarks are unfortunately too long for quotation, but they will remain as a useful record for the use of future Collectors.

Magistrates may be stimulated to still greater effort than before by what has been done in Gaya. The number of villages under the old regulation to every 100 in each district of the Division, excluding Gaya and Saran, is given in the margin.

83. Much attention has been given during the year to the payment of the chaukidars under Act VI of 1870, and the statement below shows very satisfactory results, when it is remembered that the scarcity prevailing during the last quarter of the year 1896 vastly increased the difficulties of the panchayats: —

The similar statement given in paragraph 143 of my report of last year showed that out of all the Act VI chaukidars, 4·99 per cent. were in arrears for four months or more at the end of the year 1895: at the end of 1896 the percentage was only 2·59. In Patna the results are extremely creditable to the Magistrate and his police officers. Champaran, Saran, and Gaya come next with practically no long-standing arrears, and then Muzaffarpur and Darbhanga, while Shahabad shows much the worst results. What is known locally as the Saran system, introduced by me in that district in 1892 on Mr. Forbes' models, was in force in Gaya, Saran, and Champaran, and the results are most satisfactory. In Darbhanga the same system is in force without the prompt prosecution of defaulting punches, which is an essential part of the scheme. In Muzaffarpur the same system is in force with modifications, but in Shahabad, which shows far the worst results in the Division, a cumbrous modification of the Saran system has been followed, which, however, since the close of the year, has been abolished or greatly improved. In Patna there is a system of *baxis*.

STATE OF PUBLIC FEELING AND THE PUBLIC PRESS.

240. Since October last the one subject which has aroused and held the public interest everywhere is the price of food and the prospect of the crops. Little seems to be generally known of the operations of Government for the relief of famine, and I have been much surprised to notice how ignorant even well informed native gentleman are of what is going on except in their immediate neighbourhood; but there is no doubt that the masses have not been so generally interested for a long time. In October, when the prices fell suddenly owing to the operations of buyers for export to the North-Western Provinces and Central Provinces, there were petty grain riots at Arrah and Dinapore, and the public mind was a good deal stirred; but since that time there has been no ebullition. The most fantastic stories as to the intentions of Government have grown up on the relief works and around poor-houses from time to time, but these have been

rapidly forgotten without any evil results occurring, beyond sometimes a temporary stampede, and on the whole it is recognised that Government has made great efforts without which many lives would have been lost. It is remarkable as bearing out what I have said above that the local papers have hardly noticed the relief operations and the few native critics of our operations have been either local correspondents writing to native papers in Calcutta, or special correspondents sent up by them for the purpose.

241. At the beginning of the year there was a good deal of feeling among the educated classes in favour of a movement to petition for the separation of Bihar from Bengal, but this was crushed, for the time at any rate, by the Lieutenant-Governor's speech at Gaya. Few complaints are now heard against the settlement operations: certain misapprehensions on the subject were set right when the Lieutenant-Governor was at Muzaffarpur in July 1896.

242. The papers locally published are almost, without exception, the same as before, Patna taking the lead with the *Bihar Times* which purports, to represent the conservative and patriotic Bihari elements, and the *Bihar Herald*, which is the organ of the Bengali-Biharies, as well as of the landholding classes. This unusual combination of interests is due to the position and circumstances of the editor. The Hindi, as well as the Bengali, version of the *Bangabashi* is a good deal read.

XXXVII.—FAMINE RELIEF.

247. As a full report will be separately submitted to Government at the end of the relief operations, I consider it unnecessary here to do more than give a very brief sketch of the history of the scarcity during the year and of the measures taken to combat it, although as a fact these matters absorbed the greater part of the time and attention of myself and all the officers of North Bihar and Shahabad for the last six months of the year.

In paragraphs 17 to 20 above I have already described the unfavourable weather and the want of rain which brought about a serious failure, first of the *bhadoi* and then of the *aghani* crop, and which greatly jeopardised the *rabi*. Providentially frequent showers throughout the last three months of the year under report saved the latter, and the crop turned out much better than was at first expected. Matters began to look serious early in September, and when the second half of that month and the whole of October passed without rain, it was manifest that the rice crop was doomed, and that the prospects of the *rabi* were seriously endangered. At the end of September and in the first week of October there was a sharp rise in prices, which created a good deal of panic and some local disturbances at Arrah and Dinapore. On the 8th and 23rd October I found it necessary to forward to Government two letters announcing the very critical condition of the crops, and on the 11th November, as prospects had not improved in the meantime, I submitted my preliminary report under section 9 of the Famine Code, and it was officially declared that scarcity was present. From that time up till the date of this report half-monthly reports have been regularly laid before Government, and they will continue to be submitted till October. These reports and those of the District Officers embody a complete narrative of events as they occurred, and may be referred to for further particulars.

248. On the 20th November all the District Officers in Bihar, the principal officers of the Public Works Department, and many of the leading non-officials were summoned to a conference at Sonepore, which was presided over by the Lieutenant-Governor, who travelled from Calcutta for the purpose. He subsequently made a second tour in March, visiting the works in the districts of Champaran and Darbhanga, and holding a second conference at the latter station on the 5th February 1897.

Excluding offences against sanitation, the figures stand thus:—

	1895.	1896.	Variation.
Cognizable	22,278	23,099	+821
Non-cognizable	19,739	18,157	1,582
Total ...	42,017	41,256	761

These figures indicate (*a*) a general decrease in the number of reported offences during the year under report, (*b*) the decrease being noticeable in non-cognizable offences both including and excluding offences against sanitation, and (*c*) that cognizable crime (reported) shows a satisfactory diminution, but if the sanitary offences are excluded, the total exhibits an increase. This increase is shared more or less by all the districts north of the Ganges, while the three South Gangetic districts show a falling off. It is suggested by some officers that the increase is due to the prevailing high prices of food-grains, but this cause can only have operated during the last 4 or 5 months.

72. The table below shows the classification of cognizable crime for the past two years in the Division as a whole, from which it will be seen that the increase noticed above occurs chiefly in offences against property:—

Class of offence.	1895.	1896.	Variation.
1	2	3	4
Offences against property	18,118	19,218	+1,100
Ditto person	1,201	1,272	+71
Ditto public tranquillity ...	541	530	−11
Other offences (excluding public nuisance cases.)	2,418	2,079	−339
Total ...	22,278	23,099	+821

73. The percentage of cases declared false to the total number of cases instituted during the year was 4·6, against 5·4 in the previous year. The number of cases in which prosecutions were instituted was 108 or 7·7 per cent. of the total number of cases declared false, as compared to 116, or 8·3 per cent. in the preceding year; 37 cases ended in conviction. Compensation was awarded under section 560, Criminal Procedure Code, in 103 other cases; this is a ridiculously small number, and it is much to be regretted that more use is not made of this section.

74. It is satisfactory to observe that the general percentage of house-breaking cases not enquired into during the year shows a diminution as compared with the previous four years, viz., 19·8 as against 31·6, 31·1, 41 and 53·5 respectively. In this respect Shahabad shows the best result, only 5·6 per cent. of the cases in this district not having been enquired into; Champaran and next to it Saran exhibit what I consider the poorest result in this direction, 34·9 and 30·3 per cent. respectively having been refused enquiry. On the whole the result shows considerable improvement as compared with the previous year.

75. The result of sessions cases shows a satisfactory improvement, the percentage of convictions for the Division, both in regard to persons and cases, having risen from 55·7 and 71 in 1895 to 69·8 and 76·6 respectively in the year under report. Patna shows the best result and Shahabad the worst.

76. There is a rise of 30 cases in the number of true cases of rioting as compared with the previous year (353 as against 323), but if contrasted with the years 1893, and 1894 the number is smaller. The increase is said to be due to the occurrence of a large number of irrigation disputes which were more numerous and more bitterly contested owing to the want of rain. The bulk of these rioting cases are reported to have been of a petty nature. Thirteen cases arose out of disputes over the growing of indigo, viz., 9 in

Muzaffarpur and 2 in each of the districts of Champaran and Darbhanga—188, or 53·2 per cent. of the cases, ended in conviction: in 257 cases 724 persons were bound down during the year under sections 106 and 107, Criminal Procedure Code.

77. There were 59 true cases of dacoity against 41 in 1895. For this increase of 18 cases Shahabad is chiefly responsible, and all the 14 cases which occurred during the year in that district were attended with the *looting* of grain due to prevailing high prices of food-grains. The judicial results are not satisfactory, only 11, or 18·6 per cent. of the cases, having resulted in conviction.

78. Cases of robbery increased from 41 in 1895 to 53 in 1896. For this increase Patna and Gaya alone are responsible. It is, however, gratifying to notice that in the four North Gangetic districts and also in Shahabad, where scarcity prevails in a more severe form, this crime shows some diminution. Out of the 53 cases, 25 ended in conviction, and of the 63 persons brought to trial, 39, or 61·9 per cent., were convicted.

79. The total number of bad livelihood cases increased by 69, viz., from 938 in 1895 to 1,007 in the year of report. Gaya returned the largest number (270) and Darbhanga the fewest (89); 298, or 29·5 per cent., of these cases were tried in the village of the accused, and 668 cases were tried in Court. In this respect Patna and Darbhanga show good results, more than 50 per cent. of the cases in each district having been tried locally, while Champaran comes out badly with only 8·4 per cent. of its cases so tried. The judicial results indicate that on the whole the prosecutions were judiciously instituted, 81·6 per cent. of the cases having ended in conviction. Besides, 437 persons were bound down for one year and 59 others for three years.

80. As a separate report has recently been submitted to Government regarding the Domo settlements in Saran and Champaran, I do not think it necessary to reproduce the details here.

POLICE.

82. It will be seen that in every district there has been some advance in the process of introducing Act VI of 1870 in all villages, but the feature of the year has been the great revolution carried out in Gaya by the energy of the Magistrate, Mr. Savage. When the year began one out of every three villages in the district was under the old system, and there were far more regulation villages in Gaya than in any other district of the Division, viz., 2,177: when the year closed the *whole* of these had been converted into Act VI villages, and the village watch throughout the whole district is now administered by panchayats. This is a record of which Mr. Savage may well be proud, and it shows what can be done by perseverance and determination. He says:—

"Chaukidari matters had my special attention during my cold-weather tour, and the whole district is now divided into compact chaukidari villages, with on the average 10 chaukidars and one dafadar under one panchayat. When I began the work, I was told I could not get respectable men to act as members of the panchayat, but results have falsified the prediction. Respectable men have freely accepted the post, and as an instance I may note that the Raja of Deo volunteered to take the post of collecting member of his village panchayat: his offer was accepted, and he has been doing the work himself. The punches are now all composed of influential and representative men—a result that could not be obtained under the old system, under which petty hamlets had each their punch for the most part of illiterate Babhans or Gowalas. The new panchayats have commenced work well. They have made fair assessments on the whole, have paid up their chaukidars, and have been particularly useful as members of Local Charitable Relief Committees."

Saran most nearly approaches to Gaya in the completeness of the reform, for only 7 villages out of 3,866 are under the old regulation, in Patna 600, Muzaffarpur 513, and Champaran 372. The numbers of villages not yet under Act VI are large, but I trust that during the coming cold weather the District

249. As required by the Famine Code, relief was afforded along two broad lines, viz., by relief works and by gratuitous relief. Subsequently a good deal of further aid was given from the Indian Famine Charitable Relief Fund. All these will be dealt with in turn.

250 For the better supervision of all famine relief operations each district was divided into charges, and these again into circles, the general scheme being that each charge was to consist of 300 square miles, and each circle of 30 square miles, so that 10 circles went to a charge. These charges were manned by civilians, police officers, military officers lent for the purpose and non-officials many of whom were planters with local knowledge. Circle officers and officers in charge of works were mostly natives, receiving from Rs. 50 to Rs. 100 a month according to qualifications, but towards the end of the year a number of European non-commissioned officers and privates were deputed for this work, and later still after the year closed some native officers also were obtained: many indigo-planters, and their assistants gave their invaluable services gratuitously, especially in Champaran and Muzaffarpur. At the time of greatest pressure the number of charges and circles in each district was as in the margin.

251. Relief works were first opened in Champaran in the week ending the 14th November 1896, the numbers employed on that day being 1,417. During the next week Shahabad joined in, and by the 5th December the Collector of Saran had opened works, being followed in the succeeding week by the Collector of Darbhanga. After a pause works were opened in Muzaffarpur just before Christmas, and by the 1st January 1897, Patna also had relief works started. All these were at first of the nature of test works, but the numbers rose, and the total employed on relief works in the Division on the 2nd January 1897 was 65,339. From this time they rose very rapidly, though irregularly, and the highest total on relief works was reached on the 29th May 1897, when the number of persons so employed was 363,057. On the last Saturday in the year, viz., the 27th March 1897, the numbers were 273,511.

252. Gratuitous relief was administered first in Saran in the week ending the 5th December. It was commenced in Champaran, and in Darbhanga in the succeeding week, and in Muzaffarpur just before Christmas, simultaneously with the opening of the relief works. In Patna operations commenced in the week ending the 23rd January, and in Shahabad not till the first week in February. The highest numbers in receipt of gratuitous relief were recorded on Saturday, the 5th June 1897, when the total was 380,762: on the last Saturday of the year, viz., 27th March 1897, the numbers on gratuitous relief were 201,899.

253. The statement below gives details of the numbers relieved on the last-named day both on works and gratuitously. It includes those relieved by certain private agencies, *i.e.*, the Darbhanga Raj in Darbhanga, the Hatwa Raj in Saran by direction of the Court of Wards, and zamindar of Manjha in the same district. The percentage of persons relieved to the whole population of the affected tracts is as in the margin—

254. On relief works numbers were greatly affected by the demands for field labour, and by rainfall and to a less degree by the occurrence of holidays. Temporary fluctuations also occurred when any changes of system were introduced or when strikes took place. The numbers on gratuitous relief have gone up more steadily under the influence of two factors—the completion of the necessary organization and the increasing distress as time passed, bringing with it the gradual exhaustion of stocks and slowly rising prices. The following statement gives the numbers in each district relieved in every way during the year 1896-97, month by month—all reduced to terms of one day:—

255. At first on relief works there was some uncertainty as to the task and wage, since it appeared that the tables given in the Bengal Famine Code were not entirely suitable to the conditions of the time. After a conference held at Muzaffarpur on the 4th and 5th December, at which most of the local officers as well as Messrs. Finucane and Glass, Secretaries to Government, were present, task tables drawn up by the latter were introduced, and these have formed the basis of all subsequent operations. It was decided at the same time that all large works were to be executed by officers of the Public Works Department, minor works being carried out by the civil agency under the direct orders of the Collector. About the end of December the experience of the Government of the North-Western Provinces in the Bundelkhand famine of 1895-96 was made public, and about the end of January the conclusions arrived at by that Government for the administration of relief works were substantially adopted for use in Behar. A little later the North-Western Provinces system of exacting tasks from diggers only, all carriers being paid the daily wage, was discarded for one of large gangs, and this again after the Darbhanga conference in March was finally given up in favour of the system of pit gangs or family gangs, which has been carried on ever since with signal success. Later in the year, at the suggestion of the Government of India, a modified piece-work system was considered and eventually adopted for many large works under professional supervision. It has proved equally successful and popular, and it seems likely that this system will be largely adopted in future, and be accorded a place in the Famine Code as an alternative, under certain conditions, to the pit-gang system evolved in this Division.

256. In order more efficiently to cope with the work to be done by the Department of Public Works, a complete re-organisation of that Department was ordered about the month of February 1897. Two circles were formed—the first comprising Muzaffarpur and Darbhanga, and the second Shahabad, Saran, and Champaran with Mr. C. A. Mills as Superintendent of the first and Mr. J. H. Toogood of the second. Executive Engineers were appointed to all of these districts except Shahabad, while Champaran, and Darbhanga, had two each; a sufficient staff of Assistant Engineers and subordinates was also appointed. These arrangements were still in force when the year 1896-97 came to an end.

257. The number of works open gradually increased as scarcity deepened, till in the week ending on the 12th June it was as high as 441. In the last week of the year, *i.e.*, that ending on the 27th March 1897, the number of works open was 322 as in the margin. At that time also the cost per 1,000 cubic feet and the average outturn per male unit were as follows:—*Cost per 1,000 cubic feet*—Shahabad Rs. 2-10-11, Saran Re. 1-15-4, Champaran Rs. 3-12-5, Muzaffarpur Re. 1-13-5, Darbhanga Rs. 2-14-5. *Outturn per male unit* in cubic feet—Shahabad 42, Saran 45½, Champaran 27¼, Muzaffarpur 47, Darbhanga 29½. The reason of the good returns in Muzaffarpur is that the work was mostly on roads, and a large proportion of the labourers were men; in Champaran and Darbhanga the poor outturn was due to a large proportion of the works being tanks with long lead and lift; in Saran it was due partly to the same reason and partly to the smaller number of men on the works.

258. The private relief works of the Hatwa Raj were conducted on Famine Code principles by the Court of Wards: those carried out by the Maharaja of Darbhanga were based on a piece-work system, differing not greatly from that subsequently adopted by the Public Works Department.

259. Gratuitous relief was afforded in all the methods sanctioned by the Famine Code, viz., by grain and money doles in villages or at central spots, by

poor-houses, by kitchens, and by the relief of casual vagrants and others assisted by the police. Relief has been granted most largely under the first head. It has been found as a matter of practice that it was virtually impossible to use poor-houses as a test of distress, as only those who were in the last stage of disease or destitution would enter them. Large numbers of the more respectable classes would literally prefer to die rather than to seek shelter there. Kitchens were at first opened chiefly on the main roads for the succour of wanderers and pilgrims, but later on they were used to feed the children who, it was noticed, were beginning in all districts to fall into bad condition. Since the close of the year they have been utilised as one means of closing relief operations; the acceptance of cooked food at a kitchen being made a test of necessitousness for all except those who were physically incapable of coming for food. The numbers of persons on gratuitous relief in each district on the last Saturday of the year are given in the marginal statement, which also shows the proportion which they bear to the total population of the affected area.

260. Exception has been taken to the numbers receiving gratuitous relief both actually and relatively to the numbers on relief works, but after careful examination it has been admitted that the figures are not unreasonable, regads being had to the following facts:—(*a*) that the population of North Bihar is both extraordinarily dense and extraordinarily poor; (*b*) that among all those seen by many observers in the receipt of gratuitous relief, none were observed who were capable of doing work.

261. From the Indian Famine Charitable Relief Fund, relief was afforded on not quite the same lines as those adopted by Government. The local committees formed for the administration of this Fund particularly devoted themselves to the relief of the respectable poor, who by the custom of the country are debarred from appearing in public to accept relief, and also to orphans and widows; they also assisted with gifts of clothing and blankets and extra comforts to the sick, and lastly they have expended large sums in small donations to distressed agriculturists and others in order to set them on their feet again after the scarcity. By the time that the year ended these arrangements were hardly in working order and little or no money had been distributed, but since that time arrangements have been completed, and the liberal allotment of 13 lakhs, which has been made by the Central Committee, will have been expended to the great advantage of the very poorest classes of the community by the time that the operations are closed.

262. The wants of the population and the deficiencies of the crops have been fully met by private trade, which has imported food-grain to an unprecedented extent. Much has been said on the subject in paragraphs 43 to 50 of this report, and it has been pointed out how completely the conditions of the normal trade have been changed by the requirements of the present season. It has been shown that during the first half of the year under report grain was exported from the Division in large quantities, but that as soon as the failure of the crops was certain and the necessities of the situation declared themselves, an immense import business arose chiefly from Calcutta (which sent up Burma rice in large quantities), Orissa and the Burdwan Divisions. The figures in the paragraphs above referred to are, however, only for traffic outside the Division, and take no count of traffic between districts within the Division. I therefore give below for facility of reference figures to show for each district in the Division its operations in food-grain traffic carried by rail during the year 1896-97. It will be seen at a glance how the direction and volume of the trade have been changed. Large though the figures are, they do not represent the total imports of the Division, since there has certainly been a large importation from Nipal all along the frontier, and much inter-district traffic by road and river has escaped registration—

263. The health of the people throughout the scarcity has remained extraordinarily good, and as a reference to the appendices will show, the mortality has everywhere been below the average. There has been some increase in crime, but not so much as might have been expected.

264. It is too soon to speak yet with certainty as to the total cost of the famine relief operations, and even with regard to expenditure up to the 31st March 1897, the considerable sums still unadjusted preclude me from giving final figures, but it is believed that the estimate of Rs. 1,08,96,000 for the whole operations of which Rs. 29,54,000 are to be spent in 1896-97 will not be exceeded.

XXXVIII.—GENERAL REMARKS.

265. The shadow of famine, though it fell over the Division only during the last six months of the year, lends a sombre hue to the whole landscape as one looks back over the past year, and it is difficult to realise that on the far horizon once the sun shone, and all was fair and prosperous. This subject has almost entirely absorbed the attention of myself and the district officers, since the rains began to fail just a year ago, and all others have of necessity been relegated to a subordinate position. Nevertheless the year has been one of progress and interest in many ways.

266. Two important railway lines have been commenced in South Bihar and one in North Bihar (Hajipur-Katihar), and have been well advanced. In Champaran, three important feeder lines have been undertaken, and are in various stages of progress, viz. Bettiah to Chainpathia, Segouli to Raksaul, and Bairagnia to Batsara, while in Darbhanga the Sakri-Jainagar extension commenced during the year has been almost completed, so far as earthwork goes, since its close. The Engineers of the Sone Canals exceeded all previous records in their successful efforts to supply water, and they saved the crops over hundreds of square miles in Shahabad, Gaya, and Patna—a feat for which no praise is too extravagant. The chaukidari system has been further developed, in Gaya, Saran, and Muzaffarpur especially, and the whole force, and particularly the *dafadars* where they have been introduced, have rendered most valuable service during the relief operations. The public health has been extraordinarily good owing to the remarkable absence of cholera, and this may be largely attributed to the increased attention paid to the purity of water-supply and the use of disinfectants; the precautions taken at relief works, poor-houses and kitchens, and the success which has followed them have provided an object lesson to the public which has not been thrown away. There have been practically no religious dissensions or breaches of the peace on fanatical grounds since the *Bakr-Id* of May 1896 in Darbhanga, and some little trouble in Bihar at the time of the *Gunesh Pujah* in August. The *Muharram* of 1896 passed off quietly everywhere. The controversy which raged around the location of the Japanese image at Bodh Gaya has died down, and the public peace has remained unbroken. Lastly, in the field of archæological enquiry, distinct progress has been made in excavating the site of the ancient capital of the Mauryas at Patna, and in identifying sites of the greatest sanctity and importance in Buddhist eyes.

267. On the other hand, besides the scarcity which, through the medium

of high prices, affected all classes everywhere, there has been some anxiety lest bubonic plague should be imported from Bombay. Sanitary measures more or less thorough, have been adopted in most of our large towns, but it was considered by the Sanitary Board to be unnecessary to establish an examining station on the line of railway as had been proposed. Cattle-disease has been prevalent in several, districts, but, paradoxical as it may seem, in a year of scarcity, their general condition has been better than usual, for in the earlier months of the scarcity they were largely fed on the stunted crops, and later on the frequent showers of the cold weather maintained a perpetual supply of forage. Crime has increased a good deal, especially in the northern districts owing to the scarcity, but it has been of a petty nature.

268. As I write the prospects for the remainder of the current year are most hopeful. The monsoon so far except in a few places, has been of an ideally favourable character, so that the *bhadoi* promises to be above an average crop; and if good rain falls in the end of September, the rice should do equally well over most of the Division. With good crops and a fall in prices our affairs should soon run again in their old channels, but the great exhaustion o stocks which this year has brought about will be felt by the rural population fo some time to come.

269. During the current year as soon as the famine phantom has been laid the following among other matters will require attention: the thorough repair of communications by the District Boards, which have necessarily been somewhat neglected while every available rupee was devoted to relief operations; the perfection of the dafadari system and an examination of chaukidari assessments; the continuation of survey and settlement operations; the provision of water-supply for the cities of Patna and Gaya; and lastly a perpetual vigilance against fanatical outbreaks.

The Canal Revenue Reports for 1896-97.

No. 1390*I.A.*

IRRIGATION DEPARTMENT.

ACCOUNTS.

Dated Calcutta, the 7th December 1897.

RESOLUTION.

READ—

The Canal Revenue Reports for 1896-97 and the Chief Engineer's note on the same.

THE capital outlay on canals in Bengal, for which capital and revenue accounts are kept, had reached a total of Rs. 7,61,23,817 at the close of the year 1896-97. Of this sum, Rs. 1,16,18,801 have been provided from provincial funds, Rs. 6,15,89,436* from loan funds, and Rs. 8,66,000 contributed by the Imperial Government from the Famine Relief and Insurance Fund.

2. The total length of canals in operation is 916 miles, of which 495¼ miles are for irrigation and navigation, 242¾ miles for irrigation only, and 178 miles for navigation only. There are also 2,605 miles of distributaries, capable of irrigating 1,572,005 acres.

3. The receipts for the year from both Major and Minor Works amounted to Rs. 25,63.047 and the working expenses to Rs. 19,37,142, the net revenue being Rs. 6,25,905 against Rs. 2,45,646 in 1895-96, and Rs. 1,38,135 in 1894-95. The receipts were much greater, and the expenditure was somewhat less, than in the preceding year.

4. The results of the year's working of the canal systems of Bengal, and the capital expenditure to date, are exhibited in the following table:—

The only minor works for which capital accounts are kept are the Orissa Coast, Calcutta and Eastern, and Saran Canals.

The interest charges debited in 1896-97 to Provincial revenues amounted to Rs. 24,98,009, which, after deducting the net revenue, works out to a deficit of 3·05 on the capital expenditure.

irrigation is too insignificant to be shown separately. The area under the head Perennial is not extensive, and is included under *kharif*:—

The area irrigated during the year was 805,387 acres, as compared with 579,933 acres in 1895-96, and an average of 580,542 acres during the preceding nine years. The increase occurred chiefly in the area irrigated from the Sone Canals, but there was also a considerable increase in Orissa. In the Sone the rainfall was very deficient, and it failed entirely at the periods when it was most required; in Orissa the rainfall was above the average, but it was not well distributed. The areas irrigated by the Sone Canals, and the total for all canals, are the largest on record.

6. The assessment and collection of water-rates are made under the orders of Superintending Engineers. The recovery of arrears is under the Special Canal Deputy Collectors, in subordination to the District Officers, who also exercise appellate jurisdiction in regard to all orders passed by canal officers under Act III (B.C.) of 1876. The progress made in collection work is shown in the following table:—

The improvement in administration, which has been remarked in recent years, steadily continues, and is still more pronounced than in the previous year. The balance uncollected at the end of the year was Rs. 25,464, as compared with Rs. 67,460 at its commencement.

The amount remitted was Rs. 29,640 against Rs. 8,573 in 1895-96. The excess occurred in the Orissa Project, where Rs. 15,500 were remitted on lands that came under lease late in October, and so did not benefit by the water supplied.

The navigation receipts exceed those of the previous year by nearly Rs. 59,800. and are by far the largest yet recorded.

9. The miscellaneous revenue amounted to Rs. 96,660 as compared with Rs. 80,660 in 1895-96, the average for the previous nine years being Rs. 67,060.

10. The results of the year's working have, on the whole, been very favourable. The receipts from Major Works very largely exceeded those of the previous year, and were far above the average of the preceding nine years. The working expenses showed a reduction, and were lower than at any period during the last nine years. The net revenue was more than four times that of last year, and exceeded the average of the previous nine years by over five lakhs of rupees.

As regards Minor Works there was a decrease in receipts, but there was also a slight reduction in working expenses; the net revenue, however, was less than in 1895-96, and was much below the average.

11. The working of each canal system will now be separately considered, commencing with the Orissa Canals.

The Capital outlay on works during 1896-97 amounted to Rs. 14,895, and was chiefly confined to the completion of the protective embankment on the right bank of the Byturni river, and some of the distributaries of the Jajpur Canal. The work of raising and strengthening the flood bank of the Kendrapara Extension Canal was in progress at the close of the year.

12. The receipts on the revenue account were Rs. 4,72,947, as compared with Rs. 4,16,804 in 1895-96, and an average of Rs. 3,45,316 for the preceding nine years. The increase in water-rates amounted to Rs. 22,129, a smaller result

than might have been looked for; but the Superintending Engineer explains that the increased area brought under irrigation will affect the revenue more in the current year than in that under review. A considerable part of the area brought under lease was not assessed for 1896-97, and of the remainder the assessments were not all completed within the year.

The navigation receipts exceeded those of the previous year by Rs. 25,722. The trade in rice which was very active in 1895-96 was well maintained, and the construction of the East Coast Railway led to the transport of an increased quality of metals and building materials. The Superintending Engineer is of opinion that the continuance of the exports of rice, notwithstanding flood and drought, shows that the general state of the Orissa districts is far superior to what it must have been 30 years ago, and that the benefit conferred on Orissa by the canals, and by a more systematic control and repair of flood embankments, is a material one.

13. The area irrigated during the year was 185,048 acres against 119,460 in 1895-96. The rainfall though plentiful, was not well distributed, and there was an almost complete absence of rain in October and November, which resulted in a great demand for water.

The area leased for a term of years increased from 112,938 acres to 188,332 acres.

14. The transport service was worked at a profit of Rs. 21,324 against Rs. 15,683 in the preceding year. The charge for tollage, which is practically a receipt, is omitted from the cost of working. There was again a considerable increase in traffic, largely due to the railway works which are now under construction, and the earnings are the largest yet recorded.

15. The result of the collection of water-rates shows a balance at the end of the year of Rs. 4,597 against Rs. 34,343 at the close of 1895-96; a very small balance as compared with previous years. The collection was good, and the adjustment of practically the whole of the arrears is satisfactory. The number of objections to assessment was almost the same as in the preceding year. The amount remitted or written off was Rs. 18,486, which is large compared with the last few years. It includes, however, Rs. 15,500 remitted on lands that came under lease late in October, and therefore did not receive benefit from the water.

16. The number of certificate cases instituted during the year was 1,989 against 2,497 in 1895-96. The Lieutenant-Governor notes with satisfaction the continuance of the improvement which was remarked in last year's report. Only two cases were pending at the close of the year against 165 at its commencement.

17. The working expenses of the Orissa Canals amounted to Rs. 4,95,743, as compared with Rs. 4,72,395 in 1895-96, and Rs. 4,83,320 in 1894-95. The increase is considered to be temporary, and is due mainly to the effects of a high and prolonged flood in the Mahanadi which did much damage, and choked the heads of the Taldanda and Kendrapara Canals with sand. The Kendrapara Extension Canal was practically wrecked by this flood, and its restoration is being treated as a separate work.

18. On the Midnapore Canal the financial result of the year's working is satisfactory. The receipts rose from Rs. 2,63,633 to Rs. 2,78,067; the expenditure was less than that of the previous year by Rs. 42,804, and the net revenue amounted to Rs. 45,358. The receipts from water-rates slightly exceeded those of last year. There was good rainfall at the beginning of the season, but it ceased in September, and the demand for water during the remainder of the season was very great. The area irrigated was 65,183 acres, or almost exactly the same area as in the previous year. A much larger area would have been irrigated had it not been necessary to refuse all applications after the 20th October, on account of the small discharge available from the Cossye river. It may be noted, however, that long-term leases for 17,201 acres expired at the end of 1895-96, whereas leases for 20,044 acres were executed during the year, so there has been no falling off.

It was remarked last year that the reluctance of the cultivators to renew expired leases was apparently due to discontent regarding certain of the rules in force, and that a proposal to relax some of the rules was under the consideration of Government. During the year under review a concession has been granted as regards remeasurement of the area to be leased; the imposition of the 12-anna rate, under Rule 8, for villages which did not renew their leases the same year in which they lapsed, has been abolished; and all water-rates above Rs. 5 are now collected in two instalments. The effect of these concessions cannot, however, be gauged this year: the character of the season was such that there is no doubt that the leases would have been

renewed if the concessions had not been granted. Navigation receipts rose from Rs. 1,43,918 to Rs. 1,54,215, and were the highest on record during the last ten years.

19. The progress in the collection of water-rates was not altogether satisfactory, the balance at the end of the year being Rs. 11,439 against Rs. 10,124 in 1895-96, and Rs. 4,549 in 1894-95. The large balance is explained to be due to certain unfavourable incidents which retarded the work of collection. A sum of Rs. 2,563 on account of unauthorised irrigation could not be collected, as the cases were disposed of in February and March; the late date on which some villages applied for leases, and the payment of sums over Rs. 5 in two instalments, also told upon the collections to a certain extent. The amount remitted or written off was Rs. 3,727, as compared with Rs. 477 in the previous year. This large increase is due to the remission of Rs. 2,854 on account of the penalty rate of 12 annas imposed during 1895-96, and also to the deficient supply of water for which remissions had to be granted. The number of certificate cases instituted during the year was 565 against 286 in 1895-96, the increase being due mainly to the efforts made by the Special Deputy Collector to collect arrear demands. The number of cases outstanding at the end of the year was 31 against 58 in the preceding year.

20. The working expenses of the Midnapore Canal amounted to Rs. 2,33,309, and were less than those of the previous year by Rs. 42,804.

21. The Capital expenditure on the Hijili Tidal Canal amounted to Rs. 36,362, and was chiefly incurred in completing the supply channel at Terapakia, and lengthening the Kalinagar lock. The lock was opened to traffic on the 18th June 1896. There was a very satisfactory improvement in the traffic on the canal; the navigation receipts having increased to Rs. 89,511 from Rs. 60,677 in the preceding year. The number and tonnage of boats was much larger, and there was also an increase in the number of passengers carried.

The working expenses were Rs. 40,191 or Rs. 21,207 less than those of the previous year. The net revenue amounted to Rs. 50,755. The result of the year's operation is very gratifying, and now that through traffic has been re-established by the opening of the Kalinagar lock, still better returns may be looked for in future years.

22. The Sone Canals showed a net revenue of Rs. 4,62,181 as compared with Rs. 1,90,882 in 1895-96, and an average of Rs. 1,18,275 for the last nine years. The total receipts amounted to Rs. 10,59,645 against Rs. 7,65,316 in 1895-96. The receipts from water-rates increased from Rs. 6,77,714 to Rs. 9,57,726, and the navigation receipts rose to Rs. 70,006 from Rs. 61,261 in the previous year. The miscellaneous revenue was Rs. 36,961 against Rs. 33,148 in 1895-96. The working expenses were Rs. 5,97,464 as compared with Rs. 5,74,434 in 1895-96, Rs. 7,06,739 in 1894-95, and Rs. 7,40,976 in 1893-94. The cost of "Maintenance and Repairs" was larger than in the previous year, mainly because there was a closure of the canals during the year under review, and partly because extra silt clearance in front of the locks on the canals was necessary, on account of the unusually large amount of silt in the water. The measures adopted to check the deposit of silt at the heads of the canals continued to work successfully, but the results were not quite so good as those of the preceding year. The cost of silt clearance and dredging was Rs. 19,936 against Rs. 13,113 in 1895-96 and Rs. 76,674 in 1894-95.

23. The area irrigated was 555,156 acres as compared with 395,222 acres in 1895-96, and an average of 3,58,022 acres for the preceding nine years. This is the largest area ever irrigated by the Sone Canals. Until this year the largest area watered was in 1891-92 when it reached 474,723 acres. The area under *kharif* was 55,456 acres more than in the previous year, and in the *rabi* season the increase amounted to 100,047 acres. The rainfall was abnormally bad in the kharif season, and it ceased entirely about the middle of September. The Sone Canals did good work in saving from almost entire destruction some 300,000 acres of rice crops. The value to the people of this crop was at least 150 lakhs of rupees—a sum which is more than half the capital cost of the canals. The year was one of extreme pressure on the canal officers; the area of long-term leases to be measured was unusually large, and the work of distributing the supply was severe. The capacity of the canals was strained to its utmost limit, and discharges were passed into them exceeding anything hitherto attempted. The arrangements made were excellent, and no accidents occurred. Such was the anxiety of the people to obtain water, that several attempts were made to cut the canals, and by order

of the Lieutenant-Governor special measures were adopted by the Police to protect the banks. The Superintending Engineer remarks that the year's report shows on almost every page results which are better than any which have been declared before.

While realising that this is due in a great degree to the nature of the season itself, it is only true to say that such results could not have been obtained without hard work, patience, and cheerful co-operation among all members of the staff. The Lieutenant-Governor heartily concurs in this opinion, and desires to acknowledge the excellent work done by the Superintending Engineer and his staff.

24. The continued progress in the collection of water-rates is viewed by the Lieutenant-Governor with great satisfaction. The arrears outstanding on the 1st April 1896 amounted to Rs. 22,993, the current demand for 1896-97, including arrears, was Rs. 9,73,858, and of this sum Rs. 9,58,925, or 98 per cent., were collected. The unadjusted balance at the close of the year was Rs. 9,428. The current demand is unusually large, the arrears are unprecedentedly small, and the percentage of collections is better than that of any previous year. The collections were made with very little friction, and the results are creditable to the Deputy Collector Maulvi Syed Mohomed Nassiruddin and his staff.

25. The amount remitted was Rs. 5,505 against Rs. 5,017 in 1895-96. The number of objections to assessment increased from 3,686 to 9,005, and the number undisposed of at the end of the year was 1,040 against 511. An increase in objections was only to be expected in a year of such large irrigation. The number of certificate cases instituted decreased from 1,253 to 1,036, and was less than in any previous year. Only eight cases were left undisposed of at the end of the year—a very satisfactory result.

26. An abstract of the result of the crop experiments made in the Sone and Orissa Circles in 1896-97 is given below :—

	Quality of crop.	Outturn per acre.	
		Paddy.	Straw.
1	2	3	4
		Mds.	Mds.
Orissa	Good and average...	24·2	32·9
Sone	Ditto ...	27·7	54·5

The rules for conducting crop experiments, which were referred to last year as being framed, have been issued, but they were not brought fully into operation during the year under review.

27. The following statement exhibits the financial results of the canals classed as Minor Works and Navigation. The Eden Canal has been included, as revenue is derived from it, though neither Capital nor Revenue Accounts are kept. The Saran Canals, for which Capital and Revenue Accounts are kept, are excluded: the revenue obtained from them is insignificant :—

* Average of eight years.

28. The Calcutta and Eastern Canals are purely navigation works. The receipts amounted to Rs. 4,39,938 as compared with Rs. 4,05,244 in the previous year, and the working expenses were Rs. 2,30,759 against Rs. 2,91,640 in 1895-96. The net revenue increased from Rs. 1,63,604 to Rs. 2,09,179. The increase is due to the way in which the establishment charges have been apportioned between the works under Capital and Maintenance, the whole cost of the establishment having been debited to the former head. The total number of boats of all classes using the canals was less than in the previous year, but there was an increase in the number of boats above 25 maunds. The number of steamers and flats increased from 312 to 349. Notwithstanding the decrease in tollage, the receipts may be considered satisfactory when the failure of the rice crop in the Eastern district is taken into account. On rice alone the loss of tolls amounted to Rs. 40,610 as compared with 1895-96. The Sundarbans route was used by 1,336 steamers and flats against 1,482 in the preceding year. During the last ten years the tolls realised from the Sundarbans route have amounted to Rs. 55,285, while the expenditure during the same period was Rs. 57,390; it is therefore evident that the tollage receipts do not pay for the maintenance of the route. The question of improving that portion of the route upon which large expenditure has to be incurred periodically, should be carefully considered.

Very good progress was made in the work of canalizing a portion of the Eastern Canals between Kulti and Bamonghatta, known as the Bhangore khal, and Rs. 4,53,926 were expended during the year. Rupees 9,851 were spent on the improvement of the bhil route connecting Khulna with Madaripore.

29. The receipts from the Orissa Coast Canal amounted to Rs. 86,141 against Rs. 88,328 in 1895-96. The expenditure on maintenance rose from Rs. 70,119 to Rs. 87,783, the large increase being entirely due to the extensive repairs to the Bhaitghur lock. Under the Capital Account Rs. 20,273 were expended, chiefly on remodelling some of the escapes, constructing a new escape in the 106th mile, and dredging uncut portions of Range V. The financial results of the year are not satisfactory, the net revenue being (—) Rs. 1,642 as compared with Rs. 18,209 in the previous year. The falling off in the receipts is ascribed to the closure of the canal for repairs. The amount of tollage paid by steamer companies using the canal was less than in 1895-96, and there was a great reduction in the number of passengers carried, which is attributed partly to the closure of the Bhaitghur lock, and partly to more strict supervision by Government over the number of passengers carried by each steamer. The steamers stopped running at night altogether for some time, as the number of passengers allowed by the rules for night journeys is much less than for day journeys.

30. The receipts from the Nadia rivers were Rs. 93,474 as compared with Rs. 1,20,046 in the previous year. The working expenses were reduced from Rs. 1,46,281 to Rs. 1,30,818. The cost of maintenance showed a marked decrease, but there was a serious falling off in the receipts. The net revenue was (—) Rs. 37,344 or Rs. 11,109 less than that of the preceding year. The average receipts for the previous nine years were Rs. 1,74,235, and the average expenditure Rs. 1,24,323. The total number of steamers and boats fell from 47,300 to 41,484, and the tonnage from 591,718 to 434,720.

These unfavourable results are entirely due to the early closure of the route, which was mainly caused by the low floods in the Ganges during the rains. Most of the boats from the Bihar and Malda districts, which would otherwise have used this route, were compelled to travel to Damukdea, where their cargoes were transhipped for conveyance by rail to Calcutta. The steamer services too, in consequence of the insufficient depth of water in these rivers, had to use the route through the Sundarbans throughout the season. Another cause of the decrease in receipts is the competition of the East Indian Railway, which gives more favourable rates for traffic during the flood months, when the rivers can compete for the Ganges traffic.

The decline of traffic on these rivers, which has been the subject of remark for several years past, unfortunately continues unabated, and was this year aggravated by the unusually low level of the Ganges. The Superintending Engineer remarks that there will never be an increase of toll collections, unless the relation of the Ganges to the heads of the Nadia rivers becomes such that one or other of the rivers can be kept open at a moderate cost throughout the year.

During the year every possible endeavour has been made to keep expenditure down to a minimum. This course should be steadfastly pursued, while at the same time unremitting attention is devoted to the question of keeping open a line of navigation throughout the year.

31. The area irrigated from the Eden Canal during 1896-97 was 21,294 acres as compared with 36,221 acres in the preceding year. The decrease of 14,927 acres was chiefly due to the non-renewal of the leases, which expired in 1895-96 in the Hooghly district, for want of proper means of irrigation. Two new distributaries are being constructed, and with improved means of distributing the water, it is probable that a much larger area will be irrigated in future. The water-rate collections amounted to Rs. 36,775 against Rs. 30,690 in the previous year, and the unrealised balance at the close of the year was Rs. 26,518 as compared with Rs. 33,883 in 1895-96. The improvement in the collection work is satisfactory. The expenditure amounted to Rs. 1,08,457 against Rs. 55,970 in the preceding year; but out of this total a sum of Rs. 51,676 was expended on the construction of the new distributaries, the actual expenditure on maintenance being about normal.

32. The Saran Canals were closed during the two previous years, but in the *rabi* season of 1896-97, when it was found that no one would come forward to pay the lump sum required for the opening of a sluice, the canals were opened for irrigation on a system of individual assessment. The area irrigated was 4,080 acres. The collection of water-rates was undertaken by the Collector of the district; the assessments amounted to Rs. 6,416, a sum of Rs. 120 was remitted, and Rs. 30 were collected, leaving a balance of Rs. 6,266 at the close of the year. The working expenses were Rs. 11,934 and the receipts Rs. 934, giving a net revenue of (—) Rs. 11,000.

The result of opening the canals is disappointing, the supply of water was inadequate, and it failed entirely when it was most needed.

33. The Madhuban Canal is stated to have irrigated 11,251 acres against 2,254 acres in 1895-96. The figures, however, are not reliable as the area is not measured. No measuring establishment is maintained, nor are water-rates levied. The expenditure was Rs. 5,791 as compared with Rs. 3,808 in the previous year. A distributary from this canal has been undertaken as a famine relief work.

34. The re-excavation of the Gaighatta and Buxi *khal* was completed in 1895-96. This channel, which is 7½ miles in length, and connects the Rupnarain and Dadmodar rivers, was taken over by the Public Works Department in 1894.

The cost of maintaining the channel during the year was Rs. 684, and the receipts amounted to Rs. 3,820, the net revenue being Rs. 3,136. The right of collecting tolls on the *khal* has been leased for five years from 1896-97 at an annual rental of Rs. 4,500. Rupees 3,800 were realised before the 31st March 1897.

35. The thanks of Government are due to the following officers for the excellent services rendered by them during the year:—

Mr. Buckley, Superintending Engineer, Sone Circle.
Mr. Horn, Superintending Engineer, South-Western Circle.
Mr. Inglis, Superintending Engineer, Orissa Circle.
Mr. Barlow, Executive Engineer, Cossye Division.
Mr. Butler, Executive Engineer, Buxar Division.
Mr. Searight, Executive Engineer, Eastern Sone Division.
Mr. DeMello, Executive Engineer, Arrah Division.

ORDER.—Ordered that a copy of this Resolution and of the Chief Engineer's note and its accompaniments be submitted to the Government of India in the Public Works Department and published in the *Calcutta Gazette*. Also that it be circulated to other Governments and to all Departments and officers of this Government as usual.

By order of the Lieutenant-Governor of Bengal,

A. S. THOMSON,

Under-Secretary to the Government of Bengal,
Irrigation Department.

No new work of any importance was done during the year. The Kendrapara Extension Canal was seriously breached by the high flood of July-August 1896, and it has been raised and strengthened. The work was in progress at the end of the year under review. The chief work remaining to be done for the Orissa Canals is the construction of permanent outlets.

NOTE.—The details by heads of expenditure for the year 1896-97 and nine preceding years will be found in the table given in paragraph 12 following.

There was an increase of Rs. 56,143 in the receipts, and of Rs. 23,348 in expenditure, the result being a deficit of Rs. 22,796, against Rs 55,591 in 1895-96 and Rs. 1,50,975 in 1894-95.

EARNINGS.

11. The following statement compares the earnings with the outlay for the last two years. The term "earnings" as applied to Irrigation denotes the assessed water-rate value of the Irrigation effected during the year; as applied to Navigation it denotes the amount of tollage assessed during the year, together with the actual realizations of miscellaneous revenue charged to Navigation. The miscellaneous earnings are the actual receipts during the year under this head:—

	1895-96.	1896-97.

* Includes 3,019 acres of chaukidar's land which was exempted from assessment and irrigated free of charge in return for the assistance given in assessment and collection.

The only alterations during the year have been the addition of 1¾ miles of distributary on the Kendrapara Canal, and the abandonment, as useless, of 2¼ miles of a minor distributary on the Pattamundi Canal.

The increase in the number of permanent outlets is not due to construction during the year, but to old outlets having been again brought into use.

RAINFALL.

The average fall for the year was 65 86 inches, as compared with a mean average for the last 28 years of 58·46 inches. The total rainfall was above the average, but it was not well distributed. It was larger than usual in June, and it was deficient, or altogether absent, in October, when it was much wanted. The average rainfall recorded at the stations in the Central Provinces, from which the Mahanadi derives the greater part of its supply, was 66·58 inches in 1896-97, as compared with 50·99 inches in 1895-96.

The flood in the Mahanadi was very high, and was unusually prolonged. There were also very high floods in the Brahmini and Byturni.

A certain amount of damage was done to the flood embankments, and several breaches occurred.

17. The assessed areas for the last ten years, with the yearly rainfall, are shown in the following statement:— IRRIGATION.

The total areas leased and assessed, as compared with the previous year, are shown below:—

Crops.	1895-96.		1896-97.	
	Leased.	Assessed.	Leased.	Assessed.
1	2	3	4	5

Unauthorized Rice	.....	.....	.....	... ..
Total ...	121,323	119,460	207,015	182,029

The Superintending Engineer thus explains the difference between the areas leased and assessed:—

"It will be noticed that in the item long leases the area assessed is less than that leased by 24,185 acres. This is chiefly due to the fact that on account of the late date (middle of October) at which the applications for new leases were received, considerable areas did not in that season derive benefit from the water. The full area will come under assessment in the current year. The area of rabi assessed is also less than that leased. This is due to the fact that, owing to an unusual rise in the Byturni river in March 1897, some of the Dalwa rice in low lands which had been irrigated, was ruined, and had to be exempted from assessment.

Chaukidar's land to the extent of 3,019 acres was not assessed, free irrigation being given in return for assistance in assessment and collection.

The area reckoned as irrigated, as given in the statement in paragraph 13, is 185,048 acres, which is the assessed area, plus the area of chaukidar's land exempted from assessment but irrigated."

Duty of Water.

19. The statement below shows the duties obtained in the kharif season on each of the canals, calculated on the gross discharge at the canal heads:—

	Particulars.	Kendrapara Canal system	Taldanda Canal system	High-Level Canal, Range I.	High-Level Canal, Range II.	High-Level Canal, Range III.	Jajpur Canal.
	1	2	3	4	5	6	7
1896-97	Kharif ... Acres	72,972	45,306	20,222	2,743	23,951	6,179
	Duty on gross supply	48·1	60·5	49·9	...	44·2	32·5
1895-96	Kharif ... Acres	60,559	24,905	13,400	743	9,853	1,661
	Duty on gross supply	56	56	60	57	101	66

The area under *rabi* is small, and no information is given regarding the duty in the *rabi* season.

The Superintending Engineer remarks that the actual duty was slightly better than shown in the statement above, since it is probable that the greater part of the area exempted from assessment for the season received water, though too late to benefit the crops.

A number of observations were also made to ascertain the duty which is obtained in irrigating rice on the supply measured at the outlet. The general result obtained was, that under ordinary conditions of soil, a supply given at the rate of one cubic foot per second at the outlet to 80 acres is quite sufficient, the supply being continuous.

20 The following are the results of the crops experiments, in the customary form, combined in one Table, for the year 1896-97:— CROP EXPERIMENTS.

The Superintending Engineer explains:—

"In former returns a distinction has been made between the yield of plots classed as "good" and as "average." I have taken the general average as being more satisfactory. Our principle now is to record the yield of certain plots, and not go about making experiments here and there and recording a classification of very doubtful value: fields classed as "average" by one observer frequently giving a better yield than fields on similar soil classed as "good" by another observer."

The following Table gives a general abstract of the result of all the experiments made in the year under review:—

The Superintending Engineer writes:—

"The average yield obtained is, for land irrigated from the canal, just the same as in the previous year, and for land not so irrigated, slightly less.

The yield of the canal-irrigated land may be taken to be that of a full average, but not a bumper crop. The lands not irrigated from the canal on which experiments have been made, are so situated, that in many cases they derive indirect benefit from the canal.

In the drought of October-November 1896, they were either irrigated by lifting from natural channels or collections of water which receive the surplus from lands under canal irrigation, or they were benefited by the moisture supplied by percolation. In valuing the yield I have taken the average price obtained locally by the cultivator at time of harvest, which is of course considerably less than the price quoted in the Gazette for sales in towns and markets. Reckoned thus, the average value was in favour of the canal-irrigated lands by about Rs. 6 per acre.

Several experiments were made to test the loss in weight of paddy by drying after the crop is reaped, and the results showed that the allowance now made, *viz*, $\frac{1}{12}$th, is fairly correct, when the crop is not damper than usual at time of reaping. Perhaps $\frac{1}{10}$th would be a safer allowance.

Experiments were also made to test the yield of rice from paddy, and these showed that if the paddy is quite dry, the proportion which has been assumed, *viz.*, $\frac{2}{3}$rd, is fairly correct.

We have commenced to make these experiments more systematically, selecting certain plots to be experimented on each year so as to get the true average yield over a number of seasons, and recording the incidents of the season which may affect the yield."

Taking the average of the experiments on both "transplanted" and "broadcast" rice crops on irrigated lands, the results are as follows, compared with those obtained in the Sone Circle:—

	Quality of crop.	Outturn per acre.	
		Paddy maunds.	Straw maunds.
1	2	3	4
Orissa	Good and average.	24·2	33·0
Sone	Good and average.	27·6	54·5

The average value of the rice outturn from the irrigated lands in Orissa was Rs. 32 4 per acre, while from the unirrigated lands it was Rs. 26·6 per acre.

ASSESSMENTS AND COLLECTIONS.

21. The demands, collections, and balances of water-rates are shown below for the last five years:—

Years.	Amount outstanding at commencement of year.	Amount falling due during the year.	Total for recovery.	Cash realizations	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7

1896-97 ...	34,343	2,35,517	2,69,860	2,46,777	18,486	4,597

The outstanding balance is very satisfactory; it has been reduced from Rs. 34,343 to Rs. 4,597. The Superintending Engineer remarks that the collection has been good, and the adjustment of practically the whole of the arrears is satisfactory.

Of the total, Rs. 18,486, remitted and written off, Rs. 17,504 were classed as remission, and Rs. 982 written off as irrecoverable. Including miscellaneous revenue, the total amount realized by the Deputy Collector was Rs. 2,63,800 as against Rs. 2,43,076 realized in the previous year.

The amount Rs. 16,101, shown above under (*a*) unirrigated crops, includes Rs. 15,499, remitted on lands that came under lease late in October, and consequently did not derive benefit from the water.

25. Three appeals to the Collector against orders of the Divisional Canal Officer, Akhoyapada-Jajpur Division, were allowed. No appeals were presented from the other divisions. A certain number of cases are also dealt with by the Superintending Engineer, who has the power of revising the proceedings of Divisional Canal Officers. In the year under review the proceedings were called for in five cases. In three of these the assessments were cancelled or modified, and in two the Superintending Engineer declined to interfere. APPEALS.

26. In the Revenue Division one case was brought for opposing a process peon in a certificate case, and in the Akhoyapada-Jajpur Division one case CASES UNDER ACT III (B. C.) OF 1876.

was instituted for attempting to cut a flood bank, and another for cutting a distributary bank. In all cases a conviction was obtained.

REVENUE ESTABLISHMENT.

27. The cost of the Revenue Establishment for the last five years is shown below :—

The increase occurs mainly in the temporary establishment employed in the revenue division, and is due to the large areas which had to be assessed during the last half of the year.

* Exclusive of the receipts from Transport Service and hire of boats and steamers.

The receipts are considerably greater than in any previous year, and, as the Superintending Engineer remarks, increased navigation receipts have the advantage over those from irrigation that they are attended with little or no extra expense.

The Superintending Engineer writes :—

"The trade in rice which was very active in the previous year, was maintained notwithstanding the failure of the crop in parts of Orissa. The price, though very high for Orissa,

was cheaper than almost anywhere else in Upper India, and there was a good margin for trade profits. The traffic in other food-grains suffered, however, from the bad harvest. Probably these grains were consumed locally to a larger extent than usual.

The increases under heads, Metals, Building Materials and Coal, are due to the railway works."

TRANSPORT SERVICE.

29. The total receipts from the Transport Service amounted to Rs. 35,838 against Rs. 25,761 in the previous year, showing an increase of Rs. 10,077. The cost of working the Transport Service, excluding the charge of Rs. 8,900 for tollage on Government vessels, which is practically a receipt, was Rs. 14,514 and the service therefore worked at a profit of Rs. 21,324.

There has again been a very satisfactory increase in the traffic, which is largely due to the railway works now under construction.

The increased charges are due to the increased traffic.

The charges during the year for repairs to steamers and accommodation boats amounted to Rs. 5,030 and were included under the general head of Tools and Plant.

MISCELLANEOUS RECEIPTS.

30. The following statement shows the Miscellaneous Receipts in detail for the last five years:—

Details.	1892-93.	1893-94.	1894-95.	1895-96.	1896-97.
1	2	3	4	5	6

Total ...	26,532	23,122	24,321	24,196	33,340

The increase shown in the receipts is thus explained by the Superintending Engineer:—

"The chief difference from the return of the previous year is owing to a sum of Rs. 8,312 included in the Brahmini-Byturni Division under head Other Items. This represents the balance at credit of the miscellaneous manufacture account of the Jobra Workshops after providing for engine and general charges and for repairs to machinery. It is of course only a profit to Government to the extent to which it was obtained for work done for private parties."

MAINTENANCE AND REPAIRS.

31. The expenditure on maintenance and repairs during the year is shown in the following statement, compared with the expenditure in 1895-96 and in 1894-95.

	1894-95.	1895-96.	1896-97.
1	2	3	4
	Rs.	Rs.	Rs.

Distributaries	27,950	32,694	31,658
Drainage and protective works	5,480	8,946	14,734
Cost of working Transport Service	13,094	12,851	8,326
Total ...	2,34,799	1,99,827	2,23,552

There was an increase of Rs. 23,725 in the cost of maintenance and repairs, as compared with 1895-96. The increase is chiefly due to silt clearance and repairs to canal banks. The expenditure on extensions and improvements was mainly incurred in revetting with stone portions of the banks of the Kendrapara and Gobri Canals, to protect them from the wash caused by steamers, and opening a channel at the north end of the Brahmini weir to allow of water being taken into natural channels for the irrigation of Dalwa rice.

HEAD-WORKS.

32. The cost of maintaining each of the weirs is shown below :—

NUMBER OF WEIR.	Length.	EXPENDITURE.			RATE PER RUNNING FOOT.		
		1894-95.	1895-96.	1896-97.	1894-95.	1895-96.	1896-97.

Total of all weirs ...	18,497	49,427	45,440	40,107	2 67	2·40	2·11

The expenditure on the weirs was about normal with the exception of the Byturni Weir, on which Rs. 4,975 were spent in carrying out special repairs to the floor which was damaged by the high flood of 1896.

MAIN AND BRANCH CANALS.

33. The following statement shows the expenditure on each canal for the last three years :—

MAIN AND BRANCH CANALS.		EXPENDITURE.			RATE PER MILE.

Total Main Canals ...	279¾	1,21,524	82,755	1,05,461	477	296	377

The Kendrapara Canal was closed for a longer period than in the previous year, and a large quantity of silt was cleared. The banks were also raised where too low, and injury caused by the wash of steamers was repaired.

The increased expenditure on the High-Level Canal, Range I, is attributed partly to payment for weed-clearing done in the previous year, and partly to heavy outlay in repairing the planking of canal bridges.

Substantial repairs were carried out to the buildings on the Machgong Canal.

DISTRIBUTARIES.

34. The maintenance cost of the distributaries, per mile, is shown below. The average rate of Rs. 31 shows a satisfactory decrease, as compared with the average mileage rates of 1895-96 and of 1894-95, which were Rs. 33 and Rs. 36, respectively :—

	1894-95.			1895-96.			1896-97.

Total ..	768¾	27,948	36	995½	32,695	33	1,069¾	31,664	31

The lengths of distributaries in the above are those which have been brought on the revenue account, and consequently differ from the lengths given in paragraph 13 which include all so far advanced as to be fit for use, whether the capital account is still open or not.

DRAINAGE AND PROTECTIVE WORKS.

35. The total expenditure on Drainage and Protective Works was Rs. 18,876, against Rs. 8,945 in 1895-96. It includes the up keep of 178½ miles of flood embankments, and 279¾ miles of drainage cuts. The greater part of the expenditure was incurred on repairs to flood embankments, and was due mainly to the effects of the high floods of the year.

DREDGING AND SILT-CLEARING.

36. The following Table shows the cost of silt clearing and dredging during the year 1896-97 :—

NAME OF CANAL.	SILT CLEARING.			DREDGING.

Kendrapara, Kendrapara Extension, Gobri and Gobri Extension Canals ...	5,36,701	4·90	2,600	5,36,701	1·10	652

The increased expenditure on dredging is due to the long flood in the Mahanadi.

The Superintending Engineer remarks that special attention is being given to measures which should prevent, or at all events lessen, the deposit of silt in the heads of the canals.

PLANTATIONS.

37. The following Table shows the state of the plantations for the last two years :—

DIVISION.	1895-96.	1896-97.	Difference.
1	2	3	4
	No.	No.	No.
Mahanadi	36,954	34,829	(—)2,125

Acquapada-Jajpur ...	26,183	26,287	(+)104
Total ...	1,36,330	1,33,780	(—)2,550

The decrease in the Mahanadi Division is attributed mainly to the loss of a large number of seedlings.

The receipts from plantation amounted to Rs. 2,998 against Rs. 2,520 in the previous year. The expenditure under this head chargeable to the Capital Account was Rs. 636, and to the Revenue Account, Rs. 181.

MIDNAPORE CANAL.

38. The Capital, Interest, and Revenue Accounts of this canal are given below:— CAPITAL ACCOUNT.

The capital outlay was incurred on the construction of a new dock at Mohunpur, which was still in progress at the end of the year.

Owing to the great difficulty experienced with water in the dock excavation, a revised estimate, amounting to Rs. 16,216, was recently sanctioned for completion of the work. The outlay up to the end of March 1897 was Rs. 11,712.

NOTE.—The details by heads of expenditure for the year 1895-96 and nine preceding years will be found in the table given in paragraph 40 following.

There was an increase in the receipts from all sources and a decrease in expenditure, the net result being a profit of Rs. 45,358, as compared with a deficit of Rs. 12,480 in the previous year.

EARNINGS. 39. The earnings of the Canal, *i.e.*, the assessed water-rate value of the irrigation done during the year, the assessed tollage plus the actual miscellaneous receipts under Navigation, and the actual receipts under the head Miscellaneous, are compared below with the actual outlay:—

NOTE.—Of this the length of distributaries is 283·97, and village channels 29·58.

The percentage of area irrigated was almost the same as that of the previous year.

42. The following statement shows the areas commanded by the distributaries, and the number of outlets in use:— OUTLETS.

There was a decrease in the number of both temporary and permanent outlets, owing to the better regulation and sizing of the outlets.

43. The average rainfall of the last five years at four stations within the canal-irrigated area is shown below:— RAINFALL.

Though the rainfall was much greater than that of the preceding year, it was unfavourably distributed. Good rain fell from May to September, and no difficulty was felt by the cultivators either in sowing or transplanting paddy; but there was an entire cessation of rain from the end of September. The crops consequently withered in most places, especially in the unirrigated tracts, and the outturn was very poor.

The rainfall in the kharif season was distributed as follows:—

FLOODS.

44. The following table shows the highest levels of the Cossye and Rupnarain rivers, compared with those of last year, and with the highest recorded levels:—

	Kantapukhur	20th Do, do. ...	15·50	Do. do. ...	15·00	Do. do. ...	16·80

The greatest discharge of the Cossye during the year was 70,319 cubic feet per second on the 22nd August 1896, against 14,571 cubic feet per second on the 19th and 20th September 1895. The discharge of the Cossye at Midnapore fell very low during October, when the demand for canal water was greatest, the average discharge for the whole month being only 419 cubic feet per second. The minimum discharge occurred on the 5th March 1897, when only 15 cubic feet per second was registered.

The Superintending Engineer remarks:—

"There were high floods in nearly all the rivers crossed by the Midnapore Canal during the year. The highest reading of the Cossye above weir was 89·00 on the 22nd August as compared with 85·50 on the 19th September 1895, the highest reading on record above the anicut being 92·30.

"The interruption to traffic at Panskurah during the flood season has been the subject of discussion for many years. The question has been carefully considered by Mr. Barlow during the past year, but so far he has not been able to submit any definite proposals which could be likely to remove the obstruction. It has, however, been ascertained beyond doubt that if the river does not rise above 28·00 level, there is little or no interruption to traffic, but with high floods (35 is the highest flood level) a backwater is formed extending from the lock to the under sluices in which very heavy silting takes place, and the silt cannot be scoured out until the river falls below 20·00. It is difficult to know what to advise under the circumstances. Meanwhile observations are still being taken with the view of obtaining some solution of the difficulty. The floods caused many breaches in the embankments, but no damage was done to the Head-works. The Selye at Ghattal was also in high flood, the gauge reading, 30·50, on the 23rd August 1896 being the highest recorded."

45. The areas of the crops irrigated during 1896-97 and the ten previous years, as also the average annual rainfall, are shown below:— IRRIGATION

* Average of four stations throughout the irrigated areas under the Midnapore and Panchkurah weirs.

The total area irrigated during the year was 65,183 acres, as compared with 65,251 acres of the previous year. A much larger area would have been brought under lease, but all leases applied for after the 20th October had to be refused owing to the small discharge available from the Cossye river.

It has been found desirable to restrict the area to be irrigated under long lease to 72,000 acres, and if water is still available, it will be supplied to such areas as are adjacent to the distributaries, in single waerings at the rate of eight annas per acre. To prevent the rush for leases in October it is proposed to fix some date, probably the 15th September, after which no application for a long lease will be received. In last year's Revenue Report the question of the non-renewal of lapsed leases was discussed, and it was intimated that some of the rules under which leases are granted would probably be relaxed. During the year 1896-97 a concession has been granted as regards remeasurement, the penalty rate has been abolished, and all water-rates above Rs. 5 are now collected in two instalments. On the 31st March 1896 long leases for 17,201 acres expired, and during the year applications for renewal of 18,841 acres were received. There is, however, no doubt that the leases would have been renewed again even if the concessions had not been granted, so great was the demand for water.

46. The following table gives particulars about the areas under lease:— LEASES.

DUTY OF WATER.

47. The duty obtained in the kharif season, calculated from the gross discharge, is given below for the last three years:—

PARTICULARS.			Under Midnapore weir.	Under Panchkurah weir.
1			2	3
1894-95 Kharif ...	Acres		30,209	2,731

	Duty on gross supply ...		105	64
1896-97 Kharif ...	Acres		56,334	7,763
	Duty on gross supply ...		232	228

The Superintending Engineer is of opinion that this system of calculating the average duty of water is of no practical value. Unfortunately there is no accurate information available of the area irrigated between September and November.

CROP EXPERIMENTS.

48. The usual crop experiments were made during the year. The total number of these experiments was 70, of which only 8 were made on unirrigated lands. The average outturn of this irrigated crop was about 20 maunds per acre of grain and 42 maunds of straw weighed dry. In one experiment made on No. 1 Distributary, where the water-supply was good and taken early, the outturn of paddy was 34½ maunds, and straw 95½ maunds.

In addition to the above 14 experiments were made by the Special Deputy Collector; they gave an average outturn of 20 maunds of paddy, and 36 maunds of straw, weighed dry, per acre, against 14 and 28 maunds respectively of the unirrigated area.

49. The balances, assessments, and recoveries of water-rates on the Midnapore Canal during the last five years are shown in the following statement:— ASSESSMENTS, COLLECTIONS, AND BALANCES.

1896-97 ...	10,124	1,05,660	1,15,784	1,00,618	3,727	11,439

The cause of the large balance at the end of the year is thus explained by the Superintending Engineer:—

"The balance, a part of which is unrealizable, includes Rs. 2,562-9-6 on account of illicit irrigation which could not be collected, as the cases were disposed of in February and March. The tardiness of the villages in applying for leases put obstacles in the way of prompt collection of water-rates, as the assessment of partly irrigated villages took up a great deal of time, owing to the unirrigated areas having to be measured up and excluded from assessment. Again, no less than 209 petitions were filed, praying for remission, on the ground of non-supply of water, and the Executive Engineer recommended remission in 63 cases. The investigation of these complaints delayed the work of assessment, and also that of collection. The demands in a few villages could not likewise be collected, as the villagers objected to sign the kabuliyats, until the cause of increased areas, due to re-measurement, was explained to them, and this could not be done until the end of March. The payment by two instalments in the case of demand above Rs. 5 also told upon collections to a certain extent.

But for these unfavourable incidents the collections of the year would have been more satisfactory. The number of collecting agencies was 14 only, who realized a sum of Rs. 1,00,565 from 38,149 rate-payers residing in 934 villages, in three months' time. On the whole, therefore, the percentage of collection must be considered creditable to the Special Deputy Collector and his staff.

Out of Rs. 1,00,618 collected, Rs. 3,731 only were realized by means of the certificate procedure."

50. The following statement shows the arrears of water-rates of each former year which were outstanding at the beginning of 1896-97, as well as the current dues, and the extent to which they have been worked off:— ARREARS.

REMISSIONS.

51. The sum of Rs. 3,727-8-6 was remitted during the year 1896-97 against Rs. 477-2-3 in the previous year.

The following are the details:—

	Rs.	A.	P.
Remissions granted by the Collector and Superintending Engineer under Rule 28 of the Midnapore Canal rules...	193	1	0
Remissions granted by the Special Deputy Collector under Rule 24, clause I	3,293	15	0
Remissions granted by the Special Deputy Collector under Rule 24, clause II	240	8	6
Remissions granted by the Special Deputy Collector under Rule 25	.....		
Total ...	3,727	8	6

The remissions are much larger than those of 1895-96. This is due to the remission of Rs. 2,854, with the permission of the Superintending Engineer, on account of the extra rate of 12 annas imposed during 1895-96 on several villages, and also to the remission of Rs. 240-8-6 on account of deficient supply of water, at the recommendation of the Executive Engineer.

Rupées 711-15-9 were refunded during the year, of which Rs. 329-3-6 represent collections at the extra rate of 12 annas made in 1895-96.

CERTIFICATES.

52. The extent to which recoveries by means of certificates were made during the year is shown in the following statement:—

Total ...	245	2,469	592	3,946
Balance outstanding at the close of the year ...	58	664	31	200

The number of certificate cases instituted during the year was almost double that of the previous year. The increase is attributed mainly to the efforts made by the Special Deputy Collector to collect arrear demands. Some certificates were also issued for the realization of the current demand in villages which would not easily pay up. The number of outstanding cases at the end of the year was 31 against 58 of the year before.

There were no cases of arrest of judgment-debtors. In no case was it necessary to sell the judgment-debtor's immovable property, and in only one instance was resistance offered to the process of the Court.

53. The number of complaints filed during the year, and the nature of their disposal, is shown in the following statement:— COMPLAINTS.

55. The navigation receipts were the highest on record during the last ten years; they amounted to Rs. 1,54,215, as compared with Rs. 1,43,918 in 1895-96. There was an increase under all heads, in the number and tonnage of boats, and in the number of passengers. NAVIGATION.

The Superintending Engineer writes:—

"The principal increase was in down traffic. As to exports the principal excess over the previous year was in paddy and rice; under imports the increase was confined to iron, coal and coke, which were carried by the canals for use in the Bengal-Nagpur Railway extension now under construction. The rice crop, as a rule, was a good one, except in the unirrigated tracts and in some lands in the south of the district: hence the large exports are most remarkable, as showing that the high prices induced the villagers to take out and sell part of their reserve stock. The paddy and rice for export mostly came from the canal-irrigated tracts and from the south of the district below Narainghur. The slight variations under other heads call for no remarks. It should be noted here that the traffic in the tidal reaches during January and February was small. The Calcutta Steam Navigation Company's ordinary steamer service continued to ply round by the river till April, when the winds and high tides began to get strong and made navigation somewhat slow and dangerous. As reported last year, the water in these reaches became very low during these months, owing to the low tides and the large deposit of silt in them."

The outlay on repairs to the main canal, including that on head works, on working steamers, and on drainage works, but excluding distributaries, was Rs. 82,933, against Rs. 1,10,446 in 1895-96.

The expenditure was considerably less than that of the previous year.

HEAD WORKS.

58. The expenditure on head works was small, being confined to petty works necessary to keep the weirs, &c., in proper repair.

The expenditure on the Midnapore and Panchkurah head works during the year was Rs. 7,997 and Rs. 4,696, respectively, against Rs. 20,499 and Rs. 6,275 in the previous year. On weirs the expenditure was at the rate of Re. 0·52 per foot run at Midnapore, and Re. 1·14 at Panchkurah, as compared with Rs. 4·25 and Re. 1·25, respectively, last year.

59. The mileage rate for repairs to the main canal was Rs. 1,728, as compared with Rs. 2,301 in the previous year. MAIN CANAL.

The cost of working Government steamers and *bholia* was Rs. 3,011 against Rs. 3,120 in 1895-96. This expenditure was chiefly confined to working the steam-launch *Kabaduck*.

The expenditure on Tools and Plant was Rs. 30,827, as compared with Rs. 51,364 in the previous year. The outlay was mainly incurred on thorough repairs to dredging plant at a cost of Rs. 29,537.

60. On distributaries, the expenditure on repairs was Rs. 25,222, or Rs. 89·12 per mile, against Rs. 24,601, or Rs. 87 per mile, in the previous year. The expenditure of the year was very high, and was incurred in thorough repairs to masonry regulators, head sluices, bridges, and in bringing the worst distributaries up to proper section. DISTRIBUTARIES.

The cost of maintenance per mile of both the main canal and the distributaries is given below for each of the last ten years:—

The quantity of silt excavated during the year from the main canal and entrances was considerably more than in the previous year, viz., 5,680,090 cubic feet, against 4,742,703 cubic feet. The cost of lifting and removing was Rs. 32,885 as compared with Rs. 25,283 of the year before. The rate increased from 5·33 to 5·78 per 1,000 cubic feet. The Kantapukur entrance gave great trouble during the year, requiring the dredging of a channel 900 feet long in the bed of the river.

PLANTATIONS.

62. The expenditure on plantations during the year was Rs. 287, against Rs. 130 of the previous year. The following table compares the condition of the plantations in 1896-97 with 1895-96:—

YEAR.	Trees upwards of 12 feet high.	Saplings between 4 and 12 feet.	Seedlings below 4 feet.	Total.

1896-97 ...	15,813	4,545	3,486	23,844

GENERAL RESULTS.

63. The result of the year's operations is satisfactory. The season was one of good rainfall at the beginning, but owing to the cessation of the rains in September, the demand for canal water during the remainder of the season was very great.

The receipts from all sources show an increase, and the working expenses have been reduced.

The cost of maintenance was Rs. 40,191 as compared with Rs. 61,398 in 1895-96. The reduction in expenditure is due to the fact that no special repairs were done to the canal. The receipts were the highest recorded since the opening of the canal ; the expenditure was much below that of the previous year, and the net revenue was far greater than anything hitherto obtained.

RAINFALL.

66. The rainfall register during the year at Contai station was 61·38 inches as compared with 43·26 inches in 1895-96, and an average of 61·52 inches for the previous five years. The rainfall was very good at the beginning of the season, and though it was scanty in September, this suited the rice in the low lands of Hijili where the crops were excellent.

FLOODS.

67. There were no high floods in 1896-97 in any of the rivers crossed by the canal, and no breaches occurred. The following statement shows the highest gauge readings of the rivers Hooghly, Haldi, and Russulpur :—

(b) Inclusive of passengers, 23,243, 17,554, 21,209, 31,792, 41,286, 16,484, 23,613 and 23,356 carried by the Company's steamers.

The tollage receipts amounted to Rs. 89,511, and show an increase of Rs. 28,834 compared with the figures of 1895-96.

The Superintending Engineer writes:—

"The gross tonnage of boats was 290,595, against 208,574 of the previous year, and the number of boats increased from 15,692 to 22,979. Out of the earnings of the year a sum of Rs. 783-11-9 was remitted to the Calcutta Steam Navigation Company, being the difference between the local and through rate of tolls on such days as they maintained a separate steamer in the Hijili and Orissa Coast Canals, the passengers being transhipped at Kalinagar. This interruption of steamer service caused a great falling off in the number of passengers, as the figures for 1896-97 are for the whole year, whereas those for 1895-96 are for thirty-three weeks only

The only important change in the traffic was the great increase in the export of rice, viz, 80,520 tons, against 50,976 tons of the previous year. This was entirely owing to the high price of rice which prevailed in the Calcutta market on account of the famine in Bihar. The export of timber also largely increased, and this was due to the demand for wood for building boats for rice transport.

On comparing the receipts at different toll stations, a very large increase is noted at Kalinagar, viz., Rs. 11,551 for down traffic, compared with Rs. 6,788 of the previous year. Some 50,000 maunds of rice and paddy were transhipped here monthly during April, May and June until the lock was re-opened. On the first day that the lock was opened, 200 empty boats passed through it to go and procure rice from the various hâts on the Rassulpur river.

The Executive Engineer reports that a great deal of rice comes down the Sadar Khal, and that there are also several large hâts lower down on the Rassulpur river, from which rice might be exported by the Hijili Tidal Canal in the cold weather months, if the tollage rates were reduced. The question of reduced tollage on the Hijili Tidal Canal, in order to tap the traffic on the Rassulpur and Huldi rivers during the cold weather months, is an important one, and a separate reference will be made to Government on the subject. The crossing of the Huldi river has kept its old course, but the entrance channel at Etamagra Lock is deteriorating, and parts of the banks are being cut back. It is satisfactory to note that the Rassulpur river continued to improve during the year. Dredging was started in the Sadar Khal, but little work was done, owing to the breakdown of the dredger."

* These are for Original Works in cutting away Terapakia Supply Channel junction bunds, and in removing bunds and silt at Kalinagar.

SILT CLEARANCE.

71. At Terapakia, silt was cleared by hand from 12th mile 28 chains to 14th mile 38 chains of the canal, 3,210,991 c. ft. being removed at a cost of Rs. 12,373. Half a lakh of silt was removed from the inner channel of the lock at Kalinagar at a cost of Rs. 252, and another 20,000 c. ft. was also cleared from outside the lock for Rs. 66.

PLANTATIONS.

72. The following table shows the state of the plantations for the last two years:—

YEAR.	Trees upwards of 12 feet in height	Saplings from 4 to 12 feet in height.	Seedlings under 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1895-96 ...	6,410	5,034	320	11,764
1896-97 ...	6,148	5,355	226	11,729

GENERAL RESULTS.

73. The result of the year's operation was very satisfactory. Notwithstanding the closure of the Kalinagar lock, which lasted over three and half months, the net revenue of the year has far exceeded that of the last year. It is hoped that with the through traffic now re-established, the result will be far more satisfactory in future years.

The irrigation receipts show a very considerable improvement which was due to the largely extended area under irrigation during the year. Navigation and miscellaneous receipts have also increased. The working expenses somewhat exceeded those of the previous year, but were far below the average of the last ten years. The cost of maintenance and repairs was larger than in 1895-96, mainly because there was a closure of the canals in the year under review, and partly because extra silt clearance in front of the locks on the canals was necessary on account of the unusually large amount of silt in the water. The works carried out under the head of Extensions and Improvements

were the completion of the surface supply inlet at Dehri; the raising of certain bridges on the Arrah Canal; the remodelling of lock khalasis' sheds, and several works of small importance. The Eastern Main series of canals was closed from the 25th April to the 11th June 1896; the Western Main Canal series was closed from the 26th March to the 6th April 1896.

LENGTHS OF CANALS AND DISTRIBUTARIES.

VILLAGE CHANNELS AND OUTLETS.

78. The lengths of village channels and the number of outlets in use during the year were was follows:—

DIVISION.	Total length of village channels completed up to end of 1895-97.	Total number of temporary and permanent outlets in use during 1896-97.	Number of permanent outlets.
1	2	3	4
	M. Ft.	No.	No.

Total, 1895-96 ...	2,288 3,624	5,674	3,519

The increase in the number of temporary outlets from 2,155 to 3,219 is due to the very large rabi irrigation during the year.

The channels made by the villagers themselves increased during the year by nearly 400 miles. This, as the Superintending Engineer observes, is satisfactory. Steady, though slow, progress is being made in improving village channels.

79. The following is a statement of rainfall in the vicinity of the Sone Canals for the last five years:— RAINFALL.

The rainfall in the kharif season was abnormally bad: the average for the months of August, September, and October is about 23 inches, whereas in 1896 it was only 12·50 inches. The rain ceased entirely about the 22nd of September, and none fell during the "Hathia Naichatra" (26th September to about 10th October); the demand for water was accordingly most keen. The rainfall in the rabi season was considerably above the average, and it is interesting to observe that, in spite of this fact, the area of rabi irrigated was the largest on record. This exemplifies the effect of deficient rainfall in September and October in producing a large rabi demand.

80. There was no high flood in the Sone during the year. The highest level at the Dehri weir was 1·50 feet lower than the highest level in 1895-96, as is shown in the statement below. The R. L. of the crest of the weir is 334·00:— FLOODS.

* Under the new rules on the Sone Canals there are no separate leases for sugarcane; they are included in each season lease.

The total areas irrigated under each form of lease are abstracted as follows for convenient reference :—

The areas irrigated in 1896-97 in both the kharif and rabi seasons are the largest on record.

The Superintending Engineer gives the following graphic description of the irrigation seasons and of the measures taken to cope with the unprecedented demand on the canals:—

"In the kharif season there were two periods of great pressure—in the transplanting season in August, and in October. The average discharges of the canals in August were about 10 per cent. larger than have ever been carried before in that month. The greatest difficulty was found in many places in getting the water to the fields in the lower parts of the areas leased. The cultivators in the upper parts of the village channels consumed the discharge allotted to the village. In the same way there was a difficulty in getting the water to the ends of the distributaries: the villages which had leases in the upper reaches drew all they possibly could, and the canal officers had, in some cases, to forcibly restrict the discharge of the upper outlets in order to force the water to the lower ones. The same difficulty occurred in the main canals, the lower extremities were indifferently supplied. All canal officers were busily employed trying to distribute the water equitably, and, in the end, with fair success; but, had it not been for the rainfall after the 21st of August, there would have been some leases in which canal water would have been insufficiently supplied. As it was, there were some few cases on high lands and on sandy lands where the supply given was short of the requirements, and a good deal short of what the people would have liked to have had. Indeed, if the water from the 21st July to the 21st of August had been supplied according to what the people wanted, the canals would have had to have been twice the size they are. The whole country was clamouring for water at the same time, and it took a month at least to supply water to transplant all the fields under lease, even although a rigid system of *tatils* was enforced. The people complained bitterly of the *tatils*, but without them the irrigation could not have been completed at all.

In September 1896 rainfall was less than 2½ inches in the tract commanded by the canals; there was consequently a pretty strong demand for water during the whole month. It is usual for the cultivators to *nigar* their fields, that is, to drain them off in the middle of September, before the *Hathia naichhatra*, but this was not generally done. On the 22nd of September 1896 the rains ceased entirely. In the *Hathia* (26th September to about 10th October) and during the whole of October there was no rain at all. The demands for water were again insatiable. Usually the demand slackens after the 15th or 20th October, but in 1896 it was continuous all through the month. The kharif season ends technically on the 25th October, but water was supplied for rice crops up to the end of the first week in November, and the fact that water was given so late for the rice crop prejudiced the *rabi* area to a certain extent, as a larger area of that crop could have been watered if the available supply had not been absorbed by the rice in the early part of November.

Special measures were adopted in October to ensure a larger supply of water than usual. The shutters of the weir were specially treated. The Main Western Canal was run at higher levels than have ever been previously recorded. The Superintending Engineer found it necessary to be constantly on the spot encouraging larger and still larger discharges: all the subordinates feared to exceed what they thought was the limit of safety, and they were right to be cautious. No doubt the canals were forced at some risk; but the result was successful and the fact has now been established that the canals will carry a good deal more than is laid down as their maxima. But of course such discharges need care and intelligent supervision.

The average discharges during the ten days of greatest pressure, when the largest quantities were passed, have been :—

	Cubic feet per second.		Cubic feet per second.	
Main Western Canal in October 1896.	4,296	as compared with	4,009	the previous maximum.
Main Eastern Canal in October 1896.	1,893	as compared with	1,733	the previous maximum.

But even these discharges were insufficient to please the people. During the end of September and the first fifteen days of October, the discharges were limited by the capacity of the canals. After that the discharges of the canals were limited by the amount of water available in the river. The Sone itself was not copious enough to satisfy the thirsty cultivator.

The level of the water in the river fell below the crests of the shutters: all the leakage was stopped as far as possible: a staff of men was employed stuffing every cranny in the shutters with straw, and all the water the river could supply was sent down the canals. The gauged discharges showed that the supply in the Sone was only 5,610 cubic feet per second on the 25th of October 1896, as compared with 8,542 cubic feet, which was the minimum previously recorded since observations of the river in October were commenced in 1885."

DISTRIBUTION BY SUBDIVISIONS.

The areas irrigated in 1896-97, in each division and subdivision, are shown below:—

LONG-TERM LEASES

Particulars of the long-term leases are given in the following statement:—

DIVISION.	Leases which lapsed on 31st March 1896.	LEASES IN FORCE ON 1ST APRIL 1896.			LEASES ENTERED INTO DURING 1896-97.		Total area under long-term leases in 1896-97.
		Seven-year leases.	Five-year leases.	Three-year leases.	Seven-year leases.	Three-year leases.

Total ...	69,906	172,317	...	1,673	85,957	644	260,591

Five-year leases have now entirely disappeared, and the remaining three-year leases will soon expire also.

The Superintending Engineer remarks that during the year 1897-98 only a few three-year leases expire, and there is no doubt that the area under lease will exceed the 275,567 acres which was the area leased as long-term leases in 1893-94. Indeed, in the Arrah Division the area under lease is above the previous maximum in that Division.

UNAUTHORIZED IRRIGATION.

83. The assessments for the unauthorized use of water, and for wastage, were in excess of those of the previous year. The figures for the last five years are given below:—

	1892-93.	1893-94.	1894-95.	1895-96.	1896-97.
	Rs.	Rs.	Rs.	Rs.	Rs.
Unauthorized use of water ...	14,549	4,760	6,910	8,568	13,253
Wastage of water ...	105	615	682	1,103	2,460

The assessments for wastage of water were almost entirely made in the rabi and hot-weather seasons, there was little or no wastage in the kharif season.

SALE BY VOLUME.

84. The assessments for water sold by "volume" amounted to Rs. 28,143, against Rs. 22,395 in the previous year.

The approximate area irrigated is given below:—

Division.	Approximate area, 1896-97.	Approximate area, 1895-96.
1	2	3
	Acres.	Acres.
Eastern Sone	8,143	357
Arrah	6,955	2,948
Buxar	3,002	10,551
Total ...	18,100	13,856

The Superintending Engineer writes:—

"The amount of water sold was limited by the quantity available: there was a very large demand, but it was impossible to satisfy it, simply because the supply of water was consumed by those who had the right to it. The largest sale by vloume was effected in the Bikram subdivision of the Eastern Sone Division, where the zilladar, Babu Jharkandi Lall, was particularly energetic in the matter. The Ageaon and Koath subdivisions also did very well. This system of sale by volume gives a great deal of trouble to all concerned with it, and is open to much abuse, but there is no doubt that it was the means of saving some 18,000 acres of rice from total loss."

IRRIGATION IN EACH DIVISION (UNDER THE NEW RULES).

Sone Canals ...	215,390	99·44	115,343	72·87	41,664	44·23

The Superintending Engineer remarks:—

"During the ten days of maximum demand in October the duty was 54 acres to the cubic foot in the Western Main Series of Canals on the assumption that the whole area was irrigated in those ten days, which is not quite correct. The figure is, nevertheless, an evidence of progress, as hitherto 50 acres has been taken as the limit. During the month of October the average depth of water placed on each field in Shahabad, on the assumption that all the water reached the fields, was rather more than 12 inches."

The average duty for the Sone Canals, in the kharif season, was a little better than that obtained in 1895-96; the duty in the rabi season was considerably higher.

Observations have been made in the Arrah Division, for the last ten years, showing the aggregate depth of water placed on the rice fields during the months July to October, on the hypothesis that the entire "utilized" discharge of the canal reaches the fields. In 1896 the total depth of rain-water and canal-water on the fields was 4·78 feet as compared with an average of 5·51 feet for the previous nine years.

CROP EXPERIMENTS.

87. *Crop experiments.*—The results of the experiments made during the year to determine the yield of rice and wheat crops irrigated from the canals are given in the following tables:—

DEMANDS, COLLECTIONS AND BALANCES.

88. The demands, collections, and balances of water-rates for the last five years are shown below:—

YEAR.	Amount outstanding at commencement of year.	Amount falling due for recovery during the year.	Total for recovery.	Cash realisation.	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7

1896-97 ...	22,993	9,50,866	9,73,859	9,58,926	5,505	9,428

There were no changes of importance in canal administration during the year. It was, however, the last year of the old rates; from the year 1897-98 the water-rates have been slightly increased.

ARREARS.

89. In the following statement the Deputy Collector shows the extent to which the arrears as well as current demand have been worked off:—

	Demand of 1896-97, consisting of—	Collected or remitted in 1896-97.	Percentage of demand adjusted.	Unadjusted balance at close of year.
1	2	3	4	5
	Rs.	Rs.		Rs.

Total ...	9,73,858	9,64,430	99·03	9,428

The results which this statement exhibits are received with great satisfaction. They are most creditable to the Deputy Collector, Moulvi Syed Mohomed Nassiruddin, and his staff. The current demand is unusually large and the arrears are unprecedentedly small. The percentages of collections are unrivalled.

COLLECTIONS.

90. The following statement gives the collections in each district:—

Beides the collections of Rs. 9,58,925 shown above, a further sum of Rs. 425 was credited to water-rate accounts as below:—

	Rs.
Surplus or excess recoveries	(—)1,199
Process fees in certificate cases	1,539

Total ...	10,113	14,502

The amount written off as irrecoverable was very small, and was much less than in any previous year.

Of the Rs. 8,529 remitted by Executive Engineers, Rs. 4,471 were in reality refunds on account of amounts which had been recovered by the Deputy Collector before the remission statements had been received by him.

The following table explains the remissions made by Executive Engineers:—

The totals for the last five years are given below:—

1892-93.	1893-94.	1894-95.	1895-96.	1896-97.
Rs.	Rs.	Rs.	Rs.	Rs.
4,620	2,180	2,640	2,430	8,529

The remissions were unusually large during the year, owing partly to the fact that the Superintending Engineer issued orders that, as the year was one of extreme pressure in the kharif season, remissions were to be given more freely than usual when there were bad crops; partly to the fact that the large area irrigated naturally involved larger remissions; and partly to the fact that caterpillars did a good deal of damage in some parts to the rabi crops.

The percentage of remissions on the gross demand was as follows in each Division:—

	Percentage of remissions to gross demand.

The increase in permanent establishment and travelling allowances, under Collector, is due partly to increase in salaries consequent on promotion, but mainly to increase in travelling allowances due, apparently, to the greater activity of the staff. The increase in contingencies is partly due to the cost of altering a number of old receipt forms which were in stock. The increase in the establishment under Executive Engineer is mainly due to extra temporary establishment necessary to deal with the increased area under irrigation. The percentage is the lowest on record.

93. The total cost of the revenue establishment under each Executive Engineer, per acre irrigated, is shown below:— COST PER ACRE.

94. The following statement gives particulars of the disposal of complaints. The Superintending Engineer states that an increase in the number of complaints was to be expected in a year of such large irrigation. They involve a very great deal of work.

CASES UNDER ACT III (B.C.) OF 1876.

96. Twenty-five cases were tried by Executive Engineers vested with Magisterial powers under the Act. Thirty-three persons accused were convicted, and nine discharged. The fines imposed amounted to Rs. 248, and the number of days' imprisonment aggregated 67.

CERTIFICATE CASES.

97. The Special Deputy Collector in charge of the collections continues to deal with the certificates required in realizing water-rates.

A comparative statement of certificate cases instituted during 1895-96 and 1896-97 against defaulters, for failing to pay water-rates, in the districts of Shahabad, Patna and Gaya, is given below:—

The statement shows that 1,036 cases were instituted during the year, against 1,253 and 2,049 in the two previous years.

There were 292,536 rate-payers, out of which number certificates were filed against 1,036 only. The collections were made with very little friction, the number of certificates issued being less than in any previous year.

* There is no longer any Government transport service. These receipts are on account of hire of steamers, boats and sundries.

The increase of Rs. 5,975 in the receipts is mainly due to the transport of railway materials for the Mogulserai Gaya-Railway near Dehri.

On the Patna Canal the steamer makes one trip in a week each way. On the Arrah and Buxar Canals there is a bi-weekly service. Rupees 9,030 were realized during the year for the hire of steamers, and Rs. 4,531 for the hire of accommodation boats, mud punts, and jolly boats, as compared with Rs. 9,000 and Rs 891 respectively in the previous year. The increase is entirely due to the hire of mud punts which were let to Messrs. Bird & Co. for the carriage of the railway material to Dehri.

REPAIRS TO HEAD WORKS.

102. The cost of repairs to head works during the last five years was:—

	1892-93.	1893-94.	1894-95.	1895-96.	1896-97.

The expenditure on the Sone weir was increased by the repair of the pitching of part of the weir which had, in the course of years, been displaced to some extent.

* Exclusive of Rs. 2,075 expended on maintenance and repairs in the Sone Canals, Revenue Division, and Rs. 23 paid for compensation in the Arrah Division.

† Exclusive of Rs. 23,974, Rs. 2 and Rs. 5,043 expended on maintenance and repairs Sone weir and head works, compensation, and refunds respectively.

The expenditure on "Maintenance and Repairs" exceeded that of the previous year by Rs. 18,048. The increase occurred, mainly because there was a closure of the canals in the year under review, and partly because extra silt clearance in front of the locks on the canals was necessary on account of the unusually large amount of silt in the water. The expenditure was, however, considerably below the average.

SILT-CLEARING AND DREDGING.

104. The following table gives particulars of dredging during the year, compared with the results of the two previous years:—

CANALS.	1894-95.			1895-96.			1896-97.

The rates given above include the cost of lifting the silt into barges, and of carrying it over the spoil banks, or discharging it into the river.

The measures which have been adopted to check the deposit of silt at the head of the canals, have continued to work successfully, but the results are not quite as good as those of the previous year. Very large discharges were passed into the canals during the year, and there was much more silt in the water, as was proved by the analyses at Dehri. The increased quantity of dredging was, however, mainly connected with the channel across the river Sone which has to be cut every year. There was a reduction in the quantity and cost of the dredging done in the Main Western Canal and head lock

REPAIRS TO DREDGERS.

105. The expenditure on repairs to dredgers is shown below for the last four years:—

	1893-94.	1894-95.	1895-96.	1896-97.

Total ...	13,744	11,630	5,170	2,855

The reduction in the cost of repairs in the last four years is most marked

The capital cost of the dredging plant now on the Sone Canals is given below :—

	Two English dredgers.	Two old Bruce's dredgers.	Twelve Fouracres' dredgers.	One new Bruce's dredger.	Mud punts.	Total.

Total capital cost of plant at end of 1896-97	1,21,205	33,027	1,06,901	547	3,12,863	5,74,543

There is a reduction due to the transfer of the second Bruce's dredger to the South-Western Circle. It would be possible now to sell some of the other dredgers if a purchaser could be found. Some of the Fouracres' dredgers will be dismantled.

The following statement shows the charges which should be added to the rates for dredging on account of interest on capital and repairs to the plant: no allowance is made for depreciation of the plant :—

The Superintending Engineer writes:—

"The Eastern Main and Patna Canals were closed from the 25th of April until the 11th June 1896. During the closure the base of the canal near the head, where it had been reduced in the previous year to 100 feet, was still further reduced to about 80 feet by the construction of a berm on the left bank. The effect appeared to be satisfactory. There was, however, somewhat more deposit on the head of the canal than in the previous year, but no dredgers were worked at all in the first reach, and there was no difficulty whatever in passing the full discharge into the canal.

The work done by hand in the Eastern Main Canal was the construction of the berm for reducing the bed width of the canal. This will not be required in future.

There is a large increase in the dredging rate; this is due to the small amount of work done, and to the fact that charges for establishment are incurred when the dredgers are not working at all. The dredging work was done entirely by Fouracres' dredgers."

The Main Western Canal was closed from 26th March to 6th April 1896, but no silt clearance by hand was carried out between the Head and the Regulator, except that Rs. 324 was spent almost entirely on silt clearance at site of the slip at Dehri.

In the Arrah Division silt clearance by hand to the extent of 1,019,222 c. feet costing Rs. 2,204 was executed during the year. Of this, 268,677 c. feet was in the main canal, and the remainder in the distributaries, where the deposits were larger than usual.

In the Buxar Division during the closure the following silt clearances were effected by hand:—

	C. ft.
In the Main Western Canal below the bifurcation	288,594
Cleaning channels above and below locks	169,807
Other places	48,680
Total ...	507,081

And in the distributaries during the year 500,426 c. feet of silt were excavated, but most of this was done, not for the purpose of silt clearance, but with the object of strengthening the banks of the distributaries.

The decrease is attributed to the great drought during the year, on account of which many trees, especially young ones died. Some trees were used for firewood in the dredgers.

The financial results of the year from plantations are expressed in the following table:—

DIVISION.	Receipts.	Expenditure.

MILLS.

110. A sum of Rs. 1,347 was realized during the year from the leasing of mills, against Rs. 1,180 in 1895-96. The expenditure on their up-keep was Rs. 283, against Rs. 269.

The increase in receipts is due to the rent received for the Nasriganj turbine, which is now leased for the whole year.

CALCUTTA AND EASTERN CANALS.

111. The Capital and Revenue Accounts of these canals are given below :— CAPITAL ACCOUNT.

The capital expenditure of the year was incurred on the work of canalizing the Bhangore khal, for which an estimate amounting to Rs. 10,84,513 was sanctioned in 1895. The amount expended during the year, including establishment and tools and plant, was Rs. 4,54,398, and the total expenditure on the work up to 31st March 1897 was Rs. 5,90,041.

The Superintending Engineer thus describes the difficulties attending the construction of the Bamonghatta lock :—

"Owing to a large number of springs having been met with at about 5 feet below ground level during the excavation for the foundation of the lock at Bamonghatta the original site had to be abandoned, and a new one selected lower down the Bidhydaree closer to its banks. The excavation at this site was nearly taken down to full level when a large spring burst out in the bed, which was quickly followed by several others. The earth got too soft and wet to build upon, and it therefore became absolutely necessary to sink wells, but as considerable difficulty was experienced in sinking them, it was determined to abandon this site also. By going further away from the river bank a good foundation of blue clay was found both for the inner and other locks, which enabled the work to be carried out very quickly. The inner bay of the Kulti lock was completed by the end of March, but a good deal of difficulty was experienced in building the river side drop wall of the outer bay. This lock has since been completed, and the work in the supply and drainage sluice is also well advanced."

Very good progress was also made with the remodelling of the canal between the two lock sites.

Silt clearance of Cut No. 2 in Assasuni khal	15,580
Total ...	49,059

The work of silt clearance in the Assasuni khal and Cut No. 2 was sanctioned by Government as test work, in order to give employment to the famine-stricken people in the Satkhira subdivision of the Khulna district.

The works were carried out by local labour.

The total expenditure for improving the Bhil route to Madaripur amounts to Rs. 22,860. This route now affords every facility of communication for steamers.

The percentage of the net revenue on the capital outlay is shown below for ten years:—

1896 97	4,68,975	59,55,328	4,39,938	2,30,759	2,09,179	3·5

The total receipts amounted to Rs. 4,39,938, as compared with Rs. 4,55,244 in the previous year, showing a decrease of Rs. 15,306. The working expenses were reduced from Rs. 2,91,640 to Rs. 2,30,759. The net revenue was Rs. 2,09,179 against Rs. 1,63,604 in 1895-96, but the increase is explained to be entirely due to the way in which the establishment charges have been apportioned between the works under Capital and Maintenance, the whole cost of the establishment having been charged against the work of canalizing the Bhangore khal. The result of the year's working may, on the whole, be considered satisfactory. The number of steamers and flats, which used the canals during the year, was 349 against 312 in the preceding year.

These are independent of the vessels which use the Sundarbans route; the number which passed through this route during the year was 1,336 against 1,482 in 1895-96, and 1,385 in 1894-95. The flats and steamers pay a nominal toll of Rs. 5 for each trip.

The tolls from boats and rafts, which constitute the chief source of revenue from these canals, amounted, during the year, to Rs. 4,04,946 against Rs. 4,15,123 of the previous year, the decrease being Rs. 10,177.

The Superintending Engineer writes:—

"Notwithstanding this decrease the collections must be considered satisfactory, when the failure of the rice crop in the eastern district is taken into account. On rice alone the loss of tolls amounted to Rs. 40,610, as compared with the previous year. If the rice crop had been better, the gross collection would have exceeded those of many previous years."

The following are the principal articles of traffic on the Circular Canal and Tolly's Nala for 1896-97, the increase or decrease in collections and maundage being shown against each:—

	Total 1896-97 ...	65,700	39,634	3,370	231	40	1,08,975

There was a decrease of 4,201 in the total number of boats which entered the canals during the year.

The number of small boats, or *saltis*, which entered Tolly's Nala from Kacrapookhar and paid tolls at Russa, increased from 20,854 in 1895-96 to 24,650 in 1896-97. Including these *saltis*, the total number of boats was 133,625 against 134,030 in the previous year.

The tonnage of boats, as determined by canal measurement, and the estimated weight and value of the cargo, are shown in the comparative statement below:—

Year.	Canal.	Number of boats, including passenger and empty boats, but excluding rafts.	Tonnage of boats by canal measurement.	Weight of cargo.	Value of cargo.	Tollage, including demurrage.	Percentage of toll on value of cargo.

The decrease in the tonnage of boats, and weight and value of cargo, was due to less traffic in rice, jute and salt.

* Includes salaries of darogas, clerks, cashiers, kootnavises, koyals, toll peons, and dinghi crews.

The decrease in the expenditure is thus explained by the Superintending Engineer:—

"The principal saving is under the sub-head 'Salary of Supervisor.' The Supervisor is on furlough, and his *locum tenens* draws his pay as an Honorary Assistant Engineer with an allowance of Rs. 100 per mensem for doing the revenue collection. Only this latter allowance should have been charged against Revenue Establishment, the balance of Mr. Fox's

salary being charged to the maintenance grant of the canals. Had this been done, there would have been a large saving under the sub-head 'Salary of Supervisor.'

The increase under the other sub-heads is due to the additional allowance sanctioned for menials on account of high price of food."

MISCELLANEOUS RECEIPTS.

118. The miscellaneous receipts during the year amounted to Rs. 13,639 against Rs. 21,228 in 1895-96, showing a decrease of Rs. 7,589. This large falling off is due to the small number of wrecks which were removed from the canals during the year.

EXTENSIONS AND IMPROVEMENTS.

119. The expenditure under Extensions and Improvements was Rs. 49,059 against Rs. 13,239 in the previous year. The increase is due to silt clearance of the Assasuni khal and to cut No. 2 being carried out as test works to give employment to the villagers in the distressed areas of the Khulna district.

MAINTENANCE AND REPAIRS.

120. The statement below shows the distribution of the maintenance charges under the several sub-heads, as compared with the previous year:—

The maintenance charges show a decrease of Rs. 36,821.

On the Sundarbans steamer route Rs. 3,462 were expended in working the heave-up boat for removing snag, and also in an attempt to blow up the flat *Howrah* in the channel creek.

DREDGING AND SILT CLEARANCE.

121. The work done by the dredgers and the cost, including that of delivering the mud, are shown below:—

	Quantity dredged.	Cost.	Rate per 1,000 cubic feet.

Marchant's dredger ...	389,400	3,563	9 2 5
Hydraulic dredger *Clinker* ...	2,043,500	13,468	6 9 5

The actual rates of dredging, excluding the cost of delivering the mud, the cost of repairs, and the interest on original cost of dredging plant, were as follows:—

	Rs. A. P.	
Steam dredger *Victoria*	17 13 1	Per 1,000 cubic feet.
Fouracres' dredger	3 10 11	
Marchant's hand dredger	0 13 0	
Hydraulic dredger *Clinker*	2 5 3	

The dredger *Victoria* did practically no work during the year, being under repairs; the *Fouracres'* dredger worked for 236 days; the *Marchant's* dredger for 287 days; and the *Clinker* for 273 days.

122. The state of the plantations for the last two years is shown below:— PLANTATIONS.

The expenditure during the year was Rs 1,160, against Rs. 1,056 in 1895-96. There were no receipts.

123. The expenditure on the steamer route, and the receipts from steamers and flats using it, are shown below for each of the last ten years:— STEAMER ROUTE.

Total ...	55,285	30,345	27,045	57,390	(—)2,105	

There was a decrease of Rs. 730 in the receipts, but the expenditure was reduced by Rs. 341; the net revenue being Rs. 3,218, against Rs. 3,607 in the previous year.

The Superintending Engineer writes:—

"It is evident that the tolls realized on the flats and steamers running through the Sundarbans do not pay for the maintenance of this route, which is simply a succession of large tidal rivers, and which cost nothing to maintain, except at one place called the Angeria Creek connecting the Dansidhi river near Jhalukati with the Kochen river at Cowkhali. The tides meet in the centre of this creek, and for a distance of two to three miles the channel becomes shallow and narrow, so that it is very difficult for the large Assam steamers and flats to pass, and in fact they can only do so at high water. An alternative route cannot be found, so it is necessary every fourth year to incur a large expenditure in deepening and widening the creek.

The question of improving this portion of the steamer route has again been brought up by the steamer companies, and a report will shortly be submitted on it for the orders of Government."

ORISSA COAST CANAL.

124. The capital and revenue accounts of this canal are given below:—

The remodelling of escapes in Ranges IVA and V were completed at a total cost of Rs. 45,752. The opening of a new escape in the 106th mile and the closing of an old escape in the 108th mile were also completed. Dredging was continued in Range V, and 451,000 c. ft. of earth were removed at a cost of Rs. 4,427. The construction of the new bungalow at Erum was finished during the year.

Note.—The details by heads of expenditure for the year 1896-97 and seven preceding years will be found in the table given in paragraph 125 following.

The financial result of the year's operations was not very satisfactory. There was a decrease of Rs. 2,187 in the receipts, and the working expenses exceeded those of the previous year by Rs. 17,664.

The falling off in the receipts is attributed to the closure of the canal. The net revenue was Rs. (—)1,642. The large increase in the maintenance charges was entirely due to the heavy repairs which had to be done to the Bhaitghur lock.

125. The receipts on the Revenue account, and working expenses of the canal for the last ten years, are shown in the following statement :— FINANCIAL RESULTS.

Regarding the traffic on the canal the Superintending Engineer writes :—

"There was a falling off under all heads except in the number of boats. The gross traffic of the year was 205,695, against 206,797 tons of the previous year. The number of boats increased from 18,774 in 1895-96 to 20,016 during the year under review, but the tollage decreased from Rs. 85,773 in 1895-96 to Rs. 83,856 in 1896-97. It is difficult to explain the increase in the number of boats and the decrease of tollage; but it was probably owing to the fact that, on account of the great demand for rice in Calcutta, boats came up in numbers in the hope of getting a cargo, but had in many cases to return empty. Figures, taken at Jamkenda, show that, during the year, seventy-three boats went out to Panchpali for rice, but they had to return empty, as they could not get a cargo.

The receipts from the Calcutta Steam Navigation Company amounted to Rs. 11,337, against Rs. 13,894 in 1895-96. Out of the former amount a sum of Rs. 1,234 was remitted, being the difference between local and through rate of tolls in the Orissa Coast Canal, between Gewankhali and Nalkul, on such days as they used the canal when the Kalinagar and Bhaitghur locks were closed during the year. The India General Steam Navigation Company paid Rs. 8,298, and Messrs. McNeil & Co., Rs. 4,693, against Rs 10,290 and Rs. 3,591 of the previous year.

There was a great decrease in the number of passengers carried on the canal, viz., 38,548, against 59,603 of the previous year, which is attributable partly to the closure of the Bhaitghur lock, and partly to a more strict supervision by Government of the number of passengers carried in each steamer.

The steamers stopped running at night altogether for some time, as the number of passengers the rules allow for night trips is much less than for day trips.

On the Balliaghye drain the tolls realized during the year were Rs. 6,053, as compared with Rs 6,605 of the year before."

The amount of tolls, assessed from Kansbans and Surpai toll stations, shows a decided improvement. It has been suggested that it would be desirable to abolish the Kansbans toll station and open a new station at Chowmuk, as a check on the Surpai station : this matter is receiving the Superintending Engineer's attention. There was a heavy export trade in rice, and also a large increase in the export of timber.

TRAFFIC

126. The following table compares the traffic of the year with that of 1895-96 :—

Orissa Coast Canal.	Number of boats.*	Tonnage of boats.	Value of cargo, including rafts.	Tolls.
1	2	3	4	5
	No.	Tons.	Rs.	Rs.
1895-96 ...	18,774	206,797	40,02,498	85,773
1896-97	20,016	205,695	43,96,918	83,856

*Includes passenger and empty boats.

LENGTH OF CANAL.

127. The length of the canal from Bhaitghur to Charbattia remained the same as last year, *i.e.*, 102 miles, including 4½ miles of river-crossing.

The Bhaitghur lock was closed for repairs from the 8th November 1896 to 10th February 1897. The Balliaghye branch drain was also closed to traffic for silt clearance from the 23rd February, and the work was still in progress at the end of March.

RAINFALL.

128. The rainfall registered at Balasore was 72·10 inches, compared with 64·84 inches in 1895-96. The average of the previous five years was 67·24 inches.

FLOODS

129. The higest flood levels, recorded on the various rivers crossed by the Orissa Coast Canal, are recorded in the following table :—

Name of River.	Locality.	1895-96.		1896-97.		Highest on record.		Remarks.

There were high floods during the year in the Subarnarekha and Mutai rivers, which caused a certain amount of damage. The highest monsoon levels in the various ranges were as follows:—

SILT CLEARANCE.

About 400,000 c.ft. of silt were cleared from the canal side of the Bhaitghur lock at a cost of Rs. 2,329.

PLANTATIONS.

132. The state of the plantations for the last two years is shown in the following statement:—

The canals were opened for the rabi season on the basis of individual assessment, after it was seen that no one would come forward to pay the lump sum required for the opening of a sluice.

The only village channels, which exist on these canals, are those constructed by the proprietors of the Mouiarah Concern in the year 1889; besides these, several cuts have been made from time to time.

Most of the cuts are in very bad repair, as they have not been in use for some years.

There were several small earthen dams made along the Daha and on the Gangri, but, as water could not be passed down the Gangri, they were not of any use.

136. A new distributary from the Gangri was commenced in February and was being constructed by famine labour. The proposed length is six miles, and it has been designed to irrigate 2,800 acres. DISTRIBUTARY.

137. Three bunds were made during the year for the supply of water to the different canals; besides these, several were made at the mouth of the Roopan Chap Sota at Neenyapatti to increase the supply. At Sasamoosa at the end of the Daha feeder a bund was made to prevent the water from going down the Daha, as petitions had been sent in saying that there were springs in the Daha below that place, and the raiyats did not require water. This bund, however, was cut at night several times. BUNDS.

Several temporary bunds were also made along the Gangri and Dhanai, some without leave, including one at Tenthi by the Manager of the Arrowah Factory.

138. The average rainfall on the area under command is shown by seasons in the table below, for the last five years:— RAINFALL.

	1892-93.	1893-94.	1894-95.	1895-96.	1896-97.

Year	49·19	49·95	51·28	43·42	23·94

The rainfall was very deficient; there was very little rain in September, and none in October, the result being an almost total failure of the rice crop.

139. The discharge of the river Gandak taken on the 17th May 1897 was 15,900 cubic feet per second at Siswa, with a gauge reading of 232 33. RIVER DISCHARGE.

140. There was a large demand for water in September and October owing to the total failure of the rains during those months, but, as no one came forward to pay the sum required for opening any of the sluices, they were kept closed. If they had been opened, it is doubtful whether a sufficient quantity of IRRIGATION.

water could have been passed down to do any good, owing to the conditions which exist at the head of the feeders.

The Executive Engineer remarks:—

"A large area of rice cannot be irrigated from the Saran canals under existing conditions, as, in the first place, only a comparatively small quantity of water can be passed down in September and October, when it is most urgently wanted; and secondly, if a supply could be given, there are no distributaries or village channels, except those constructed by the Moniarah Factory from the Daha. In the other three channels the only way water is made to pass into the rice chours, is by bunding across the channels and forcing the water through the natural channels, which are the drainage channels of the chours. Each chour has thus to wait its turn of supply, and when those above have been satisfied, they object to the water being passed down, as the drainage of their chours is impeded, and their low lands flooded.

"The Saran canals are not of much use for indigo irrigation or manufacture. It is only in very bad years like the one under review, when there is a failure of the rains, that they are needed. They are very seldom of use for manufacture, as not only is there a prejudice against the use of Gandak water, but also it is very seldom that the rains set in so late that the tanks become dry, or so low that irrigation by means of large pumps at very great expense has to be resorted to. Water for *rabi* irrigation can only be supplied to lands in the immediate vicinity of the banks of the canals, as the lifts are in many places very great. Far more would have been irrigated this year if water could have been sent down the Gangri and the Gandaki."

The total area irrigated was 4,080 acres, of which 3,197 acres were *rabi*, and 883 were indigo. The Barhoga Factory was the only one in which irrigation on any large scale was effected; 632 acres were irrigated by means of 6 large centrifugal pumps. The manager commenced pumping in November, and continued till the rain in December assured him of sufficient moisture.

The following table gives the areas of the different crops irrigated from the Saran Canals during the year:—

Names of crops.	Acres.

141. There were no floods of any importance during the year. The highest reading of the gauge at Siswa was 238·00, which occurred on the 10th August 1896. FLOODS.

142. The assessments, remissions, and collections are shown below :— ASSESSMENTS AND COLLECTIONS.

Owing to the failure of supply in the Gangri and Gandaki during February and March for poppy irrigation, the Executive Engineer remitted eight annas of the rate. A sum of Rs. 120 was remitted on this account; all the khatianies were submitted to the Collector, by whom all the collections are to be made. Up to the end of March a sum of Rs. 30 was collected.

143. The expenditure on maintenance during the past five years is shown below :— MAINTENANCE AND REPAIRS.

GRAND TOTAL ...	...	13,502	6,492	4,661	1,368	7,034

The expenditure this year is very much in excess, as the canals were actually closed during the two previous years. The principal expenditure has been in clearing silt at the heads of the feeders, and keeping the mouth of the Roopanchap Sota open. Owing to the small quantity of water in the Sota, when orders arrived to open the canals, the dams across the Takraha Sota and Roopanchap Sota, which, in former years, cost a considerable sum of money, were constructed this year for Rs. 159 and Rs. 1,344.

144. All silt is cleared by hand. As dams had been made across the mouths of the feeders to keep silt out, there was not much silt in them. The largest silt clearance was made at Siswa between the dam across the feeder and the Sota, and in cutting a channel about three-fourth mile long at the mouth of the Roopanchap Sota near Nemyapatti to increase the supply. DREDGING AND SILT CLEARANCE.

The total amount of silt cleared was 470,446 cubic feet, costing Rs. 1,258.

Besides this, silt clearance was undertaken in the Gandak and Gangri by famine labour, as below:—

	Cubic feet.	Cost.

The financial results are again far from satisfactory. .

The Superintending Engineer writes—

"The net revenue derived from the Nadia rivers has again become a minus quantity, *viz.*, —37,344 as compared with—26,235 of the previous year, or a further decrease of Rs. 11,109, notwithstanding a marked reduction in the cost of maintenance.

The toll collections, during the past two years, have fallen from Rs. 1,20,105 to Rs. 93,474, and this is mainly due to the exceptionally dry state of the rivers as explained in previous paragraphs. Statement A appended to this report gives the collections at the various toll stations and also the annual net revenue derived from these rivers since 1863-64 up to date.

A reference to this statement shows that the loss of revenue is not confined to one toll station, but that it is general, and is entirely due to all these rivers being impossible of navigation at the same time due to low floods in the Ganges and also to unfavourable entrances. Another cause of the decrease in toll collections is the competition of the East Indian Railway, which gives more favourable rates for traffic during the flood months when the rivers can compete for the Ganges traffic, and that the railway has been successful in competing for this traffic, was shown in last year's Revenue Report, when the average monthly receipts in the flood months from 1863 to 1869 were Rs. 24,285, while for the years 1883 to 1889 the receipts for the same months only average Rs. 14,307.

Writing on this subject last year I ventured to hope that the history of the Bhagirathi would repeat itself, and that the present period of depression would soon be followed by a succession of years of increased revenue and diminished expenditure. A marked decrease in the cost of maintenance has been shown during the year under review, but there never will be an increase of toll collections, unless the relation of the Ganges to the heads of the Nadia rivers becomes such that one or other of the rivers can be kept open at moderate cost throughout the year.

The following extracts on the working of these rivers taken from the Public Works Proceedings, dated 28th July 1870, are now reproduced as being of interest at the present time, and it may as well be stated that the principles therein enunciated are still adhered to.

'It has long been recognized that the Nadia rivers cannot be made good navigable channels in the dry season, and it is not to be expected that more than one of them should be open during the whole season. It is unnecessary to enter upon and discuss the grounds of these opinions, which are the result of many years' experience and discussion. It will suffice to say that endeavours are directed to keep one of the rivers open all the year round, and the others open for as long a time as may be easily practicable. The degree to which the rivers are kept open depends upon several causes which are beyond control, such as the season up-country and in Bengal, the actual and relative times and quantities in which rain falls there and here, and so on.

'These circumstances affect the conditions of the floods and currents of the Ganges, the Nadia rivers and their tributaries, so much so that in some years the rivers are entirely closed. The degree to which these rivers can be kept open is thus dependent on the season, and the utmost that can be said with certainty is that one of the rivers may have a minimum depth of water in the dry season of 3 feet or less, but that none of them can be expected to be in good navigable condition all the year round for large laden boats or even for the majority of laden boats which trade on these rivers.

'In regard to the future working of these rivers it should be understood that it is primarily desired to keep the Bhagirathi open as the most important of the three rivers, and that its importance is considered to be so great that, when it may be impossible to keep it open, attention should be given to prevent its deteriorating and to facilitate its future re-opening.

The most favourable of the two other rivers, the Jalangi and Mathabhanga, should also be kept open as far as possible, and should the Bhagirathi be bad, or closed, special efforts must be made to keep one or other open. What really should be done can only be settled each year after examination of the rivers at the close of the floods."

RAINFALL FLOODS.

150. No rainfall register is kept up for these rivers.

151. The gauge readings at Gheria and Berhampore for the last ten years are given below:—

Year.	Berhampore.	Gheria.
1887	30′ 1½″	31·50
1888	30′ 2″	32·35
1889	30′ 4½	34·00

1894	30′ 3½″	32·75
1895	26′ 1½″	28·80
1896	25·33	28·50

The highest reading of the Berhampore gauge was 25·33, on the 27th August 1896. The flood was the lowest recorded during the last 11 years.

The highest flood levels of 1896-97 are compared below with the highest levels in the previous year, and with the highest levels on record. The readings given are the heights above mean sea level:—

TRAFFIC.

153. The following is a statement of the number of boats, their tonnage, the weight and value of their cargo, and the toll collection:—

* Tolls from boats, steamers and flats (exclusive of rafts).

The Superintending Engineer remarks:—

"The foregoing statement shows a falling off under all heads, more especially at Sarupganj and Jangipur, where the weight of cargo registered during the year was 88,341 tons and 42,598 tons, respectively, compared with 112,821 tons and 68,333 tons in the previous year. This vast decrease is entirely due to the deterioration of the Jalangi and Bhagirathi rivers in December last, thus diverting the through traffic from the Northern Bengal districts and Bihar to Goalundo, whence it was transhipped and railed to Calcutta."

STEAMER SERVICE.

154. No transport service is maintained by Government on these rivers. The steamer service kept by the several companies is shown in the statement below:—

REVENUE ESTABLISHMENT.

155. The cost of the revenue establishment for the last five years is shown below:—

There was an increase of Rs. 791 during the year, due mainly to the payment of exchange compensation allowance to the Toll Collector.

156. The charges for maintenance and repairs (exclusive of establishment and tools and plant) for the last three years, are detailed below: — MAINTENANCE AND REPAIRS.

Petty and other charges	4,178	2,386	352
Total ...	68,588	69,991	60,873

The total expenditure for maintenance of the Nadia rivers, inclusive of charges for establishment and tools and plant, but exclusive of indirect charges, was Rs. 1,22,289, as compared with Rs. 1,37,459 of the previous year, thus showing a decrease of Rs. 15,170, which was due to every possible endeavour having been made during the year to keep expenditure down to a minimum. A further reduction in the cost of training works would, in all probability, have been attained but for the sudden fall of the gauges, which necessitated the commencement of the bandels in deep water, and consequently, they had to be made stronger in order to resist the force of the current.

Of the total expenditure Rs. 1,22,289, Rs. 32,643 represent the amount of arrears for the previous year, so that Rs. 80,646 were actually spent on training works from 1st October 1896 to 31st March 1897, inclusive of all charges.

157. The miscellaneous receipts during the year amounted to Rs. 82 against Rs. 124 in the previous year. MISCELLANEOUS RECEIPTS.

158. No work was done under this head except at a few shoals, where sand was cleared by *kodalis* in order to keep up a running stream of good drinking-water for the towns and villages along the river banks. DREDGING AND SILT CLEARANCE.

159. The only plantations in connection with the Nadia rivers are those on the berms of the Bhagirathi embankment (Schedule D, No. 94). The number of trees is shown in the following statement: — PLANTATIONS.

EDEN CANAL.

160. This canal is not navigable. It lies partly in the Burdwan and partly in the Hooghly district, its supply of water being obtained from the Damodar. No Capital or Revenue account is maintained. The aggregate LENGTHS OF CANALS.

length of the excavated channels remained the same as last year. The lengths of the several channels are as follows:—

		Miles.
Joojooty sluice and channel.	Nos. 1 and 2 ...	2

	Total ...	27½

Besides the above, the natural channels of the Kana Nadi, Kana Damodar, Banka Nala, and North and South Saraswati are included in the system.

The gross area commanded by the Eden canal is about 300,000 acres, of which about 200,000 acres are culturable, and 100,000 acres irrigable.

REVENUE ACCOUNT.

161. The receipts and expenditure for the last two years are given below:—

EXPENDITURE.	1895-96.	1896-97.	RECEIPTS.	1895-96	1896-97.
1	2	3	4	5	6

The following original works were in progress during the year:—

Distributary No. 1, 7 miles 4,270 feet in length, takes off from the Eden Canal above Regulator No. 3 at Chanchai. It will feed the Dhusi Nadi. The estimated cost of this distributary is Rs. 44,466, against which an expenditure of Rs. 23,229 was incurred during the year exclusive of land charges.

Distributary No 2, the length of which is 9 miles and 4,055 feet, will feed the Ilsura Nadi. Its estimated cost is Rs. 49,759, and expenditure up to 31st March 1897 was 27,075. The upper portions of both these two nadis have considerably silted up, and fresh water will be supplied to them through these new distributaries, while, it is hoped, they will also be largely used for irrigation. The earthwork was well advanced before the year expired, and most of the masonry works had been commenced. The total expenditure on original works during the year was Rs. 51,616.

The cost of maintenance, exclusive of charges for establishment and Tools and Plant, was Rs. 27,748, as compared with Rs. 37,341 of the previous year. The decrease was due to there being no silt clearance from the Banka above the weir at Kanchanaghur, which alone cost Rs. 8,585 in 1895-96.

The cold-weather supply of the canal was kept up, as usual, by a sand dam across the Damodar at Joojooty, at a cost of Rs. 3,829 against Rs. 3,522 of the previous year.

The receipts from water-rates showed an increase of Rs. 6,012.

RAINFALL.

162. The rainfall registered at Edilpur in the Burdwan district was 47·95 inches as compared with 44·43 inches in 1895-96, the fall during the kharif season being 25 43 inches, or 3·71 less than that of the previous year.

163. Regarding crop experiments, the Superintending Engineer writes:— CROP EXPERIMENT.

"Some crop experiments were made during the year. The total number of these experiments was ten. The average outturn was that an acre of middle class land irrigated by canal water produced 29 mds. 26 seers of paddy and 37 mds. and 9 seers of straw, while an acre of similar land, which did not receive the benefit of canal water, produced 15 mds. 3 seers of paddy and 20 mds. and 15 seers of straw only."

164. The total area leased was 19,671 acres, as compared with 43,525 acres in 1895-96, the decrease being attributed to the non-renewal of several old five and four-year leases which expired in 1895-96 in the Hooghly district, owing to the want of proper means of irrigation. AREAS LEASED AND IRRIGATED.

The area irrigated during the year under review was 21,294 acres, consisting of 14,659 acres of *kharif* and 1,286 acres of *rabi* in the Burdwan district, and 4,385 acres of *kharif* and 964 acres of *rabi* in the Hooghly district, as compared with 36,221 acres of the previous year, viz., 19,156 acres of *kharif* and 1,719 acres of *rabi* in the former, and 15,180 acres of *kharif*, and 166 acres of *rabi*, in the latter district.

Out of 4,385 acres irrigated in the Hooghly district during the *kharif* season, 2,352 acres received one watering only, as they were situated beyond the area commanded by the canal. There was no surreptitious irrigation during the year.

The areas irrigated by the Eden Canal during the last five years are shown below:—

YEARS.	Long leases.	Annual leases.	One flushing beyond area commanded.	Unauthorized.	Total.	REMARKS.
1	2	3	4	5	6	7
	Acres.	Acres.		Acres.	Acres.	
1892-93 ...	47,848	6,534	...	16,951	71,333

1896-97 ...	16,580	2,362	2,352	...	21,294	

With the improved means of distributing the water, afforded by the new distributaries now under construction, it is anticipated that a much larger area will be irrigated in future.

165. The water-rates, assessed during the year, amounted to Rs. 31,452, as compared with Rs. 37,809 in 1895-96, and adding the unrealized balance, Rs. 33,883, of the four previous years, the gross demand for the year was Rs. 65,335 against Rs. 70,978 of the preceding year. Deducting Rs. 1,981 on account of commissions paid on advance payment, and remissions amounting to Rs. 1,274, the net assessment of the year was Rs. 62,080. DEMANDS, COLLECTIONS AND BALANCE.

The collections of the year amounted to Rs. 36,775. This sum includes Rs. 657 on account of interest which was realized by the Certificate officers and by the Subdivisional officers of Edilpore and Seijberiah, and Rs. 556 which was refunded to the lessees for excess payments made by them in 1895-96, the collection, therefore, was Rs 35,562. The balance unrealized at the close of the year was Rs. 26,518 against Rs. 33,883 in the previous year. Out of this sum Rs. 10,699 referred to in last year's Revenue Report will probably have to be written off as irrecoverable.

166. The cost of the revenue establishment during the year was Rs. 4,321 against Rs. 4,215 in the previous year. REVENUE ESTABLISHMENT.

167. The miscellaneous receipts amounted to Rs. 316 against Rs. 355 in 1895-96. MISCELLANEOUS RECEIPTS.

PLANTATIONS. 168. The expenditure on plantations was Rs. 72 against Rs. 76 in the previous year. Some mahogany seedlings died during the year, reducing the total number from 327 to 303.

FLOODS. 169. There were five floods in the Damodar river during the year, of which the highest occurred on the 22nd July, when the river rose to 16 feet. The effect of this flood on both sides of the river was disastrous, but no damage was done to the canal.

GAIGHATTA AND BUXI KHAL.

LENGTH OF CHANNEL. 170. The re-excavation of this khal was completed during the year 1895-96 at a cost of Rs. 29,325. The cost of maintaining it during the year under review, inclusive of establishment charges, was Rs. 659. The right of collecting tolls on the khal has been leased for five years, commencing from the year 1896 97, at an annual rental of Rs. 4,500. Rupees 3,800 were realised before 31st March 1897, and the balance, Rs. 700, has since been realized under head miscellaneous; a sum of Rs. 20 was realized during the year.

MADHUBAN CANAL.

EXPENDITURE 171. The expenditure incurred in maintaining this canal during the last five years is shown below:—

REVENUE No revenue is derived from irrigation on this canal, as water-rates are not levied.

The miscellaneous receipts were Rs. 100 against Rs. 121 in 1895-96.

IRRIGATION. 172. The total area irrigated was 11,251 acres, as compared with 2,254 acres in the previous year. There was great demand for water throughout the whole year, especially in the cold weather from September to March. The figures for the area irrigated are unreliable, as no measurements are made. The long proposed Lakhaura distributary from this canal was undertaken as a Famine Relief Work.

The areas of the different crops irrigated during the last five years were as follows:—

Nature of crop.	1892-93.	1893-94.	1894-95.	1895-96	1896-97.

Total { 1896-97 ...	25,71,725	19,60,669	+6,11,056

The total receipts exceed the figures of the revised budget estimates by Rs. 2,12,125, while the total direct expenditure was Rs. 1,22,720 less than that provided in the budget.

175. Reckoned on earnings, that is, on assessed revenue, as opposed to actual receipts, the net results of the Major Irrigation Works for the last two years were as follows:— EARNINGS.

	Earnings.	Working expenses.	Profit or loss.
	Rs.	Rs.	Rs.
1895-96	15,75,482	13,91,926	(+)1,83,556
1896-97	20,97,981	13,74,115	(+)7,23,866

The revenue from Minor Works and Navigation is derived mainly from tollage receipts.

ARREARS.

176. The work done during the year, in the recovery of water rates was, on the whole, excellent, and the reduction of the uncollected balance from Rs. 67,460 to Rs. 25,464 is very satisfactory.

The figures for the three canal systems are given below :—

All were punctual.

179. As far as irrigation is concerned, the year was one of a more favourable character than the two years preceding.

The year 1896-97, though fraught with scarcity and distress to the country generally, was an exceedingly favourable one for the canals in Bengal. The rainfall, though plentiful in Orissa and Midnapore, was very deficient in the Sone, and was badly distributed in all districts. Rain failed entirely at the critical periods when it was most required for the crops. The consequence was an extraordinary demand upon the canals for water, and an unprecedented extension of the area irrigated. It has occasionally happened that the vagaries of the rainfall have caused a large extension of irrigation either in the *kharif* or in the *rabi* season, but this year the increase occurred in both seasons. The increase is most remarkable in the Sone Canals, where the area watered was the largest on record, far exceeding that of 1891-92 which has hitherto stood forth as the record year. In Orissa, too, the area was very large as compared with previous years. It may well be imagined that such a year would be one of extreme pressure on the canal officers; in the Sone Circle the strain was incessant throughout the *kharif* and *rabi* seasons. The results are better than any which have been declared before, and though this is admittedly due largely to the character of the season itself, it is none the less true that such results could not have been obtained without hard work, patience, and cheerful co-operation among all members of the staff. The Superintending Engineer writes in the highest terms of the work done by the Executive Engineers, Messrs. T. Butler, C. H. Domello, and L. G. Searight. The Subdivisional Officers Messrs. O. S. Smith, W. S. Bremner, E. Blaber, C. W. Sibold, Babus J. N. Bose, S. S. Pal, T. C. Sircar, K. C. Bannerjee, R. L. Sircar, M. N. Sircar, also bore their full share of the work, and are deserving of praise. On the Midnapore canal the demand for irrigation in October was great, and the supply of water available was very limited. The Superintending Engineer reports that it was only by the personal energy of the Executive Engineer Mr. Barlow and his staff that so large an area was irrigated with such an inadequate supply. Good work was also done by the officers of the Orissa Canals where the rush for water in October was considerable.

Taking all the canals together, the cost of their maintenance showed a slight reduction; though the expenditure on the Sone and Orissa Canals had rather increased. The marked reduction in the cost of maintaining the Sone and Orissa Canals, observable last year, was referred to in terms of great satisfaction; but as it is clear that expenses cannot be brought down below the sum necessary for keeping the canals in a thoroughly efficient state, a continuous record of reduced expenditure cannot be looked for. For the last few years the progress in the collection of water-rates has steadily improved in the most satisfactory manner, and this year the results are exceptionally good. In the Sone Circle the transactions were very large, and not only was the uncollected balance the lowest, and the percentage of collections the highest on record, but the percentage was over 98, which leaves but little margin for further improvement. These very satisfactory results are most creditable to the Deputy Collector Maulvi Syed Mahomed Nasiruddin and his staff. The collection work in Orissa was good.

180. It is gratifying to have to record a further development of traffic on the canals classed as Major Works, the receipts from which showed a

considerable advance. The large export of rice to less favoured districts contributed chiefly to this result.

The Calcutta and Eastern Canals and the Orissa Coast Canal were not so successful, though the falling off is not serious. The state of affairs in the Nadia Rivers continues to be a source of disappointment. Last year hopes were entertained that a way out of the difficulty might be found, but a satisfactory solution of the problem seems as far off as ever. Low floods in the Ganges caused the closure of the route at an unusually early date, and the tollage receipts fell to a deplorable extent. The question of improving the route occupies, as it has continued to do for many years, the earnest attention of the officers concerned; but it is no easy matter to deal with, and it seems inadvisable at present to hold forth any prospects of early improvement.

181. The rules for the guidance of officers conducting experiments on the outturn of crops, which were referred to in the Revenue Report of last year as being drawn up, have been issued, but they were not brought fully into operation during the year.

A. D. McARTHUR, COL., R.E.,

Chief Engineer.

2,170 acres of potato and 80 acres of onion, value Rs. 32,500 and Rs. 2,000, respectively.

† Includes price of straw at Rs. 5 per acre.

‡ The area given under "sugarcane" represents the total area irrigated in all three seasons, that is, it is the area irrigated in the kharif, *plus* the area irrigated in the rabi, *plus* the area irrigated in the hot-weather season, so that if a particular field has been irrigated in all three seasons, it appears three times in the total. In calculating the value of this crop the rate has been taken at one-third of the full value of an acre of crop.

Foreign ports.

The exports of rice from Calcutta to foreign ports rose from 46,819 cwts. to 84,643 cwts. in the period under report. There were no exports to Muscat, which took 3,548 cwts. in the corresponding period of last year. The despatches to Ceylon showed an increase of 40,970 cwts., and those to Aden a decline of 4,822 cwts. The exports of gram and pulses and miscellaneous food-grains remained nearly the same as in the corresponding period of 1896.

Indian ports.

As regards Indian ports, the exports of rice during the 9 days under review amounted to 19,056 cwts., against 14,496 cwts. in the corresponding period of last year; Bombay took only 999 cwts., against 13,864 cwts. in the corresponding period of 1896, but the Madras ports took 16,885 cwts., against only 3 cwts. in the last 9 days of November 1896. The exports of paddy to Cochin, Calicut, and Tellicherry aggregated 4,091 cwts., against nil in the 9 days ending 30th November 1896. The decrease under gram and pulses amounted to 3,739 cwts., the chief fluctuations being a cessation of exports to Bombay, which took 10,245 cwts. in the corresponding period of last year, and an increase of 3,128 cwts. to Burma and 3,043 cwts. to the Madras ports

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

No. 3,409 Statistics.—The following memorandum and statements are published for general information.

STATISTICAL DEPT.,
The 14th December 1897.

M. FINUCANE,
Secy. to the Govt. of Bengal.

Memorandum.

THE comparative statements below give statistics of the import and export trade of the minor ports of Chittagong, Narayanganj, Balasore (including both Balasore and Chandbali), Cuttack, and Puri during the nine days ending 21st November 1897, as compared with the trade of the corresponding period of 1896 :—

The import trade of Chittagong, which amounted to 814 cwts., declined by 806 cwts., chiefly on account of smaller receipts of gram and pulses and other food-grains from Calcutta and Narayanganj, while the improvement in the export trade was due to the despatches of 743 cwts. and 1,311 cwts of rice to Colombo and Madras respectively. The export trade of the Balasore ports fell off by 2,200 cwts., chiefly on account of smaller despatches of rice and gram and pulses to Calcutta. False Point despatched 3,660, cwts. of rice to Madras, against nil cwts. during the corresponding period of the last year. Mauritius, which received 29,642 cwts. of rice from False Point during the nine days ending 30th November 1896, drew nothing in the period under review. Puri made no exports to Colombo, against 5,567 cwts. of rice exported during the corresponding period of 1896.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

General Summary.—There was slight rain in Darjeeling, but none elsewhere. The harvesting of winter rice is making rapid progress, and a good outturn is everywhere expected except in the flooded tracts of Chittagong. All cold-weather crops, including poppy, tobacco and sugarcane, are doing well. Locusts appeared in parts of Birbhum on the 4th, 5th and 6th instant. The price of rice continues to fall as new winter rice is coming into the market. There is plenty of fodder everywhere except in the Kurigram subdivision of Rangpur. Cattle-disease is prevalent in the Nilphamari subdivision of Rangpur, in the Sadar subdivision of Dacca, and in the Banka subdivision of Bhagalpur; in all other districts the cattle are reported to be in good condition.
